

# Testimonial

***This is what Gateway means to me: Being able to wake up every morning with a purpose and a chance to make a difference. In our students lives Gateway allows me to be creative in order to allow my students to experience school activities in a way that typically developing kids would. Such as Prom, Black History Month and many more. Here at Gateway Education Center we are part of a village for our students. We are and always will strive to succeed nothing but the best for our students. I thank God for the strength that he gives me everyday to do above and beyond my duties.***
