

Student Discipline

Introduction/Philosophy/Purpose

The board focuses on the educational achievement of every student. The district holds high expectations for all students and gives all students the opportunity to achieve personal and academic success. The board intends that this policy and procedure be implemented in a manner that supports a positive school climate, maximizes instructional time, and increases equitable educational opportunities.

The purposes of this policy and accompanying procedure include:

1. Engaging with school personnel, students, parents, families, and the community in decisions related to the development and implementation of discipline policies and procedures.
2. Supporting students in meeting behavioral expectations, including providing for early involvement of parents and families.
3. Administering discipline in ways that respond to the needs and strengths of students and keep students in the classroom to the maximum extent possible.
4. Providing educational services that students need to complete their education without disruption.
5. Facilitating collaboration between school personnel, students, parents, and families to support successful reentry into the classroom following a suspension or expulsion.
6. Ensuring fairness, equity, and due process in the administration of discipline.
7. Implementing culturally responsive discipline that provides every student the opportunity to achieve personal and academic success.
8. Providing a safe environment for all students and for district employees.

Rights and Responsibilities

The district will observe students' fundamental rights and will administer discipline in a manner that does not:

1. Unlawfully discriminate against a student on the basis of sex, race, creed, religion, color, national origin, sexual orientation, gender expression, gender identity, disability, or the use of a trained dog guide or service animal.
2. Deprive a student of the student's constitutional right to freedom of speech and press, the constitutional right to peaceably assemble and to petition the government and its representatives for a redress of grievances, the constitutional right to the free exercise of religion and to have the student's school free from sectarian control or influence, subject to reasonable limitations upon the time, place, and manner of exercising the right.
3. Deprive a student of the student's constitutional right to be secure in the student's person, papers, and effects against unreasonable searches and seizures.
4. Unlawfully interfere in a student's pursuit of an education while in the custody of the school district; or
5. Deprive a student of the student's right to an equal educational opportunity, in whole or in part, by a school district without due process of law.

This district's student discipline policy and procedure is designed to provide students with a safe, healthy, and educationally sound environment. Students are expected to be aware of and comply with this policy and procedure, including behavioral expectations that respect the rights, person, and property of others. Students are also expected to pursue the required courses of study. Students and staff are expected to work together to develop a positive climate for learning, consistent with board Policy 3112 – Social Emotional Climate.

Development and review

Accurate and complete reporting of all disciplinary actions, including the associated student-level information and behavioral violations, is essential for effective review of this policy; therefore, the district will ensure such reporting.

The district will collect data on disciplinary actions administered in each school, as required by RCW [28A.300.042](#), and any additional data required under other district policies and procedures.

School principals will confer with certificated building employees at least annually to review the district's discipline standards and review the fidelity of their implementation.

The district will periodically review and further develop this policy and procedure with the participation of school personnel, students, parents, families, and the community. As part of this development and review process, the district will use disaggregated data collected under RCW [28A.300.042](#) to monitor the impact of student discipline practices as well as to improve fairness and equity in the administration of student discipline. The district will ensure it reviews disaggregated discipline data in accordance with WAC 392-190-048 at least annually.

Distribution of policies and procedures

The district will make the current version of this policy and procedure available to families and the community. The district will annually provide this policy and procedure to all district personnel, students, parents, and families, which may require language assistance for students and parents with limited-English proficiency under Title VI of the Civil Rights Act of 1964.

The district will ensure district employees and contractors are knowledgeable of this student discipline policy and procedure.

Application

This policy and accompanying procedure will be construed in a manner consistent with Washington law as stated in WAC 392-400-020.
