Gateway Education Center is where I call my second home! The staff is phenomenal! The bond they have with each and every student is amazing! As a mother who has a kid with special needs, I know how hard and challenging this life is! Gateway staff always stands beside me to help me to bring out every necessary need - studies, therapy sessions, love, affection, everything which my kid needs! Not only the children, they always stand for the parents, support them whenever they mostly in need! They know each and everyone personally! That always makes us happy! Down to earth this is where the real happiness is! ❤️
