

**SENIOR STUDY PRIVILEGE FORM**

**Student Name:** \_\_\_\_\_

All seniors have the opportunity to forecast for **one semester** of Senior Study Privilege as long as they are in good academic standing and are on track to graduate. During Senior Study Privilege, seniors are not required to be in the building and may choose to use this block as a free period or an opportunity to study. If students choose to remain in the building, they must study in the library, cafeteria, or student commons. This privilege may be forfeited if a student is in a non-designated area of the building, or if the student has attendance, academic, or conduct infractions.

In order to have a semester of Senior Study Privilege in their senior schedule, students **must** forecast for it during the spring forecasting period. Any student who does not forecast for a Senior Study Privilege during this time **forfeits the opportunity** to have one in their senior schedule. No Senior Study Privileges will be added to student schedules after the forecasting period is complete. No classes will be dropped in order to add Senior Study Privileges.

By signing this form, students and parents acknowledge they understand and agree to the above policies regarding Senior Study Privilege.
