PEIMS Fall Data Concern

PEIMS Fall Resubmission

- If you have not sent in a TIMs Ticket concerning your PEIMS Fall Data, Friday March 7 will be the last day to submit one
- Still analyzing the tickets received
- Two avenues for corrections
 - For the more significant issues, will recommend using working collection to correct data
 - For few errors with staff or students, TEA is working with program areas for recommendation
- Key is to gather all information and analyze to determine next step

Class Roster Winter

Class Roster Winter

- Due March 27.
- Known Issues on 001 002 Report.
- The grade levels of Kinder Pre-K and EE are displaying with 0, -1 and -2 on the reports.
- Numeric grade level 5, 6, 7, 8 are showing blank on the report and scheduled to be fixed 3/14.
- Promotion Duplicate error usually based on LEAs that have a 6 weeks course setup and have multiple sessions that are different but have the same session identifier and they have the same Begin Date and this is what is causing the issue resulting in a ORA error, but may still require a TIMs Ticket.

Class Roster Winter

- TIMs has noticed Lot of identical begin data as well as overlapping begin dates on student and staff section records

For example:

- Section begin date 02/18/25 – end date 04/08/25
- Another section begin date 02/24/25 – end date 04/14/25
- This must be fixed in the SIS, as it causes problems and prevents data from being promoted and causing validation errors.
- Also noticing begin dates after end dates.
- TEA will discuss with vendors to see what can be done to help.

A young girl with long, wavy brown hair is sitting at a desk, focused on drawing. She is holding a yellow pencil in her right hand and has her left hand resting on the desk. The desk is covered with various drawing supplies, including a box of markers and a pencil holder. The background is softly blurred, showing a home environment with shelves and plants.

ECDS Pre-K

- June 26 is the due date.
- Issues with promotion logic on PreK funding source, TEA is working on this issue.
