4. Course Selection (5:12-5:25)

Dr. Trevino presented course selection for all STISD schools. Course selection needs to be approved by EIC to be taken to the board so that students can begin course selection. Not all courses will be inserted in to master schedule, it depends on what students select.

Discussion (5:20) EIC was given a packet with all course selections. Below are questions from the EIC Members:

Q: Saire Moreno Gonzalez

What will be done about students from the middle schools that are maxing out on high school credits?

Dr. T: Principals are going over different options if they max out, multiple pathways will be available so that they can get ahead in college credit courses.

Q: Joshue Zamora

Are all proposed classes going to be added to the master schedule?

If enough kids sign up for the class. If there are more than 15 kids the class will be added to the master schedule.

5. Health Professions presentation on STC Interdisciplinary Program (5:25-5:40)

Presenters: Dr. Michele Guajardo and Ms. Amanda Cadena

Students at Health Professions can get an associates degree in multidisciplinary when
EIC Members was given

Q: Rene Lerma

What happens for students that will attend other universities when they graduate?

The credits are easily transferred.

Q: Janie Sanchez

Around what time would they be going to the university?

If traveling needs to occur, it will be during academic mentoring and be back by 4:15. But it might be a possibility that an STC professor can come and teach the students at Health Professions.

How much would this cost parents?

Tuition is free.

Q: Saire Moreno Gonzalez

What is the criteria to stay in the program?

The student must be TSI ready. Students will also be taken out of the program if they do not pass classes. If a student is not TSI ready by freshmen year they will work on passing the exam that 9th grade year.
