DISTRICT PHILOSOPHY AND GOALS

BP 0010

CONCEPTS AND ROLES

The Enterprise Board of Education believes that the effectiveness of the educational program of the school district depends fundamentally upon an acceptable philosophical base and agreed-upon goals. Wide participation in the development and acceptance of philosophy and goals is essential.

In establishing, maintaining and modifying the District's philosophy and goals, the following guidelines are established:

- A. Develop a process which will enable the District to identify strengths and weaknesses, assess student progress and provide direction for correcting identified deficiencies in instructional methods, materials or programs.
- B. Maintain a process of constant evaluation of the effectiveness of the educational system and instructional programs.
- C. Allocate necessary resources commensurate with financial ability toward achieving the District philosophy and goals.
- D. Develop a long-term plan, focused on a few goals, in order to orchestrate the system toward change.
- E. Communicate the District's accomplishments and long-term plans to the community for public input.

The Governing Board desires to represent the community and provide leadership in addressing community issues related to education. In order to identify community concerns and enlist support for the schools, the Board shall establish effective two-way communication systems between schools and the community.

Schools, parents/guardians, community members and local organizations must continually collaborate as partners. The Board and the Superintendent shall work together with city and county agencies and organizations to promote and facilitate coordinated services for children and shall seek to develop partnerships with local businesses.

The Board recognizes that schools are an important community resource and encourages community members to make appropriate use of school facilities. Community members are also encouraged to attend Board meetings, participate in school activities, and take an active interest in issues that affect the schools. The Board and Superintendent shall keep community members well informed about District needs and accomplishments and shall ensure that they have opportunities to share views on educational policies and programs.

ENTERPRISE ELEMENTARY SCHOOL DISTRICT BOARD POLICY

DISTRICT PHILOSOPHY AND GOALS

BP 0010

CONCEPTS AND ROLES (continued)

The Board recognizes that a critical component of its ability to fulfill the community's expectations for a high-quality educational program is the level of support provided by the county, state, and federal government, as well as the community. The Board, therefore, shall work collaboratively to study legislative processes and issues, set priorities for advocacy and collaborate with other organizations and coalitions in legislative advocacy efforts.

PHILOSOPHY, GOALS, OBJECTIVES AND COMPREHENSIVE PLANS BP 0200

GOALS FOR THE SCHOOL DISTRICT

As part of the Governing Board's responsibility to set direction for the school district, the Board shall adopt long-term goals focused on the achievement of all district students. The district's goals shall be aligned with the district's vision, mission, philosophy, and priorities.

In developing goals and identifying strategies to achieve those goals, the Board and Superintendent shall solicit input and review from key stakeholders. The Board shall also review and consider quantitative and/or qualitative data, including data disaggregated by student subgroup and school site, to ensure that district goals are aligned with student needs.

Goals shall be established for all students and each numerically significant subgroup as defined in Education Code 52052, which may include ethnic subgroups, socioeconomically disadvantaged students, English learners, students with disabilities, foster youth, and homeless students and shall address each of the state priorities identified in Education Code 52060 and any additional local priorities established by the Board. These goals shall be incorporated into the district's local control and accountability plan (LCAP). (Education Code 52060-52077)

The LCAP shall include a clear description of each goal, one or more of the state or local priorities addressed by the goal, any student subgroup(s) or school site(s) to which the goal is applicable, and expected progress toward meeting the goal for the term of the LCAP and in each year.

Each year the district's update to the LCAP shall review progress toward the goals and describe any changes to the goals. (Education Code 52060-52061)

In addition to the goals identified in the LCAP, and consistent with those goals, the district and each school site may establish goals for inclusion in another district or school plan or for any other purpose. Such goals may address the improvement of governance, leadership, fiscal integrity, facilities, community involvement and collaboration, student wellness and other conditions of children, and/or any other areas of district or school operations. As appropriate, each goal shall include benchmarks or short-term objectives that can be used to determine progress toward meeting the goal.

NONDISCRIMINATION IN DISTRICT PROGRAMS AND ACTIVITIES

This policy shall apply to all acts related to a school activity or school attendance and to all acts of the Governing Board and the Superintendent in enacting policies and procedures that govern the district.

The Board is committed to providing equal opportunity for all individuals in district programs and activities. District programs, activities, and practices shall be free from unlawful discrimination, including discrimination against an individual or group based on race; color; ancestry; nationality; national origin; immigration status; ethnic group identification; ethnicity; age; religion; pregnancy, childbirth, termination of pregnancy, or lactation, including related medical conditions and recovery; parental, family, or marital status; reproductive health decision making; physical or mental disability; medical condition; sex; sex stereotypes; sex characteristics; sexual orientation; gender; gender identity; gender expression; veteran or military status; or genetic information; a perception of one or more of such characteristics; or association with a person or group with one or more of these actual or perceived characteristics.

All individuals shall be treated equitably in the receipt of district and school services. Personally identifiable information collected in the implementation of any district program, including, but not limited to, student and family information for the free and reduced-price lunch program, transportation, or any other educational program, shall be used only for the purposes of the program, except when the Superintendent or designee authorizes its use for another purpose in accordance with law. Resources and data collected by the district shall not be used, directly or by others, to compile a list, registry, or database of individuals based on any of the categories identified above.

District programs and activities shall be free of any discriminatory use, selection, or rejection of textbooks, instructional materials, library books, or similar educational resources.

The use of any textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library shall not be rejected or prohibited by the Board or district on the basis that it includes a study of the role and contributions of any individual or group consistent with the requirements of Education Code 51204.5 and 60040, unless such study would violate Education Code 51501 or 60044. (EC 243)

Additionally, the use of any textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library shall not be adopted by the Board or district if the use would subject a student to unlawful discrimination as specified in Education Code 220. (EC 244)

District programs and activities shall be free of any racially derogatory or discriminatory school or

The Superintendent or designee shall annually review district programs and activities to ensure the removal of any derogatory or discriminatory name, image, practice, or other barrier that may unlawfully prevent an individual or group in any of the protected categories stated above from accessing district programs and activities. The Superintendent or designee shall take prompt, reasonable actions to remove any identified barrier. The Superintendent or designee shall report the findings and recommendations to the Board after each review.

Except for allegations of sex discrimination or sex-based harassment, allegations of unlawful discrimination in district programs and activities shall be investigated and resolved in accordance with Board Policy and Administrative Regulation 1312.3 - Uniform Complaint Procedures, for students, and Administrative Regulation 4030 - Nondiscrimination in Employment, for employees. Complaints alleging sex discrimination, including sex-based harassment, shall be investigated and resolved in accordance with 34 CFR 106.44 and 106.45 and as specified in Administrative Regulation 5145.71 - Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures, for students, and Administrative Regulation 4119.12/4219.12/4319.12 - Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures, for employees.

Pursuant to 34 CFR 104.8 and 106.8, the Superintendent or designee shall notify students, parents/guardians, employees, employee organizations, applicants for admission and employment, and sources of referral for applicants about the district's policy on nondiscrimination and related complaint procedures. Such notification shall be included in the annual parental notification distributed pursuant to Education Code 48980 and, as applicable, in announcements, bulletins, catalogs, handbooks, application forms, or other materials distributed by the district. The notification shall also be posted on the district's website and social media and in district schools and offices, including staff lounges, student government meeting rooms, and other prominent locations as appropriate.

In addition, the annual parental notification shall inform parents/guardians of their children's right to a free public education regardless of immigration status or religious beliefs, including information on educational rights issued by the California Attorney General. Alternatively, such information may be provided through any other cost-effective means determined by the Superintendent or designee. (EC 234.7)

The district's nondiscrimination policy and related informational materials shall be published in a format that parents/guardians can understand. In addition, when 15 percent or more of a school's students speak a single primary language other than English, those materials shall be translated into

Access for Individuals with Disabilities

District programs and facilities, viewed in their entirety, shall be in compliance with the Americans with Disabilities Act (ADA) and any implementing standards and/or regulations. When structural changes to existing district facilities are needed to provide individuals with disabilities access to programs, services, activities, or facilities, the Superintendent or designee shall develop a transition plan that sets forth the steps for completing the changes.

The Superintendent or designee shall ensure that the district's web and mobile applications comply with technical standards prescribed by law, and as necessary, shall provide appropriate auxiliary aids and services to afford individuals with disabilities equal opportunity to participate in or enjoy the benefits of district services, programs, or activities. These aids and services may include, but are not limited to, qualified interpreters or readers, assistive listening devices, assistive technologies or other modifications to increase accessibility to district and school websites, note takers, written materials, taped text, and Braille or large-print materials. SCHOOL-BASED PROGRAM COORDINATION

In order to best serve students with special needs and students participating in designated educational programs, the Governing Board encourages school-based program coordination as a means for achieving flexibility in the use of the categorical funds received by each school. The Board believes that resources acquired to assist students in one program often can benefit other students without in any way depriving the originally targeted group.

A school site council shall be established at each school to consider whether or not it wishes the school to participate in school-based program coordination. All interested persons shall have an opportunity to meet in public to establish the site council. (Education Code 52852.5)

(cf. 0420 - School Plans/Site Councils)

(cf. 1220 - Citizen Advisory Committees)

The school site council of any participating school shall develop, for approval by the Board, a school plan that addresses the components specified in Education Code 52853. This plan shall be incorporated into the school's single plan for student achievement required for the state's consolidated application process. (Education Code 52853, 64001)

Evaluation of each participating school's educational program shall include an assessment of the school's effectiveness in meeting the needs of each student population originally targeted by the categorical programs.

CHARTER SCHOOLS

The Governing Board believes that charter schools provide one opportunity to implement school-level reform and to support innovations which improve student learning. These schools shall operate under the provisions of their charters, federal laws, specified state laws and general oversight of the Board.

As needed, the Superintendent or designee may work with charter school petitioners to establish workable plans for technical assistance or contracted services which the district may provide to the proposed charter school.

In determining whether to grant or deny a charter, the Board shall carefully review the proposed charter and any supplementary information, consider public and staff input, and determine whether the charter petition adequately addresses all the provisions required by law. The Board shall not deny a charter school petition unless specific written factual findings are made pursuant to law and administrative regulation.

The Board shall ensure that any charter granted by the Board contains adequate processes and measures for holding the school accountable for fulfilling the terms of its charter. These shall include, but not be limited to, fiscal accountability systems as well as multiple measures for evaluating the educational program. In accordance with law and the charter provisions, charters shall provide regular reports to the Board to assist the Board in its fulfilling oversight responsibility.

The district shall not require any student to attend a charter school and shall not require any district employee to work at a charter school. (Education Code 47605)

Petition Signatures

To be considered by the Governing Board, a charter school petition for the establishment of a charter school within the district must be signed by one of the following: (Education Code 47605)

1. A number of parents/guardians equivalent to at least one-half of the number of students that the charter school estimates will enroll in the charter school for its first year of operation.
2. A number of teachers equivalent to at least one-half of the number of teachers that the charter school estimates will be employed at the school during its first year of operation.

If the charter petition calls for an existing public school to be converted to a charter school, the petition must be signed by at least 50 percent of the permanent status teachers currently employed at the school. (Education Code 47605)

In circulating a petition, the petitioners shall include a prominent statement explaining that a signature means that the parent/guardian is meaningfully interested in having his/her child attend the charter school or, in the case of a teacher's signature, that the teacher is meaningfully interested in teaching at the charter school. The proposed charter shall be attached to the petition. (Education Code 47605)

Components of Charter Petition

A charter petition shall include affirmations of the conditions described in Education Code 47605(d) as well as descriptions of all of the following: (Education Code 47605, 47611.5)

1. The educational program of the school, designed, among other things, to identify those whom the school is attempting to educate, what it means to be an "educated person" in the 21st century and how learning best occurs. The goals identified in that program shall include the objective of enabling students to become self-motivated, competent, and lifelong learners.
2. The measurable student outcomes identified for use by the charter school. Student outcomes means the extent to which all students of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school's educational program.

16. The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the charter school to determine the disposition of all assets and liabilities of the school, including plans for disposing of any net assets and for the maintenance and transfer of student records.

Charter school petitioners shall provide information to the Board regarding the proposed operation and potential effects of the school, including but not limited to: (Education Code 47605)

A charter school may propose to operate at multiple sites within the district as long as each location is identified in the petition. (Education Code 47605, 47605.1)

A charter school that is unable to locate within the district's jurisdictional boundaries may establish one site outside district boundaries, but within the county, if: (Education Code 47605, 47605.1)

CHARTER SCHOOLS (continued)

2. The County Superintendent of Schools and Superintendent of Public Instruction are notified before the charter school begins operations.
3. The school has attempted to locate a single site or facility to house the entire program but such a facility or site is unavailable in the area in which the school chooses to locate, or the site is needed for temporary use during a construction or expansion project.

A charter school may establish a resource center, meeting space or other satellite facility located in an adjacent county if both of the following conditions are met: (Education Code 47605.1)

1. The facility is used exclusively for the educational support of students who are enrolled in nonclassroom-based independent study of the charter school.
2. The charter school provides its primary educational services in, and a majority of the students it serves are residents of, the county in which the school is authorized.

All charter schools shall be subject to these requirements by June 30, 2005, or upon the expiration of a charter that is in existence on January 1, 2003, whichever is later. Until this date, any charter school that provided educational services before July 1, 2002, shall be subject to these requirements only for new educational services or school sites it establishes or acquires. (Education Code 47605.1)

Charter Approval/Denial

Within 30 days of receiving a petition to establish a charter school, the Board shall hold a public hearing to determine the level of support for the petition by teachers, other employees of the district and parents/guardians. (Education Code 47605)

Within 60 days of receiving a petition, or within 90 days with the consent of the petitioners and the Board, the Board shall either grant or deny the request to establish a charter school. (Education Code 47605)

The Board shall grant the charter if doing so is consistent with sound educational practice. A charter shall be denied only if the Board presents written factual findings specific to the petition that one or more of the following conditions exist: (Education Code 47605)

1. The charter school attains its Academic Performance Index (API) growth target in the prior year or in two of the last three years, or in the aggregate for the prior three years.

3. The charter school ranks in deciles 4-10 on the API for a demographically comparable school in the prior year or in two of the last three years.
4. The Board determines that the academic performance of the charter school is at least equal to the academic performance of the public schools that the charter school students would otherwise have been required to attend, as well as the academic performance of district schools, taking into account the composition of the student population that is served at the charter school.
 - a. The Board's determination shall be based on documented, clear and convincing data; student achievement data from the Standardized Testing and Reporting Program, and any other available assessments, for demographically similar student populations in comparison schools; and information submitted by the charter school. The Board shall submit to the Superintendent of Public Instruction copies of supporting documentation and a written summary of the basis for its determination.

(Education Code 47607)

adopt and maintain a policy giving admission preference to students who reside within the school's former attendance area. (Education Code 47605)

However, if a charter school will be physically located in a public elementary school attendance area in which 50 percent or more of the student enrollment is eligible for free or reduced price meals, it may also establish an admissions preference for students who are currently enrolled in the public elementary school and for students who reside in the public school attendance area. (Education Code 47605.3)

- b. If the number of students who wish to attend the charter school exceeds the school's capacity, attendance shall be determined by a public random drawing, except that preferences shall be extended to students currently attending the charter school and students who reside in the district, except as provided for in Education Code 47614.5. In the event of a drawing, the Board shall make reasonable efforts to accommodate the growth of the charter school and shall not take any action to impede the charter school from expanding enrollment to meet student demand. (Education Code 47605)
 - c. Other admissions preferences permitted by the Board on an individual school basis as consistent with law.

COMPREHENSIVE LOCAL PLAN FOR SPECIAL EDUCATION

Definitions

Free appropriate public education (FAPE) means special education and related services that are provided at public expense, under public supervision and direction, and without charge; meet the standards of the California Department of Education, including the requirements of 34 CFR 300.1-300.818; include appropriate preschool, elementary school, or secondary school education for individuals between the ages of 3 and 21; and are provided in conformity with an individualized education program (IEP) that meets the requirements of 34 CFR 300.320-300.324. (34 CFR 300.17, 300.101, 300.104; Education Code 56040)

FAPE applies to students who are suspended or expelled or placed by the district in a nonpublic, nonsectarian school. (34 CFR 300.17, 300.101, 300.104)

Least restrictive environment means that, to the maximum extent appropriate, students with disabilities, including individuals in public or private institutions or other care facilities, be educated with individuals who are nondisabled, including the provision of nonacademic and extracurricular services and activities. Special classes, separate schooling, or other removal of students with disabilities from the regular educational environment occurs only if the nature or severity of the disability is such that education in the regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. (34 CFR 300.107, 300.114, 300.117; Education Code 56040.1)

Special education means specially designed instruction, provided at no cost to the parent/guardian, to meet the unique needs of individuals with disabilities including a full continuum of program options including instruction conducted in the classroom, in the home, in hospitals and institutions, and other settings, and instruction in physical education to meet the educational and service needs in the least restrictive environment. (Education Code 56300, 56031)

Special education may include each of the following if the services otherwise meet the definition in the above paragraph: (Education Code 56031)

1. Speech language pathology services, or any other designated instruction and service or related service, pursuant to Education Code 56363, if the service is considered special education rather than designated instruction and service or related service under state standards
2. Travel training
3. Career technical education

ADMINISTRATIVE REGULATION**

PHILOSOPHY, GOALS, OBJECTIVES AND COMPREHENSIVE PLANS AR 0430

COMPREHENSIVE LOCAL PLAN FOR SPECIAL EDUCATION (continued)

4. Transition services for students with disabilities in accordance with 34 CFR 300.43 if provided as specially designed instruction, or a related service, if required to assist a student with disabilities to benefit from special education

Specially designed instruction means adapting the content, methodology, or delivery of instruction to address the unique needs of the student that result from the student's disability and to ensure access of the student to the general curriculum, so that the student can meet the educational standards that apply to all students in the district. (34 CFR 300.39)

Surrogate parent means an individual assigned to act as a surrogate for the parent/guardian. The surrogate may represent an individual with disabilities in matters relating to identification, assessment, instructional planning and development, educational placement, reviewing and revising the IEP, and in other matters relating to the provision of FAPE to the individual with disability. (34 CFR 300.519; Education Code 56050)
(cf. 6159.4 - Appointment of Surrogate Parent for Special Education)

Elements of the Local Plan

The local plan developed by the special education local plan area (SELPA) shall include, but not be limited to, the following: (Education Code 56205, 56206)

1. Assurances that policies, procedures, and programs, consistent with state law, regulation, and policy, are in effect as specified in Education Code 56205(a)(1-22) and in conformity with 20 USC 1412(a), 20 USC 1413(a)(1), and 34 CFR 300.201
2. An annual budget plan and annual service plan adopted at a public hearing held by the SELPA
3. A description of programs for early childhood special education from birth through five years of age
4. A description of the method by which members of the public, including parents/guardians of individuals with disabilities who are receiving services under the plan, may address questions or concerns pursuant to Education Code 56205

7. A description of the process being utilized to refer students for special education instruction pursuant to Education Code 56303
8. A description of the process being utilized to oversee and evaluate placements in nonpublic, nonsectarian schools and the method for ensuring that all requirements of each student's IEP are being met
9. A description of how specialized equipment and services will be distributed within the local plan area in a manner that minimizes the necessity to serve students in isolated sites and maximizes the opportunities to serve students in the least restrictive environment

The local plan, annual budget plan, and annual service plan shall be written in language that is understandable to the general public. (Education Code 56205)

SCHOOL ACCOUNTABILITY REPORT CARD (SARC)

The Governing Board recognizes its responsibility to inform parents/guardians and the community about the conditions, needs, and progress at each district school and to provide data by which parents/guardians can make meaningful comparisons between schools. The process of gathering and analyzing data also provides opportunities for school and district staff to review achievements and identify areas of improvement.

The Board shall annually issue a school accountability report card (SARC) for each school site. (EC 35256)

In preparing the district's report cards, the Superintendent of designee may choose to use or adapt the model template provided by the California Department of Education. If the model template is not used, the Superintendent or designee shall ensure that data is reported in a manner that is consistent with the definitions for school conditions as provided in the template. At least every three years, the Board shall compare the content of the District's SARCs to the state's model template, recognizing that variances are allowed by law as necessary to meet local needs. (Education Code 33126.1, 35256)

The Board shall annually approve the SARCs for all District schools and shall evaluate the data contained in the SARCs as part of the Board's regular review of the effectiveness of the District's programs, personnel, and fiscal operations.

The Superintendent or designee shall develop strategies for communicating the information contained in the SARCs to all stakeholders, including opportunities for staff and the community to discuss their content.

Notification and Dissemination of SARCs

Annually, on or before February 1 of each year, the Superintendent or designee shall publicize the issuance of the SARCs, make the SARCs available on the district's website, and notify parents/guardians that a hard copy shall be provided upon request. (EC 33126, 35256, 35258)

Additionally, when 15 percent or more of a school's students speak a single primary language other than English, the SARC shall be translated into that language. (EC 48985)

In addition, the SARC shall be provided in an understandable and uniform format and, to the extent practicable, provided in a language that parents/guardians can understand. (EC 33126, 35256; 20 USC 6311)

PUBLIC INPUT

The Enterprise Board of Education represents the people who live in the Enterprise School District and wishes to be receptive to their input. Members of the public are invited and encouraged to attend board meetings.

Near the beginning of each open session, the President of the Board will allow any individual or group representative to address the board on any subject not covered by an item on the agenda.

A second formal opportunity to address the board will be provided at the end of each agenda under “Items from the Floor.”

Additional opportunities will be given for the public to comment on various agenda items as the items are being discussed.

The Board of Education may take testimony at any regular scheduled meeting on matters which are not on the agenda which any member of the public may wish to bring before the board. The board will not take action on any item which has not been placed on the agenda with the appropriate advance notice.

Any member of the public will have an opportunity to request that matters related directly to the Enterprise School District be placed on the agenda of the District’s Governing Board Meeting. Such requests may be made directly to the Superintendent or to the Board of Education at the time of their meetings. A determination will then be made when the item can appropriately be placed on an agenda for action and the individual informed of the date the matter is to be considered. Once the item is placed on the agenda for consideration, the matter will be handled in accordance with law, Board Policy and practice, and Robert’s Rules of Order.

In most instances, this information would be provided at the option of the individual addressing the board. VOLUNTEER ASSISTANCE

Citizens who have a desire to share their time and talent by assisting classroom teachers and school principals are encouraged to do so by volunteer services to schools. The volunteer program has as its purpose to assist teachers in bringing enrichment of learning opportunities to children in the district's schools, to give the teacher more time to develop instructional activities and to give individual pupils' specialized attention. The volunteer program must be flexible, recognizing that duties will vary from classroom to classroom and from school to school. Generally, most volunteers will assist the classroom teachers by helping students who need individual attention, preparing teaching materials, reading stories, correcting workbooks, making posters, preparing inventories, translating, typing, and performing a variety of clerical tasks.

A volunteer can be defined as an individual who works in the school with students on a regular basis more frequently than once per week.

Selection and use of volunteers will be limited in accordance with rules and regulations established by the superintendent in accordance with the following:

1. That such service be consistent with the approved program of studies.
2. That the health and safety of students be protected.
3. That any liability incurred by the district be covered adequately by the insurance program.
4. That there be occasional reports to the board regarding the scope and effectiveness of the volunteer program.
5. Volunteers are required to show proof that he/she is free of active Tuberculosis.
6. Volunteers may be required to have fingerprints submitted for a criminal background check. This includes drivers for field trips.

Note: The Education Code does not require that volunteers be fingerprinted, like certificated and classified employees. Districts wishing to institute a program to fingerprint volunteers should consult legal counsel as appropriate.

COMPLAINTS CONCERNING DISTRICT EMPLOYEES

The Governing Board recognizes its accountability to the public for the quality of the district's educational program and the performance of district employees. The district shall provide a process by which a complaint submitted by any person regarding an employee can be resolved impartially, expeditiously, and with minimal disruption to district operations and the educational program.

When a concern regarding an employee is presented during a Board meeting or to an individual Board member or employee outside of a Board meeting, the complainant shall be informed of the appropriate complaint procedure.

Any complaint regarding the Superintendent shall be initially filed in writing with the Board. The Board shall consult with legal counsel or appoint an appropriate agent to conduct the investigation.

The Superintendent or designee shall determine whether a complaint against any other employee should be considered a complaint against the district and/or an individual employee, and whether it should be resolved by the district's process for complaints concerning personnel and/or other district procedures. Any complaint of child abuse or neglect alleged against a district employee shall be reported to the appropriate local agencies in accordance with law and BP 5141.4 - Child Abuse Prevention and Reporting. Any complaint alleging that an employee engaged in unlawful discrimination (such as discriminatory harassment, intimidation, or bullying) in district programs and activities shall be filed in accordance with BP/AR 1312.3 - Uniform Complaint Procedures. Any complaint by an employee, job applicant, volunteer, intern, or independent contractor alleging unlawful discrimination or harassment by an employee shall be filed in accordance with AR 4030 - Nondiscrimination in Employment.

Any complaint subject to this policy and the accompanying administrative regulation shall be investigated by the principal, the employee's immediate supervisor, the Superintendent or designee, legal counsel, agent of the Board, and/or other appropriate person who is not the subject of the complaint or subordinate to the employee charged in the complaint. The complainant and the employee shall have an opportunity to present information relevant to the complaint.

A complaint that is filed anonymously may be investigated by the Superintendent or designee depending on the specificity and reliability of the information.

If a complainant requests confidentiality, the Superintendent or designee shall inform the complainant that the request may limit the district's ability to investigate the employee's conduct or take other necessary action. However, the Superintendent or designee shall take all reasonable steps to investigate and resolve the complaint without divulging the complainant's identity.

The Board prohibits retaliation against complainants.

Appeals

If either the complainant or the employee submits an appeal of the Superintendent's decision to the Board, the Board shall determine whether to uphold the Superintendent's decision without hearing the complaint, appoint an appeals committee to advise the Board, or hear the appeal itself.

COMPLAINTS CONCERNING INSTRUCTIONAL MATERIALS

The Governing Board takes great care in the adoption of instructional materials and uses a comprehensive process to adopt district instructional materials that is based on selection criteria established by law and Board Policy and includes opportunity for the involvement of parents/guardians and community members. (cf. 6161.1 - Selection and Evaluation of Instructional Materials [CSBA])

Complaints concerning the content or use of any instructional materials, including textbooks, supplementary textbooks, library materials, and other instructional materials and equipment, shall be properly and fairly considered using established complaint procedures.

Parents/guardians are encouraged to discuss any concerns regarding instructional materials with their child's teacher and/or the school principal. If the situation remains unresolved, a complaint may be filed using the process specified in the administrative regulation.

The district shall accept complaints concerning instructional materials only from staff, district residents, or the parents/guardians of children enrolled in the school district.

The Board believes the Superintendent and staff are well qualified to consider complaints concerning instructional materials. When deliberating upon challenged materials, the Superintendent and/or review committee shall consider the educational philosophy of the district, the professional opinions of teachers of the subject and of other competent authorities, reviews of the materials by reputable bodies, the teacher's stated objectives in using the materials, community standards, and the objections of the complainant.

Complainants are encouraged to consider and accept the Superintendent or designee's decision. However, if the complainant finds the decision of the Superintendent or designee unsatisfactory, he or she may appeal and request that the matter be placed on the agenda of a regular Board meeting.

The district's decision shall be based on educational suitability of the materials and the criteria established in Board policy and administrative regulation.

Complaints related to sufficiency of textbooks or instructional materials shall be resolved pursuant to the district's Williams uniform complaint procedures at AR 1312.4.

The Board recognizes that alternative dispute resolution (ADR) can, depending on the nature of the allegations, offer a process for resolving a complaint in a manner that is acceptable to all parties. An ADR process such as mediation may be offered to resolve complaints that involve more than one student and no adult. However, mediation shall not be offered or used to resolve any complaint where there is a reasonable risk that a party to the mediation would feel compelled to participate. The district shall protect all complainants from retaliation. In investigating complaints, the confidentiality of the parties involved shall be protected as required by law. For any complaint alleging retaliation or unlawful discrimination (such as discriminatory harassment, intimidation, or bullying), the Superintendent or designee shall keep the identity of the complainant, and/or the subject of the complaint if different from the complainant, confidential when appropriate and as long as the integrity of the complaint process is maintained.

When an allegation that is not subject to UCP is included in a UCP complaint, the district shall refer the non-UCP allegation to the appropriate staff or agency and shall investigate and, if appropriate, resolve the UCP-related allegation(s) through the district's UCP.

The Superintendent or designee shall provide training to district staff to ensure awareness and knowledge of current law and requirements related to UCP, including the steps and timelines specified in this policy and the accompanying administrative regulation.

Compliance Officers

The district designates the individual(s), position(s), or unit(s) identified below as responsible for receiving, coordinating, and investigating complaints and for complying with state and federal civil rights laws. The individual(s), position(s), or unit(s) also serve as the compliance officer(s) specified in AR 5145.3 - Nondiscrimination/Harassment responsible for handling complaints regarding unlawful discrimination, harassment, intimidation, or bullying and in AR 5145.7 – Sex Discrimination and Sex-Based Harassment for handling complaints regarding sex discrimination and sex-based harassment.

HR Director, 1155 Mistletoe Lane, Redding, California 96002, Phone :(530) 224-4100,
hr@eesd.net

The compliance officer who receives a complaint may assign another compliance officer to investigate and resolve the complaint. The compliance officer shall promptly notify the complainant and respondent if another compliance officer is assigned to the complaint.

In no instance shall a compliance officer be assigned to a complaint in which the compliance officer has a bias or conflict of interest that would prohibit the fair investigation or resolution of the complaint. Any complaint against a compliance officer or that raises a concern about the compliance officer's ability to investigate the complaint fairly and without bias shall be filed with the Superintendent or designee who shall determine how the complaint will be investigated.

The Superintendent or designee shall ensure that employees assigned to investigate and resolve complaints receive training and are knowledgeable about the laws and programs at issue in the complaints to which they are assigned. Training provided to such employees shall cover current state and federal laws and regulations governing the program; applicable processes for investigating and resolving complaints, including those alleging unlawful discrimination, harassment, intimidation, or bullying; applicable standards for reaching decisions on complaints; and appropriate corrective measures. Assigned employees may have access to legal counsel as determined by the Superintendent or designee.

The compliance officer or, if necessary, an appropriate administrator shall determine whether interim measures are necessary during an investigation and while the result is pending. If interim measures are determined to be necessary, the compliance officer or the administrator shall consult with the Superintendent, the Superintendent's designee, or, if appropriate, the site principal to implement one or more interim measures. The interim measures shall remain in place until the compliance officer determines that they are no longer necessary or until the district issues its final written decision, whichever occurs first.

