

# Jenkins Middle School

## Update

# Reminder: Current Reports Underway

---

Ensuring the **safety** of our students and staff remains our top priority.

We are committed to identifying **comprehensive and permanent solutions** for the Jenkins building.

Our partners **Jensen Hughes** and **CTL Thompson** are finalizing engineering and geotechnical reports to assess the building, foundation, and soil conditions, which are critical to completing their analysis to determine next steps for remediation.

While we are awaiting **full reports** from these partners for next steps, we have an update to share given the **preliminary** findings.

# Geotechnical Report

## Rising 6th Graders begin their Jaguar Journey at Jenkins Middle School

At minimum, rising 6th graders will begin their Jaguar journey at Jenkins Middle School, staying true to its traditions and the strong sense of community that makes it such a special place for students to learn and grow.

## Gym & Media Center Remediations

We anticipate construction to remediate the gym and media center concerns to begin in short order.

## 7th and 8th Grade Wing Options... Coming Soon!

More substantial work in the 7th and 8th grade wing will take longer to consider options and design and updates will be shared with the community promptly.

**Our goal is to maximize learning in the Jenkins building for as many students as possible while ensuring a safe and seamless experience for all.**

# Building Remedy: Timeline

JANUARY 2025

FEBRUARY 2025

MARCH 2025

## Phase I & II Assessment Report Jensen Hughes

- Expected Delivery: Jan. 31, 2025

## Geotechnical Assessment Report CTL Thompson

- Preliminary Data: Feb. 21
- Final Report: March 10

## Design Build RFP

- Opens: January 30
- Contract Awarded for general contracting and engineering within a week's time frame

## Design Assessments and Work

- Consider remediation options (*in progress*)
- Select remediation plan
- Design full details of scope, cost and foundation and structural assurances

*By Spring Break we will have options for next academic year based on engineering and geotechnical study findings.*
