DIGITAL CITIZENSHIP

A digital citizen is a person who develops the skills and knowledge to effectively use the internet and other **digital** technology, especially in order to participate responsibly in social and civic activities.

Why It Matters

Being a good digital citizen is important because our online actions can have real-world consequences. As technology continues to evolve, understanding digital citizenship helps us contribute positively to the digital community and prepares us for future opportunities in an increasingly digital world. Practicing digital citizenship ensures we are respectful, informed, and responsible users of technology.

•Students are not allowed to use personal devices at school. All students must use a school issued device during the school to complete assignments. Visit the media center to check out a laptop if you do not have a school issued device.

***Remember to bring your charged laptop to school daily and keep up with your charger!**
Lost student chargers are not replaced until student pays $45 fine to the bookkeeper, Mrs. Z. Curry in the front office. If laptops are not brought to school daily, a few loaner laptops are available. Once all loaner laptops are checked out, students may use one of the 3 (three) desktops available in the media center with their teacher's permission.

*Always keep your laptop closed when you need to walk with your laptop and it's not in the carrying case.
•Never carry your laptop while open or lift the laptop by the screen/monitor! Handling your laptop in this manner can damage your screen.
•Do not place paper/objects between your keyboard and monitor, it will crack your screen!
•Keep drinks and liquids away from your computer. A spill can damage the hard drive and the motherboard. These type of damages may cost the same price as a new laptop to replace, Please be careful!