If a site administrator not designated as a compliance officer receives a complaint, the site administrator shall notify the compliance officer.

All complaints, except for those that allege sex discrimination, including sex-based harassment, shall be filed in writing and signed by the complainant. If a complainant is unable to put a complaint in writing due to conditions such as a disability or illiteracy, district staff shall assist in the filing of the complaint. (5 CCR 4600)

Complaints shall also be filed in accordance with the following rules, as applicable:

1. A complaint alleging district violation of applicable state or federal law or regulations governing the programs specified in the accompanying Board Policy may be filed by any individual, public agency, or organization. (5 CCR 4600)
2. Any complaint alleging noncompliance with law regarding the prohibition against student fees, deposits, and charges or any requirement related to the LCAP may be filed anonymously if the complaint provides evidence, or information leading to evidence, to support an allegation of noncompliance.

A complaint about a violation of the prohibition against the charging of unlawful student fees may be filed with the principal of the school or with the Superintendent or designee.

5. A complaint alleging unlawful discrimination, harassment, intimidation, or bullying shall be initiated no later than six months from the date that the alleged unlawful discrimination occurred, or six months from the date that the complainant first obtained knowledge of the facts of the alleged unlawful discrimination (5 CCR 4630)

The time for filing may be extended for up to 90 days by the Superintendent or designee for good cause upon written request by the complainant setting forth the reasons for the extension. (5 CCR 4630)

6. When a complaint alleging unlawful discrimination, harassment, intimidation, or bullying is filed anonymously, the compliance officer shall pursue an investigation or other response as appropriate, depending on the specificity and reliability of the information provided and the seriousness of the allegation.
7. When a complainant of unlawful discrimination, harassment, intimidation, or bullying or the alleged victim, when not the complainant, requests confidentiality, the compliance officer shall inform the complainant or victim that the request may limit the district's ability to investigate the conduct or take other necessary action.

When honoring a request for confidentiality, the district shall nevertheless take all reasonable steps to investigate and resolve/respond to the complaint consistent with the request.

Mediation

Within three business days after receiving the complaint, the compliance officer may informally discuss with all the parties the possibility of using mediation to resolve the complaint. Mediation shall be offered to resolve complaints that involve more than one student and no adult. However, mediation shall not be offered or used to resolve any complaint where there is a reasonable risk that a party to the mediation would feel compelled to participate. If the parties agree to mediation, the compliance officer shall make all arrangements for this process.

Before initiating the mediation of a complaint alleging retaliation or unlawful discrimination, harassment, intimidation, or bullying, the compliance officer shall ensure that all parties agree to permit the mediator access to all relevant confidential information. The compliance officer shall also notify all parties of the right to end the informal process at any time.

If the mediation process does not resolve the problem within the parameters of law, the compliance officer shall proceed with an investigation of the complaint.

UNIFORM COMPLAINT PROCEDURES (continued)

The use of mediation shall not extend the district's timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time. If mediation is successful and the complaint is withdrawn, then the district shall take only the actions agreed upon through the mediation. If mediation is unsuccessful, the district shall then continue with subsequent steps specified in this administrative regulation.

Investigation of Complaint

The compliance officer shall begin an investigation into the complaint within 10 business days of receiving the complaint.

Within one business day of initiating the investigation, the compliance officer shall provide the complainant and/or the complainant's representative with the opportunity to present the information contained in the complaint to the compliance officer and shall notify the complainant and/or representative of the opportunity to present the compliance officer with any evidence, or information leading to evidence, to support the allegations in the complaint. Such evidence or information may be presented at any time during the investigation.

In conducting the investigation, the compliance officer shall collect all available documents and review all available records, notes, or statements related to the complaint, including any additional evidence or information received from the parties during the course of the investigation. The compliance officer shall individually interview all available witnesses with information pertinent to the complaint, and may visit any reasonably accessible location where the relevant actions are alleged to have taken place. At appropriate intervals, the compliance officer shall inform the parties of the status of the investigation.

To investigate a complaint alleging retaliation or unlawful discrimination, harassment, intimidation, or bullying, the compliance officer shall interview the alleged victim(s), any alleged offender(s), and other relevant witnesses privately, separately, and in a confidential manner. As necessary, additional staff or legal counsel may conduct or support the investigation.

A complainant's refusal to provide the district's investigator with documents or other evidence related to the allegations in the complaint, failure or refusal to cooperate in the investigation, or any other obstruction of the investigation may result in the dismissal of the complaint because of a lack of evidence to support the allegation. Refusal by the district to provide the investigator with access to records and/or information related to the allegations in the complaint, failure or refusal to cooperate in the investigation, or any other obstruction of the investigation may result in a finding based on evidence collected that a violation has occurred and in the imposition of a remedy in favor of the complainant. COMPLAINTS CONCERNING SCHOOL PERSONNEL

It is the policy of the Enterprise Elementary School District to develop and practice reasonable and effective means of resolving complaints or charges which may arise against a school officer or identifiable employee.

Parents and guardians of pupils enrolled in the District, District residents or persons conducting business with the District may present complaints regarding employees of the District. Employees will be given an opportunity to respond to the complaints. The Board recognizes the need for a clearly-defined avenue whereby complaints can be brought to the Board.

Date Adopted: January 10, 2001

**ENTERPRISE ELEMENTARY SCHOOL DISTRICT
ADMINISTRATIVE REGULATION**

COMMUNITY RELATIONS

AR 1313

COMPLAINTS CONCERNING SCHOOL PERSONNEL

The following shall apply to complaints presented against District employees by parents or guardians, District residents or persons conducting business with the District.

1. All complaints shall be in writing, signed by the complainant, and provide an address and telephone number where the complainant can be further contacted. Spoken concerns may be received and a contact initiated with the employee cited, but it shall not be a “complaint” until a written complaint is filed. Complaints shall be filed within ten (10) school days of the complainant’s determination that an employee has acted in such fashion as to warrant the filing of a complaint.

If a complainant is unable to put the complaint in writing, due to conditions such as illiteracy or other handicaps, the Enterprise Elementary School District shall assist the complainant in filing of the complaint.

2. Complaints shall be filed:
 - a. With the principal, if the complaint involves school site personnel other than the principal (if the employee is assigned to more than one site, the principal who has primary responsibility for overseeing the employee’s duties shall be the responsible administrator).
 - b. At the Superintendent’s office, if the complaint involves a principal or an employee not assigned to a school site, or
 - c. With the president of the Governing Board, if the complaint involves the Superintendent of the District (complaints filed against the Superintendent shall be reviewed by the entire Board before further action is taken).
3. The principal or Superintendent (or authorized Board representative if the Superintendent is the subject of the complaint) shall contact the complainant within two (2) school days and attempt to resolve the matter informally. The employee shall be notified regarding the nature and substance of the complaint.
4. If it appears that informal resolution is not appropriate, the principal or Superintendent (or authorized Board representative) shall meet, within two (2) school days following such determination, with the named employee to discuss the complaint and to give the employee the opportunity to respond, at the employee’s option, orally or in writing. If the employee or complainant requests, an attempt shall be made to have the complainant and the employee meet in the presence of the principal or Superintendent (or Board representative) to discuss and, if possible, resolve the complaint. Such meeting shall be held within five (5) school days of a request.

COMPLAINTS CONCERNING SCHOOL PERSONNEL (continued)

5. If, following a meeting (or an effort to hold a meeting) that includes the employee and the complainant, the matter is not resolved to the complainant's satisfaction, the complaint shall be brought to the Superintendent for final disposition, unless the Superintendent determines that the matter should be reviewed by the Governing Board. (Such Board review shall be conducted in closed session unless the employee gives written request that the review shall be conducted in open session.) Final disposition shall be within twenty (20) school days of the date on which the Superintendent received the matter. Any complaint against the Superintendent shall be disposed of by the Governing Board who shall conduct all proceedings concerning the complaint in closed session unless the Superintendent gives written request that the proceedings be conducted in open session.
6. Nothing in these regulations shall authorize a resolution of a complaint in a manner that conflicts with any applicable collective bargaining agreement, contract of employment or statute.
7. No document concerning this complaint procedure shall be placed in an employee's file without following the requirements of any applicable collective bargaining agreement and statute. Determination as to final disposition of all pertinent written documents shall be the responsibility of the Superintendent, subject to appeal to the Governing Board.

Calculating Direct Costs

Direct costs to be charged for community use of each, or each type of, school facility or grounds shall be calculated in accordance with 5 CCR 14038 and may reflect the community's proportionate share of the following costs: (EC 38134; 5 CCR 14038-14041)

SCHOOL BOARD -- EVALUATION

Public interest in the outcome of the educational process demands that the school board evaluate its own performance in line with its responsibilities as an effective policy making body.

In order to objectively evaluate its own performance, the school board will annually review its performance effectiveness in governing the school system. To determine whether the board can deal effectively with the demands of public education, the board members will assess their own response to pressures, practices, and processes. Candid, careful appraisal of the work of the board and of each of its individual members can do much to improve board effectiveness, and that systematic, timely appraisal can do much to foster flexibility, creativity and needed organizational change.

Appraisal procedures such as those developed by the Association of California School Administrators and the California School Boards Association can be used as resources for following the evaluation process.

A portion of a meeting will be set aside annually for such objective self-appraisal, assessment, and evaluation.

ORGANIZATION CHART -- LINES OF RESPONSIBILITY

The Superintendent shall develop an annual organization chart for Board approval by November of each year. The organization chart should clarify working relationships and functions. It is not intended to indicate all lines of communication and cooperation that must exist to create successful and effective schools.

The Superintendent or designee shall ensure that all personnel understand to whom they are responsible and for what functions. Lines of responsibility should in no way prevent staff members at all levels from cooperating to develop the best possible school programs and service.

The Superintendent shall organize the administrative staff in a manner that best enables the organizational staff to provide an effective program of instruction. The Superintendent or designee may adjust staff responsibilities to accommodate the workload and/or individual capabilities.

Concepts and Roles

The Governing Board recognizes that District administration performs essential roles and functions in support of learning, including the provision of instructional support and services to schools, as well as the responsible management of District resources and personnel.

The Board expects District administration to provide leadership in developing and implementing the District's vision for the educational program and in evaluating and reporting on the District's progress toward that vision. District administration is expected to help shape the culture and environment of the District in a manner that instills confidence in the District's schools, encourages positive relationships with the community, and focuses operations on enhancing achievement.

The Superintendent is the chief executive officer and educational leader of the District. He or she shall advise and assist the Board in the exercise of its governance responsibilities.

ADMINISTRATIVE LEEWAY IN ABSENCE OF BOARD POLICY

Through Board Policy the Board tries to anticipate critical policy issues that may affect District students and operations. However, the Board recognizes that questions may arise in the day-to-day operations of the schools that are not addressed in Board Policy or administrative regulations. When resolution of such issues demands timely action, the superintendent or designee shall have the authority to act on behalf of the District.

If the matter involves a policy decision that is likely to be controversial, or a matter that has a significant impact on student learning or safety, the superintendent or designee shall notify the Board President as soon as practicable after its occurrence. The Board President shall then inform the Board.

The Board President may schedule a review of the action at the next regular Board Meeting.

If the action indicates the need for additions or revisions in Board Policies, the Superintendent or designee shall make the necessary recommendations to the Board.

SUPERINTENDENT – EVALUATION

The Board of Education feels that it is important to periodically conduct formal and informal evaluations of the superintendent of schools. The reasons for such evaluation include:

1. Evaluation is an important responsibility of the Governing Board which delegates its authority to an executive. Therefore, the Board must constantly, both formally and informally, judge the work done by the superintendent.
2. Evaluation provides useful information for analyzing the effectiveness of programs, policies, and school personnel.
3. Evaluation results can aide in deciding if programs and personnel in the system are accountable in terms of money expended.
4. Evaluation results can assist boards in reviewing, revising, and updating existing policies.
5. Evaluation periods serve as time to give encouragement and commendation for work well done.
6. Evaluation offers an opportunity for the superintendent's self-evaluation on his own characteristics and performance.
7. Evaluation serves to replace opinion with fact.

At the time of the annual evaluation, the superintendent will meet with the Board, not only to assess performance for the previous year, but also to establish priorities and objectives for the coming school year.

SUPERINTENDENT – DELEGATION OF POWERS

The superintendent may delegate to subordinates any powers or duties which the Board of Education has entrusted to him. Such delegation does not relieve him of the primary responsibility for the proper performance of such duty.

The superintendent shall specify required actions and design the detailed arrangements under which the schools are to be operated.

Such required actions and detailed arrangements constitute the administrative regulations governing the schools. They must in every respect be consistent with the policies adopted by the Governing Board.

RESEARCH, EVALUATION, PLANNING

The Superintendent shall be responsible for the development of plans for research, evaluation and long-term planning. These plans will guide the governing board in policy development and the management in moving the organization through systematic continuous improvement efforts towards the mission. Long-term planning efforts of all departments and schools are to be aligned to the District priority planning goals.

For an organization to continually improve, it must be rational and systematic in its approach. All functions of the organization need to focus on the District mission and work in an integrated way for the achievement of all the students.

The major purpose of district long-range planning is to guide the District in the improvement of student performance for all student groups. A critical feature of long-range planning is the improvement of system services and programs that support the District mission. Such planning needs to be comprehensive in scope and integrated in function.

It is the policy of the governing board that proper planning and policy development be an important part of District level administration.

RESEARCH, EVALUATION, PLANNING

The District will engage in long-range planning to guide the District in the ongoing improvement of student performance for all student groups. The planning will focus on efforts to improve all system functions in supporting the District mission.

Meaningful long-range planning is a precise determination of the District's aims and ideas, and the integrated means by which it will reach them. The planning is to be characterized by the following attributes:

- A sense of mission permeates the organization and all individuals understand their role with respect to the system mission, division/department/school mission, and their personal mission.
- Change is accepted as a permanent condition, with recognition that failure to deal with change will stultify and diminish the capability of the school organization.
- A continuous study of benchmarking processes is routinely conducted to identify gaps in current and desired functioning level.
- Key issues/goals/objectives are identified and prioritized from the benchmarking and gap analysis; people, jobs and technology are used in an integrated way to achieve the goals of the organization in a focused and connected way.
- A shared vision is widely held with common understanding of where the system is going and for what reasons.
- Formative assessment processes are used to review progress and adjust plans or redeploy resources as needed.
- Demands are made upon the organization to affirm its purposes, assess its strengths and weaknesses and take action in accordance with its internal and external environment in order to improve over time.

Management by planning is a process of continuously defining the direction of a district and aligning the work accordingly. District-wide planning will be focused on a few goals in order to orchestrate the system toward change. All division, department and school plans will be aligned with the District's priority goals.

The plan is to be data-driven using a critical analysis of the current and desired status of the District. The District staff is to use benchmarking processes to search for new methods, practices and processes for carrying out the work of the District.

RESEARCH, EVALUATION, PLANNING (continued)

Planning Process

The District will design a three-year plan that will include year one objectives and strategies to achieve desired objectives. The plan is to be reviewed and updated annually. Objectives and strategies will be supported by integrated, strategic action plans. Annually, the achievement of the plan's goals will be evaluated and such evaluation reported to the Board and District constituents.

A feasible number of objectives will be established for the District. It is recognized that significant objectives and strategies will take several years to achieve. The District long-range plan serves to focus an alignment of all District, school, and department priorities regardless of funding source.

The establishment of priority goals will precede the budget planning process and will be incorporated into such planning to ensure that the necessary resources are available to carry out the strategic actions.

By August of each year the annual District objectives shall be determined. The Superintendent shall publish these for school/Implementation Plan alignment by October of each year for the subsequent year.

By November of each school year, the principal, with the assistance of the staff and School Site Council shall develop, review and revise the School Improvement Plan for the purpose of improving student performance for all student populations in alignment with the annual District goal priorities. Each division and/or department administrator will align its improvement plans to the annual District priority goals.

By February of each school year the Superintendent will present a mid-year State of the District report to the Board of Education.

A year-end State of the District report will be made at the late June meeting of the Board on an annual basis.

The administration will:

- Advise the Superintendent and Cabinet regarding planning endeavors.
- Revisit the District vision as needed.
- Recommend proposed three-year and annual systematic objectives.
- Suggest possible strategies to management for implementing the objectives and ways to assess achievement of the goals.

ENTERPRISE ELEMENTARY SCHOOL DISTRICT ADMINISTRATIVE REGULATION

AR 2240

RESEARCH, EVALUATION, PLANNING (continued)

The three-year plan will be studied by the Cabinet. Objectives will be revised, if needed, and submitted to the Board for its input. The Cabinet will then approve the District-wide plan.

Note: The Governing Board does not approve the objectives since they are District-wide management objectives in the areas of student achievement and management functions. The Board may choose to develop its own goals to support the management objectives, if desired.

The Board will be involved throughout the planning process and invited to be participants in the endeavors.

Once established, objectives will be assigned to the appropriate administrators. School Site Councils will design school plans and assist in implementation. The site council will meet monthly to ensure the plans and strategies are integrated.

COMPONENTS OF THE DISTRICT'S LONG-RANGE PLANNING

Nine components will be included in the systematic planning document. These components are presented below under four categories: creating purpose, setting direction, deploying direction and managing direction. Although these components are present in a linear fashion, they take place in an integrated and cyclical manner.

1. Vision: The planning document will clarify and communicate District beliefs. These beliefs are the formal expression of the organization's fundamental values: its ethical code its overriding convictions, its inviolate moral commitments. These beliefs are to provide a framework and an organizational shared culture by which all actions are examined.
2. Mission: The District's mission is a general purpose statement of the school organization. The mission is the foundation upon which all educational programs and services are to be built. It describes the reason this District exists. The focus is on a consolidated District mission linking group and individual missions to the District mission.
3. Needs Assessment: Prior to setting goals, there is to be a collection and analysis of vital data about all facets of the internal and external environments of the District. This information defines the current status of the District and describes its future by combining forecasting results with status-check results. A prediction of the events and conditions that are likely to influence the performance of a school organization, division, or key individuals is an essential component of planning.
4. Identification of Objectives, Prioritization, and Categorization: Three-year goals are to be developed from the critical analysis, benchmarking and vision. The District needs to have a few significant goals that are feasible to focus the organization toward change.

AR 2240

RESEARCH, EVALUATION, PLANNING (continued)

5. Strategies: From the objectives, strategies are to be derived that are measurable and that have time limitations. The strategies describe the activities a school organization plans to conduct. It will be important that these strategies are feasible within the resources of the organization. Timelines will be developed to list desired achievements of objectives.
6. Evaluation: For each objective, statements of conditions are to be designed that will show evidence that an objective is satisfactorily achieved. Procedures also need to be developed for carrying out the evaluation. Each objective should be evaluated and the evaluation procedures should be developed at the time the objective is written. Formative evaluation procedures also need to be put in place before work on the objective begins. This evaluative data will be used to improve the strategies being undertaken to reach the objective.
7. Integration of Functional Action Plans: Planning needs to be cross-functional and integrated. As each objective and its corresponding strategies and strategic action plan are designed, the leaders of each of the action plans are to work together to integrate the plans. Each action plan must be understood by each of the administrators of the plans and agreed to by all administrators. The resources are not to be competed over, but all agree as to how and when resources are going to be used to bring about the entire set of planning objectives.
8. Planning and Budgeting Timeline: It is essential that the action plans be in place and integrated prior to the budgeting process. This will allow the planning priorities to be incorporated into budget planning. Because planning objectives are a critical aspect of the organization's budget for the next year, planning will be scheduled so that the results can be fed directly into budget considerations for the coming year or more. As the process is refined, the relationship between planning and budgeting will become more obvious and more automatic. The planning objectives need to be developed over several years, as does the budget, to ensure continuity of funding to support the plans. It is proposed that planning before a three-year time frame and that these objectives be annually updated or evolved no later than August for the next fiscal year. System-wide annual goals and objectives for the next fiscal year would need to be in place by October with all units/schools/departments having their goals in place by November. These goals would then be built into the budgeting process beginning in December. The District would need to be using a program-driven budgeting approach that has incremental prioritization and competition of all programs and new planning objectives with one another. This would allow for multi-year budgeting plans, along with the budget to be in place by March prior to the next fiscal year. Revenues, when known, would then determine the level of funding based on the incremental prioritization of programs.

RESEARCH, EVALUATION, PLANNING (continued)

9. Implementation and Modifying: Once the action plans are designed and resources have been made available, the action plans begin. Formative evaluation activities need to be undertaken and modifications made in the plans as needed. Approaches for alternative actions need to be in place.

BUDGET DEVELOPMENT

The Board of Trustees realizes that the budget is the major financial planning document for expressing the district goals and priorities in dollars and resource allocations. System wide productivity is enhanced by budgetary decisions that ensure adequate resources to those program efforts that are aligned with district goals and priorities. As such, it should reflect a direct connection between the resources provided and the criticality of the goals toward which those resources are directed. A process should be in place to force linkages of resource allocations to needs assessments and identified goals and priorities.

The superintendent shall be responsible for establishing processes that maximize the focus of limited human and financial resources on targeted priorities to support student achievement. These processes need to have participation from staff and administrators to systematically support student learning through program evaluation. Timelines shall be established to permit results of short and long range planning efforts to be input into the budget process to allow financial planning to take place for the subsequent and multi year budgets.

The district will work toward developing program driven budgeting approaches that involve incremental prioritization of all programs and new planning objectives. The goals and objectives established through the short and long range planning processes will have financial “links” attached which will reflect a ranking and prioritization established through the funding process. In this way, as additional funding becomes available to the district, the uses for these funds will have already been identified and prioritized.

A budget development calendar shall be developed which details the process and input points for these program links, uses of various committees, information presented to the Board, specific deadlines for the district, county, and state, and other relevant information. Emphasis will be placed on the importance of two-way sharing of information throughout the budget development process. The Board believes that this process is vital, not only for the value of the information shared but for the development and enhancement of trust throughout the district.

BUDGET DEVELOPMENT

The purpose of this administrative regulation is to describe the process and procedures for implementing Board Policy #2260 on Budget Development. Essentially, this will describe the process of putting together a viable operating budget for district operations while integrating the goals and objectives developed during the strategic planning process. This integration process is critical in implementing a budget that truly reflects the proactive priorities of the Board. While this AR will not spell out every detail, it will provide the framework from which the detailed action plan will be developed. It describes department responsibilities, approximate time frames, interface points, communication methods, integration methods for the program links, reviews, etc. Throughout the budget development process, the following will be major considerations:

1. Tangible, demonstrable connections will be evident between assessment of curriculum effectiveness and allocations of resources.
2. Program components will be prioritized to permit flexibility in budget expansion, reduction, or stabilization based on changing needs and priorities.
3. Each budget request shall be evaluated on the consequences of funding or non-funding in terms of performance or results.
4. Cost benefits of components in curriculum programming will be delineated in budget decision-making.
5. Budget requests will compete for funding based upon evaluation of criticality of need and relationship to achievement of curriculum effectiveness.
6. Priorities in the budget will be set by participation of key educational staff in the decision making process. Staff suggestions and ideas for budget priorities will be welcome during the budget development process.

Budget Calendar

A budget calendar will be developed by Business Services each year, 12 months prior to the beginning of the fiscal year. It will be presented to the Board in August of the year proceeding the actual budget year. This calendar will cover a 24 month period ending June 30 of the budget year. It will include:

- A. Meetings of the Budget/Finance Advisory Committee (BFAC)
- B. Reports to the Board including final budget, interim reports, enrollment, etc.
- C. Communication points.
- D. State and County deadlines
- E. Interfaces with planning goals and objectives
- F. Reviews of State preliminary budget.
- G. Other as necessary

This calendar will be a dynamic document subject to change in response to demands.

BUDGET DEVELOPMENT (continued)

Budget/Finance Advisory Committee

Often the district budget is viewed as an alien creature, avoided or misunderstood by those outside the business office. A budget/finance committee provides the opportunity to effectively communicate the budget process to representatives of the educational community: parents, board members, teachers, administrators, support staff, and other community members.

This committee is an ideal vehicle to provide information about the financial condition and funding decisions of the district. By developing the knowledge base of the members, meaningful participation in the total budget/finance process can be achieved. This committee will be advisory in nature and will function primarily as a communication vehicle to receive input from district staff, parents, and community members and as a vehicle for distributing information to these groups. The Superintendent and Chief Business Official (CBO) will determine specific membership and size. Meetings shall be regularly scheduled in the Budget Calendar.

Interface Points

It is essential that the action plans from the planning process be in place and integrated prior to the budgeting process. This will allow the planning priorities to be incorporated into budget planning. Such action plans, or objectives, will be annually updated or evolved no later than August for the next fiscal year. October will see the system-wide goals and objectives in place and by November all units/schools/departments goals will be in place. These goals will then be built into the budgeting process beginning in December.

This timeline will allow for multi-year budgeting plans, along with the budget to be in place by March prior to the next fiscal year. Revenue, when known, would then determine the level of funding based on the incremental prioritization of programs. Interface points will occur during the early spring of the planning year as the budget is being developed. These will be scheduled in the budget calendar.

Administrative Responsibilities

While Business Services will have primary responsibility for developing the District Annual Budget, each administrator or program manager will be responsible for the budgetary requirements of their own area of responsibility. Business Services will develop appropriate forms for gathering information in a goal/objective/priority type of format. These forms will be the basis for this program-driven budgeting approach.

BUDGET DEVELOPMENT (continued)

Business Services, in conjunction with the Superintendent's office, will also be responsible for developing comprehensive instructions generating budget input. This process will be phased in over an initial two year process and be fully implemented by the third budget year.

The Process

The following process was recommended in the Curriculum Management Audit and will serve as a general outline and guide to start this new process. Simplified procedures will evolve through time.

- A. Identify various educational activities or programs and group them into broad areas of need or purpose served. Divide the organization into the most logical subgroups possible, based on existing operating structure.
- B. Build incremental budget "packages" within each of the groupings in terms of the priority with which they deliver the objectives of the area of need or purpose.
- C. Direct the budget managers to prepare concise and meaningful budget packages for their areas with each package representing a level of activity that stands alone, but builds sequentially on the previous year's package at the indicated levels above or below current funding.
- D. Define a tentative program structure, after grouping and compilation of budget packages.
- E. Attach a goal statement to each program area or package group which state the purpose it serves.
- F. Compile goal statements and budget packages and give to staff to gather data to describe service levels, program outputs, and cost benefits.
- G. Define organizational performance data, appropriate involvement of staff, current and desired service, and program objectives.
- H. Prepare guidelines and recommendations and give to those who will develop the program budgets.
- I. Compile budget packages, including costs, into a worksheet with instructions for evaluating and ranking.
- J. Compile past cost information, especially expenditure percentages of the budget with performance data and recommendations to guide preliminary budget-building estimates.
- K. Have the appropriate administrative personnel evaluate and rank budget program packages. Then compile results and publish in a tentative budget program package. List packages in the order of ranking priority.

BUDGET DEVELOPMENT (continued)

- L. Finalize budget allocations based on revenues available, the appropriate levels to be authorized, and the program funding priorities and rankings by the superintendent for recommendation to the Board.
- M. Review recommendations, evaluate priorities, establish final programs and services to be funded and at what level to be approved by the Board.
- N. After board adoption, set the budget into place.
- O. Use the prioritized listing for determining allocations of any future revenues from grants or other external sources.

**SITE ADMINISTRATION – TEACHING VICE-PRINCIPAL IN CHARGE IN THE
PRINCIPAL’S ABSENCE**

The Enterprise Board of Education recognizes the importance of having a person readily available to perform administrative functions at the school site. Normally the principal carries out this function as delegated by the Superintendent. It is the intention of this policy to provide for an orderly process of administrative detail in the absence of the on-site administrator. It is further the intent of this policy to provide direction and protection for individuals assuming these responsibilities. The following procedures will be followed in providing such coverage:

1. Applications for teaching vice-principals (TVP) shall be circulated from the Superintendent’s office, and shall be received only by the Superintendent’s office. The Superintendent shall make the final selection. Teaching Vice-Principals will be selected on an annual basis.
2. Individuals designated as the TVP will be compensated according to agreements with the bargaining agent.
3. The person designated as the TVP will have the same authority as the building principal in the principal’s absence with the exception of evaluation of personnel.
4. Responsibilities of the TVP will include areas listed in the Leadership Development document (exhibit attached).
5. Staff members of the District will be informed about individuals serving in the capacity of TVP by District bulletin.
6. Administrators and/or the Superintendent will provide letters of verification to individuals serving in this capacity upon request, to be used as a reference and/or experience records. This experience may also be used as part of a training program from an institution of higher learning if it meets the requirements of the college or university conducting the program.
7. Individuals serving as the TVP, in the absence of the principal, may call for assistance from the Superintendent or a neighboring principal as the need arises with the full expectation of receiving assistance.
8. When all or a majority of administrators are absent from a school site for two or more hours, it shall be up to the discretion of the Teaching Vice-Principal to call a substitute according to District procedure.

The Enterprise Board of Education recognizes the importance of individuals serving as a TVP and wishes to provide these individuals with the protection and authority necessary to carry out these important responsibilities.

