Dear Parents and Guardians,

I am writing to inform you about an incident that occurred today at our middle school. This morning, we received a bomb threat directed at the school. We immediately implemented our emergency response protocols, which included notifying law enforcement and evacuating the building as a precautionary measure.

Upon receiving the threat, we worked closely with local police and Kansas State Troopers who conducted a thorough search of the premises. K-9 units trained in explosive detection were brought in to inspect the building and surrounding areas. After a comprehensive search, I am relieved to report that no explosive devices or suspicious items were found, and the threat was determined not to be credible.

It's important to note that several other schools in our region received similar threats today. Law enforcement agencies are currently investigating these incidents to determine their source.

The safety of our students and staff is our highest priority. All students remained safe throughout this incident, and we followed our emergency procedures exactly

as planned. I want to commend our students, staff, and local law enforcement for their calm and orderly response to today's events.

Classes will resume their normal schedule tomorrow. Our counseling staff will be available to speak with any students who may feel anxious or concerned about today's events.

We understand incidents like this can be distressing. Please take time to speak with your children about today's events and reassure them of their safety. If you have any questions or concerns, please don't hesitate to contact my office or your child's principal.

Anyone with information concerning this threat should notify school officials or law enforcement.

Thank you for your understanding and support as we work together to ensure our schools remain safe learning environments.

Dr. Craig A. Correll
Superintendent of Schools
