Interviewing Ms. Paula

By: Joy Becker

Q: What do you do at the front desk?

A: I help with payroll for all of our staff. I arrange substitute teachers for the staff. I help in the clinic when Miss Sue is not available. There's so many different things that I do but those are the main things.

Q: What do you like about the school?

A: I love our students! We have the best students in the district and I love our staff! We all work together really well as a team and so that makes it a fun place to come to work everyday! Let's just say that we have the best school in the district!

Q: What don't you like about our school?

A: The office is too cold! 😊

Q: Before you worked at Coyote Ridge Elementary, what did you do?

A: I was an office manager at Legacy High School.

Q: What are your hobbies when you're not at work?

A: Camping, reading and spending time with my dogs.

Glow Dance Review

By: Ella Arrington

CRE had the annual Glow Dance on Friday, February 7th. The glow dance was so much fun and much more than you think! The glow dance had so many things like: food, face painting, tattoos, cookies, chips, water, and much more! If you didn't make it this year, be sure to join the fun next year, you will love it! I promise you will have a good time!

Interview with Mrs Kundrat... Q and A!

By: Ellie Brown

Q: Why did you start teaching?

A: I started teaching because I love working with kids, and I love helping kids accomplish something that they didn't know how to do before.

Q: And so why third grade?

A: Third grade is the PERFECT grade, because kids are more independent but, also, love learning from their teacher.

Q: Is this your dream job? If so, why?

A: Yes it is my dream job, but if i could have another dream job I would like to work on the show *Survivor* or *Amazing Race*

Q: Were you nervous on your first day this year? Why?

A: This year I was nervous, and I'll tell you why: this is the first year, in six years, that my daughter Kayla wasn't with me on my first day.

Q: Have you taught another grade? If so, why did you switch?

A: I have taught 5th grade, 6th grade, kindergarten, and 1st. Sometimes I switched grades because they needed a teacher in that grade, and other times, I switched because I wanted to try something new.

Student of the Month:

The February trait is curiosity. Congrats to all the students of the month. Click this [link](#) to see the winners!

In the News

The Results of the California Wildfires

By: Will Tyler

As of February 3, 2025, all the fires were fully contained. The Palisades fire broke out Tuesday, January 7, near Los Angeles. It burned more than 23,400 acres, including homes and businesses in Pacific Palisades and along the Pacific Coast Highway. It is now 100% contained. At least 29 people have died in the fires. Lots of families lost their homes, businesses and almost everything they cared about. Lots of charities are raising money to help Rebuild, Provide food and water and give families places to stay till their homes are rebuilt. These Fires have been very devastating and lots of Palisades are burned.

Super Bowl Recap

By: Harry Caswell

Jalen Hurts had 221 yards in the Super Bowl and AJ Brown had 43 yards in the Super Bowl.

Patrick Mahomes had 243 yards in the Super Bowl.

Travis Kelce had 39 yards in the Super Bowl.

And the EAGLES WON THE SUPER BOWL!!!!

Giant Oarfish

By: Tessa Liguori and Joy Becker

There was recently a giant oarfish sighting in Baja California Sur, along Mexico's Pacific Coast.

Oarfish can grow up to 30 feet long and eat plankton, crustaceans, and squid. Most live in waters about 3,280 feet deep, but are more commonly found 656 feet deep. An average oarfish weighs up to 600 pounds. They are nicknamed 'Doomsday Fish', as they are often seen before disaster strikes, such as when a total of twenty oarfish washed up on beaches in Japan leading up to the 2011 earthquake there.

Arctic Chill

By JR Salazar

The arctic chill was when many of storms hit the eastern and western parts of the USA. The storm had a lot of snow and ice. The midwest was hit the hardest, which is Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North

Dakota, Ohio, South Dakota, and Wisconsin. Planes were covered in snow. If you were in the cockpit you could barely see out of the window. The arctic chill will continue but should soon stop.

Just For Fun!

Why You Should Go to Oregon!

By: Leya Arnold

Oregon is soooooooo cool! If you haven't been, it's very cool. One reason it's awesome is because there are very big trees covered in moss and there are BANANA slugs! They are very cute and you can find them at the bottom of big trees. It rains a lot too. You can eat lots of seafood too like crabs, fish and more. You can find moose, birds, and deer. There are so many farmers markets too! You can go on hikes and lots more. So that's why you should go to Oregon. The end!!!!

African Dwarf Frogs

By: Eli Detsky

African dwarf frogs lay about 750 eggs (a clutch). African dwarf frogs' life span is around 2-5 years. They live in a tank. The average size of the tank they need is 5-10 gallons. They eat blood worms and krill. You can find tanks at Petco, PetSmart and Amazon.

Why You Should Get a Pet Fish!

By: Thomas Gebhart

People believe that the best and only pets are dogs and cats, but what people don't realize is that there is a better and more inexpensive way to go about getting a pet: fish.

Fish are one of, if not the most inexpensive pet out there, the price tags are often really low and even if you do get an expensive fish, the food is very cheap and compared to the upfront cost of dogs and cats, plus the food, it is a great way to save money.

They are also pretty low maintenance so you don't have to watch them and feed them a lot, unlike dogs and cats which are high maintenance and high price. Another plus is that they don't leave any trace around your house and it can't go anywhere so you don't have to worry about it running away.

According to "Getting a Pet Fish" the only things you have to do are clean the tank/bowl and feed it; and compared to other pets, that's nothing.

Lastly, if you are living in a place that is anti-pets or have parents that are anti-pets, a fish is your best bet. And since fish have "leave no trace" in their DNA they will not make a mess which is why most places will allow them.

All in all, fish make good pets and if you want to go down the cheaper, cleaner road, fish are your expressway.