The procurement of goods or services with federal funds shall be conducted in a manner that provides full and open competition in accordance with state laws and district regulations and the following requirements:

1. Any purchase of supplies or services that does not exceed the "micro-purchase" threshold specified in 48 CFR 2.101 may be awarded without soliciting competitive quotes, provided that the district considers the price to be reasonable and maintains written evidence of this reasonableness in the record of all micro-purchases. (2 CFR 200.67, 200.320)
2. For any purchase that exceeds the micro-purchase threshold but is less than the bid limit required by Public Contract Code 20111, the Superintendent or designee shall utilize "small-purchase" procedures that include obtaining price or rate quotes from an adequate number of qualified sources. (2 CFR 200.320)
3. Contracts for goods or services over the bid limits required by Public Contract Code 20111 shall be awarded pursuant to California law and AR 3311 - Bids, unless exempt from bidding under the law.
(cf. 3311 - Bids)
4. If a purchase is exempt from bidding and the district's solicitation is by a request for proposals, the award may be made by either a fixed-price or cost-reimbursement type contract awarded to the entity whose proposal is most advantageous to the program, with price and other factors considered. (2 CFR 200.320)
(cf. 3312 - Contracts)
5. Procurement by noncompetitive proposals (sole sourcing) may be used only when the item is available exclusively from a single source, the need or emergency will not permit a delay resulting from competitive solicitation, the awarding agency expressly authorizes sole sourcing in response to the district's request, and/or competition is determined inadequate after solicitation of a number of sources. (2 CFR 200.320)
6. Time and materials type contracts may be used only after a determination that no other contract is suitable and if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract for which the cost is the sum of the actual cost of materials and direct labor hours charged at fixed hourly rates that reflect wages, general administrative expenses, and profit. (200.328)

For any purchase of \$25,000 or more, the Superintendent or designee shall verify that any vendor which is used to procure goods or services is not excluded or disqualified by the federal government. (2 CFR 180.220, 200.213)

FEDERAL GRANT FUNDS (Continued)

All solicitations shall incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description shall avoid detailed product specifications to the extent possible, but may include a statement of the qualitative nature of the material, product, or service to be procured and, when necessary, shall set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. When it is impractical or not economical to make a clear and accurate description of the technical requirements, a brand name or equivalent description may be used to define the performance or other salient requirements of procurement, clearly stating the specific features of the named brand which must be met by offers. In addition, every solicitation shall identify all requirements which the offer must fulfill and any other factors to be used in evaluating bids or proposals. (2 CFR 200.319)

The Superintendent or designee shall maintain sufficient records to document the procurement, including, but not limited to, the rationale for the method of procurement, selection of the contract type, contractor selection or rejection, and the basis for the contract price. (2 CFR 200.318)

The Superintendent or designee shall ensure that all contracts for purchases using federal grant funds contain the applicable contract provisions described in Appendix II to Part 200 - Contract Provisions for Non-Federal Entity Contracts Under Federal Awards. (2 CFR 200.326)

Capital Expenditures

The Superintendent or designee shall obtain prior written approval from the awarding agency before using federal funds to make capital expenditures, including the acquisition of land, facilities, equipment, and intellectual property and expenditures to make additions, improvements, modifications, replacements, rearrangements, reinstallations, renovations, or alterations to capital assets that materially increase their value or useful life. (2 CFR 200.12, 200.13, 200.20, 200.33, 200.48, 200.58, 200.89, 200.313, 200.439)

Conflict of Interest

No Governing Board member, district employee, or district representative shall participate in the selection, award, or administration of a contract supported by federal funds if he/she has a real or apparent conflict of interest, such as when he/she or a member of his/her immediate family, his/her partner, or an organization which employs or is about to employ any of them has a financial interest in or a tangible personal benefit from a firm considered for a contract. Such persons are prohibited from soliciting or accepting gratuities, favors, or anything of monetary value from contractors or subcontractors unless the gift is an unsolicited item of nominal value. Employees engaged in the selection, award, and administration of contracts shall also comply with BB 9270 - Conflict of Interest.
(cf. 9270 - Conflict of Interest)

Cash Management

The Superintendent or designee shall ensure the district's compliance with 2 CFR 200.305 pertaining to payments and cash management, including compliance with applicable methods and procedures that minimize the time elapsing between the transfer of funds to the district and the district's disbursement of funds. (2 CFR 200.305)

When authorized by law, the district may receive advance payments of federal grant funds, limited to the minimum amounts needed and timed in accordance with the actual immediate cash requirements of the district for carrying out the purpose of the program or project. Except under specified conditions, the district shall maintain the advance payments in an interest-bearing account. The district shall remit interest earned on the advanced payment to the awarding agency on an annual basis, but may retain interest amounts specified in 2 CFR 200.305 for administrative expenses. (2 CFR 200.305)

When required by the awarding agency, the district shall instead submit a request for reimbursement of actual expenses incurred. The district may also request reimbursement as an alternative to receiving advance payments. (2 CFR 200.305)

The Superintendent or designee shall maintain source documentation supporting the expenditure of federal funds, such as invoices, time sheets, payroll stubs, or other appropriate documentation.

Personnel

All district employees who are paid in full or in part with federal funds, including employees whose salary is paid with state or local funds but is used to meet a required match or in-kind contribution to a federal program, shall document the amount of time they spend on grant activities. (2 CFR 200.430)

Records

Except as otherwise provided in 2 CFR 200.333, or where state law or district policy requires a longer retention period, financial records, supporting documents, statistical records, and all other district records related to a federal award shall be retained for a period of three years from the date of submission of the final expenditure report or, for a federal award that is renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report. Whenever the district expends \$750,000 or more in federal grant funds during a fiscal year, it shall arrange for either a single audit or a program-specific audit in accordance with 2 CFR 200.507 or 200.514. (2 CFR 200.501)

The Superintendent or designee shall ensure that the audit meets the requirements specified in 2 CFR 200.500-200.521.

Specified records pertaining to the audit of federal funds expended by the district shall be transmitted to the clearinghouse designated by the federal Office of Management and Budget and shall be made available for public inspection. Such records shall be transmitted within 30 days after receipt of the auditor's report or within nine months after the end of the audit period, whichever is sooner, unless a longer period is agreed to in advance by the federal agency or a different period is specified in a program-specific audit guide. (2 CFR 200.512)

In the event that the audit identifies any deficiency, the Superintendent or designee shall promptly act to either correct the identified deficiency, produce recommended improvements, or demonstrate that the audit finding is invalid or does not warrant action. (2 CFR 200.26, 200.508, 200.511)

SALE AND DISPOSAL OF BOOKS, EQUIPMENT, AND SUPPLIES

The Board of Education believes that the maximum materials and information possible should be made available to enhance knowledge both to students and community. As elected representatives of the people of the district, the Board recognizes its responsibility to provide the most current and updated versions of textbooks and other instructional materials for students. The Board recognizes that it is the responsibility of the District to determine when instructional materials, equipment, and supplies are obsolete and if such materials, equipment, and supplies are usable or unusable for their intended purposes.

When district-owned books, equipment and supplies become unusable, obsolete, or no longer needed, the Superintendent or designee shall identify these items to the Governing Board, together with their estimated value and a recommendation that they be sold or disposed of by one of the methods prescribed in law and administrative regulations. With Board approval, the Superintendent or designee shall arrange for the sale or disposal of these items.

Instructional materials may be considered obsolete or unusable when they:

1. Contain information rendered inaccurate or incomplete by new discoveries or technologies.
2. Have been replaced by more recent adoptions of the same material and are of no foreseeable value in other instructional areas.
3. Contain demeaning, stereotyping, or patronizing references to any group of persons protected against discrimination by law or Board policy.
4. Are damaged beyond use or repair.
5. Are not aligned with the district's academic standards or course of study.

The Superintendent or designee shall establish procedures to be used when selling equipment for which the federal government has a right to receive all or part of the proceeds. These procedures shall ensure a reasonable amount of competition to result in the highest possible revenue.

Advertised Bids

The district shall seek competitive bids through advertisement for contracts involving an expenditure of \$15,000 or more for a public project. (Public Contract Code 20111)

Public project means construction, reconstruction, erection, alteration, renovation, improvement, painting, repainting, demolition and repair work involving a district owned, leased, or operated facility. (Public Contract Code 22002)

The amount by which contracts shall be competitively bid shall escalate automatically based upon the annual adjustment by the Superintendent of Public Instruction.

The District shall also seek competitive bids through advertisement for contracts exceeding the amount specified in law, and as annually adjusted by the Superintendent of Public Instruction, for any of the following: (Public Contract Code 20111; Government Code 53060)

1. The purchase of equipment, materials or supplies to be furnished, sold, or leased to the district
2. Services, not including construction services, or special services and advice in accounting, financial, economic, engineering, legal, or administrative matters
3. Repairs, including maintenance that is not a public project

Maintenance means routine, recurring and usual work for preserving, protecting, and keeping a district facility operating in a safe, efficient, and continually usable condition for the intended purpose for which it was designed, improved, constructed, altered, or repaired. Maintenance includes, but is not limited to, carpentry, electrical, plumbing, glazing, and other craft work designed to preserve the facility, as well as repairs, cleaning, and other operations on machinery and other permanently attached equipment. This definition does not include, among other types of work, janitorial or custodial services, and protection provided by security forces, nor does it include painting, repainting, or decorating other than touchup. (Public Contract Code 20115)

Unless otherwise authorized by law, contracts shall be let to the lowest responsive bidder who shall give such security as the Governing Board requires, or else all bids shall be rejected. (Public Contract Code 20111)

BIDS (continued)

The Board shall secure bids pursuant to Public Contract Code 20111 and 20112 for any transportation service expenditure of more than \$10,000 when contemplating that such a contract may be made with a person or corporation other than a common carrier, municipally owned transit system, or a parent/guardian of students who are to be transported. The Board may let this contract to other than the lowest bidder. (Education Code 39802)

No work, project, service, or purchase shall be split or separated into smaller work orders or projects for the purpose of evading the legal requirements of Public Contract Code 20111-20118.4 for contracting after competitive bidding. (Public Contract Code 20116)

When letting a contract for the procurement and/or maintenance of electronic data processing systems and supporting software, the Board may contract with any one of the three lowest responsible bidders. (Public Contract Code 20118.1)

Instructions and Procedures for Advertised Bids

The Superintendent or designee shall call for bids by advertising in a local newspaper of general circulation published in the district, or if no such paper exists then in some newspaper of general circulation, circulated in the county at least once a week for two weeks. The district may also post the notice on the district's web site or other electronic portal and may accept a bid submitted electronically or on paper. The notice shall state the work to be done or materials or supplies to be furnished and the time and place where bids will be opened. (Public Contract Code 20112)

The notice shall contain the time, date, and location of any mandatory prebid conference, site visit, or meeting. The notice shall also detail when and where project documents, including final plan and specifications, are available. Any such mandatory visit or meeting shall not occur within a minimum of five calendar days of the publication of the initial notice. (Public Contract Code 6610)

Bid instructions and specifications shall include the following requirements and information:

1. All bidders shall certify the minimum, if not exact, percentage of postconsumer materials in the products, materials, goods, or supplies offered or sold. (Public Contract Code 22152)

 - a. Cash

 - c. A certified check made payable to the district
 - d. A bidder's bond executed by an admitted surety insurer and made payable to the district

The security of unsuccessful bidders shall be returned in a reasonable period of time, but in no event later than 60 days after the bid is awarded. (Public Contract Code 20111)

3. Bids shall not be accepted after the advertised bid opening time, regardless of whether the bids are actually opened at that time. (Public Contract Code 20112)
4. When two or more identical lowest or highest bids are received, the Board may determine by lot which bid shall be accepted. (Public Contract Code 20117)
5. If the district requires that the bid include prices for items that may be added to or deducted from the scope of work in the contract, the bid solicitation shall specify which one of the following methods will be used to determine the lowest bid. In the absence of such a specification, only the method provided in item #a below will be used: (Public Contract Code 20103.8)
 - a. The lowest bid shall be the lowest total of the bid prices on the base contract without consideration of the prices on the additive or deductive items.
 - b. The lowest bid shall be the lowest total of the bid prices on the base contract and those additive or deductive items that were specifically identified in the bid solicitation as being used for the purpose of determining the lowest bid price.
 - c. The lowest bid shall be the lowest total of the bid prices on the base contract and those additive or deductive items that, when taken in order from a specifically identified list of those items in the solicitation, and added to or subtracted from the base contract, are less than or equal to a funding amount publicly disclosed by the district before the first bid is opened.

7. After being opened, all submitted bids become public records pursuant to Government Code 6252 and shall be made available for review pursuant to law, Board policy, and administrative regulation.
(cf. 1340 - Access to District Records)

Alternative Bid Procedures for Technological Supplies and Equipment

Upon a finding by the Board that a particular procurement qualifies for the alternative procedure, the district may acquire computers, software, telecommunications equipment, microwave equipment, and other related electronic equipment and apparatus through competitive negotiation. This procedure shall not apply to contracts for construction or for the procurement of any product that is available in substantial quantities to the general public. (Public Contract Code 20118.2)

The competitive negotiation shall include, but not be limited to, the following requirements: (Public Contract Code 20118.1)

1. The Superintendent or designee shall prepare a request for proposals that shall be submitted to an adequate number of qualified sources, as determined by the district, to permit reasonable competition consistent with the nature and requirement of the procurement.
2. Notice of the request for proposals shall be published at least twice in a newspaper of general circulation, at least 10 days before the date for receipt of the proposals.
3. The district shall make every effort to generate the maximum feasible number of proposals from qualified sources and shall make a finding to that effect before proceeding to negotiate if only a single response to the request for proposals is received.
4. The request for proposals shall identify all significant evaluation factors, including price, and their relative importance.

6. An award shall be made to the qualified bidder whose proposal meets the evaluation standards and will be most advantageous to the district with price and all other factors considered.
7. If an award is not made to the bidder whose proposal contains the lowest price, then the district shall make a finding setting forth the basis for the award.
8. The district, at its discretion, may reject all proposals and request new proposals.
9. Provisions in any contract concerning utilization of small business enterprises, that are in accordance with the request for proposals, shall not be subject to negotiation with the successful proposer.

Bids Not Required

Upon a determination that it is in the best interest of the district, the Board may authorize the purchase, lease, or contract for data-processing equipment, purchase materials, supplies, equipment, automotive vehicles, tractors, and other personal property through a public corporation or agency ("piggyback") without advertising for bids. (Public Contract Code 20118)

(cf. 3300 - Expenditures and Purchases)

Alternatively, if there is an existing contract between a public corporation or agency and a vendor for the lease or purchase of personal property, the District may authorize the lease or purchase of personal property directly from the vendor by contract, lease, requisition, or purchase order and make payment to the vendor under the same terms that are available to the public corporation or agency under the contract. (Public Contract Code 20118)

Bids shall also not be required for day labor under circumstances specified in Public Contract Code 20114. Day labor shall include the use of maintenance personnel employed on a permanent or temporary basis. (Public Contract Code 20114)

Sole Sourcing

Specifications for contracts for construction, alteration, or repair of school facilities may not limit bidding, either directly or indirectly, to any one specific concern. Specifications designating a particular brand name shall follow the description with the words "or equal" so that bidders may furnish any equal material, product, thing, or service. (Public Contract Code 3400)

Specifications for contracts may designate a product by brand or trade name (sole sourcing) if the district has made a finding, described in the invitation for bids or request for proposals, that a particular material, product, thing, or service is designated for any of the following purposes: (Public Contract Code 3400)

1. To conduct a field test or experiment to determine its suitability for future use
2. To match others in use on a particular public improvement that has been completed or is in the course of completion
3. To obtain a necessary item that is only available from one source
4. To respond to the Board's declaration of an emergency, as long as the declaration has been approved by four-fifths of the Board that issued the invitation for bid or request for proposals

BIDS (continued)

Prequalification Procedure

For any contract for which bids are legally required, the Board may require that each prospective bidder complete and submit a standardized questionnaire and financial statement. For this purpose, the Superintendent or designee shall supply a form which requires a complete statement of the bidder's financial ability and experience in performing public works. (Public Contract Code 20111.5)

Prospective bidders shall submit the questionnaire and financial statement at least five days before the date fixed for public opening of sealed bids. The information shall be verified under oath in the manner in which civil law pleadings are verified. The questionnaires and financial statements shall not be public records and shall not be open to public inspection. (Public Contract Code 20111.5)

The Superintendent or designee shall establish a uniform system for rating bidders on the basis of completed questionnaires and financial statements in order to determine the size of contracts on which each bidder is qualified to bid. Bidders must be deemed prequalified by the district at least one day before the fixed bid-opening date. (Public Contract Code 20111.5)

The Superintendent or designee shall furnish each qualified bidder with a standardized proposal form. Bids not presented on the standard form shall be disregarded. (Public Contract Code 20111.5)

The district may establish a procedure for prequalifying bidders on a quarterly basis and may authorize that prequalification be considered valid for up to one calendar year following the date of the initial prequalification. (Public Contract Code 20111.5)

Protests by Bidders

A bidder may protest a bid award if he/she believes that the award was inconsistent with Board policy, the bid's specifications, or was not in compliance with law.

A protest must be filed in writing with the Superintendent or designee within five working days after receipt of notification of the contract award. The bidder shall submit all documents supporting or justifying the protest. A bidder's failure to file the protest documents within five (5) days shall constitute a waiver of his/her right to protest the award of the contract.

The Superintendent or designee shall review the documents submitted with the bidder's claims and render a decision in writing within 30 working days. The Superintendent or designee may also convene a meeting with the bidder in order to attempt to resolve the problem. In no way shall a bid protest stall or preclude the District from commencing the project in cooperation with the apparent lowest responsive bidder.

DEBT ISSUANCE AND MANAGEMENT

The Governing Board is committed to long-term capital and financial planning and recognizes that the issuance of debt is a key source for funding the improvement and maintenance of school facilities and managing cash flow. Any debt issued by the district shall be consistent with law and this policy.

When the Board determines that it is in the best interest of the district, the Board may issue debt or order an election to issue debt. The Superintendent or designee shall make recommendations to the board regarding appropriate financing methods for capital projects or other projects that are authorized purposes for debt issuance program and activities, including the timing of issuance, sizing of issuance, method of sale, structuring of the issue, and marketing strategies.

Purpose and Goals

The purpose of this Debt Issuance and Management Policy ("Policy") is to provide a functional tool for debt management and capital planning, as well as to enhance the District's ability to manage its debt in a conservative and prudent manner.

The District shall pursue the following goals in furtherance of the purposes hereof:

1. To fund capital improvements from general obligation bonds or such other debt not secured by its General Fund in order to preserve the availability of its General Fund for operating and other purposes not permitted to be funded by such bonds.
2. To attain the best possible credit rating for each debt issue in order to reduce interest costs, while preserving financial flexibility and meeting capital funding requirements.
3. To monitor the statutory debt limit in relation to projected assessed valuation within the District and the tax burden needed to meet ongoing debt service requirements.
4. To consider market conditions and District cash flows when timing the issuance of debt.
5. To consult with financial advisors regarding maturity schedules on proposed debt in order to afford the District with the best overall debt structure.
6. To consider the relationship between the term of debt issued to finance capital improvements with the useful lives of those improvements, while considering repair and replacement costs of those assets to be incurred in the future.
7. To assess and consider available financial alternatives, including categorical grants, revolving loans or other State/federal aid, to the extent they exist, so as to minimize the use of the District's General Fund.
8. To consider the District's ability to expend the funds obtained in a timely, efficient, and economical manner, as well as consistent with Federal tax law.

DEBT ISSUANCE AND MANAGEMENT (continued)

Authorization

1. Authority and Purposes of the Debt

The laws of the State of California authorize the issuance of debt by the District, and confer upon it the power and authority to make lease payments, contract debt, borrow money, and issue bonds for public improvement projects and to provide for the District's operational cash flows in order to maintain a steady and even cash flow balance. Under these provisions, the District may issue debt to (i) pay for the cost of capital improvements, including acquiring, constructing, reconstructing, rehabilitating, replacing, improving, extending, enlarging, equipping, and/or maintaining such capital improvements; (ii) refund existing debt; or (iii) provide for cash flow needs. Such debt issuance may also include appropriate and authorized issuance costs.

2. Types of Debt Authorized

- A. Short-Term Debt: The District may issue short-term debt, which may include tax and revenue anticipation notes ("TRANS"), when such instruments allow the District to meet its cash flow requirements. However, the District's general objective is to manage its cash position in a manner so that internally generated cash flow is sufficient to meet expenditures. The District may also issue short-term debt in the context of funding shorter-term acquisitions, such as equipment, or interim funding for capital costs that will ultimately be replaced with long-term debt (i.e., maturities longer than one year). The District may also participate in an annual pooled financing of delinquent property taxes to the extent the chief business officer (CBO), or his or her designee, determines such financing produces significant benefit to the District.
- B. Long-Term Debt: Debt may be used to finance capital facilities, projects, and equipment where it is appropriate to spread the cost of the projects over more than one budget year. In so doing, the District recognizes that future taxpayers who will benefit from the investment will pay a share of its cost. The District may issue long-term debt which includes, but is not limited to, general obligation bonds ("GO Bonds"). GO Bonds may be issued under the State Constitution (Article XIII A), either (i) under Section 1(b)(2) ("Proposition 46"), which requires at least a two-thirds (66.7%) majority, or (ii) under Section 1(b)(3) ("Proposition 39"), which requires approval by at least 55% majority of voters.

The District, or the Governing Board, may also, in addition to issuance of GO Bonds, (i) issue bond anticipation notes ("BANs") or grant anticipation notes ("GANs"); (ii) enter into long-term lease or lease-purchase financings ("Financing Leases"); (iii) cause the delivery of Certificates of Participation ("COPs"); (iv) issue or participate in lease revenue bonds ("LRBs"); (v) issue land secured bonds, such as special tax revenue bonds under the Mello-Roos Community Facilities Act of 1982 ("Mello-Roos Bonds"); (vi) limited obligation bonds under applicable assessment statutes ("Assessment Bonds"); or (vii) issue tax-increment

financings, conduit financings, other revenue bonds, or other long-term debt, to the extent permitted by law.

- C. Lease Financings: Financing Leases for facilities and equipment are appropriate for facilities or equipment for which there is insufficient time to obtain voter approval or in instances where obtaining voter approval is not feasible. If and when voter approved debt proceeds become subsequently available, the District will consider using such proceeds to refund, redeem, or pay the Financing Leases, where feasible, in order to alleviate the burden to the General Fund.
- D. Identified Repayment Source: The District will, when feasible, issue debt with a defined revenue source in order to preserve the use of General Fund supported debt. Examples of revenue sources include voter approved taxes that repay general obligation or special tax bonds.
- E. Use of Other Financing Structures: The District may use other financing structures permitted by federal or state law (such as tax credit obligations or other obligations that provide a subsidized interest payment) upon consideration of financing costs versus tax-exempt GO Bonds, LRBs and/or COPs or that are a method to finance a program in a manner not otherwise available (e.g., QZABs, BABs, QSCBs, or other qualified tax credit bonds).
- F. Compounding Debt: The District may issue Capital Appreciation Bonds or other debt structures with compounding of interest (“CABs”) after compliance with notice, disclosure, and public hearing requirements of state law.

Notwithstanding the above, the District shall not issue any COPs, TRANs, LRBs, revenue bonds, or other non-voter approved debt in any fiscal year, or for the following fiscal year, if the District has a qualified or negative certification from the County, unless the County Superintendent certifies, in accordance with applicable law, regulations, and other criteria established by the Superintendent of Public Instruction, that the District’s repayment of such proposed debt is probable.

Alignment with District Facilities Program and Budget

Decisions regarding the issuance of debt for the purpose of financing capital improvements shall be aligned with current needs for acquisition, development, and/or improvement of District property and facilities as identified by the District in sources and information including the District's facilities master plan or other needs assessment, as applicable, the projected costs of those needs, schedules for the projects, and expected resources.

DEBT ISSUANCE AND MANAGEMENT (continued)

When considering a debt issuance, the Board and the Superintendent or designee shall consider both the short-term and long-term implications of the debt issuance and additional operating costs associated with new projects. Such evaluation may include, but is not limited to, the projected ratio of annual debt service and tax burden on the District's taxpayers, and the ratio of annual debt service secured by the general fund to general fund expenditures.

1. Structure of Debt Issues

- A. Maturity of Debt: Decision on the duration of a debt issue shall be made with considerations of the economic or useful life of the improvement or asset that the issue is financing. The District shall consider the overall impact of the current and future debt burden of the financing when determining the duration of the debt issue. The final maturity of GO Bonds issued pursuant to the Education Code will be limited to 25 years when such bonds are issued under the Education Code, unless such longer maturity is then permitted by the Education Code. The final maturity of GO Bonds issued under the Government Code will be limited to 40 years, unless such longer maturity is then permitted by the Government Code; provided, that the maturity of GO Bonds may not exceed 25 years if such GO Bonds are CABs. GO Bond issues will generally be sized upon consideration of capital improvement expenditure requirements. Decisions regarding the final maturity of Financing Leases shall take into consideration the useful life of the assets to be financed.
- B. Debt Service Structure: The District shall design the financing schedule and repayment of debt so as to take advantage of market conditions, provide flexibility, and, as practical, to recapture or maximize its debt capacity for future use.
- C. Capitalized Interest: Certain types of financings may require that interest on the debt be paid from capitalized interest until the District has use and possession of a pledged asset. Alternatively, the District may pledge assets using an asset transfer structure as collateral for the issue.
- D. Call Provisions: The CBO, based upon analysis from the financial advisor of the economics of callable versus non-callable features, shall consider call provisions for each debt issue.

2. Sale of Securities

- A. Public Sale: There are two methods of a public sale of debt, competitive and negotiated. Both methods of sale shall be considered for all issuance of debt to the extent allowed by law, as each method has the potential to achieve the lowest financing cost given the particular economic and other conditions.

ENTERPRISE ELEMENTARY SCHOOL DISTRICT BOARD POLICY

BUSINESS AND NONINSTRUCTIONAL OPERATIONS

BP 3470

DEBT ISSUANCE AND MANAGEMENT (continued)

- B. Private Placement: While not used as frequently as negotiated or competitive public sale methods, a private placement sale may be appropriate when total borrowing costs are estimated to be lower than the public sale option.

3. Credit Enhancements

The District may enter into credit enhancement agreements such as municipal bond insurance, surety bonds, letters of credit, and lines of credit with commercial banks, municipal bond insurance companies, or other financial entities when their use is judged to lower borrowing costs, eliminate restrictive covenants, or have a net economic benefit to the financing.

4. Impact on Operating Budget and District Debt Burden

When considering any debt issuance, the potential impact of debt service and additional operating costs associated with new projects on the operating budget of the District, both short and long-term, will be considered. The projected ratio of annual debt service secured by the General Fund to General Fund expenditures is one method, as is the additional debt burden of overlapping agencies on taxpayers.

5. Debt Limitation

The District's total outstanding bonded debt (i.e., the principal portion only) is statutorily limited to 1.25% for non-unified and 2.50% for unified school districts of the assessed valuation of the taxable property of the District. Other obligations such as TRANs and lease obligations in support of COPs or LRBs generally do not count against this limit (EC §§ 15102, 15106). The District may considering getting a waiver of this limit from the California Department of Education.

6. Debt Issued to Finance Operating Costs

The District shall not finance general operating costs from debt (TRANs) having maturities greater than fifteen months from the date of issuance. Pursuant to law, the District may deem it necessary or desirable to finance cash flow requirements under certain conditions. Such cash flow borrowing must be payable from taxes, income, revenue, cash receipts and other moneys attributable to the fiscal year in which the debt is issued. General operating costs include, but are not limited to, those items normally funded in the District's annual operating budget.

Internal Controls

The Superintendent or designee shall establish internal control procedures to ensure that the proceeds of any debt issuance are directed to the intended use. Such procedures shall assist the District in maintaining the effectiveness and efficiency of operations, properly expending funds,

reliably reporting debt incurred by the District and the use of the proceeds, complying with all laws and regulations, preventing fraud, and avoiding conflict of interest.

Prior to the sale of any debt issue, the Superintendent or designee shall cause a report of the proposed issuance to the California Debt and Investment Advisory Commission (CDIAC) to be submitted. Such report shall include a certification that the District has adopted a policy concerning the use of debt and that the contemplated debt issuance is consistent with that policy. (GC § 8855)

On or before January 31, of each year, the Superintendent or designee shall submit a report to the CDIAC regarding the debt authorized, the debt outstanding, and the use of proceeds of the issued debt for the prior reporting period, from July 1 to June 30. (GC § 8855)

In addition, the Superintendent or designee shall ensure that the District completes, as applicable, all performance and financial audits that may be required for any debt issued by the District, including disclosure requirements applicable to a particular transaction.

The Superintendent or designee may annually report to the Board regarding debts issued by the District, including information on actual and projected tax rates, an analysis of bonding capacity, ratings on the District's bonds, market update and refunding opportunities, new development for California bond financings, and the District's compliance with post-issuance requirements.

1. Annual Review and Reporting

The Policy shall be reviewed as needed. The CBO is the designated administrator of the Policy and has overall responsibility, with the Board's approval, for decisions related to the structuring of all District debt issues. The CBO may delegate the day-to-day responsibility for managing the District's debt financings. The Board is the obligated issuer of all District debt and awards all purchase contracts for GO Bonds, BANs, GANs, LRBs, COPs, Financing Leases, TRANs and any other debt issuances. The CBO, or a designee or agent, shall cause any required annual report to be filed with the California Debt Investment and Advisory Commission relating to the District's debt, and shall ensure that any required annual performance and financial audits pertaining to GO Bond fund expenditures are prepared and delivered to the Board and any applicable bond oversight committee. (GC § 8855(k))

2. Financing Team Members

- A. Financial Advisor: Irrespective of the nature of the sale of securities (competitive or negotiated), the District may select and retain a financial advisor, who shall be an experienced independent registered financial advisor, to provide advice on the District's debt management program, debt issuance structure, rating agency relations, credit enhancement decisions and other transaction details. As determined by the CBO, the Financial Advisor may be the point person to organize and coordinate activities within the collective financing team.

DEBT ISSUANCE AND MANAGEMENT (continued)

- B. Bond Counsel, Tax Counsel, and Disclosure Counsel: The District may select an external legal team to be used on an as-needed basis to assist with debt issuances or special projects. Such firms may be selected to provide general legal advice on, among other things, debt financing, tax considerations, disclosure documents, and continuing disclosure.
- C. Other Team Members: The District, upon the counsel of staff and Financial Advisor, may select and retain other qualified and necessary financing team members as may be required to fulfill the District's obligations related to its debt management program. Other financing team members may include (but are not limited to), paying agent and bond registrar, trustee, escrow agent, investment advisor, credit enhancement provider, feasibility consultants, and economic or data analysts.

3. Rating Agencies

The District shall (i) endeavor to attain the best possible credit rating for each debt issuance (with or without credit enhancement); (ii) endeavor to maintain effective relations with rating agencies; and (iii) together with its financial advisor, meet with, make presentations to, or otherwise communicate with the rating agencies on a regular basis in order to keep the rating agencies informed concerning the District's capital project plans, debt issuance program, debt management activities, and other appropriate financial information.

4. Investment Community Relations

The District shall (i) endeavor to maintain positive and effective relations with the investment community to include investors, bondholders, credit enhancers, media, document clearinghouses, and other public sources of information; and (ii) together with its Financial Advisor, as necessary, prepare reports and other forms of communication regarding the District's indebtedness, as well as its future financing plans.

5. Refunding and Restructuring Outstanding Debt

Whenever deemed to be in the best interest of the District, the District may consider refunding or restructuring outstanding debt. The primary considerations for refunding or restructuring outstanding debt shall be financially advantageous or beneficial structuring. The financial advantages of refunding outstanding debt shall be based upon a review of a net present value analysis of any proposed refunding in order to make a determination regarding the cost-effectiveness of the proposed refunding.

