Camp Road Middle School

Second annual Science and Math Night a success

Anita W. Huggins, M.Ed.

Superintendent of Schools

Luke Clamp, Ed.D.

Deputy Superintendent

Joseph Williams, Ph.D.

Associate Superintendent of
Middle Schools

Jaclyn Rowehl

Principal

Charleston, SC - A parent's vision of bringing all James Island community schools together for a night of science and math fun turned out to be a huge success in 2024. This sparked enormous interest and support to plan an even larger scale event this year.

On Thursday, February 27, 2025, all James Island schools came together again to participate in the second annual Math and Science Night hosted at Camp Road Middle School. The event was filled with science projects, a group math competition, and STEM-focused interactive booths.

Nearly 300 students from Camp Road, Harbor View Elementary School, Murray-LaSaine Montessori School, James Island Elementary School, and Stiles Point Elementary School presented their science fair projects, which were judged by twelve local community members. Thirty-four Camp Road students competed in the math tournament. James Island Charter High School students served as math competition referees, set up crew, and science fair assistants. The inaugural Camp Road Step Team provided the entertainment this year.

The Town of James Island provided a community grant to support the event.

About the Charleston County School District

Charleston County School District (CCSD) is a nationally accredited school district committed to providing equitable and quality educational opportunities for all its students. CCSD is the second-largest school system in South Carolina and represents a unique blend of urban, suburban, and rural schools spanning 1,300 square miles along the coast. CCSD serves approximately 50,000 students in 88 schools and specialized programs.

CCSD offers a diverse portfolio of educational options and specialized programs delivered to the students of CCSD through neighborhood, magnet, IB (international baccalaureate), Montessori, and charter schools and programs. Rich educational opportunities for students include programs in science, technology, engineering, and mathematics (STEM); music and other creative and performing arts; career and technical preparation programs; military; dual credit; and many more.