6. Investment of Borrowed Proceeds and Reserve Funds

The District acknowledges its on-going fiduciary responsibilities to actively manage the proceeds of debt issued for public purposes and related reserve funds in a manner that is consistent with California law governing the investment of public funds, prudent investment practices, its own

investment policies, and with the permitted securities covenants of related debt documents executed by the District. The District's goals for any investment strategy of borrowed proceeds and related reserve funds shall be preservation of principal, followed by availability of funds, followed by return on investment.

7. Transaction Records

The Superintendent or designee shall maintain complete records of decisions made in connection with each financing, including the structuring of the financing, selection of credit enhancement products and providers, and selection of investment products and providers. Each transaction file shall include the official transcript for the financing, and the final number computations. At the conclusion of any debt issuance, the Superintendent, the CBO, or a designee of either of them, shall timely provide a summary of the financing to the Governing Board.

8. Exceptions or Modifications

The District acknowledges that the capital marketplace fluctuates, municipal finance products change from time to time, and that issuer and investor supply and demand vary. These fluctuations may produce situations that are not anticipated or covered by this Policy. As such, the Governing Board may make exceptions or modifications to this policy to achieve the debt management goals outlined herein. Flexibility is appropriate and necessary in such situations, provided specific authorization is granted to District staff and the District's advisors by the Governing Board.

9. Effect of Noncompliance

The failure of any debt financing to comply with one or more of the provisions of this Policy shall not, in and of itself, affect the validity of any debt issued by the District.

POST-ISSUANCE TAX COMPLIANCE PROCEDURES FOR TAX-EXEMPT BONDS

I. In General

These post-issuance compliance procedures (“Procedures”) of the Enterprise Elementary School District (the “District”) are designed to provide for the effective management of the District’s post bond issuance compliance program for tax-exempt and other tax benefited bonds in a manner consistent with state and federal laws applicable to such obligations.

II. Post-Issuance Tax Compliance

The Chief Business Official of the District shall be the primary compliance officer (“Bond Compliance Officer”) responsible for each issuance by the District of tax-exempt and tax-benefited bonds, notes, financing leases, or other obligations collectively referred to as “Bonds”). All information related to each bond issue and the assets financed by such issue shall be maintained by or on behalf of the Bond Compliance Officer. The actions taken under these Procedures shall be taken by or on behalf of the Bond Compliance Officer, or other officers or employees of the District, at the direction of the Bond Compliance Officer.

A. Tax Certificate; IRS Form 8038/8038-G/8038-GC; and Continuing Education

1. Tax Certificate. The Bond Compliance Officer shall review the Tax Certificate prepared by the District’s bond counsel prior to closing each bond issuance and confirm that the factual statements regarding the District are accurate and complete and the expectations regarding the project and the use of proceeds are reasonable and in accord with the District’s intent as of the closing date for the bond issuance. Immediately upon issuing any Bonds, the Bond Compliance Officer, in conjunction with the District’s bond counsel, tax counsel, or other qualified counsel (collectively, the “District’s counsel” or “counsel”) shall prepare a post-issuance compliance plan (“Plan”) specific to the Bonds, based on the requirements of the related Tax Certificate, these Procedures, any additional notes taken by the Bond Compliance Officer in connection with its discussions with counsel (including any supplemental materials that bond counsel may give the District relating to ongoing compliance). The Plan will define the roles and responsibilities relating to the ongoing compliance activities for the Bonds and will identify specific compliance requirements.
2. IRS Form 8038/8038-G/8038-GC. The Bond Compliance Officer shall confirm that it has timely filed, or has caused bond counsel to timely file, the IRS Information Return (Form 8038, 8038-G or 8038-GC, as applicable) for each issue of Bonds. The IRS Informational Return Form 8038 is due to be filed for each issue of Bonds not later than the 15th day of the second calendar month after the close of the calendar quarter in which the Bonds are issued.

(continued)

3. Continuing Education - The Bond Compliance Officer (or designee) shall actively seek out advice from the District's counsel on any matters that appear to raise ongoing compliance concerns under a Plan. The Bond Compliance Officer (or designee) may attend or participate in seminars, webinars or teleconferences that address compliance issues and developments relating to issuance of, or post-issuance compliance for, Bonds.

B. Tax-Exempt Bonds Compliance Monitoring

1. Restrictions Against Private Use - The Bond Compliance Officer will monitor the expenditure of the proceeds of Bonds and the use of assets financed or refinanced with Bonds to ensure compliance with Section 141 of the Internal Revenue Code (the "Code"). This section generally establishes limitations on the use of Bond-financed assets by non-state or local governmental entities, such as individuals using Bond-financed assets on a basis other than as a member of the general public, corporations and the federal government and its agencies and instrumentalities.
 - a. Use of Bond Proceeds. The Bond Compliance Officer will monitor and maintain records with respect to expenditures to ensure that Bond proceeds are being used on capital expenditures for governmental purposes in accordance with the bond documents, and record the allocation of all Bond proceeds.
 - b. Use of the Bond-Financed Facility or Equipment
 - (i) Equipment assets financed with Bonds will be listed in a schedule for each bond issue, which schedule may be included in the Tax Certificate. Equipment assets generally are not to be disposed of prior to the earlier of: (a) the date the Bonds and all subsequent refundings of such bonds are fully paid; or (b) the end of the useful life of such equipment. The Bond Compliance Officer will maintain the list of all Bond-Financed equipment for each issue of Bonds, together with the equipment's expected useful life.
 - (ii) In order to ensure that assets constructed or acquired using Bond proceeds are not leased, sold or disposed of prior to the end of the term of the bonds and of all subsequent refundings of such bonds, assets shall be flagged in the District's records to indicate that they are allocated a share of the proceeds of a Bond issue (with reference to the particular issue of Bonds and allocable amounts) and monitored by the Bond Compliance Officer.
 - (iii) If there is any proposal to change the use of a bond-financed facilities from a governmental purpose to a use in which a private entity may have the use or

benefit of said asset that is different from the rest of the general public – including a contract for use of bond-financed facilities, a lease, license, sale or other disposition/abandonment of the bond-financed facilities – the Bond Compliance Officer will consult with counsel prior to the occurrence of the proposed change in use.

2. Qualification for Initial Temporary Periods and Compliance with Investment Restrictions

a. Expectations as to Expenditure of “New Money” Bond Proceeds

- (i) In order to qualify under the arbitrage rules for an initial temporary period of 3 years for “new money” issues during which bond proceeds can be invested without regard to yield (but potentially subject to rebate), the District must reasonably expect to spend at least 85% of “spendable proceeds” by the end of the temporary period. In general under Code Section 149, in order to avoid classification of an issue of bonds as “hedge bonds,” the District must both: (1) reasonably expect to spend 85% of the “spendable proceeds” of the bond issue within the 3 year period beginning on the date the bonds are issued (unless the project cannot be completed within 3 years, in which case the District’s reasonable expectations may be extended to 5 years upon provision of supporting certifications of the qualified project architect or other qualified expert); and (2) invest not more than 50% of the proceeds of the issue in investments having a substantially guaranteed yield for 4 years or more. These expectations shall be documented for the District’s outstanding Bonds in the related tax certificate executed in connection with each issue of Bonds.
- (j) If, for any reason, the District’s expectations concerning the period over which the Bond proceeds are to be expended change from what was documented in the applicable tax certificate, the Bond Compliance Officer will consult with bond counsel.

- b. Bond Proceeds Expenditure Schedule Compliance Monitoring** - While there are unspent proceeds of bonds, the Bond Compliance Officer will compare and analyze the bond proceeds expenditure schedule to the actual investment earnings and expenditures incurred on each project, on an annual or more frequent basis. The purpose of this analysis is to determine any variances from the expected expenditure schedule and to document the reasons for these variances.

BOARD POLICY**

3. Arbitrage Rebate Compliance

- a. Bonds may lose their tax-favored status, retroactive to the date of issuance, if they do not comply with the arbitrage restrictions of Section 148 of the Code. Two general sets of requirements under the Code must be applied in order to determine whether governmental bonds are arbitrage bonds: (1) the yield restriction requirements of Section 148(a); and (2) the rebate requirements of Section 148(f).
- b. Yield Restriction Requirements. The yield restriction requirements provide, in general terms, that gross proceeds of a bond issue may not be invested in investments earning a yield higher than the yield of the bond issue, i.e., the District cannot earn interest on unspent bond proceeds at rates higher than the rates of interest the District is paying on the bonds, except for investments: (i) during one of the temporary periods permitted under the regulations; (ii) in a reasonably required reserve or replacement fund; or (iii) in an amount not in excess of the lesser of 5% of the sale proceeds of the Bonds or \$100,000 (the “minor portion”). Under limited circumstances, the yield on investments subject to yield restriction can be reduced through payments to the IRS known as “yield reduction payments.” The tax certificate shall identify a particular issue of Bonds known, as of the date of issuance, to be subject to yield restriction.
- c. Rebate Requirements
 - (i) If, consistent with the yield restriction requirements, amounts treated as Bond proceeds are permitted to be invested at a yield in excess of the yield on the Bonds (pursuant to one of the exceptions to yield restriction referred to above), rebate payments may be required to be made to the U.S. Treasury. Under the applicable regulations, the aggregate rebate amount is the excess of the future value of all the receipts from bond funded investments over the future value of all the payments to acquire such investments. The future value is computed as of the computation date using the bond yield as the interest factor. At least 90% of the rebate amount calculated for the first computation period must be paid no later than 60 days after the end of the first computation period. The amount of rebate payments required for subsequent computation periods (other than the final period) is that amount which, when added to the future value of prior rebate payments, equals at least 90% of the rebate amount. For the final computation period, 100% of the calculated amount must be paid. Rebate exceptions and expectations are documented for each Bond issue in the tax certificate executed at the time of such bond issue.

BOARD POLICY**

BUSINESS AND NONINSTRUCTIONAL OPERATIONS

BP 3470.1

POST-ISSUANCE TAX COMPLIANCE PROCEDURES FOR TAX-EXEMPT BONDS
(continued)

- (ii) While there are unspent proceeds of bonds, the District will determine whether to engage an experienced independent rebate analyst to annually calculate any rebate that may result for that year and annually provide a rebate report to the Bond Compliance Officer. Bond counsel can assist with referrals to qualified rebate analysts.
- d. Timing of Rebate Payments - The Bond Compliance Officer will work with the rebate analyst to ensure the proper calculation and payment of any rebate payment and/or yield-reduction payment at the required time:
 - (i) First installment due no later than 60 days after the end of the fifth anniversary of each Bond issuance date;
 - (ii) Succeeding installments at least every five years;
 - (iii) Final installment no later than 60 days after retirement of last Bond in the issue.

4. Refunding Requirements

- a. Refunded Projects - The Bond Compliance Officer will maintain records of all Bond financed assets for each bond issue, including assets originally financed with a refunded bond issue.
- b. Yield Restriction - The Bond Compliance Officer will work with its financial advisor and bond counsel to maintain records of allocation of bond proceeds for current and advance refundings of prior Bond issues to ensure that such bond proceeds are expended as set forth in the applicable tax certificate executed at the time the refunding Bonds are issued. Any yield restricted escrows will be monitored for ongoing compliance.

C. Record Retention

- 1. Section 6001 of the Code provides the general rule for the proper retention of records for federal tax purposes. The IRS regularly advises taxpayers to maintain sufficient records to support their tax deductions, credits and exclusions. In the case of Bonds, the primary taxpayers are the bondholders. In order to ensure the continued exclusion of interest to such bondholders, it is important that the District retain sufficient records to support such exclusion.

INTEGRATED PEST MANAGEMENT

Definitions

Integrated pest management (IPM) means a strategy that focuses on long-term prevention or suppression of pest problems through a combination of techniques such as monitoring for pest presence and establishing treatment threshold levels, using nonchemical practices to make the habitat less conducive to pest development, improving sanitation, and employing mechanical and physical controls. (EC 17609; Food and Agricultural Code 13181)
(cf. 3510 - Green School Operations)

School site means any facility used as a child day care facility or for kindergarten, elementary, or secondary school purposes and includes the buildings or structures, playgrounds, athletic fields, vehicles, or any other area of property visited or used by students. (EC 17609)

Program Components

The Superintendent or designee shall designate an employee at the district office and/or school site to develop, implement, and coordinate an IPM strategy that incorporates effective, least toxic pest management practices.

The IPM coordinator shall prepare and annually update a districtwide or school site IPM plan based on the template provided by the California Department of Pesticide Regulation (DPR).

The IPM plan shall include the name of the district and/or school IPM coordinator, the pesticides expected to be applied at the school site by district employees and/or pest control applicators, and a date that the plan shall be reviewed and, if necessary, updated. (EC 17611.5)

The district shall use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property, and the environment. Such pesticides shall only be used after careful monitoring indicates they are needed according to pre-established guidelines and treatment thresholds. (Food and Agricultural Code 13181)

The IPM plan and this administrative regulation shall not apply to reduced-risk pesticides, including self-contained baits or traps, gels or pastes used for crack and crevice treatments, antimicrobials, and pesticides exempt from registration by law. (EC 17610.5; 3 CCR 6147)

The district's program shall include, but not necessarily be limited to, the following components:

1. Identifying and monitoring pest population levels and identifying practices that could affect pest populations. Strategies for managing the pest shall be influenced by the pest species and whether that species poses a threat to people, property, or the environment.

**ENTERPRISE ELEMENTARY SCHOOL DISTRICT
ADMINISTRATIVE REGULATION**

BUSINESS AND NONINSTRUCTIONAL OPERATIONS

AR 3514.2

INTEGRATED PEST MANAGEMENT (Continued)

2. Setting action threshold levels to determine when pest populations or vegetation at a specific location might cause unacceptable health or economic hazards that would indicate corrective action should be taken.
3. Modifying or eliminating pest habitats to deter pest populations and minimize pest infestations.
4. Considering a full range of possible alternative cost-effective treatments. Such alternative treatments may include taking no action or controlling the pest by physical, horticultural, or biological methods. Cost or staffing considerations alone will not be adequate justification for the use of chemical control agents.
5. Selecting nonchemical pest management methods over chemical methods whenever such methods are effective in providing the desired control or, when it is determined that chemical methods must be used, giving preference to those chemicals that pose the least hazardous effects to people and the environment.

No pesticide that is prohibited by DPR or the U.S. Environmental Protection Agency, as listed on the DPR web site, shall be used at a school site. (EC 17610.1)

6. Limiting pesticide purchases to amounts needed for the year. Pesticides shall be stored at a secure location that is not accessible to students and unauthorized staff. They shall be stored and disposed of in accordance with state regulations and product label directions.
(cf. 3514 - Environmental Safety)
(cf. 3514.1 - Hazardous Substances)
7. Informing parents/guardians and employees regarding pesticide use as described in the sections "Notifications" and "Warning Signs" below.
8. Ensuring that persons applying pesticides follow label precautions and are sufficiently trained in the principles and practices of IPM as described in the section "Training" below.
9. Evaluating the effectiveness of treatments to determine if revisions to the IPM plan are needed.

Training

The IPM coordinator and any employee or contractor who may be designated to apply a pesticide at a school site shall annually complete a DPR-approved training course on IPM and the safe use of pesticides in relation to the unique nature of school sites and children's health. (EC 17614; Food and Agricultural Code 13186.5)

(cf. 4231 - Staff Development)

AR 3514.2

INTEGRATED PEST MANAGEMENT (Continued)

Any district employee who handles pesticides shall also receive pesticide-specific safety training prior to applying pesticides and annually thereafter in accordance with 3 CCR 6724.

Notifications

Staff and parents/guardians of students enrolled at a school site shall be annually notified, in writing, regarding pesticide products expected to be applied at the school site in the upcoming year. The notification shall include at least the following: (EC 17612)

1. The name of each pesticide product expected to be applied in the upcoming year and the active ingredient(s) in it
2. The Internet address (<http://www.cdpr.ca.gov/schoolipm>) used to access information on pesticides and pesticide use reduction developed by the DPR pursuant to Food and Agricultural Code 13184
3. If the school has posted its IPM plan, the Internet address where the plan may be found
4. The opportunity to view a copy of the IPM plan in the school office
5. An opportunity for interested persons to register to receive prior notification of each application of a pesticide at the school site
6. Other information deemed necessary by the IPM coordinator
(cf. 1312.4 - Williams Uniform Complaint Procedures)
(cf. 3517 - Facilities Inspection)
(cf. 4112.9/4212.9/4312.9 - Employee Notifications)
(cf. 5145.6 - Parental Notifications)

Whenever a person registers to receive notice of individual pesticide application pursuant to item #5 above, the IPM coordinator shall notify such registered persons of individual pesticide applications at least 72 hours prior to the application. The notice shall include the product name, the active ingredient(s) in the product, and the intended date of application. (EC 17612)

If a pesticide product not included in the annual notification is subsequently intended for use at a school site, the IPM coordinator shall provide written notification of its intended use to staff and parents/guardians of students enrolled at the school, at least 72 hours prior to the application. (EC 17612)

BUSINESS AND NONINSTRUCTIONAL OPERATIONS

AR 3514.2

INTEGRATED PEST MANAGEMENT (Continued)

If a school chooses to use a pesticide not exempted pursuant to Education Code 17610.5, it shall post the school or district IPM plan on the school's web site or, if the school does not have a web site, then on the district web site. If neither the school nor district has a web site, then the IPM plan shall be included with the annual notification sent to staff and parents/guardians pursuant to Education Code 17612 as described above. When not required, the IPM coordinator may post or distribute the IPM plan at his/her discretion. (EC 17611.5)

Whenever the IPM coordinator deems that the immediate use of a pesticide is necessary to protect the health and safety of students, staff, or other persons at the school site, he/she shall make every effort to provide the required notifications prior to the application of the pesticide. (EC 17612)

Warning Signs

The IPM coordinator shall post a warning sign at each area of the school site where pesticides will be applied that shall be visible to all persons entering the treated area. The sign shall be posted at least 24 hours prior to the application and shall remain posted until 72 hours after the application. The warning sign shall prominently display the following information: (EC 17612)

1. The term "Warning/Pesticide Treated Area"
2. The product name, manufacturer's name, and the EPA's product registration number
3. Intended areas and dates of application
4. Reason for the pesticide application

When advance posting is not possible due to an emergency condition requiring immediate use of a pesticide to protect the health and safety of students, staff, or other persons or the school site, the warning sign shall be posted immediately upon application and shall remain posted until 72 hours after the application. (EC 17609, 17612)

Records

At the end of each calendar year, the IPM coordinator shall submit to DPR, on a form provided by DPR, a copy of the records of all pesticide use at the school site for that year, excluding any pesticides exempted by law and any pesticide use reported by the pest control operator pursuant to Food and Agricultural Code 13186. The IPM coordinator may submit more frequent reports at his/her discretion. (EC 17611)

INTEGRATED PEST MANAGEMENT (Continued)

Each school site shall maintain records of all pesticide use at the school for four years, and shall make the information available to the public, upon request, in accordance with the California Public Records Act. A school may meet this requirement by retaining a copy of the warning sign posted for each pesticide application with a recording on that copy of the amount of the pesticide used. (EC 17611)

VIDEO SURVEILLANCE

Maintenance of the health, welfare, and safety of students, staff, and visitors on district property and the protection of district property are important functions of the Governing Board.

DISTRICT RECORDS

The Governing Board recognizes the importance of securing and retaining district documents. The Superintendent or designee shall ensure that district records are developed, maintained, and disposed of in accordance with law, Board policy, and administrative regulation.

The Superintendent or designee shall consult with district legal counsel, site administrators, district information technology staff, personnel department staff, and others as necessary to develop a secure document management system that provides for the storage, retrieval, archiving, and destruction of district documents, including electronically stored information such as email. This document management system shall be designed to comply with state and federal laws regarding security of records, record retention and destruction, response to "litigation hold" discovery requests, and the recovery of records in the event of a disaster or emergency.

The Superintendent or designee shall ensure the confidentiality of records as required by law and shall establish regulations to safeguard data against damage, loss, or theft.

The Superintendent or designee shall ensure that employees receive information about the district's document management system, including retention and confidentiality requirements and an employee's obligations in the event of a litigation hold established on the advice of legal counsel.

If the district discovers or is notified that a breach of security of district records containing unencrypted personal information has occurred, the Superintendent or designee shall notify every individual whose personal information was, or is reasonably believed to have been, acquired by an unauthorized person. Personal information includes, but is not limited to, a social security number, driver's license or identification card number, medical information, health insurance information, or an account number in combination with an access code or password that would permit access to a financial account. (Civil Code 1798.29)

The Superintendent or designee shall provide the notice in a timely manner either in writing or electronically, unless otherwise provided in law. The notice shall include the material specified in Civil Code 1798.29, be formatted as required, and be distributed in a timely manner, consistent with the legitimate needs of law enforcement to conduct an uncompromised investigation or any measures necessary to determine the scope of the breach and restore reasonable integrity of the data system. (Civil Code 1798.29)

Safe at Home Program

District public records shall not include the actual addresses of students, parents/guardians, or employees when a substitute address is designated by the Secretary of State pursuant to the Safe at Home program. (GC 6206, 6207)

Records means all records, maps, books, papers, and documents of a school district required by law to be prepared or retained as necessary or convenient to the discharge of official duty. (5 CCR 16020)

Before January 1, the Superintendent or designee shall review the prior year's records and shall classify them as either a Class 1 (Permanent), Class 2 (Optional), or Class 3 (Disposable) record. (5 CCR 16022)

Records of continuing nature (active and useful for administrative, legal, fiscal, or other purposes over a period of years) shall not be classified until such usefulness has ceased. (5 CCR 16022)

An inventory of equipment shall be a continuing record and shall not be classified until the inventory is superseded or until the equipment is removed from district ownership. (5 CCR 16022)

A student's cumulative record is a continuing record until the student ceases to be enrolled in the district. (5 CCR 16022)

If necessary due to the format or size of any publication specified above, the district may include only the statement that the district prohibits sex discrimination in any education program or activity that it operates, that individuals may report concerns or questions to the Title IX Coordinator, and the location of the complete notice on the district's website.

The district shall not distribute a publication stating that the district treats students, employees or applicants differently on the basis of sex, unless such treatment is permitted by Title IX.

3. Provide to employees a handbook which contains information that clearly describes the district's nondiscrimination policy, procedures for filing a complaint, and resources available to employees who believe they have been the victim of any discriminatory or harassing behavior
4. Provide training regarding the district's nondiscrimination policy, including what constitutes unlawful discrimination, harassment, and retaliation and how and to whom a report of an incident should be made, as well as any additional training as specified in 34 CFR 106.8 related to the prohibition of Title IX sex discrimination

The district may also provide bystander intervention training to employees that includes information and practical guidance on how to recognize potentially problematic behaviors and which may motivate them to take action when they observe such behaviors. The training and education may include exercises to provide employees with the skills and confidence to intervene as appropriate and to provide them with resources they can call upon that support their intervention. (Government Code 12950.2)

5. Periodically review the district's recruitment, hiring, and promotion processes and regularly monitor the terms, conditions, and privileges of employment to ensure district compliance with law and Board Policy 4111 - Recruitment and Selection
6. For any district facility where 10 percent of employees have a language other than English as their spoken language, translate the policy into every language spoken by at least 10 percent of the workforce (2 CCR 11023)

Complaint Procedure

Any complaint alleging unlawful discrimination or harassment shall be addressed in accordance with the following procedures:

1. Notice and Receipt of Complaint: A complainant may inform a direct supervisor,

ADMINISTRATIVE REGULATION**

NONDISCRIMINATION IN EMPLOYMENT (continued)

another supervisor, the coordinator, the Superintendent or, if available, a complaint hotline or an ombudsman.

The complainant's direct supervisor may be bypassed in filing a complaint when the supervisor is the subject of the complaint.

The complainant may first attempt to resolve the situation informally with the complainant's supervisor before filing a written complaint.

A supervisor or manager who has received information about an incident of discrimination or harassment, or has observed such an incident, shall report it to the coordinator, whether or not the complainant files a written complaint.

The written complaint should contain the complainant's name, the name of the individual who allegedly committed the act, a description of the incident, the date and location where the incident occurred, any witnesses who may have relevant information, any available evidence of the discrimination or harassment, and any other pertinent information which may assist in investigating and resolving the complaint.

2. Investigation Process: The coordinator shall initiate an impartial investigation of an allegation of discrimination or harassment within five business days of receiving notice of the alleged discriminatory or harassing behavior, regardless of whether a written complaint has been filed or whether the written complaint is complete.

The coordinator shall meet with the complainant to describe the district's complaint procedure and discuss the actions being sought by the complainant in response to the allegation. The coordinator shall inform the complainant that the investigation of the allegations will be fair, timely, and thorough and will be conducted in a manner that provides all parties due process and reaches reasonable conclusions based on the evidence collected. The coordinator shall also inform the parties that the investigation will be kept confidential to the extent possible, but that some information may be disclosed as necessary to conduct an effective investigation.

If the coordinator determines that a detailed fact-finding investigation is necessary, the investigation shall begin immediately. As part of this investigation, the coordinator should interview the complainant, the person accused, and other persons who could be expected to have relevant information.

The coordinator shall track and document the progress of the investigation to ensure reasonable progress and shall inform the parties as necessary.

AR 4030

NONDISCRIMINATION IN EMPLOYMENT (continued)

When necessary to carry out the investigation or to protect employee safety, the coordinator may discuss the complaint with the Superintendent or designee, district legal counsel, or the district's risk manager.

The coordinator shall also determine whether interim measures, such as scheduling changes, transfers, or leaves, need to be taken before the investigation is completed in order to prevent further incidents. The coordinator shall ensure that such interim measures do not constitute retaliation.

3. **Written Report on Findings and Remedial/Corrective Action:** No more than 20 business days after receiving the complaint, the coordinator shall conclude the investigation and prepare a written report of the findings. This timeline may be extended for good cause. If an extension is needed, the coordinator shall notify the parties and explain the reasons for the extension.

The report shall include the decision and the reasons for the decision and shall summarize the steps taken during the investigation. If a determination has been made that discrimination or harassment occurred, the report shall also include any corrective action(s) that have been or will be taken to address the behavior, provide appropriate options for remedial actions and resolutions for the complainant, and ensure that retaliation or further discrimination or harassment is prevented. The report shall be presented to the Superintendent or designee.

A summary of the findings shall be presented to the complainant and the person accused.

4. **Appeal to the Governing Board:** The complainant or the person accused may appeal any findings to the Board within 10 business days of receiving the written report of the coordinator's findings. The Superintendent or designee shall provide the Board with all information presented during the investigation. Upon receiving an appeal, the Board shall schedule a hearing as soon as practicable. Any complaint against a district employee shall be addressed in closed session in accordance with law. The Board shall render its decision within 10 business days.

In addition to filing a discrimination or harassment complaint with the district, a person may file a complaint with either CRD or the Equal Employment Opportunity Commission (EEOC). The time limits for filing such complaints are as follows:

1. For filing a complaint with CRD alleging a violation of Government Code 12940-12952, within three years of the alleged discriminatory act(s), unless an exception exists

No employee or job applicant who requests an accommodation for his/her physical or mental disability shall be subjected to discrimination or to any punishment or sanction, regardless of whether the request for accommodation was granted. (GC 12940)

The district designates the position specified in AR 4030 - Nondiscrimination in Employment as the coordinator of its efforts to comply with the Americans with Disabilities Act (ADA) and to investigate any and all related complaints.

When requesting reasonable accommodation for the hiring process, a job applicant shall inform the coordinator that he/she will need a reasonable accommodation during the process.

When the disability or the need for accommodation is not obvious, the coordinator may ask the employee to supply reasonable documentation about his/her disability. In requesting this documentation, the coordinator shall specify the types of information that are being sought about the employee's condition, the employee's functional limitations, and the need for reasonable accommodation. The employee may be asked to sign a limited release allowing the coordinator to submit a list of specific questions to his/her health care or vocational professional.

REASONABLE ACCOMMODATION (continued)

If the documentation submitted by the employee does not indicate the existence of a qualifying disability or explain the need for reasonable accommodation, the coordinator shall request additional documentation that specifies the missing information. If the employee does not submit such additional documentation in a timely manner, the coordinator may require him/her to submit to an examination by a health care professional selected and paid for by the district.

The district may make a medical or psychological inquiry of a job applicant or require him/her to submit to a medical or psychological examination after he/she has been given a conditional offer of employment but before the commencement of his/her job duties, provided the inquiry or examination is job-related, consistent with business necessity, and required for all incoming employees in the same job classification. (GC 12940)

The coordinator shall not request any job applicant's or employee's genetic information except as authorized by law. (42 USC 2000ff-1, 42 USC 2000ff-5)
(cf. 4161.8/4261.8/4361.8 - Family Care and Medical Leave)

In accordance with law, the coordinator shall take steps to ensure the confidentiality of information related to medical conditions or history. (42 USC 12112)
(cf. 4112.6/4212.6/4312.6 - Personnel Files)

Granting Reasonable Accommodation

Upon receiving a request for reasonable accommodation from a qualified individual with a disability, the coordinator shall:

REASONABLE ACCOMMODATION (continued)

A determination of undue hardship should be based on several factors, including: (29 CFR 1630.2)

- a. The nature and net cost of the accommodation needed, taking into consideration the availability of tax credits and deductions and/or outside funding
- b. The overall financial resources of the facility making the accommodation, the number of persons employed at this facility, and the effect on expenses and resources of the facility
- c. The overall financial resources, number of employees, and the number, type, and location of facilities of the district
- d. The type of operation of the district, including the composition, structure, and functions of the workforce and the geographic separateness and administrative or fiscal relationship of the facility making the accommodation to other district facilities
- e. The impact of the accommodation on the operation of the facility, including the impact on the ability of other employees to perform their duties and the impact on the facility's ability to conduct business

The coordinator may confer with the site administrator, any medical advisor chosen by the district, and/or other district staff before making a final decision as to the accommodation.

Reasonable Accommodation Committee

The coordinator may appoint a committee to review or assist in the development of appropriate plans to reasonably accommodate qualified individuals who request modifications or adjustments in their work duties or environment because of known physical or mental disabilities.

Committee members shall be selected on the basis of their knowledge of the specific functions and duties required in the position, the physical work environment, available accommodations, and other relevant issues. The committee may include a district administrator, site administrator, medical advisor or rehabilitation specialist, and as necessary, a certificated and/or classified employee. Membership may change on a case-by-case basis.

At the coordinator's discretion, the employee or applicant requesting accommodation may participate in the committee's meetings. If the employee or applicant is excluded from the committee's meetings, the coordinator shall communicate with him/her so that he/she has the opportunity to interact and contribute to planning the reasonable accommodation.

LOWER DIVISION UNITS -- CERTIFICATED

The Enterprise Board of Education recognizes that certificated personnel may be able to provide a better instructional program for the benefit of the students in the school district when they obtain additional training and education and provides incentives to encourage teachers to continue such training and education. In order to be a fully qualified certificated employee, the individual must have completed a considerable amount of college work. Additional training normally would be expected to be upper division or graduate work.

The Enterprise Board of Education recognizes that many valuable training and educational experiences are available which are classified as lower division work. Under the terms of the employee agreement, such lower division work may be used in the place of upper division or graduate units if deemed acceptable by the Board of Education.

It is the intent of this policy to facilitate approval of appropriate requests to substitute lower division work in the classification of teacher process.

The Board of Education delegates the responsibility for the substitution of lower division units for credit on the certificated wage schedule to the superintendent with the following conditions to be applied:

STUDENT TEACHER PROGRAM

The Enterprise Board of Education encourages a cooperative effort with teacher training institutions through student teacher programs. The Board of Education feels that it has a professional responsibility to assist in the training of future teachers, that positive benefits accrue to the district through the university influence, that the program brings additional personnel to assist students, that present employees obtain a broader perspective, and that through the program the district has an opportunity to view potential teachers on a first-hand basis.

It shall be the policy of the Enterprise School District to review the possibility of a cooperative effort between the university and the school district and to determine whether the district should enter into such an effort.

The Superintendent will bring the matter to this Board of Education along with a recommendation regarding participation. If a determination is made to participate in such a program, the following will prevail:

1. The final determination regarding the number of student teachers to be assigned, school locations, and specific assignments will remain with the Enterprise School District.
2. The district's cooperating teachers would participate only on a voluntary basis.
3. All classroom teachers, permitted by contract, will be eligible to participate in the program.
4. The Superintendent will inform all teachers in the district of the possibility of participating in the program and will invite an expression of interest.
5. Any allocation of funds accruing to the district as a result of participating in the student teacher program will be allocated to the teachers who supervised the student teacher.
6. The student teacher program is to make the minimal disruption to the ongoing instructional program and must be justified on the basis of enhancing the instructional program for the benefit of the students involved.
7. The district reserves the right to terminate the program at any time if it becomes disruptive to the administrative or educational processes of the district.

ILLEGAL ACTIONS

The Enterprise Board of Education recognizes that California school employees do not have the legal right to strike. In the event any or all school employees engage in illegal activities such as a work stoppage, strike, or other such related activities, the following emergency policies will take effect, and the Superintendent is to inform employees and the media that these policies are being activated when, at his discretion, it is deemed to be appropriate and necessary to take such action:

Keep Schools Open

It will be the policy of the Enterprise Board of Education that every effort will be made to keep schools open and continue an educational program for the good of the children. The Superintendent, or his designee, shall be the only District employee authorized to close any school facility, and such action will only be taken when the health or safety of the students or staff is in jeopardy.

Staffing Schools

- Aides, Volunteers, and Parents – Administrators of the District, under the direction of the Superintendent, are to enlist the services of aides, volunteers, and parents to help in the supervision of students. These individuals, unless properly credentialed, are not authorized to serve in an instructional capacity, except under the supervision of a certificated person.

- Substitute Teachers – The Superintendent is authorized to hire substitute teaching employees and to pay these substitutes at a premium rate of up to the minimum daily rate of regular teaching employees at Step 1, Class 1 of the Certificated Wage Schedule in effect at the time, with the Superintendent being given the discretion to determine the appropriate rate of pay and the duration of this pay with the established maximum stated being applied.

Leaves of Absence

Immediately upon the Superintendent's declaration that an emergency exists, all employee absences must be substantiated by written proof of the need for the leave. Pay will not be granted for leaves of absence unless the employee worked or was validly excused from work both on the workday before the absence and the workday after the absence.

During the period of the emergency, personal necessity leave will only be allowed for emergency reasons.
- Other Leaves – Permission to take other leaves must be received in advance of the leave. No personal leaves will be granted except for emergency reasons.

Unauthorized Leaves

TEACHER QUALIFICATIONS UNDER THE NO CHILD LEFT BEHIND ACT

PARENTAL NOTIFICATION OF TEACHER QUALIFICATIONS

To Parents/Guardians:

Your child is attending a school receiving Title I federal funds through the No Child Left Behind (NCLB) Act. This federal law requires that parents/guardians be notified when a teacher who has not demonstrated that he/she meets the NCLB teacher requirements has taught their child for four or more consecutive weeks.

Under the NCLB, teachers of core academic subjects are required to hold state certification and demonstrate subject matter competency for the grade span or subject matter taught. Newly hired Title I teachers must meet the NCLB requirements when hired. All other teachers have until the end of the 2005-06 school year to meet the requirements.

These requirements help us to ensure that all our students receive the best education by teachers who are highly skilled and knowledgeable in their subject areas. Our school district is currently working to determine that our teachers meet these requirements and, if necessary, help teachers meet the requirements through additional support and training.

Currently, a teacher who is authorized to teach in California, but who has not yet completed the process for meeting the NCLB requirements, has taught your child for four or more consecutive weeks. Under the law, school districts have until June 2006 to determine if all their teachers meet the federal requirements. Therefore, your child's teacher may meet the requirements and has just not had the opportunity to demonstrate that he/she does.

You may contact [insert school name] to request the qualifications of your child's teacher. If you have any questions, please contact [insert principal name] at [insert telephone number].

EMPLOYMENT OF RELATIVES

The Governing Board desires to maximize staff and community confidence in district hiring, promotion, and other employment decisions by promoting practices that are free of conflicts of interest or the appearance of impropriety.

(cf. 4030 – Nondiscrimination in Employment)

(cf. 9270 – Conflict of Interest)

The Board prohibits the appointment of any person to a position for which his/her relative maintains management, supervisory, evaluation, or promotion responsibilities and prohibits an employee from participating in any decision that singularly applies to any of his/her relatives.

(cf. 4111/4211/4311 – Recruitment and Selection)

(cf. 4115/4215/4315 – Evaluation/Supervision)

For purposes of this policy, relative includes the individual's spouse, domestic partner, parents, grandparents, great-grandparents, children, grandchildren, great-grandchildren, brothers, sisters, aunts, uncles, nieces, nephews, and the similar family of the individual's spouse or domestic partner.

In addition, the Superintendent or designee may determine, on a case-by-case basis, whether to appoint a person to a position in the same department or facility as an employee with whom he/she maintains a personal relationship when that relationship has the potential to create (1) an adverse impact on supervision, safety, security, or morale of other district employees or (2) a conflict of interest for the individuals involved which is greater because of their relationship than it would be for another person.

(cf. 4031 – Complaints Concerning Discrimination in Employment)

An employee shall notify his/her supervisor within 30 days of any change in his/her circumstances that may constitute a violation of this policy.

TEMPORARY MODIFIED AND ALTERNATIVE DUTIES

Enterprise Elementary School District is committed to returning injured employees to modified or alternative work as soon after an injury as possible. When reasonable accommodation can be met, early return to work will be facilitated by temporarily modifying the employee's job or temporarily providing the employee with alternate duties. Temporary assignments and/or temporary modified duties should be for no longer than 60 working days. Modified duty and/or an alternative position should be evaluated at least every 14 days. This allows the employee and the District to be regularly reviewing the current restrictions. The requirements of the District, the employee's medical condition, and the physical limitations or restrictions described by the attending physician will be considered as a priority when identifying the modified/alternative position.

This program is intended to provide our employees with an opportunity to continue as valuable members of our team while recovering from a work related injury. We want to minimize any adverse effects of an ongoing disability on our employees. The temporary assignment and/or temporary modified duties are at the discretion of the District and subject to available appropriate work. This program is intended to promote speedy recoveries, while keeping the employees' work patterns and income consistent. At the same time, we benefit from having our employees providing a service and contributing to the overall mission of the District.

This program applies to ALL employees of Enterprise Elementary School District.

District Responsibilities

All injuries and the duration of the disability will be handled by the Assistant Director of Human Resources and/or the designee (hereinafter referred to as 'Contact Person').

The Contact Person will act as a liaison between the District, the injured worker, the attending physician and Shasta-Trinity Schools Insurance Group.

The Contact Person will make sure the appropriate paperwork and forms have been properly handled and submitted to the appropriate parties.

The Contact Person will monitor the modified/alternative work and gather any additional information that may be needed to properly handle the return to work efforts.

Supervisor/Manager Responsibilities

In the event of an injury, the supervisor/manager will make sure that the employee receives first aid, or appropriate medical treatment at the designated medical facility. If necessary due to the nature of the injury, the supervisor/manager will accompany the employee to the medical clinic.

The attending physician shall be notified on the first visit that the District has a return to work program and that modified/alternative work will be provided whenever possible. The supervisor/manager will work closely with the Contact Person to coordinate the return to work efforts and will be responsible for introducing the employee back into the workplace in the modified/alternative position.

Supervisor/manager will make sure that the injured employee receives necessary assistance from co-workers and that *the employee does NOT work outside of his/her restrictions*. Monitoring for transition into full duty work will be the supervisor's/manager's responsibility.

Employee Responsibilities

If an injury occurs on the job, the employee is required to report it to their supervisor or manager immediately. Employees that fail to report an injury may be subject to discipline. The employee must proceed to the selected provider/medical facility for occupational injury unless the employee has previously designated their personal physician (M.D.) through the Medical Provider Network (MPN) process. If necessary due to the nature of the injury, an employer representative will accompany the employee to the medical clinic.

Together with the physician, the employee's physical restrictions and limitations shall be discussed. All employees are expected to return to the worksite the very SAME day to report the physician's findings and to discuss modified or alternative work. This will enable all parties to be kept abreast of the employee's condition. Employees that have an injury shall report to the worksite after each doctor's visit to discuss his/her recovery.

Once an employee has returned to work, it is his/her responsibility to work within the physical limitations that the physician has given. The employee shall perform only those duties that are assigned to him/her. An employee shall immediately notify his/her supervisor of any difficulty in performing the duties. The employee must also notify his/her supervisor in advance of any medical appointments (time off will be allowed for industrial appointments if the employee is unable to schedule the appointment during non-work time). The employee shall keep his/her supervisor/manager informed of the recovery process and the ability to perform modified/alternative work.

Responsibilities of All Involved

Everyone involved in this process is encouraged to ask or address questions. Unasked questions can lead to confusion. The District is committed to promoting in the best possible way a full recovery for any of our industrially injured employees.

Temporary Modified And Alternative Duties Procedures

When an employee is temporarily disabled from performing his/her usual and customary duties as a result of a work-related injury or illness, the District will offer a modified and/or alternative work program. This temporary/modified work duty program will allow the District to assign the employee to a limited/alternative work program within the work restriction described by the District's workers' compensation physician or employee's authorized treating physician.

The operating procedure will be as follows:

1. The employee is sent to a District-approved physician or the employee's authorized treating physician.
2. The employee receives a medical examination and/or treatment and is given a statement of release to regular work or release to work with restrictions. The physician outlines the physical restrictions and capabilities of the employee in the release form.
3. The employee MUST return the release form to his/her immediate supervisor. The supervisor will immediately send a copy of the release to work with restrictions to the Human Resources Department.
4. The Human Resources Department will set up an interactive meeting with the employee and supervisor to address the restrictions and work on a modified/alternative assignment within the physician's work restrictions.
5. If the employee refuses the work offered in the modified/alternative work program assignment, no temporary disability benefits shall be payable. The employee will use personal sick or vacation leave for the absence.
6. The temporary modified/alternative work assignment will be limited to no more than sixty (60) working days for any one injury.
7. Employees who are disabled for more than sixty (60) working days and employees for whom no modified/alternative work is available will be considered temporarily totally disabled and eligible for the appropriate leaves until the employee can return to full duty.

8. All work assignments are at the discretion of the District and subject to available work at the time. Work assignments will be non-discriminatory.
9. The temporary modified/alternative work does not constitute establishing a permanent modified duty position. The assignment will be for tasks that need to be done or where extra help is otherwise needed and utilized.
10. When necessary, the work site will have the option of hiring a substitute, in addition to the employee on modified work.
11. Upon release to perform the regular job duties, the employee will return to the permanent work site and his/her regular job.

The Superintendent or designee shall periodically evaluate the effectiveness of the district's strategies to prevent and address harassment. Such evaluation may involve conducting regular anonymous employee surveys to assess whether harassment is occurring or is perceived to be tolerated, partnering with researchers or other agencies with the needed expertise to evaluate the district's prevention strategies, and using any other effective tool for receiving feedback on systems and/or processes. As necessary, changes shall be made to the harassment policy, complaint procedures, or training.

SEXUAL HARASSMENT

This administrative regulation shall apply to all allegations of sexual harassment involving employees, interns, volunteers, and job applicants, but shall not be used to resolve any complaint by or against a student.

Definitions

Prohibited sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature made against another person of the same or opposite sex in the work or educational setting when: (EC 212.5; GC 12940; 2 CCR 11034)

1. Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
2. Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
3. Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district.

Prohibited sexual harassment also includes conduct which, regardless of whether or not it is motivated by sexual desire, is so severe or pervasive as to unreasonably interfere with the victim's work performance or create an intimidating, hostile, or offensive work environment.

Examples of actions that might constitute sexual harassment in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

1. Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
2. Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
3. Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Training

The Superintendent or designee shall ensure that all employees receive training regarding the district's sexual harassment policies when hired and periodically thereafter. The training shall include how to recognize prohibited or harassing conduct, the procedures for reporting and/or filing complaints involving an employee, employees' duty to use the district's complaint procedures, and employee obligations when a sexual harassment report involving a student is made to the employee. The training shall also include information about processes for employees to informally share or obtain information about harassment without filing a complaint.

(cf. 1312.3 - Uniform Complaint Procedures)

(cf. 4030 - Nondiscrimination in Employment)

(cf. 5145.7 - Sexual Harassment)

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours of classroom or other effective interactive training and education regarding sexual harassment. All such newly hired or promoted employees shall receive training within six months of their assumption of the new position. (GC 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (GC 12926)

(cf. 4300 - Administrative and Supervisory Personnel)

The district's sexual harassment training and education program for supervisory employees shall be aimed at assisting them in preventing and effectively responding to incidents of sexual harassment, as well as implementing mechanisms to promptly address and correct wrongful behavior. The training shall include, but is not limited to, the following: (GC 12950.1; 2 CCR 11024)

2. The types of conduct that constitute sexual harassment and practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
3. A supervisor's obligation to report sexual harassment, discrimination, and retaliation of which he/she becomes aware and what to do if the supervisor himself/herself is personally accused of harassment

6. A copy of the district's sexual harassment policy and administrative regulation, which each participant shall acknowledge in writing that he/she has received
7. The definition and prevention of abusive conduct that addresses the use of derogatory remarks, insults, or epithets, other verbal or physical conduct that a reasonable person would find threatening, intimidating, or humiliating, and the gratuitous sabotage or undermining of a person's work performance

TITLE IX SEXUAL HARASSMENT COMPLAINT PROCEDURES

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a district employee was subjected to one or more of the following forms of sexual harassment: (34 CFR 106.30)

1. A district employee conditioning the provision of a district aid, benefit, or service on a person's participation in unwelcome sexual conduct
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity
3. Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291
(cf. 4119.11 - Sexual Harassment)

All other sexual harassment complaints shall be investigated and responded to pursuant to AR 4030 - Nondiscrimination in Employment.
(cf. 4030 - Nondiscrimination in Employment)

A report of sexual harassment shall be submitted directly to or forwarded to the district's Title IX Coordinator using the contact information listed in AR 4119.11 - Sexual Harassment.

Upon receiving such a report, the Title IX Coordinator shall inform the complainant of the process for filing a formal complaint.

Even if the alleged victim chooses not to file a formal complaint, the Title IX Coordinator shall file a formal complaint in situations in which a safety threat exists. In addition, the Title IX Coordinator may file a formal complaint in other situations as permitted under the Title IX regulations. In such cases, the alleged victim is not a party to the case, but will receive notices as required by the Title IX regulations at specific points in the complaint process.

A formal complaint, with the complainant's physical or digital signature, may be filed with the Title IX Coordinator in person, by mail, by email, or by any other method authorized by the district. (34 CFR 106.30)

The Superintendent or designee shall ensure that the Title IX Coordinator, investigator, decision-maker, or a facilitator of an informal resolution process does not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent, and that such persons receive training in accordance with 34 CFR 106.45. PERSONNEL

AR 4119.12

TITLE IX SEXUAL HARASSMENT COMPLAINT PROCEDURES (CONTINUED)

Upon receipt of a report of Title IX sexual harassment, even if a formal complaint is not filed, the Title IX Coordinator shall promptly contact the complainant to discuss the availability of supportive measures which are nondisciplinary, nonpunitive, and do not unreasonably burden the other party. Such measures may include, but are not limited to, counseling, extensions of deadlines, modifications of work schedules, mutual restrictions on contact, changes in work locations, leaves of absence, increased security, and monitoring of certain areas of the campus. The Title IX Coordinator shall consider the complainant's wishes with respect to supportive measures. (34 CFR 106.30, 106.44)

Emergency Removal

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

If the respondent is a student, the district may, on an emergency basis, remove the student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an immediate threat to the physical health or safety of any student or other individual arising from the allegations, and provides the student with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator shall dismiss a formal complaint if the alleged conduct would not constitute sexual harassment as defined in 34 CFR 106.30 even if proved. The Title IX Coordinator shall also dismiss any complaint that did not occur in the district's education program or activity or did not occur against a person in the United States, and may dismiss a formal complaint if the complainant notifies the district in writing that the complainant would like to withdraw the complaint or any allegations in the complaint, the respondent is no longer employed by the district, or sufficient circumstances prevent the district from gathering evidence sufficient to reach a determination with regard to the complaint. (34 CFR 106.45)

Upon dismissal, the Title IX Coordinator shall promptly, and simultaneously to the parties, send written notice of the dismissal and the reasons for the dismissal. (34 CFR 106.45)

If a complaint is dismissed on the grounds that the alleged conduct does not constitute sexual harassment as defined in 34 CFR 106.30, the conduct may still be addressed pursuant to AR 4030 - Nondiscrimination in Employment as applicable.

process, such as mediation, at any time prior to reaching a determination regarding responsibility. The district shall not require a party to participate in the informal resolution process or to waive the right to an investigation and adjudication of a formal complaint. (34 CFR 106.45)

The district may facilitate an informal resolution process provided that the district: (34 CFR 106.45)

1. Provides the parties with written notice disclosing the allegations, the requirements of the informal resolution process, the right to withdraw from the informal process and resume the formal complaint process, and any consequences resulting from participating in the informal resolution process, including that records will be maintained or could be shared.
2. Obtains the parties' voluntary, written consent to the informal resolution process

Formal Complaint Process

If a formal complaint is filed, the Title IX Coordinator shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process
2. The allegations potentially constituting sexual harassment with sufficient details known at the time, including the identity of parties involved in the incident if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident if known. Such notice shall be provided with sufficient time for the parties to prepare a response before any initial interview.

If, during the course of the investigation, the district investigates allegations about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.

3. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the complaint process
4. The opportunity for the parties to have an advisor of their choice who may be, but is not required to be, an attorney, and the ability to inspect and review evidence
5. The prohibition against knowingly making false statements or knowingly submitting false information during the complaint process

The above notice shall also include the name of the investigator, facilitator of an informal process, and decision-maker and shall provide either party with no less than three calendar days to raise concerns of conflict of interest or bias regarding any of these persons.

TITLE IX SEXUAL HARASSMENT COMPLAINT PROCEDURES (CONTINUED)

During the investigation process, the district shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence
2. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence
3. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney
4. Not limit the choice or presence of an advisor for either the complainant or respondent in any meeting or grievance proceeding, although the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings as long as the restrictions apply equally to both parties
5. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings, with sufficient time for the party to prepare to participate
6. Send in an electronic format or hard copy to both parties and their advisors, if any, the evidence that is directly related to the allegations raised in the complaint, and provide the parties at least 10 days to submit a written response for the investigator to consider prior to the completion of the investigative report
7. Objectively evaluate all relevant evidence, including both inculpatory and exculpatory evidence, and determine credibility in a manner that is not based on a person's status as a complainant, respondent, or witness
8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the determination of responsibility, send to the parties and their advisors, if any, the investigative report in an electronic format or a hard copy, for their review and written response
9. After sending the investigative report to the parties and before reaching a determination regarding responsibility, afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence are offered to prove that someone other than the respondent committed the conduct alleged by the complainant or if the questions and evidence

concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.

Privacy rights of all parties to the complaint shall be maintained in accordance with applicable state and federal laws.

If the complaint is against an employee, rights conferred under an applicable collective bargaining agreement shall be applied to the extent they do not conflict with the Title IX requirements.

Written Decision

The Superintendent shall designate an employee as the decision-maker to determine responsibility for the alleged conduct, who shall not be the Title IX Coordinator or a person involved in the investigation of the matter. (34 CFR 106.45)

The decision-maker shall issue, and simultaneously provide to both parties, a written decision as to whether the respondent is responsible for the alleged conduct. (34 CFR 106.45)

The written decision shall be issued within 45 calendar days of the receipt of the complaint.

The timeline may be temporarily extended for good cause with written notice to the complainant and respondent of the extension and the reasons for the action. (34 CFR 106.45)

In making this determination, the district shall use the "preponderance of the evidence" standard for all formal complaints of sexual harassment. (34 CFR 106.45)

The written decision shall include the following: (34 CFR 106.45)

1. Identification of the allegations potentially constituting sexual harassment as defined in 34 CFR 106.30
2. A description of the procedural steps taken from receipt of the formal complaint through the written decision, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held if the district includes hearings as part of the grievance process
3. Findings of fact supporting the determination
4. Conclusions regarding the application of the district's code of conduct to the facts
5. A statement of, and rationale for, the result as to each allegation, including a decision regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's educational program or

activity will be provided by the district to the complainant

6. The district's procedures and permissible bases for the complainant and respondent to appeal

Appeals

Either party may appeal the district's decision or dismissal of a formal complaint or any allegation in the complaint, if the party believes that a procedural irregularity affected the outcome, new evidence is available that could affect the outcome, or a conflict of interest or bias by the Title IX Coordinator, investigator(s), or decision-maker(s) affected the outcome. If an appeal is filed, the district shall: (34 CFR 106.45)

1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties
2. Ensure that the decision-maker(s) for the appeal is trained in accordance with 34 CFR 106.45 and is not the same decision-maker(s) who reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator
3. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome
5. Provide the written decision simultaneously to both parties

An appeal must be filed in writing within 10 calendar days of receiving the determination, stating the grounds for the appeal and including any relevant documentation in support of the appeal. Appeals submitted after this deadline are not timely and shall not be considered. Either party has the right to file a complaint with the U.S. Equal Employment Opportunity Commission.

A written decision shall be provided to the parties within 20 calendar days from the receipt of the appeal.

Remedies

When a determination of responsibility for sexual harassment has been made against the respondent, the district shall provide remedies to the complainant. Such remedies may include the same individualized services described above in the section "Supportive Measures," but need not be nondisciplinary or nonpunitive and need not avoid burdening the respondent. (34 CFR 106.45)

Disciplinary Actions

The district shall not impose any disciplinary sanctions or other actions against a respondent, other than supportive measures as described above in the section "Supportive Measures," until the

complaint procedure has been completed and a determination of responsibility has been made. (34 CFR 106.44)

(34 CFR 106.45)

The Superintendent or designee shall also maintain for a period of seven years all materials used to train the Title IX Coordinator, investigator(s), decision-maker(s), and any person who facilitates an informal resolution process. CTA AND NEA CODE OF ETHICS OF THE EDUCATION PROFESSION

Preamble

The educator, believing in the worth and dignity of each human being, recognizes the supreme importance of the pursuit of truth, devotion to excellence, and the nurturing of democratic principles. Essential to these goals is the protection of freedom to learn and to teach and the guarantee of equal educational opportunity for all. The educator accepts the responsibility to adhere to the highest ethical standards.

The educator recognizes the magnitude of the responsibility inherent in the teaching process. The desire for the respect and confidence of one's colleagues, of students, of parents, and of the members of the community provides the incentive to attain and maintain the highest possible degree of ethical conduct. The Code of Ethics of the Education Profession indicates the aspiration of all educators and provides standards by which to judge conduct.

Principle I. Commitment to the Student

The educator strives to help each student realize his/her potential as a worthy and effective member of society. The educator therefore works to stimulate the spirit of inquiry, the acquisition of knowledge and understanding, and the thoughtful formulation of worthy goals.

In fulfillment of the obligation to the student, the educator:

1. Shall not unreasonably restrain the student from independent action in the pursuit of learning

3. Shall not deliberately suppress or distort subject matter relevant to the student's progress
4. Shall make reasonable effort to protect the student from conditions harmful to learning or to health and safety
5. Shall not intentionally expose the student to embarrassment or disparagement
6. Shall not on the basis of race, color, creed, gender, national origin, marital status, political or religious beliefs, family, social, or cultural background, or sexual orientation, unfairly:
 - a. Exclude any student from participation in any program
 - b. Deny benefits to any student
 - c. Grant any advantage to any student

PROFESSIONAL STANDARDS (continued)

8. Shall not disclose information in the course of professional service unless disclosure serves a compelling professional purpose or is required by law

Principle II. Commitment to the Profession

The education profession is vested by the public with a trust and responsibility requiring the highest ideals of professional service.

In the belief that the quality of the services of the education profession directly influences the nation and its citizens, the educator shall exert every effort to raise professional standards, to promote a climate that encourages the exercise of professional judgment, to achieve conditions that attract persons worthy of the trust to careers in education, and to assist in preventing the practice of the profession by unqualified persons.

In fulfillment of the obligation of the profession, the educator:

1. Shall not in any application for a professional position deliberately make a false statement or fail to disclose a material fact related to competency and qualifications
2. Shall not misrepresent his/her professional qualifications
3. Shall not assist any entry into the profession of a person known to be unqualified in respect to character, education, or other relevant attribute
4. Shall not knowingly make a false statement concerning the qualifications of a candidate for a professional position
5. Shall not assist a noneducator in the unauthorized practice of teaching
6. Shall not disclose information about colleagues obtained in the course of professional service unless disclosure serves a compelling professional purpose or is required by law

MAINTAINING APPROPRIATE ADULT-STUDENT INTERACTIONS

The Governing Board desires to provide a positive school environment that protects the safety and well-being of district students. The Board expects all adults with whom students may interact at school or in school-related activities, including employees, independent contractors, and volunteers, to maintain the highest professional and ethical standards in their interactions with students both within and outside the educational setting. Such adults shall not engage in unlawful or inappropriate interactions with students and shall avoid boundary-blurring behaviors that undermine trust in the adult-student relationship and lead to the appearance of impropriety.

(cf. 4119.21/4219.21/4319.21 - Professional Standards)

Employees are prohibited from entering into or attempting to form a romantic or sexual relationship with any student or engaging in sexual harassment of a student, including sexual advances, flirtations, requests for sexual favors, inappropriate comments about a student's body or appearance, or other verbal, visual, or physical conduct of a sexual nature.

(cf. 5145.7 - Sexual Harassment)

Adults shall not intrude on a student's physical or emotional boundaries unless necessary in an emergency or to serve a legitimate purpose related to instruction, counseling, student health, or student or staff safety.

Any employee who observes or has knowledge of another employee's violation of this policy shall report the information to the Superintendent or designee or appropriate agency for investigation pursuant to the applicable complaint procedures. Other adults with knowledge of any violation of this policy are encouraged to report the violation to the Superintendent or designee. The Superintendent or designee shall protect anyone who reports a violation from retaliation. Immediate intervention shall be implemented when necessary to protect student safety or the integrity of the investigation.

(cf. 1312.1 - Complaints Concerning District Employees)

(cf. 1312.3 - Uniform Complaint Procedures)

(cf. 5141.4 - Child Abuse Prevention and Reporting)

Employees who engage in any conduct in violation of this policy, including retaliation against a person who reports the violation or participates in the complaint process, shall be subject to discipline, up to and including dismissal. Any other adult who violates this policy may be barred from school grounds and activities in accordance with law. The Superintendent or designee may also notify law enforcement as appropriate.

EXPOSURE CONTROL PLAN FOR BLOODBORNE PATHOGENS

As part of its commitment to provide a safe and healthful work environment, the Governing Board recognizes the importance of developing an exposure control plan. The Superintendent or designee shall establish a written exposure control plan in accordance with state and federal standards for dealing with potentially infectious materials in the workplace to protect employees from possible infection due to contact with bloodborne pathogens, including but not limited to hepatitis B virus, hepatitis C virus and human immunodeficiency virus (HIV).

(cf. 4119.43/4219.43/4319.43 - Universal Precautions)

(cf. 4157/4257/4357 - Employee Safety)

The Superintendent or designee shall determine which employees have occupational exposure to bloodborne pathogens and other potentially infectious materials. In accordance with the district's exposure control plan, employees having occupational exposure shall be offered the hepatitis B vaccination.

The Superintendent or designee may exempt designated first aid providers from pre-exposure hepatitis B vaccination under the conditions specified by state regulations. (8 CCR 5193(f))

Any employee not identified by the Superintendent or designee as having occupational exposure may submit a request to the Superintendent or designee to be included in the training and hepatitis B vaccination program. The Superintendent or designee may deny a request when there is no reasonable anticipation of contact with any infectious material.

EXPOSURE CONTROL PLAN FOR BLOODBORNE PATHOGENS

Definitions

Occupational exposure means reasonably anticipated skin, eye, mucous membrane, or parenteral contact with blood or other potentially infectious materials that may result from the performance of an employee's duties. (8 CCR 5193(b))

Exposure incident means a specific eye, mouth, other mucous membrane, nonintact skin, or parenteral contact with blood or other potentially infectious materials that result from the performance of an employee's duties. (8 CCR 5193 (b))

Parenteral contact means piercing mucous membranes or the skin barrier through such events as needlesticks, human bites, cuts, and abrasions. (8 CCR 5193(b))

A sharp is any object that can be reasonably anticipated to penetrate the skin or any other part of the body and to result in an exposure incident. (8 CCR 5193(b))

A sharps injury is any injury caused by a sharp, including but not limited to cuts, abrasions or needlesticks. (8 CCR 5193(b))

Work practice controls are controls that reduce the likelihood of exposure by defining the manner in which a task is performed. (8 CCR 5193(b))

Engineering controls are controls, such as sharps disposal containers, needleless systems, and sharps with engineered sharps injury protection, that isolate or remove the bloodborne pathogens hazard from the workplace. (8 CCR 5193(b))

Engineered sharps injury protection is a physical attribute built into a needle device or into a non-needle sharp which effectively reduces the risk of an exposure incident. (8 CCR 5193(b))

Exposure Control Plan

The district's exposure control plan shall contain at least the following components: (8 CCR 5193(c))

1. A determination of which employees have occupational exposure to blood or other potentially infectious materials

The district's exposure determination shall be made without regard to the use of personal protective equipment and shall include a list of:

5. An effective procedure for periodically determining the frequency of use of the types and brands of sharps involved in exposure incidents documented in the sharps injury log
6. An effective procedure for identifying currently available engineering controls and selecting such controls as appropriate for the procedures performed by employees in their work areas or departments
7. An effective procedure for documenting instances when a licensed healthcare professional directly involved in a patient's care determines, in the reasonable exercise of clinical judgment, that the use of an engineering control would jeopardize an individual's safety or the success of a medical, dental or nursing procedure involving the individual

Hepatitis B Vaccination

The hepatitis B vaccination and vaccination series shall be made available at no cost to all employees who have occupational exposure. The hepatitis B vaccination shall be made available after an employee with occupational exposure has received the required training and within 10 working days of initial assignment, unless the employee has previously received the complete hepatitis B vaccination series, or antibody testing has revealed that the employee is immune, or vaccination is contraindicated by medical reasons. (8 CCR 5193(f))

Employees who decline to accept the vaccination shall sign the hepatitis B declination statement. (8 CCR 5193(f))

CERTIFICATED DAYS OUT OF THE CLASSROOM

The Governing Board recognizes the benefits of staff development for teachers, but also recognizes that a student's education depends upon the continuity of the teacher in the classroom. It is the district's policy to allow a maximum of 10 days out of the classroom per school year for approved school business. At the beginning of each school year, teachers are required to identify the days they will be out of the classroom. Some adjustment to the list of 10 days may need to be made after initial submission of the list. The following definitions are written to clarify what constitutes and does not constitute approved school business:

1. **Activities Designated as Approved School Business**

Approved School Business is defined as staff development inservices, committee work, teacher visitation, and/or other activities designed to improve the skills of the employee.

District-driven staff development shall be given priority and consideration before any commitment to attending or presenting for outside organizations.

These activities shall have approval of the site administrator with three weeks advance notice:

A. **Conference Attendance**

Authorization is given through the process of submitting a Conference Attendance Request Form. In filling out the Conference Attendance Request Form, approval must be received from the site administrator, as well as from the person with budget responsibility for the costs associated with the conference, including the cost of the substitute prior to attending the event.

B. **Teacher Visitation**

Peer coaching and classroom visitations are encouraged. Teachers should discuss this opportunity with their site administrator. The site administrator is the person responsible for authorizing time for teachers to visit and observe other teachers either at their own site or at other sites. The site administrator must also cover the associated substitute costs. If the visitation is for a half day or less, the time is not included in the 10 day total.

C. **Committee Involvement**

Committee work is important for the functionality of the district and its departments. Site administrator authorization is required for this time out of the classroom. If the committee work is for a half day or less, the time is not included in the 10 day total.

CERTIFICATED DAYS OUT OF THE CLASSROOM (continued)

D. Employees Providing Staff Development -- Within the District

The Governing Board recognizes that district employees may be asked to present in the area of their expertise for district staff development. These days out of the classroom may be considered approved school business within the following guidelines:

- 1) If the days spent presenting within the district are within the ten (10) days allowable, the district shall pay for the cost associated with securing a substitute.
- 2) All requests made to teachers to present must be initiated by the Director of Instructional Services.
- 3) Presenting teachers shall be paid for their preparation time according to contract guidelines.

E. Employees Providing Staff Development -- Outside the District

The Governing Board recognizes that district employees may be asked to present in the area of their expertise for districts or agencies outside Enterprise Elementary School District. These days out of the classroom may be considered as approved school business within the following guidelines:

- 1) The days requested are within the employee's allowable ten days out of the classroom and the employee has by now given priority to district driven staff development opportunities.
- 2) All requests must be submitted to the site administrator with a three week advance notice. Within a week, administrators will respond with approval or disapproval of the request.
- 3) The Enterprise Elementary School District shall be reimbursed for the cost associated with securing a substitute.
- 4) Activities are incompatible with district employment if they require time periods that interfere with the proper, efficient discharge of the employee's duties; if they entail compensation from an outside source; if it involves district duty time; or if they involve using, for private gain, the district's name, prestige, time, facilities, equipment, or supplies.

A. Days out of the classroom beyond the 10 day maximum allowed

The following guidelines will apply to these days:

- 1) Any request for leave to present to an outside organization, when the leave would not otherwise be permitted as approved school business or personal leave days, must be approved three weeks in advance by the superintendent or designee and the days shall be unpaid by Enterprise Elementary School District.
- 2) Reimbursement for the cost of the substitute shall be given to the District Business Services Department for deposit.

BARGAINING UNITS

The Governing Board recognizes the right of district employees to form a bargaining unit, select an employee organization as their exclusive representative, and be represented by that organization in their employment relationship with the district. The Board is committed to negotiating in good faith with recognized employee organizations and respecting the rights of employees and employee organizations.

(cf. 4141/4241 - Collective Bargaining Agreement)

(cf. 4143/4243 - Negotiations/Consultation)

(cf. 9000 - Role of the Board)

The district shall not dominate or interfere with the formation or administration of any employee organization or contribute financial or other support to it. (GC 3543.5)

Formation of Bargaining Units

Certificated and classified employees shall not be included in the same bargaining unit. (GC 3545)

The district may recognize a bargaining unit of supervisory employees if: (GC 3545)

1. The bargaining unit includes all supervisory employees.
2. The supervisors are not represented by the same organization that represents employees whom the supervisory employees supervise.
(cf. 4300 - Administrative and Supervisory Personnel)
(cf. 4301 - Administrative Staff Organization)
(cf. 4312.1 - Contracts)

For this purpose, supervisory employee means any employee, regardless of job description, having the authority, in the interest of the district, to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward, discipline, assign work, direct, adjust grievance of other employees, or effectively recommend that action. The exercise of this authority shall not be merely routine or clerical in nature, but shall require the use of independent judgment. (GC 3540.1)

Employees serving in management, senior management, or confidential positions shall not be represented by an exclusive representative. Such employees may represent themselves individually or may be represented by an employee organization whose membership is composed entirely of employees designated as holding those positions. When represented by an employee organization, that organization shall not meet and negotiate with the district. For this purpose: (GC 3540.1, 3543.4)

ENTERPRISE ELEMENTARY SCHOOL DISTRICT BOARD POLICY

PERSONNEL

BP 4140

BARGAINING UNITS (continued)

1. Management employee means any employee who has significant responsibilities for formulating district policies or administering district programs, and whose position is designated as a management position by the Board.
2. Confidential employee means any employee who is required to develop or present management positions with respect to employer-employee relations or whose duties normally require access to confidential information that is used to contribute significantly to the development of management positions.

Membership

The district shall not deter or discourage employees or job applicants from becoming or remaining members of an employee organization, authorizing representation by an employee organization, or authorizing dues or fee deductions to an employee organization. In addition, the district shall not impose or threaten to impose reprisals on employees, discriminate or threaten to discriminate against employees, or otherwise interfere with, restrain, or coerce employees because of their membership or nonmembership in an employee organization. (GC 3543.5, 3550)
(cf. 4119.1/4219.1/4319.1 - Civil and Legal Rights)

The Superintendent or designee may communicate with district employees regarding their rights under the law. Such communications shall be factual and accurate, and may not promise a benefit, threaten a reprisal, or in any way deter or discourage employees from joining an employee organization or paying dues.

However, before disseminating to multiple employees any mass communication concerning employees' right to join or support an employee organization or to refrain from joining or supporting an employee organization, such as a written document or script for oral or recorded presentation or message, the Superintendent or designee shall meet and confer with the employees' exclusive representative regarding the content of the communication. If the district and exclusive representative do not come to agreement on the content of the mass communication, the Superintendent or designee may disseminate the district's mass communication provided that, at the same time, copies of the exclusive representative's communication, which shall be of reasonable length, are also distributed. (GC 3553)

Access to Employee Orientations and Contact Information

The district shall permit employee organizations access to new employee orientations where newly hired employees are advised, whether in person, online, or through other means or mediums, of their employment status, rights, benefits, duties, responsibilities, or any other employment-related matters. The district shall provide employee organizations at least 10 days' notice in advance of an

orientation. However, in any specific instance where an unforeseeable, urgent need critical to the district's operation prevents the required 10 days' notice, a shorter notice may be provided. (GC 3555.5, 3556)

The structure, time, and manner of the access to new employee orientations shall be determined by mutual agreement of the district and the exclusive representative, following a request to negotiate by either party. If the district and exclusive representative fail to reach an agreement, matters related to the access to new employee orientation shall be subject to compulsory interest arbitration. The district and employee organization may mutually agree to submit any dispute to compulsory interest arbitration at any time. In addition, if any dispute arises during negotiations and is not resolved within 45 days after the first meeting or within 60 days after the initial request to negotiate, whichever is earlier, either party may make a demand for compulsory interest arbitration. When any such dispute arises during the summer when the district's administrative office is closed, the timeline shall commence on the first day the administrative office reopens. The decision of the arbitrator shall be final and binding on the parties. (GC 3556, 3557)

The date, time, and place of the orientation shall not be disclosed to anyone other than employees, the exclusive representative, or a vendor that is contracted to provide a service for purposes of the orientation. (GC 3556)

The Superintendent or designee shall provide an exclusive representative with the name, job title, department, work location, telephone numbers on file with the district, personal email address(es) on file with the district, and home address of any newly hired employee in the bargaining unit, within 30 days of hire or by the first pay period of the month following hire (or by a mutually agreed-upon alternative schedule). In addition, the Superintendent or designee shall provide the same information in regard to all employees in the bargaining unit to an exclusive representative at least every 120 days (or by a mutually agreed-upon alternative schedule), unless more frequent or detailed lists are required by agreement with the exclusive representative. (GC 3558, 6254.3)

However, the Superintendent or designee shall not disclose the home address and any phone numbers on file for employees performing law enforcement-related functions, nor shall he/she disclose the home address, home or personal cell phone number(s), or personal email address(es) of any employee who is a participant in the Safe at Home address confidentiality program pursuant to Government Code 6207 or any employee who provides written request that the information not be disclosed for this purpose. Following receipt of a written request, the district shall remove the employee's home address, home and personal cell phone numbers, and personal email address from any mailing list maintained by the district unless the list is only used by the district to contact the employee. Membership Dues or Other Payments to an Employee Organization

When drawing an order for the salary or wage payment of a bargaining unit employee of an employee organization, the district shall deduct any amount which has been requested by the employee in a revocable written authorization for the purpose of paying dues or other payments for any service, program, or committee provided or sponsored by the employee organization. (EC 45060, 45168)

An employee organization that certifies that it has and will maintain individual employee authorizations shall handle and process employee written authorizations for payroll deductions. When an employee organization provides such a certification to the district, the district shall rely on information from the employee organization regarding the amounts of such payroll deductions and from which employees. The District will provide employee organizations with a monthly deadline for payroll deductions. The employee organization shall not be required to submit to the district a copy of the written authorization in order for the payroll deductions to be effective. However, when there is a dispute about the existence or terms of the written authorization, a copy of the employee's written authorization shall be submitted to the district. The employee organization shall indemnify the district for any employee claims regarding payroll deductions made by the district in reliance on notification from the employee organization. (EC 45060, 45168)

When an employee organization which has declined to certify that it will handle and process employee written authorizations makes a request for payroll deductions, the district shall request a copy of the employee's written authorization before making the payroll deductions. (EC 45060, 45168)

A written authorization shall remain in effect until expressly revoked in writing by the employee and pursuant to the terms of the written authorization. Employee requests to cancel or change authorizations for payroll deductions for employee organizations shall be directed to the employee organization rather than the district. The employee organization shall be responsible for processing these requests. The district shall rely on the information provided by the employee organization regarding whether deductions for an employee organization were properly canceled or changed. The employee organization shall be required to indemnify the district for any claims made by an employee for deductions made by the district in reliance on information from the employee organization. COMPLAINTS—PROCESS FOR EMPLOYEES

The following guidelines shall prescribe the manner in which employee complaints are handled:

1. A "complaint" shall be defined as an alleged misapplication of the district's policies, regulations, and procedures or reasonable conduct. Procedures for the resolution of employee complaints provide a route of appeal through administrative channels and to the Governing Board, if necessary. If the complaint is related to discrimination, the district's procedure for complaints concerning discrimination should be used.
(cf. 4030 - Nondiscrimination in Employment--EESD)
2. Complaints should be made directly to the offending employee's immediate supervisor. If the complaint is with the supervisor, then the complaint would go to the next supervisory level up and/or the Governing Board, if necessary.
3. If a complaint involves sexual harassment, the employee is not required to resolve sexual harassment complaints with the offending person.
(cf. 4620 – Sexual Harassment--EESD)
4. So as not to interfere with school schedules, meetings related to a complaint shall be held before or after the complainant's regular working hours.
5. All matters related to a complaint shall be kept confidential. Only those individuals directly involved in resolving the complaint shall be informed of the complaint.
6. No reprisals shall be taken against any participant in the complaint procedure.
7. Time limits specified in these procedures may be reduced or extended in any specific instance by written mutual agreement of the parties involved. If specified or adjusted time limits expire, the complaint may proceed to the next step.
8. Any complaint not taken to the next step within prescribed time limits shall be considered settled on the basis of the answer given at the preceding step.
9. Complainant shall provide written information about an incident if informal processes have been exhausted.

Step 1

Employees are encouraged to resolve complaints informally. Formal complaint procedures shall not be initiated unless informal efforts to resolve the complaint have been exhausted and the complainant has provided a written description of such efforts.

The immediate or appropriate supervisor shall present all concerned parties with a written answer to the complaint within ten (10) working days after the initial meeting.

Step 3

If a complaint has not been satisfactorily resolved at Step 2, the complainant may file the written complaint with the Superintendent or designee within five (5) working days of receiving the answer at Step 2. All information presented at Step 2 shall be included with the complaint and the immediate or appropriate supervisor shall submit to the Superintendent or designee a report describing attempts to resolve the complaint at Step 2.

AWARDS AND RECOGNITION

The Governing Board believes the District's employees are its most valuable resource and encourages recognition of the services they provide. They also recognize that the level of service to students is highly dependent upon the service of its employees. Individual contributions and service of excellence should be recognized on an individual basis as is deemed appropriate by the supervisor and staff where the individual is serving. Such recognition is encouraged by the Board of Education.

The Board authorizes awards to employees who:

1. Propose ideas or procedures which eliminate or reduce District expenditures or improve District operations
2. Perform special acts or services in the public interest
3. By their superior accomplishments, make exceptional contributions to the efficiency, economy, or other improvement in District operations
4. Have completed five or more years of service to the District.

The Governing board, Superintendent, or designee may issue service pins, certificates, plaques, or other mementos in accordance with Board policy and administrative regulations.

The employee will be recognized at a regularly scheduled Board meeting.

1. Accident or illness, whether or not the absence arises out of and in the course of employment; quarantine which results from contact in the course of employment with other persons having a contagious disease; or temporary inability to perform assigned duties because of illness, accident, or quarantine (EC 44964)
(cf. 4157.1/4257.1/4357.1 - Work-Related Injuries)
2. Pregnancy, miscarriage, childbirth, and related recovery (EC 44965, 44978)

An employee may take sick leave at any time during the school year, even if credit for sick leave has not yet been accrued. (EC 44978)

An employee shall reimburse the district for any unearned sick leave used as of the date of termination.

Unused days of sick leave shall be accumulated from year to year without limitation. (EC 44978)

The district shall not require new employees to waive leave accumulated in a previous district. (EC 44979, 44980)

Any certificated employee who leaves the district after at least one school year of employment that accepts a certificated position in another district, county office of education, or community college district within one year, the employee may request that the district transfer any accumulated sick leave to the new employer. (EC 44979, 44980)

Additional Leave for Disabled Military Veterans

In addition to any other entitlement for sick leave with pay, a certificated employee who is a former active duty member of the U.S. Armed Forces or a former or current member of the California National Guard or a federal reserve component shall be entitled to sick leave with pay of up to 10 days for the purpose of undergoing medical treatment, including mental health treatment, for a military service-connected disability rated at 30 percent or more by the U.S. Department of Veterans Affairs. An eligible employee who works less than five days per week shall be entitled to such leave in proportion to the time worked. (EC 44978.2)

The amount of leave shall be credited to the employee either on the date the employee receives confirmation of the submission of the disability application to the U.S. Department of Veterans Affairs or on the first day the employee begins or returns to employment after active duty, whichever is later. When the employee receives the disability rating decision, the employee shall report that information to the Superintendent or designee. The Superintendent or designee may require verification, in accordance with the section "Verification Requirements" below, that the employee used the leave to obtain treatment of a military service-connected disability.

Leave for military-service connected disability shall be available for 12 months following the first date that the leave was credited. Leave not used during the 12-month period shall not be carried over and shall be forfeited. (EC 44978.2)

Notification of Absence

An employee shall notify the district of the need to be absent as soon as such need is known, so that substitute services may be secured. This notification shall include an estimate of the expected duration of absence. If the absence becomes longer than estimated, the employee shall so notify the district. If the duration of absence becomes shorter than estimated, the employee shall notify the district not later than three o'clock in the afternoon of the day preceding the day on which the employee intends to return to work. If the employee fails to notify the district and the failure results in a substitute being secured, the cost of the substitute shall be deducted from the employee's pay. (cf. 4121 - Temporary/Substitute Personnel)

Continued Absence After Available Sick Leave Is Exhausted/Differential Pay

During each school year, when a certificated employee has exhausted all available sick leave, including all accumulated sick leave, and, due to illness or accident, continues to be absent for an additional period of up to five school months, the district shall deduct from the employee's regular salary for that period the actual cost of a substitute to fill the position. If the district has made every reasonable effort to secure the services of a substitute and has been unable to do so, the amount that would have been paid to a substitute shall be deducted from the employee's salary. (EC 44977)

An employee shall not be provided more than one five-month period per illness or accident. However, if the school year ends before the five-month period is exhausted, the employee may take the balance of the five-month period in a subsequent school year. (EC 44977)

Absence Beyond Five-Month Period/Reemployment List

If during this time the employee becomes medically able, the employee shall be returned to employment in a position for which the employee is credentialed and qualified. (EC 44978.1)

(cf. 4116 - Probationary/Permanent Status)

Parental Leave

During each school year, a certificated employee may use all available sick leave, including accumulated sick leave, for the purpose of parental leave for a period of up to 12 work weeks. The 12-week period shall be reduced by any period of sick leave, including accumulated sick leave, taken during a period of such parental leave. (EC 44977.5)

The certificated employee must have been an employee for at least 12 months. Eligibility for such leave shall not require 1,250 hours of service with the district during the previous 12 months. (EC 44977.5)

An employee who has exhausted all available sick leave, including accumulated sick leave, and continues to be absent on account of parental leave shall receive differential pay of at least 50 percent of the employee's regular salary for the remainder of the 12 work weeks. (EC 44977.5)

Parental leave taken pursuant to Education Code 44977.5 shall run concurrently with the parental leave taken pursuant to Government Code 12945.2 or 12945.6, and the aggregate amount of parental leave shall not exceed 12 work weeks in a 12-month period. (EC 44977.5; GC 12945.2, 12945.6)

Verification Requirements

The Superintendent or designee may require verification whenever an employee's absence record shows chronic absenteeism or a pattern of absences immediately before or after weekends and/or holidays or whenever available evidence clearly indicates that an absence is not related to illness or injury.

In addition, the Superintendent or designee may require an employee to visit a physician selected by the district, at district expense, in order to receive a report on the employee's need for further leave of absence and a prognosis as to when the employee will be able to return to work. If the report concludes that the employee's condition does not warrant continued absence, the Superintendent or designee may, after giving notice to the employee, deny further leave.

LEAVES – FAMILY CARE AND MEDICAL LEAVE (continued)

PDL shall run concurrently with FMLA leave for disability caused by an employee's pregnancy. At the end of the employee's FMLA leave for disability caused by pregnancy, or at the end of four months of PDL, whichever occurs first, a CFRA-eligible employee may request to take CFRA leave of up to 12 work weeks, for the reason of the birth of a child or to bond with or care for the child. (GC 12945, 12945.2; 2 CCR 11046, 11093)

Leave taken for the birth or placement of a child must be concluded within the 12-month period beginning on the date of the birth or placement of the child. Such leave does not need to be taken in one continuous period of time. (2 CCR 11090; 29 USC 2612)

If both parents of a child work for the district, their family care and medical leave related to the birth or placement of the child shall be limited to a combined total of 12 work weeks. This restriction shall apply regardless of the legal status of both parents' relationship. (GC 12945.2, 12945.6; 2 CCR 11088; 29 USC 2612)

Use/Substitution of Paid Leave

Except for pregnancy disability leave, during the period of family care and medical leave, the district shall require the employee to use his/her accrued vacation leave, other accrued time off, and any other paid time off negotiated with the district for any otherwise unpaid FMLA or CFRA leave not involving his/her own serious health condition. For PDL, CFRA, or FMLA leave due to an employee's own serious health condition, the employee shall use accrued sick leave and may use accrued vacation leave and other paid time off at his/her option. (GC 12945, 12945.2, 12945.6; 2 CCR 11044; 29 USC 2612)

The district and employee may also negotiate for the employee's use of any additional paid or unpaid time off instead of using the employee's CFRA leave. (2 CCR 11092)

(cf. 4141/4241 - Collective Bargaining Agreement)

PDL and family care and medical leave for the serious health condition of an employee or his/her child, parent, or spouse may be taken intermittently or on a reduced work or leave schedule when medically necessary, as determined by the health care provider of the person with the serious health condition. However, the district shall limit leave increments to the shortest period of time that the district's payroll system uses to account for absences or use of leave provided it is not to be greater than one hour. (2 CCR 11042, 11090; 29 USC 2612)

LEAVES – FAMILY CARE AND MEDICAL LEAVE (continued)

The basic minimum duration of leave for the birth, adoption, or foster care placement of a child shall be two weeks. However, the district shall grant a request for such leave of less than two weeks on any two occasions. (2 CCR 11090; 29 USC 2612)

The district may require an employee to transfer temporarily to an available alternative position under any of the following circumstances: (2 CCR 11041, 11090; 29 USC 2612)

1. The employee needs intermittent leave or leave on a reduced work schedule that is foreseeable based on a planned medical treatment for the employee or family member.
2. A medical certification is provided by the employee's health care provider that, because of pregnancy, the employee has a medical need to take intermittent leave or leave on a reduced work schedule.
3. The district agrees to permit intermittent leave or leave on a reduced work schedule due to the birth, adoption, or foster care placement of the employee's child.

The alternative position must have equivalent pay and benefits and must better accommodate recurring periods of leave than the employee's regular job, and the employee must be qualified for the position. Transfer to an alternative position may include altering an existing job to better accommodate the employee's need for intermittent leave or a reduced work or leave schedule. (2 CCR 11041, 11090; 29 USC 2612)

Request for Leave

The district shall consider an employee's request for PDL or family care and medical leave only if the employee provides at least verbal notice sufficient to make the district aware of the need to take the leave and the anticipated timing and duration of the leave. (2 CCR 11050, 11091)

For family care and medical leave, the employee need not expressly assert or mention FMLA/CFRA to satisfy this requirement. However, he/she must state the reason the leave is needed (e.g., birth of child, medical treatment). If more information is necessary to determine whether the employee is eligible for family care and medical leave, the Superintendent or designee shall inquire further and obtain the necessary details of the leave to be taken. (2 CCR 11091)

The district shall respond to requests for leave as soon as practicable, but no later than five business days after receiving the employee's request. (2 CCR 11091)

LEAVES – FAMILY CARE AND MEDICAL LEAVE (continued)

Based on the information provided by the employee, the Superintendent or designee shall designate the leave, paid or unpaid, as FMLA/CFRA qualifying leave and shall give notice of such designation to the employee. Failure of an employee to respond to permissible inquiries regarding the leave request may result in denial of CFRA protection if the district is unable to determine whether the leave is CFRA-qualifying. (2 CCR 11091; 29 CFR 825.300)

When an employee is able to foresee the need for PDL or family care and medical leave at least 30 days in advance of the leave, the employee shall provide the district with at least 30 days' advance notice before the leave. When the 30 days' notice is not practicable because of a lack of knowledge of when leave will be required to begin, a change in circumstances, a medical emergency, or other good cause, the employee shall provide the district with notice as soon as practicable. Failure of an employee to provide required notice may result in a denial of leave. (2 CCR 11050, 11091)

In all instances, the employee shall consult with the Superintendent or designee and make a reasonable effort to schedule, subject to the health care provider's approval, any planned appointment or medical treatment or supervision so as to minimize disruption to district operations. (GC 12945.2; 2 CCR 11050, 11091)

Certification of Health Condition

Within five business days of an employee's request for family care and medical leave for his/her own or his/her child's, parent's, or spouse's serious health condition, the Superintendent or designee shall request that the employee provide certification by a health care provider of the need for leave. Upon receiving the district's request, the employee shall provide the certification within 15 days, unless either the Superintendent or designee provides additional time or it is not practicable under the particular circumstances, despite the employee's diligent, good faith efforts. (2 CCR 11091; 29 CFR 825.305)

The certification shall include the following: (GC 12945.2; 2 CCR 11087; 29 USC 2613)

1. The date on which the serious health condition began
2. The probable duration of the condition
3. If the employee is requesting leave to care for a child, parent, or spouse with a serious health condition, both of the following:
 - a. Statement that the serious health condition warrants the participation of the employee to provide care, such as by providing psychological comfort, arranging for third party care, or directly providing or participating in the medical care of the child, parent, or spouse during a period of the treatment or supervision.

**ENTERPRISE ELEMENTARY SCHOOL DISTRICT

LEAVES – FAMILY CARE AND MEDICAL LEAVE (continued)

- b. Estimated amount of time the health care provider believes the employee needs to care for the child, parent, or spouse
- 4. If the employee is requesting leave because of his/her own serious health condition, a statement that due to the serious health condition, he/she is unable to work at all or is unable to perform one or more essential functions of his/her job.
- 5. If the employee is requesting leave for intermittent treatment or on a reduced leave schedule for planned medical treatment, a statement of the medical necessity for the leave, the dates on which treatment is expected to be given, the duration of such treatment, and the expected duration of the leave.

When an employee has provided sufficient medical certification to enable the district to determine whether the employee's leave request is FMLA/CFRA-eligible, the Superintendent or designee shall notify the employee within five business days whether the leave is FMLA/CFRA-eligible. The Superintendent or designee may also retroactively designate leave as FMLA/CFRA leave as long as appropriate notice is given to the employee and there is no harm or injury to the employee. (2 CCR 11091; 29 CFR 825.301)

If the Superintendent or designee doubts the validity of a certification that accompanies a request for leave for the employee's own serious health condition, he/she may require the employee to obtain a second opinion from a district-approved health care provider, at district expense. If the second opinion is contrary to the first, the Superintendent or designee may require the employee to obtain a third medical opinion from a third health care provider approved by both the employee and the district, again at district expense. The opinion of the third health care provider shall be final and binding. (GC 12945.2; 2 CCR 11091; 29 USC 2613)

For PDL, the Superintendent or designee shall request that the employee provide certification by a health care provider of the need for leave at the time the employee gives notice of the need for PDL, or within two business days of giving the notice. If the need for PDL is unforeseen, the Superintendent or designee shall request the medical certification within two business days after the leave commences. The Superintendent or designee may request certification at some later date if he/she has reason to question the appropriateness of the leave or its duration. (2 CCR 11050)

For PDL that is foreseeable and for which at least 30 days' notice has been given, the employee shall provide the medical certification before the leave begins. When this is not practicable, the employee shall provide the certification within the time frame specified by the Superintendent or designee which must be at least 15 days after the request, unless it is not practicable under the particular circumstances despite the employee's diligent, good faith efforts. Medical certification for PDL purposes shall include a statement that the employee needs to take the leave because the employee is disabled by pregnancy, childbirth, or a related medical condition, the date on which the employee became disabled because of pregnancy, and the estimated duration of the leave. (2 CCR 11050)

If additional PDL or family care and medical leave is needed when the time estimated by the health care provider expires, the district may require the employee to provide recertification in the manner specified for the leave. (GC 12945.2; 2 CCR 11050; 29 USC 2613)

The Superintendent or designee shall not request any genetic information related to an employee except as authorized by law in accordance with the California Genetic Information Nondiscrimination Act of 2011.

Release to Return to Work

Upon expiration of an employee's PDL or family care and medical leave taken for his/her own serious health condition, the employee shall present certification from the health care provider that he/she is able to resume work. The certification shall address the employee's ability to perform the essential functions of his/her job.

(cf. 4112.4/4212.4/4312.4 - Health Examinations)

Rights to Reinstatement

Upon granting an employee's request for PDL or FMLA/CFRA leave, the Superintendent or designee shall guarantee to reinstate the employee in the same or a comparable position when the leave ends. (GC 12945.2; 2 CCR 11043, 11089; 29 USC 2614)

However, the district may refuse to reinstate an employee returning from FMLA or CFRA leave to the same or a comparable position if all of the following apply: (GC 12945.2; 2 CCR 11089; 29 USC 2614)

1. The employee is a salaried "key employee" who is among the highest paid 10 percent of district employees who are employed within 75 miles of the employee's worksite.
2. The refusal is necessary to prevent substantial and grievous economic injury to district operations.
3. The district informs the employee of its intent to refuse reinstatement at the time it determines that the refusal is necessary, and the employee fails to immediately return to service.

The district may also refuse to reinstate an employee to the same or a comparable position if the FMLA/CFRA leave was fraudulently obtained by the employee. (2 CCR 11089; 29 CFR 825.216)

The district may refuse to reinstate an employee to the same position after taking PDL if, at the time the reinstatement is requested, the employee would not otherwise have been employed in that position for legitimate business reasons unrelated to the employee's PDL. (2 CCR 11043)

Maintenance of Benefits/Failure to Return from Leave

During the period when an employee is on PDL or family care and medical leave, he/she shall maintain his/her status with the district and the leave shall not constitute a break in service for purposes of longevity, seniority under any collective bargaining agreement, or any employee benefit plan. (GC 12945.2; 2 CCR 11092; 29 USC 2614)

For up to a maximum of four months for PDL and 12 work weeks for other family care and medical leave, the district shall continue to provide an eligible employee the group health plan coverage that was in place before he/she took the leave. The employee shall reimburse the district for premiums paid during the leave if he/she fails to return to district employment after the expiration of all available leaves and the failure is for a reason other than the continuation, recurrence, or onset of a serious health condition or other circumstances beyond his/her control. (GC 12945.2; 2 CCR 11044, 11092; 29 USC 2614; 29 CFR 825.213)

(cf. 4154/4254/4354 - Health and Welfare Benefits)

In addition, during the period when an employee is on PDL or family care and medical leave, the employee shall be entitled to continue to participate in other employee benefit plans including life insurance, short-term or long-term disability insurance, accident insurance, pension and retirement plans, and supplemental unemployment benefit plans to the same extent and under the same conditions as would apply to an unpaid leave taken for any other purpose. However, for purposes of pension and retirement plans, the district shall not make plan payments for an employee during any unpaid portion of the leave period and the leave period shall not be counted for purposes of time accrued under the plan. (GC 12945.2; 2 CCR 11044, 11092)

Military Family Leave Resulting from Qualifying Exigencies

An eligible employee may take up to 12 work weeks of unpaid FMLA leave, during each 12-month period established by the district in the section entitled "Terms of Leave" above, for one or more qualifying exigencies while his/her child, parent, or spouse who is a military member is on covered active duty or on call to covered active duty status. DISMISSAL/SUSPENSION/DISCIPLINARY ACTION (continued)

- v. Any other failure of good behavior either during or outside of duty hours which is of such nature that it causes discredit to the district or his/her employment.

Except as defined in item "s" above, no personnel action shall be taken for any cause which arose before the employee became permanent, nor for any cause which arose more than two years before the date of the filing of the notice of cause unless this cause was concealed or not disclosed by the employee when it could be reasonably assumed that the employee would have disclosed the facts to the district.

2. Notice of Proposed Disciplinary Action

Prior to the Superintendent recommending to the Board of Education that disciplinary action be taken, the administrator/manager initiating the charges shall serve the employee personally or by certified mail (return receipt requested) with a Notice of Proposed Disciplinary Action. The Notice shall contain:

- a. A statement of the nature of the proposed disciplinary action (suspension without pay, demotion, or dismissal).
- b. A statement of the cause or causes for the disciplinary action, as set forth above.
- c. A statement of the specific acts or omissions upon which the causes are based. If a violation of rule, policy, or regulation of the District is alleged, the rule, policy, or regulation violated shall be stated in the recommendation.
- d. A statement giving the employee at least seven (7) days (see Article 14.1.3) in which to arrange to meet with and/or furnish written information concerning the charges to the Superintendent or designee (who shall not be the person who initiated the charges or anyone subordinate to that person.)

3. Initiation and Notification of Charges

The Superintendent or designee may initiate a personnel action as defined herein against a permanent classified employee.

In all cases involving a personnel action, the person initiating the action shall file a written recommendation of personnel action with the Board. A copy of the recommendation shall be served upon the employee either personally or by registered or certified mail, return receipt requested, at the employee's last known address. The recommendation shall include:

- c. A statement of the specific acts or omissions upon which the causes are based. If a violation of rule, policy, or regulation of the district is alleged, the rule, policy, or regulation violated shall be stated in the recommendation.
- d. A statement of the employee's right to appeal the recommendation and the manner and time within which the appeal must be filed.
- e. A card or paper, the signing and filing of which shall constitute a demand for hearing and a denial of all charges.

4. Employment Status Pending Appeal or Waiver

Except as provided herein, any employee against whom a recommendation of personnel action has been issued shall remain on active duty status and responsible for fulfilling the duties of the position pending his/her appeal or waiver thereof.

If the Superintendent or designee determines that a permanent classified employee should be dismissed and that his/her continuing in active duty status would present an unreasonable risk of harm to students, staff, or property while proceedings are pending, the Superintendent or designee may order the employee immediately suspended from duty without pay in conjunction with the recommendation of personnel action. This suspension order shall be in writing and shall state the reasons that the suspension is deemed necessary. The suspension order shall be served upon the employee either personally or by registered or certified mail, return receipt requested, immediately after issuance. Except in cases of emergency when the employee must be removed from the premises immediately, the Superintendent or designee shall give the employee written notice of the proposed recommendation of dismissal at least five calendar days before the effective date of any order of suspension issued in conjunction with a recommendation involving dismissal. This notice shall state that immediate suspension without pay is being considered, the reasons for the proposed dismissal and proposed immediate suspension without pay, materials upon which the proposed action is based, and the employee's right to respond to the Superintendent or designee orally or in writing before the final recommendation and order are issued.

5. Time Limit of Suspension

Except for a suspension imposed under #3 above, any suspension invoked under these rules against any one person for one or more periods shall not aggregate more than 90 calendar days in any 12-month period; however, this time limitation shall not apply to cases in which a personnel action of dismissal is modified by the Board to a suspension.

6. Right to Appeal

Within seven calendar days after receiving the recommendation of personnel action described above, the employee may appeal by signing and filing the card or paper included with the recommendation. Any other written document signed and appropriately filed within the specified time limit by the employee shall constitute a sufficient notice of appeal. A notice of appeal is filed only by delivering the notice of appeal to the office of the Superintendent or designee during normal work hours of that office. A notice of appeal may be mailed to the office of the Superintendent or designee but must be received or postmarked no later than the time limit stated herein. In cases where an order of suspension without pay has been issued in conjunction with a recommendation of dismissal, any appeal of the recommendation of dismissal shall also constitute an appeal of the suspension order, and the necessity of the order shall be an issue in the appeal hearing.

If the employee fails to file a notice of appeal within the time specified in these rules, he/she shall be deemed to have waived his/her right to appeal, and the Board may order the recommended personnel action into effect immediately.

7. Amended/Supplemental Charges

At any time before an employee's appeal is finally submitted to the Board or to a hearing officer for decision, the complainant may, with the consent of the Board or hearing officer, serve on the employee and file with the Board an amended or supplemental recommendation of personnel action.

If the amended or supplemental recommendation presents new causes or allegations, the employee shall be afforded a reasonable opportunity to prepare his/her defense. Any new causes or allegations shall be deemed controverted and any objections to the amended or supplemental causes or allegation may be made orally at the hearing and shall be noted on the record.

8. Hearing Procedures

- a. The hearing shall be held at the earliest convenient date, taking into consideration the established schedule of the Board or hearing officer and the availability of counsel and witnesses. The parties shall be notified of the time and place of the hearing. The employee shall be entitled to appear personally, produce evidence, and have counsel. The employee shall be entitled to a public hearing if he/she demands it when the Board is hearing the appeal. The complainant may also be represented by counsel. The procedure entitled "Administrative Adjudication" commencing with Government Code 11500 shall not apply to any such hearing before the Board or a hearing officer. Neither the Board nor a hearing officer shall be bound by rules of evidence used in California courts. Informality in any such hearing shall not invalidate any order or decision made or approved by the hearing officer or the Board.
- b. All hearings shall be heard by a hearing officer (who shall be an attorney licensed in the State of California) except in those cases where the Board determines to hear the appeal itself. In any case in which the Board hears the appeal, the Board may use the services of its counsel or a hearing officer in ruling upon procedural questions, objections to evidence, and issues of law. If the appeal is heard by the Board, the Board shall affirm, modify or revoke the recommended personnel action.
- c. If the appeal is heard by a hearing officer, he/she shall prepare a proposed decision in a form that may be adopted by the Board as the decision in the case. A copy of the proposed decision shall be received and filed by the Board and furnished to each party within ten days after the proposed decision is filed by the Board. The Board may:
 - (1) Adopt the proposed decision in its entirety.
 - (2) Reduce the personnel action set forth in the proposed decision and adopt the balance of the proposed decision.
 - (3) Reject a proposed reduction in personnel action, approve the personnel action sought by the complainant or any lesser penalty, and adopt the balance of the proposed decision.
 - (4) Reject the proposed decision in its entirety.

AR 4218

DISMISSAL/SUSPENSION/DISCIPLINARY ACTION (continued)

- d. If the Board rejects the proposed decision in its entirety, each party shall be notified of such action and the Board may decide the case upon the record including the transcript, with or without the taking of additional evidence, or may refer the case to the same or another hearing officer to take additional evidence. If the case is so assigned to a hearing officer, he/she shall prepare a proposed decision, as provided in item "c" above, upon the additional evidence and the transcript and other papers which are part of the record of the prior hearing. A copy of this proposed decision shall be furnished to each party within 10 calendar days after the proposed decision is filed by the Board.
- e. In arriving at a decision or a proposed decision on the propriety of the proposed personnel action, the Board or the hearing officer may consider the records of any prior personnel action proceedings against the employee in which a personnel action was ultimately sustained and any records that were contained in the employee's personnel files and introduced into evidence at the hearing.

9. Hearing Decision

The decision of the Board shall be in writing and shall contain findings of fact and the personnel action approved, if any. The findings may reiterate the language of the pleadings or simply refer to them.

The decision of the Board shall be certified to the Superintendent or designee who recommended the personnel action, and he/she shall enforce and follow this decision. A copy of the decision shall be delivered to the appellant or his/her designated representative personally or by registered mail. The decision of the Board shall be final.

10. Compulsory Dismissal

The district shall not employ or retain in employment any person who has been convicted of any sex offense as defined in Education Code 44010 or any controlled substance offense as defined in Education Code 44011. However, the district may employ a person convicted of a controlled substance offense if the Board determines from the evidence it requires that the person has been rehabilitated for at least five years. If any such conviction is reversed and the person acquitted or charges dismissed except as otherwise provided below, the employee may be reemployed by the district, although reemployment is not a guarantee. (EC 45123)

The district reserves the right to dismiss an employee for any acts upon which the original criminal charges were based, despite the disposition by the courts. If dismissal is recommended and upheld, an employee will not be reemployed or compensated for the time he/she was suspended unless otherwise required by law. NEGOTIATIONS -- PHILOSOPHY OF NEGOTIATIONS

The Board of Education of the Enterprise Elementary School District acts as a general agent for the state, carrying out the will of the people of its district in the matter of public education. In so doing, it recognizes that its first responsibility is to provide for quality education for all the children of all the people residing within the district. It further recognizes that it has a responsibility to the employees of the district, and accepts as a concern their welfare and well being. This carries with it the need to remain accountable in maintaining the district and using its resources in a fiscally prudent manner. Within this framework, the Board of Education views negotiation as a problem solving process wherein the purpose is to resolve or avoid conflict in those areas as defined in SB160, Section 3543.2. It is the intent of the Board of Education to meet and negotiate with the employees' representative in an atmosphere of mutual respect and cooperation to attempt to reach agreement so that the larger job of the education of children may be accomplished in an atmosphere of peaceful labor relations for the term of the contract.

DRUG AND ALCOHOL TESTING FOR EMPLOYEES SUBJECT TO COMMERCIAL DRIVER'S LICENSE

The governing board is strongly committed to providing a safe, drug-free workplace. In addition, an employee substance abuse testing program is mandated for all employers regulated by the Department of Transportation (DOT) to help prevent accidents and injuries resulting from the misuse of alcohol or the abuse of controlled substances by drivers of commercial motor vehicles. For these reasons, we have initiated a program with Compliance Associates, Inc., a California Corporation (530) 241-2099 to comply with federal drug and alcohol testing regulations for "*safety sensitive function*" positions as prescribed in 49 CFR Parts 382 and 383 of the Federal Motor Carrier Safety Regulations.

Enterprise School District recognizes each individual's value and contribution to the services the company provides to their customers, therefore, this Policy is a "*zero tolerance*" policy. This Drug and Alcohol Testing Policy is intended to comply with Federal Motor Carrier Safety Administration (FMCSA) regulations, changes in which will supersede specific policy provisions. Enterprise School District retains the right to administer and interpret this Policy as it applies to their employees.

EFFECTIVE DATE

This policy is effective March 1, 2002.

**DRUG AND ALCOHOL TESTING FOR EMPLOYEES SUBJECT
TO COMMERCIAL DRIVER'S LICENSE**

WHO WILL BE TESTED AND WHEN (49 CFR 382 and 383)

This policy is intended for those individuals employed in "safety sensitive function" positions also referred to as "**covered drivers**" as prescribed by the U.S. Department of Transportation and the Federal Motor Carrier Safety Administration under 49 CFR Part 382.107.

Safety sensitive function is defined in 49 CFR 382.107, as all time from the time an individual who is required to hold a commercial driver's license for their job begins to work or is required to be in readiness to work until the time he/she is relieved from work and all responsibility for performing work. Generally, covered drivers are operators of commercial motor vehicles or combination of vehicles which:

- 1) Are greater than 26,001 pounds GVWR
- 2) Carry hazardous materials in placardable quantities, or
- 3) Carry 16 or more passengers, including the driver.

Covered drivers may be tested for drugs or alcohol whenever they are ***on duty***. For the purposes of this Policy, "on duty" is defined as any time on the job, since covered drivers are expected to be ready to perform safety-sensitive driving functions on short notice.

Conversely, time spent in association with drug testing specimen collection and/or alcohol testing is considered "on-duty" time.

Safety sensitive functions shall include:

- 1) All time at an employer or shipper plant, terminal, facility, or other property, or on any public property, waiting to be dispatched, unless the driver has been relieved from duty by the employer:
- 2) All time inspecting equipment as required by 49 CFR Part 392.7 and Part 392.8.
- 3) All time spent at the driving controls of a commercial vehicle.
- 4) All time having to do with loading and/or unloading whether it be performing the function, assisting, supervising and remaining in readiness to operate the vehicle, or giving receipts for shipments loaded or unloaded.
- 5) All time repairing, obtaining assistance, or remaining in attendance upon a disabled vehicle.

PROHIBITIONS

FMCSA REGULATIONS SPECIFY the following prohibitions:

1. Employees subject to safety sensitive function positions must not use alcohol within four (4) hours prior to reporting for duty ("pre-duty use").
2. Employees subject to safety sensitive function positions are prohibited from possessing alcohol while on duty (unless the alcohol is manifested); from using alcohol while on duty; and from having alcohol present in their systems at level of 0.02g/210 L* or greater while on duty.
3. Employees subject to safety sensitive function positions are prohibited from using alcohol after an on-the-job vehicle accident until:
 - a. Anti-drug Program Manager or his/her designated alternate has determined that Alcohol testing is not required,
 - b. A breath alcohol test has been completed, OR
 - c. Eight (8) hours have passed since the accident.
4. Employees subject to safety sensitive function positions will be considered as a refusal to submit to a urine or breath specimen when the following conditions occur:
 - a. Failure to provide adequate breath for alcohol testing, without a valid medical explanation.
 - b. Failure to provide an adequate urine sample for controlled substances testing
 - c. Refusal of a controlled substance and/or alcohol test will be considered a positive test.
5. Refusal by employees subject to safety sensitive function positions to submit to a urine or breath specimen when required by federal regulations will have the same consequences as a positive test, and result in the immediate removal of the employee from duty.

This policy specifically prohibits the unlawful manufacture, distribution, dispensation, possession, or use of controlled substances in the workplace, as described in the Drug-Free Workplace Act of 1988. It also prohibits employees from reporting for duty or being on duty with evidence of alcohol, controlled substances or illegally obtained prescription medications, in their systems. Violation of these prohibitions will lead to administrative action, up to and including termination of employment.

DRUG AND ALCOHOL TESTING FOR EMPLOYEES SUBJECT TO COMMERCIAL DRIVER'S LICENSE (continued)

EDUCATION AND TRAINING

As required by 49 CFR Part 382.601(a), (b)(11), (d), information will be given to all employees on this Drug and Alcohol Policy. Employees will be required to sign a form acknowledging receipt of this information.

Controlled substances abuse and alcohol misuse have proven to be detrimental to a persons physical and mental health. At the time of hire, new employees subject to safety sensitive function positions will receive a copy of the Drug and Alcohol Testing Policy and be informed of their responsibilities with respect to compliance with Federal drug and alcohol testing regulations.

As required by 49 CFR Part 382.603, Employers and/or Supervisors of employees subject to safety sensitive function positions who may be required to make "reasonable suspicion" determinations will receive training on recognition of the physical, behavioral, speech and performance indicators of probable drug and alcohol use. The duration of the training will be at least sixty minutes EACH for controlled substances abuse and alcohol misuse recognition.

EMPLOYEE ASSISTANCE PROGRAM

The only assistance available to employees subject to safety sensitive function positions who have tested positive and been removed from their safety sensitive function position(s) under 49 CFR Part 382.601 (b)(9) is referral assistance.

PRESCRIPTION MEDICATIONS (382.213 and 392.4(c))

Independent of 49 CFR Part 382, therefore under this policy, employees subject to safety sensitive function positions are **specifically required** to notify their Employer and/or immediate Supervisors when they are taking medication with **warning labels** (i.e.: relating to the operation of a vehicle, heavy equipment, or machinery).

INVESTIGATION OF PREVIOUS TESTING (49 CFR Part 382.413)

As a condition of employment under 49 CFR Part 382.413, applicants for safety sensitive function positions will be required to authorize previous employers to release specific information regarding previous controlled substances and alcohol tests for all employers in the preceding two years.

TYPE OF DRUG AND ALCOHOL TESTING REQUIRED

The following are occasions for drug and/or alcohol testing under this Policy.

Pre-employment testing (49 CFR Part 382.301)

Pre-employment drug testing is required for all employees subject to safety sensitive function positions.

Under this policy, if pre-employment drug test results show a possible dilution the applicant will be disqualified for employment at that time. The applicant may re-apply after six (6) months from date of the original pre-employment test.

Drug test results, which are verified as positive for unauthorized use of controlled substances, will disqualify the applicant for the covered driver position.

Random testing (49 CFR Part 382.305)

Definition of Random Test: A random test is a test that is unannounced, and where every person in the random selection "pool" has an equal chance of being selected for testing each time a selection occurs. Random testing is considered to be an effective deterrent to substance abuse. Employees subject to safety sensitive function positions are required to be randomly tested under DOT regulations.

Method of Random Selection: Current percentage requirements state that number of drug tests equal to at least 50% of the number of individuals in the Future Trucking Professionals, Inc. consortium will be performed. This will be completed annually, as required by DOT drug testing regulations; current percentage requirements state that a number of alcohol tests equal to at least 10% of the number of individuals in the Future Trucking Professionals, Inc. consortium will be completed annually.

Procedure for Notification and Specimen Collection: The Program Coordinator of Future Trucking Professionals, Inc. will notify the employer(s) of which covered driver(s) came up in the random draw and must report to the clinic for testing.

The employer(s) will notify the employee(s) of their report time to the designated clinic.

A random drug test resulting in a possible dilution will result in an immediate retest under reasonable suspicion.

Reasonable Suspicion testing (49 CFR Part 382.307)

“Reasonable suspicion” means that an individual that has been trained in reasonable suspicion recognition has reason to believe that an employee may be impaired, intoxicated or under the influence of a controlled substance or alcohol.

Examples of reasonable suspicion may include:

1. Direct observation of drug abuse and/or physical symptoms of being under the influence of drugs or alcohol while at work;
2. Abnormal conduct or erratic behavior while at work;
3. Unusual absenteeism, tardiness or deterioration in work performance documented over a period of time;
4. A report based on a reasonable belief, of drug abuse or alcohol use on the job;
5. Information that the employee has caused or contributed to a work-related accident.

Those who make a decision to test an employee will be trained in identifying appearance or conduct that indicate the possible controlled substances abuse or misuse of alcohol.

Post-accident Testing (49 CFR Pat 382.303)

Under this policy any employee subject to a safety sensitive function position who is involved in a “reportable accident” will be required as soon as practicable following an occurrence involving a commercial motor vehicle, to provide a urine specimen for the purpose of drug screening and/or submit themselves to a Breath Alcohol Technician for an alcohol test.

A *reportable accident* under Federal Motor Carrier Safety Administration regulations is defined as an accident in which a covered driver was operating a commercial motor vehicle and in which:

TABLE FOR 382.303 (a)(3)

Type of accident involved	Citation issued to the CMV driver	Test must be performed by employer
Human Fatality	YES	YES

**DRUG AND ALCOHOL TESTING FOR EMPLOYEES SUBJECT
TO COMMERCIAL DRIVER'S LICENSE (continued)**

UNDER FMCSA REGULATIONS, employees involved in a reportable accident are required to be:

- Drug tested as soon as possible, but in no case later than 32 hours after the incident.
- Tested for alcohol as soon as possible, but in no case later than 8 hours after the accident.

An agent and/or employee who is seriously injured and cannot provide a specimen for testing may be requested to authorize the release of relevant hospital records and/or other documentation that would indicate whether there were any controlled substances in his/her system at the time of the accident.

Return to Duty (49 CFR Part 382.309) and Follow-up Testing (49 CFR Part 382.311)
Under this “**zero tolerance**” policy there will be no return to duty or follow-up testing.

DRUG AND ALCOHOL TESTING PROCEDURES (49 CFR Part 382.105)

Drug Testing

1. Urine specimen collection for drug testing will be performed by qualified individuals in conformance with current standards of practice, using chain of custody procedures specified by FMCSA regulations (49 CFR Part 40). All testing will be performed with respect for the privacy and dignity of the person giving the specimen.
 - a. Drug test specimens will be collected to provide at least 30mL of urine in a “primary specimen” shipping bottle and at least 15mL of urine in a “split specimen” shipping bottle, as described in Appendix B.
2. Only laboratories certified by the Substance Abuse and Mental Health Administration (SAMHSA) of the U.S. Department of Health and Human Services (previously NIDA”) will perform drug testing.
3. When an initial screening test for drugs is positive, a second, confirmatory test will automatically be performed. Confirmed positive drug tests will be reported by the testing laboratory to the Medical Review Officer (MRO) for verification. The MRO will then notify Future Trucking Professionals, Inc., Program Manager who will in turn notify the employer.
4. Future Trucking Professionals, Inc. will provide the required blind sample performance test specimens required by the Department of Transportation (DOT) under CFR 40 Part 31.

Breath Alcohol Testing

1. Breath Alcohol testing will be performed only by qualified Breath Alcohol Technicians (BAT). Testing will be conducted using evidential breath alcohol testing devices listed on the Conforming Products List of the National Highway Traffic Safety Administration.
2. A breath alcohol test with results below 0.02 requires no further action.
3. Breath alcohol tests with results of 0.02 or above will be confirmed as follows:
 - a. The individual being tested is instructed not to smoke, use mouthwash, drink or eat for a period of 15 minutes.
 - b. Within 30 minutes of completion of the initial screening test, a confirmation breath test is conducted per 49 CFR Part 40. The result is recorded in the "Confirmation Test Results" section of the Alcohol test form.
 - c. In instances where a confirmation breath test must take place at another location the time of transit between sites counts toward the waiting period. The donor must be observed during the waiting period. If the waiting period exceeds 30 minutes during the time of transit a confirmation test must still be conducted under 49 CFR 40.253, not another screening test.
4. If the result of the *confirmatory* breath alcohol test is 0.02 or greater, the BAT must immediately notify the employer, who will arrange for transportation of the individual from the alcohol-testing site. The BAT will then forward a copy of the Alcohol Test Form to Future Trucking Professionals, Inc.

DRUG TEST RESULTS REVIEW (49 CFR Part 382.407)

A drug test result on a covered driver will be considered positive ONLY if it is initially *confirmed* positive by gas chromatography-mass spectrometry (GC-MS), and has been reviewed and verified by the Medical Review Officer (MRO).

A POSITIVE drug test result is defined as the detection of any one or more of the substances listed in the table shown:

Substance or Class	Initial Screening Cut-off	Confirmation Cut-off

Cocaine	300ng/mL	150ng/mL
Marijuana (THC)	50ng/mL	15ng/mL
<i>Opiate metabolites</i>	2000ng/mL	2000ng/mL
Codeine		2000ng/mL
Morphine		2000ng/mL
Phencyclidine (PCP)	25ng/mL	25ng/mL
Ethanol (alcohol)	16mg/dL	16mg/dL

A *confirmed* positive test from a certified laboratory does not automatically identify an agent, employee or applicant as having used drugs in violation of a DOT regulation. The MRO brings detailed knowledge of possible alternate medical explanations to his or her review of the test results. This review is performed by the MRO prior to the transmission of *confirmed* results to employers and/or employer.

Medical Review Officer Role

The MRO is a consulting physician who is a licensed doctor of medicine or osteopathy with knowledge of substance abuse disorders, symptoms, treatment, and toxicology. The MRO's primary function is to review, interpret and report positive test results of the agent, applicant or employee. The MRO or his/her authorized representative will also report negative test results.

Before reporting a positive drug result on a covered driver, the MRO will give the "donor" (agent, employee or applicant) a chance to discuss it. If a prescription drug is involved, the donor will be asked to provide the name of the medication and the prescribing physician's name for verification.

**ENTERPRISE ELEMENTARY SCHOOL DISTRICT
ADMINISTRATIVE REGULATION**

PERSONNEL

AR 4635

**DRUG AND ALCOHOL TESTING FOR EMPLOYEES SUBJECT
TO COMMERCIAL DRIVER'S LICENSE (continued)**

The MRO may review the agent, employee, or applicant's medical history, any relevant biomedical factors, and medical records made available by the agent, employee or applicant to determine whether a positive test resulted from legally prescribed medication before verifying a test as "positive" or "negative."

The MRO may communicate a positive result on a covered donor to the Future Trucking Professionals, Inc. Consortium Program Coordinator if:

1. The donor has told the MRO or his authorized representative that he/she does not wish to discuss the results of the test; or
2. The MRO has spoken with the donor, and has concluded that the positive drug test result indicates unauthorized use of a controlled substance; or
3. The MRO cannot reach the donor, and has asked the employer and/or Future Trucking Professionals, Inc. Program Coordinator to contact the donor and relay the message to contact the MRO; and/or the donor has not responded within 5 days of documented receipt of the message.

NOTE: If a test is verified positive under the latter circumstances, the donor may give the MRO information documenting that serious illness, injury, or other circumstances unavoidably prevented him or her from contacting the MRO. On the basis of this information, the MRO may re-open the verification, allowing the donor to present information concerning a legitimate explanation for the positive test. If the MRO concludes that there is a legitimate explanation, the MRO shall verify the test as negative.

Upon verifying a test as a confirmed positive, the MRO will inform the donor of the option of having the "split" portion of his or her specimen tested. The donor must notify the MRO of a desire to exercise this option within 72 hours of being notified of the positive result. Payment for testing of the "split" specimen must be presented to the MRO or his designated representative in advance at which time the MRO will direct the testing laboratory to ship the "split" specimen to a second SAMHSA certified laboratory of the donor's choice.

Communication of Results

The MRO or his/her designated representative will report test results to the Future Trucking Professionals, Inc. Program Coordinator. Confidentiality will be strictly maintained. If the result is positive, the MRO or his authorized representative will report the identity of the controlled substance.

Agents, employees and applicants may obtain copies of their test results by requesting them in writing from the MRO within 60 days of being notified of the results.

DISCIPLINE

The governing board believes that one of the major functions of the public schools is the preparation of youth for responsible citizenship. The district shall foster a learning environment which reinforces the concepts of self-discipline and the acceptance of personal responsibility. Students are expected to progress from being adult-directed to self-directed with minimal application of disciplinary measures.

In order to maintain an environment conducive to attaining the highest quality of education in the district, there must exist certain disciplinary policies and regulations relating to student conduct which delineates acceptable behavior and provides the basis for sound disciplinary practices within each school in the district. These policies and regulations will be enforced fairly and uniformly and consistently without regard to race, creed, color, or sex.

The administration, teachers, and classified staff share the mutual responsibility for student conduct and safety and the enforcement of district policies and regulations. The Board shall give all reasonable support and assistance to all employees with respect to the student discipline.

The Board recognizes that not all students will adhere to district rules for appropriate behavior. Sufficient support services shall be provided so that continually disruptive students will not be returned to regular classes without some modification of behavior. In accordance with Education Code 48900.1, the governing board also recognizes the right of the teacher to suspend a disruptive or defiant student from class, and to require the parent to attend class with the student as one form of behavior modification. Students may be assigned to other alternative programs or be subject to removal from school.

In order to ensure that school site and transportation rules for student discipline are enforced fairly and uniformly and consistently, the superintendent shall establish procedures for the development of such rules. All such rules shall be strictly based on district policy, regulation, and existing law.

All avenues provided in policy, regulation, and law for the discipline of students may be utilized in developing site level and transportation rules. These include but are not limited to advising and counseling students, conferencing with parents/guardians, restriction of recess time, detention during and after school hours, alternative educational environments and, if necessary, suspension and expulsion.

Special care shall be taken to solicit the views of the school community, including administrators, teachers, parents, and students in developing the site level rules.

The adoption of each school's rules on student discipline is the responsibility of the school principal and the school site council.

SUBSTANCE ABUSE – DRUGS, TOBACCO, ALCOHOL

Philosophy

The Enterprise School District recognizes that alcohol and other drug use is a serious problem in our society, one that endangers all students and adversely affects the ability of using/abusing students to function academically, physically, socially, and emotionally.

The District accepts responsibility for adopting policies and procedures that lead to the implementation and maintenance of a comprehensive alcohol and other drug-use service continuum that addresses low risk, high risk, abusing, and recovering students through the following types of programs: curricula, peer helping, cross-age teaching, intervention, and student referral to community agencies.

The District strives to achieve the following outcomes:

- That low-risk non-using students will avoid use and influence other students not to use or to discontinue use;
- That high-risk students will avoid or discontinue use and influence others to do the same;
- That abusing students will discontinue use and, as appropriate, seek assistance through a recovery process; and
- That recovering students will avoid re-involvement with alcohol and other drugs, support non-use among other recovering students, and influence other students to avoid or discontinue use.

Prevention

It is the intent of the District to institute programs that cause low- and high-risk students to avoid the use of any illegal drug and avoid illegal use of alcohol or other legal drugs, and to cause students to influence and support peers to avoid and/or discontinue the use of alcohol or other drugs.

Intervention

The District recognizes that there are students on campuses that use and abuse drugs and acknowledges the benefit of intervening with these students. Staff members will support an intervention process that includes students, parents, and community agencies and organizations.

Enforcement/Discipline

In order to foster a positive and safe school environment, the District will take legal and appropriate action to eliminate possession, use, and sale of alcohol and other drugs.

It shall be the policy of the schools to take positive action through education, counseling, parental involvement, medical referral, and police referral in the handling of incidents in the schools involving the possession, sale, and/or use of behavior-affecting substances. These substances shall include but not be limited to marijuana, LSD, glue, alcohol, and barbiturates.

2. Dangerous and narcotic drugs which a student has on prescription and carries onto school property for ingestion as prescribed by a doctor must be in their original containers and kept in the school office.

Whenever any staff member has reason to believe that a student may be under drug influence, that staff member shall immediately notify an administrator, and the administrator, if in agreement, shall notify the parent to come for the student and to remove the student to his/her home or to a physician or to medical facilities. If drug influence is confirmed, the police shall be notified.

The Superintendent or designee shall develop procedures to facilitate the receipt and verification of students' proof of residency.

(cf. 5116 - School Attendance Boundaries)

The Superintendent or designee shall annually notify parents/guardians of all existing attendance options available in the district, including, but not limited to, all options for meeting residency requirements for school attendance. (EC 48980)

(cf. 5116.1 - Intradistrict Open Enrollment)

(cf. 5117 - Interdistrict Attendance)

(cf. 5145.6 - Parental Notifications)

The Superintendent or designee shall require parents/guardians to provide documentation of the student's residency upon admission to a district school. A copy of the document or written statement offered as verification of residency shall be maintained in the student's mandatory permanent record. (5 CCR 432)

(cf. 5111 - Admission)

(cf. 5125 - Student Records)

When establishing students' residency for enrollment purposes, the Superintendent or designee shall not inquire into the citizenship or immigration status of students or their family members.

(cf. 5145.13 - Response to Immigration Enforcement)

A student's enrollment may be denied when the submitted documentation is insufficient to establish district residency. In any such case, the Superintendent or designee shall notify the parent/guardian in writing, including specific reasons for the denial.

Investigation of Residency

When the Superintendent or designee reasonably believes that a student's parent/guardian has provided false or unreliable evidence of residency, he/she may make reasonable efforts to determine that the student meets district residency requirements. An investigation may be initiated when the Superintendent or designee is able to identify specific, articulable facts supporting the belief that the parent/guardian has provided false or unreliable evidence of residency. (EC 48204.1, 48204.2)

The Superintendent or designee may assign a trained district employee to conduct the investigation. The investigation may include the examination of records, including public records, and/or interviews of persons who may have knowledge of the student's residency.

DISTRICT RESIDENCY (continued)

If necessary, the Superintendent or designee may employ the services of a private investigator to conduct the investigation. Before hiring a private investigator, the Superintendent or designee shall make other reasonable efforts to determine whether the student resides in the district. (EC 48204.2)

The investigation shall not include the surreptitious collection of photographic or videographic images of persons or places subject to the investigation. However, the use of technology is not prohibited if done in open and public view. (EC 48204.2)

Any employee or contractor engaged in the investigation shall truthfully identify himself/herself as an investigator to individuals contacted or interviewed during the course of the investigation. (EC 48204.2)

Appeal of Enrollment Denial

If the Superintendent or designee, upon investigation, determines that a student does not meet district residency requirements and denies the student's enrollment in the district, he/she shall provide the student's parent/guardian an opportunity to appeal that determination. (EC 48204.2)

The Superintendent or designee shall send the student's parent/guardian written notice specifying the basis for the district's determination. This notice shall also inform the parent/guardian that he/she may, within 10 school days, appeal the decision and provide new evidence of residency.

The burden shall be on the parent/guardian to show why the district's determination to deny enrollment should be overruled. (EC 48204.2)

A student who is currently enrolled in the district shall be allowed to remain in attendance at his/her school pending the results of the appeal. A student who is not currently enrolled in the district shall not be permitted to attend any district school unless his/her appeal is successful.

In an appeal to the Superintendent or designee of a determination that district residency requirements were not met, the Superintendent or designee shall review any evidence provided by the parent/guardian or obtained during the district's investigation and shall make a decision within 10 school days of receipt of the parent/guardian's request for the appeal. The Superintendent's decision shall be final.

Enrollment Not Requiring District Residency

When approved by the Board and the appropriate agency, the district may enroll students from other countries who are in the United States on an F-1 visa or are participating in an international exchange program under the sponsorship of a government-approved agency.

ENTERPRISE ELEMENTARY SCHOOL DISTRICT BOARD POLICY

STUDENTS

BP 5113.1

CHRONIC ABSENCE AND TRUANCY

The Governing Board believes that excessive absenteeism, whether caused by excused or unexcused absences, may be an early warning sign of poor academic achievement and may put students at risk of dropping out of school. The Board desires to ensure that all students attend school in accordance with the state's compulsory education law and take full advantage of educational opportunities provided by the district.

(cf. 5113 - Absences and Excuses)

The Superintendent or designee shall establish a system to accurately track student attendance in order to identify individual students who are chronic absentees and truants, as defined in law and administrative regulation, and to identify patterns of absence throughout the district. He/she shall provide the Board with data on school attendance, chronic absence, and truancy rates for all district students, for each school, and for each numerically significant student subgroup as defined in Education Code 52052. Such data shall be disaggregated and used in the development of annual goals and specific actions for student attendance and engagement and for inclusion in the district's local control and accountability plan and other applicable school and district plans.

(cf. 0400 - Comprehensive Plans)

(cf. 0420 - School Plans/Site Councils)

(cf. 0450 - Comprehensive Safety Plan)

(cf. 0460 - Local Control and Accountability Plan)

The Superintendent or designee shall develop strategies that focus on prevention of attendance problems, which may include, but are not limited to, efforts to provide a safe and positive school environment, relevant and engaging learning experiences, school activities that help develop students' feelings of connectedness with the school, school-based health services, and incentives and rewards to recognize students who achieve excellent attendance or demonstrate significant improvement in attendance. The Superintendent or designee also shall develop strategies that enable early outreach to students as soon as they show signs of poor attendance.

INVOLUNTARY STUDENT TRANSFERS

The Governing Board desires to enroll students in the school of their choice, but recognizes that circumstances sometimes necessitate the involuntary transfer of some students to another school or program in the district. The Superintendent or designee shall develop procedures to facilitate the transition of such students into their new school of enrollment.

As applicable, when determining the best placement for a student who is subject to involuntary transfer, the Superintendent or designee shall review all educational options for which the student is eligible, the student's academic progress and needs, the enrollment capacity at district schools, and the availability of support services and other resources.

Whenever a student is involuntarily transferred, the Superintendent or designee shall provide timely written notification to the student and his/her parent/guardian and an opportunity for the student and parent/guardian to meet with the Superintendent or designee to discuss the transfer.

Interdistrict Transfers

The Governing Board recognizes that students who reside in one district may choose to attend school in another district and that such choices are made for a variety of reasons.

The Board desires to communicate with parents/guardians and students regarding the educational programs and services that are available in the district.

The Superintendent or designee may approve interdistrict attendance agreements with other districts on a case-by-case basis to meet individual student needs.

Once approved, the interdistrict attendance agreement shall be continuous. However, the site administrator shall have the discretion to review and amend the agreement on an annual basis, as needed. The agreement shall stipulate the terms and conditions under which interdistrict attendance shall be permitted or denied. (Education Code 46600)

Intradistrict Transfers

The Governing Board desires to provide enrollment options that meet the diverse needs and interests of district students. The Superintendent or designee shall establish procedures for the selection and transfer of students among district schools in accordance with law, board policy, and administrative regulation.

The parents/guardians of any student who resides within district boundaries may apply to enroll their child in any district school, regardless of the location of residence within the district. (Education Code 35160.5)

The Board shall annually review this policy. (Education Code 35160.5, 48980)

(20 USC 7912)

Intradistrict Enrollment Priorities (Program Improvement Schools—No Child Left Behind Act)

For all other applications for enrollment outside a school's attendance area, the Superintendent or designee shall use a random, unbiased selection process to determine who shall be admitted whenever a school receives admission requests that are in excess of the school's capacity. (Education Code 35160.5)

Enrollment decisions shall not be based on a student's academic or athletic performance, except that existing entrance criteria for specialized schools or programs may be used provided that the criteria are uniformly applied to all applicants. Academic performance may be used to determine eligibility for, or placement in, programs for gifted and talented students. (Education Code 35160.5)

No student currently residing within a school's attendance area shall be displaced by another student transferring from outside the attendance area. (Education Code 35160.5)

Transportation

Except as required by 20 USC 6316, for transfers out of Title I program improvement schools, the district shall not be obligated to provide transportation for students who attend school outside their attendance area. BP 5123

PROMOTION / ACCELERATION / RETENTION

The Governing Board expects students to progress through each grade within one school year. To accomplish this, instruction should accommodate the varying interests and growth patterns of individual students and include strategies for addressing academic deficiencies when needed.

Students shall progress through the grade levels by demonstrating growth in learning and meeting minimum standards of expected student achievement.

When high academic achievement is evident, the Superintendent or designee may recommend a student for acceleration into a higher grade level. The student's social and emotional growth shall be taken into consideration in making a determination to accelerate a student.

As early as possible in the school year and in students' school careers, the Superintendent or designee shall identify students who should be retained and who are at risk of being retained in accordance with law, board policy, administrative regulation and the following criteria:

Students shall be identified as "at risk" on the bases of local and state assessments, and teacher questionnaires.

When a student is recommended for retention or is identified as being at risk for retention, the Superintendent or designee shall provide opportunities for appropriate intervention to assist the student in overcoming his/her academic deficiencies. Such opportunities may include, but are not limited to, tutorial programs, after-school programs, and summer school programs determined by a Student Study Team.

Acceleration from Kindergarten to First Grade

A student enrolled in kindergarten may be admitted to the first grade at the discretion of the Superintendent or designee and with the consent of the parent/guardian, upon determination that the child is ready for first-grade work. (Education code 48011)

Admission shall be subject to the following minimum criteria: (5 CCR 200)

1. The student is at least five year of age.
2. The student has attended a public school kindergarten for a long enough time to enable school personnel to evaluate his/her ability.
3. The student is in the upper five percent of his/her age group in terms of general mental ability.
4. The physical development and social maturity of the student are consistent with his/her advanced mental ability.
5. The parent/guardian of the student has filed a written statement with the school district approving the placement in first grade.

Continuation in Kindergarten

Students who have completed one year of kindergarten shall be admitted to first grade unless the parent/guardian and the district agree that the student shall continue in kindergarten for not more than one additional school year. (Education Code 48011)

Whenever a student continues in kindergarten for an additional year, the Superintendent or designee shall secure an agreement, signed by the parent/guardian, stating that the student shall continue in kindergarten for not more than one additional school year. (Education Code 46300)

Continuation in First Grade

Students who have completed one year of first grade shall be admitted to second grade unless the parent/guardian and the district agree that the student shall continue in first grade for not more than one additional school year.

PROMOTION / ACCELERATION / RETENTION (continued)

Whenever a student continues in first grade for an additional year, the Superintendent or designee shall secure an agreement, signed by the parent/guardian, stating that the student shall continue in first grade for not more than one additional school year.

Retention at Other Grade Levels

The Superintendent or designee shall identify students who should be retained or who are at risk of being retained at the following grade levels: (Education Code 48070.5)

1. Between grades 2 and 3
2. Between grades 3 and 4
3. Between grades 4 and 5
4. Between grades 5 and 6
5. Between grades 7 and 8

Proficiency in reading, English language arts and mathematics shall be the basis for identifying students between grades 2 through 8. (Education Code 48070.5)

Students shall be identified on the basis of assessment results and teacher questionnaire as established by Board policy.

If a student is identified as performing below the minimum standard for promotion, the student shall be retained in his/her current grade level unless the student's regular classroom teacher determines, in writing, that retention is not the appropriate intervention for the student's academic deficiencies. This determination shall specify the reasons that retention is not appropriate for the student and shall include recommendations for interventions other than retention that, in the opinion of the teacher, are necessary to assist the student in attaining acceptable levels of academic achievement. (Education Code 48070.5)

If the teacher's recommendation to promote is contingent on the student's participation in a summer school or interim session remediation program, the student's academic performance shall be reassessed at the end of the remediation program, and the decision to retain or promote the student shall be reevaluated at that time. The teacher's evaluation shall be provided to and discussed with the student's parents/guardians and the principal before any final determination of retention or promotion. (Education Code 48070.5)

If the student does not have a single regular classroom teacher, the principal or designee shall specify the teacher(s) responsible for the decision to promote or retain the student. (Education Code 48070.5)

**ENTERPRISE ELEMENTARY SCHOOL DISTRICT
ADMINISTRATIVE REGULATION**

STUDENTS

AR 5123

PROMOTION / ACCELERATION / RETENTION (continued)

When a student is identified as being at risk of retention, the Superintendent or designee shall so notify the student's parents/guardians as early in the school year as practicable. A Student Study Team meeting will be held with the principal, teacher, and parent to discuss an Academic Intervention Plan.

The Superintendent/designee shall also provide a copy of the district's promotion/retention policy and administrative regulation to those parents/guardians who have been notified that his/her child is at risk of retention.

The teacher's decision to promote or retain a student may be appealed consistent with board policy, administrative regulation, and law.

The burden shall be on the appealing party to show why the teacher's decision should be overruled. (Education Code 48070.5)

To appeal a teacher's decision, the parents/guardians, or student age 18 or older shall submit a written request to the Superintendent or designee specifying the reasons why the teacher's decision should be overruled. The appeal must be initiated within 10 school days of the determination of retention or promotion. The teacher shall be provided an opportunity to state orally and/or in writing the criteria on which his/her decision was based.

Within 30 days of receiving the request, the Superintendent or designee shall determine whether or not to overrule the teacher's decision. Prior to making this determination, the Superintendent or designee may meet with the appealing party and the teacher. If the Superintendent or designee determines that the appealing party has overwhelmingly proven that the teacher's decision should be overruled, he/she shall overrule the teacher's decision.

The Superintendent or designee's determination may be appealed by submitting a written appeal to the Board within 10 school days. Within 30 days of receipt of a written appeal, the Board shall meet in closed session to decide the appeal. The Board's decision may be made on the basis of documentation prepared as part of the appeal process or, at the discretion of the Board, the Board may also meet with the appealing party, the teacher, and the superintendent/designee to decide the appeal. The decision of the board shall be final.

If the decision of the Board is unfavorable to the appealing party, he/she shall have the right to submit a written statement of objections that shall become part of the student's record.

Parental Request for Retention

In an exceptional case, a situation may arise where a student who meets the criteria for promotion is requested to be retained by the parent due to other than academic reasons. In such cases, a written request from the parent will be forwarded to the site administrator with all pertinent information regarding the request for retention. The site administrator will convene a student study team to review the appropriateness of retaining the student. This

team will consist of the student's teachers, support staff and administrators. The team will take into consideration the parent request and the educational welfare of the child. The team will study the long-term effects of the request on the child and will consider current education research on retention before making a decision. A finding by the committee will be provided to the parent. The parent will have the same right of appeal to the Superintendent or designee and the Governing Board as provided by this administrative regulation.

Remedial Instruction

With the parent/guardian's consent, the Superintendent or designee may require a student who has been recommended for retention or has been identified as being at risk of retention to participate in a supplemental instructional program. Such programs may be offered during the summer, after school, on Saturdays and/or during interim sessions. Services shall not be provided during the regular instructional day if it would result in the student being removed from classroom instruction in the core curriculum. (Education Code 37252.5)

These services shall be provided to students in the following priority order: (Education Code 37252.5)

1. Students who have been recommended for retention or who have been identified as being at risk of retention pursuant to Education Code 48070.5.
2. Students who have been identified as having a deficiency in mathematics, reading or written expression based on the results of local and/or state assessments.

STUDENTS WITH HIV INFECTION

The Governing Board and the Superintendent recognize the district's responsibility to protect the health of its students and at the same time to uphold each student's individual rights. The Board follows the recommendation of the leading public health authorities that the student with HIV infection be admitted to school on an individual basis. The District will permit students with HIV infection to attend regular classes following an evaluation of the situation, conducted in accordance with administrative regulation, and with written certification by the student's physician and/or the Public Health Department that such admittance poses no increased risk to the student with HIV infection or to his/her classmates and staff.

Without the written medical concurrence required above, the student with HIV infection shall be excluded from admission.

If the Superintendent proposes that the child be excluded, the parent/guardian will be sent a written notice of the proposed exclusion in accordance with Education Code 48213. The decision of the Superintendent as to the admission, exclusion, or other placement of the student may be appealed to the Enterprise Board of Education. The decision of the Board is final.

The District will make every reasonable effort to provide each student who is being evaluated or excluded with an appropriate alternative educational plan with available District resources.

The Superintendent shall endeavor to keep confidential the information regarding students with HIV infection. Information will be released in accordance with State requirements, District Policy, or need-to-know basis. The final decision for admittance of a student with HIV infection will be made by the Board of Trustees.

GUIDELINES

1. The health status of the student with HIV infection shall be monitored closely and periodically. If the health of the student deteriorates, if he/she has open lesions or is unable to control bodily wastes, the student with HIV infection will be excluded from school and an alternative academic setting will be provided.

BULLYING

The Governing Board recognizes the harmful effects of bullying on student well-being, student learning, and school attendance and desires to provide a safe school environment that protects students from physical and emotional harm. No individual or group shall, through physical, written, verbal, visual, or other means, harass, sexually harass, threaten, intimidate, cyberbully, cause bodily injury to, or commit hate violence against any student or school personnel, or retaliate against them for filing a complaint or participating in the complaint resolution process.

Bullying includes, but is not limited to, any act described in Education Code 48900(r).

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

1. Physical bullying: An act that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
2. Verbal bullying: An act that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
3. Social/relational bullying: An act that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
4. Cyberbullying: An act such as sending demeaning or hateful text messages or emails, spreading rumors by email or by posting on social networking sites, or posting or sharing embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

1. Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
2. Providing information to students, through student handbooks, district and school websites and social media, and other age-appropriate means, about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying

3. Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously
4. Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as playgrounds, hallways, restrooms, and cafeteria
5. Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development

The Superintendent or designee shall annually make available to all certificated staff and to other employees who have regular interaction with students the California Department of Education (CDE) online training module on the dynamics of bullying and cyberbullying, including the identification of bullying and cyberbullying and the implementation of strategies to address bullying. (EC 32283.5)

The Superintendent or designee may provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training may be designed to provide staff with the skills to:

3. Identify the signs of bullying or harassing behavior
4. Take immediate corrective action when bullying is observed
5. Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction

As appropriate, the district may provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character development, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district may also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

(cf. 5144.2 - Suspension and Expulsion/Due Process (Individuals with Disabilities))

The principal or designee shall notify law enforcement authorities when any student possesses a firearm, explosive, or other prohibited weapon or dangerous instrument without permission, sells or furnishes a firearm, or commits any act of assault with a firearm or other weapon. BP 5131.7

WEAPONS AND DANGEROUS INSTRUMENTS (continued)

The principal may grant permission for such possession when he/she determines that it is necessary for a school-sponsored activity or class or as part of the educational program. Factors that shall be considered include, but are not limited to, the planned use of the weapon, the duration and location of the planned use, whether an audience is expected, and any perceived adverse effects to the safety and well-being of students or staff. If the principal grants such permission, he/she shall provide the student and staff person with a written explanation regarding any limitations and the permissible duration of the student's possession.

When the principal or designee grants permission, he/she shall take all necessary precautions to ensure the safety of all persons on school grounds, including, but not limited to, inspecting a firearm to verify that no live ammunition is present. Any weapon allowed shall be stored in a locked vehicle or in an appropriate, locked container before and after its authorized use.

A student granted permission to possess a weapon may be suspended and/or expelled if he/she possesses or uses the weapon inappropriately.

Possession of Pepper Spray

To prevent potential misuse that may harm students or staff, students are prohibited from carrying tear gas or tear gas weapons such as pepper spray on campus or at school activities.

Reporting of Dangerous Objects

The Board encourages students to promptly report the presence of weapons, injurious objects, or other suspicious activity to school authorities. The identity of a student who reports such activity shall remain confidential to the extent permitted by law.

(cf. 5125 - Student Records)

The Superintendent or designee shall develop strategies designed to facilitate student reporting of the presence of injurious objects on school grounds, such as tip hotlines, electronic transmissions, or other methods that preserve the student's anonymity. Incident reports and records shall not identify the student who reported the possession. The Superintendent or designee also shall inform staff, students, and parents/guardians that students who report the presence of injurious objects on school campuses are to be protected and their identity shielded.

ADMINISTERING MEDICATION AND MONITORING HEALTH CONDITIONS

The Governing Board believes that regular school attendance is critical to student learning and that students who need to take medication prescribed or ordered for them by their authorized health care providers should be able to participate in the educational program.

Any medication prescribed for a student with a disability who is qualified to receive services under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973 shall be administered in accordance with the student's individualized education program or Section 504 services plan, as applicable.

For the administration of medication to other students during school or school-related activities, the Superintendent or designee shall develop protocols which shall include options for allowing parents/guardians to administer medication to their child at school, designate other individuals to do so on their behalf, and, with the student's authorized health care provider's approval, request the district's permission for the student to self-administer a medication or self-monitor and/or self-test for a medical condition. Such processes shall be implemented in a manner that preserves campus security, minimizes instructional interruptions, and promotes student safety and privacy.

The Superintendent or designee shall make epinephrine auto-injectors available at each school for providing emergency medical aid to any person suffering, or reasonably believed to be suffering, from an anaphylactic reaction. (Education Code 49414)

The Superintendent or designee may make naloxone hydrochloride or another opioid antagonist available for emergency medical aid to any person suffering, or reasonably believed to be suffering, from an opioid overdose. (Education Code 49414.3)

The Superintendent or designee shall collaborate with city and county emergency responders, including local public health administrators, to design procedures or measures for addressing an emergency such as a public disaster or epidemic.

Administration of Medication by School Personnel

When allowed by law, medication prescribed to a student by an authorized health care provider may be administered by a school nurse or, when a school nurse or other medically licensed person is unavailable and the physician has authorized administration of medication by unlicensed personnel for a particular student, by other designated school personnel with appropriate training. School nurses and other designated school personnel shall administer medications to students in accordance with law, Board policy, administrative regulation, and, as applicable, the written statement provided by the student's parent/guardian and authorized health care provider. Such personnel shall be afforded appropriate liability protection.

The Superintendent or designee shall ensure that school personnel designated to administer any medication receive appropriate training and, as necessary, retraining from qualified medical

IMMUNIZATIONS (continued)

The student's immunization record shall be provided by the student's health care provider or from the student's previous school immunization record. The record must show at least the month and year for each dose, except that the day, month, and year must be shown for the MMR doses given during the month of the first birthday and for the Tdap dose given during the month of the seventh birthday. (17 CCR 6070)

Exemptions

Exemption from one or more immunization requirements shall be granted under any of the following circumstances:

1. The parent/guardian files with the district a written statement by a licensed physician to the effect that the physical condition of the child is such, or medical circumstances relating to the child are such, that immunization is not considered safe. The statement shall indicate the specific nature and probable duration of the medical condition or circumstances, including, but not limited to, family medical history, for which the physician does not recommend immunization. (HSC 120370; 17 CCR 6051)
2. The student's parent/guardian files with the district, before January 1, 2016, a letter or written affidavit stating that an immunization is contrary to his/her personal beliefs, in which case the student shall be exempted from the immunization until he/she enrolls in the next applicable grade span requiring immunization (birth to preschool, grades K-6, grades 7-12). (HSC 120335)

A student transferring from a school outside the district shall present a copy of the personal beliefs exemption upon enrollment. When a student transfers into the district from outside California and presents a personal beliefs exemption issued by another state or country prior to January 1, 2016, the Superintendent or designee may consult with legal counsel regarding the applicable immunization requirements.

3. The student is enrolled in an independent study program pursuant to EC 51745-51749.6 and does not receive classroom-based instruction.

Conditional Enrollment

The Superintendent or designee may conditionally admit a student with documentation from an authorized health care provider that: (HSC 120340; 17 CCR 6000, 6035)

1. The student has not received all the immunizations required for his/her age group, but has commenced receiving doses of all required vaccines and is not due for any other doses at the time of admission.
2. The student has a temporary exemption from immunization for medical reasons pursuant to item #1 in the section "Exemptions" above.

The Superintendent or designee shall notify the student's parents/guardians of the date by which the student must complete all the remaining doses as specified in 17 CCR 6035.

(cf. 5145.6 - Parental Notifications)

In addition, a transfer student may be conditionally admitted for up to 30 school days while his/her immunization records are being transferred from the previous school. If such documentation is not presented within 30 days, the student shall be excluded from school until the required immunizations have been administered. (17 CCR 6070)

The Superintendent or designee shall review the immunization record of each student admitted conditionally every 30 days until that student has received all the required immunizations. If the student does not receive the required immunizations within the specified time limits, he/she shall be excluded from further attendance until the immunizations are received. (HSC 120375; 17 CCR 6070)

The Superintendent or designee shall immediately enroll homeless students, foster youth, and students of military families even if their immunization records are missing or unavailable at the time of enrollment. (cf. 5112.2 - Exclusions from Attendance)

(cf. 6183 - Home and Hospital Instruction)

Before an already admitted student is excluded from school attendance because of lack of immunization, the Superintendent or designee shall notify the parent/guardian that he/she has 10 school days to supply evidence of proper immunization or an appropriate exemption. This notice shall refer the parent/guardian to the student's usual source of medical care or, if the student has no usual source of medical care, then to the county health department or school immunization program, if any. (EC 48216; 17 CCR 6040)

(cf. 5141.6 - School Health Services)

The Superintendent or designee shall exclude from further attendance any already admitted student who fails to obtain the required immunization within 10 school days following the parent/guardian's receipt of the notice specified above. The student shall remain excluded from school until he/she provides written evidence that he/she has received a dose of each required vaccine due at that time. The student shall also be reported to the attendance supervisor or principal. (17 CCR 6055)

Exclusion Due to Exposure to Disease

If the district has good cause to believe that a student has been exposed to a disease listed in the section "Required Immunizations" above and his/her documentation of immunization does not show proof of immunization against that disease, that student may be temporarily excluded from the school until the local health officer informs the district in writing that he/she is satisfied that the student is no longer at risk of developing or transmitting the disease. (HSC 120370)

Records

The Superintendent or designee shall record each new entrant's immunizations in the California School Immunization Record and retain it as part of the student's mandatory permanent student record. District staff shall maintain the confidentiality of immunization records and may disclose such information to state and local health departments only in accordance with law. HEAD LICE

The Governing Board recognizes that head lice infestations among students require treatment but do not pose a risk of transmitting disease. The Superintendent or designee shall encourage early detection and treatment in a manner that minimizes disruption to the educational program and reduces student absences.

The Superintendent or designee may distribute information to parents/guardians of preschool and elementary students regarding routine screening, symptoms, accurate diagnosis, and proper treatment of head lice infestations. The Superintendent or designee also may provide related information to school staff.

(cf. 4131 - Staff Development)

(cf. 4231 - Staff Development)

The parent/guardian of any such student shall be given information about the treatment of head lice and encouraged to begin treatment of the student immediately and to check all members of the family. The parent/guardian also shall be informed that the student shall be checked upon return to school the next day and allowed to remain in school if no active head lice are detected.

If a student is found consistently infested with head lice, he/she may be referred to a multidisciplinary team, which may consist of the school nurse, representatives from the local health department and social services, and other appropriate individuals, to determine the best approach for identifying and resolving problems contributing to the student's head lice infestations.

In developing measures and strategies for use by the district, the Superintendent or designee may consult with school health professionals, school counselors, school psychologists, school social workers, administrators, other staff, parents/guardians, students, suicide prevention experts, local health agencies, mental health professionals, and community organizations.

(cf. 1220 - Citizen Advisory Committees)

(cf. 5145.9 - Hate-Motivated Behavior)
4. The provision of information to parents/guardians regarding risk factors and warning signs of suicide, the severity of the suicide problem among youth, the district's suicide prevention curriculum, basic steps for helping suicidal youth, and/or school and community resources that can help youth in crisis

SAFETY (continued)

Threat or perceived threat means any writing or action of a student that creates a reasonable suspicion that the student is preparing to commit a homicidal act related to school or a school activity. This may include possession, use, or depictions of firearms, ammunition, shootings, or targets in association with infliction of physical harm, destruction, or death in a social media post, journal, class note, or other media associated with the student. Additionally, all staff and other school officials shall be made aware of their responsibilities regarding the reporting of potential homicidal acts to law enforcement, and receive training in the assessment and reporting of such threats. The training shall be documented and kept on file.

Playground Safety

Any new playground or any replacement of equipment or modification of components inside an existing playground shall conform to standards set forth by the American Society for Testing and Materials and the guidelines set forth by the U.S. Consumer Product Safety Commission. STUDENTS

BP 5144.1

SUSPENSION AND EXPULSION/DUE PROCESS

The Governing Board desires to provide district students access to educational opportunities in an orderly school environment that protects their safety and security, ensures their welfare and well-being, and promotes their learning and development. The Board shall develop rules and regulations setting the standards of behavior expected of district students and the disciplinary processes and procedures for addressing violations of those standards, including suspension and/or expulsion.

(cf. 5131 - Conduct)

(cf. 5131.1 - Bus Conduct)

(cf. 5131.2 - Bullying)

The grounds for suspension and expulsion and the procedures for considering, recommending, and/or implementing suspension and expulsion shall be only those specified in law, in this policy, and in the accompanying administrative regulation.

Except when otherwise permitted by law, a student may be suspended or expelled only when his/her behavior is related to a school activity or school attendance occurring within any district school or another school district, regardless of when it occurs, including, but not limited to, the following: (EC 48900(s))

1. While on school grounds
2. While going to or coming from school
3. During the lunch period, whether on or off the school campus
(cf. 5112.5 - Open/Closed Campus)
4. During, going to, or coming from a school-sponsored activity

District staff shall enforce the rules concerning suspension and expulsion of students fairly, consistently, equally, and in accordance with the district's nondiscrimination policies.

(cf. 0410 - Nondiscrimination in District Programs and Activities)

Appropriate Use of Suspension Authority

Except when a student's act violates EC 48900(a)-(e), as listed in items #1-5 under "Grounds for Suspension and Expulsion: Grades K-12" of the accompanying administrative regulation, or when his/her presence causes a danger to others, suspension shall be used only when other means of correction have failed to bring about proper conduct. (EC 48900.5, 48900.6)

(cf. 1020 - Youth Services)

(cf. 5138 - Conflict Resolution/Peer Mediation)

(cf. 5144 - Discipline)

BP 5144.1

SUSPENSION AND EXPULSION/DUE PROCESS (continued)

A student's parents/guardians shall be notified as soon as possible when there is an escalating pattern of misbehavior that could lead to on-campus or off-campus suspension.

Students shall not be suspended or expelled for truancy, tardiness, or absenteeism from assigned school activities.

(cf. 5113 - Absences and Excuses)

(cf. 5113.1 - Chronic Absence and Truancy)

On-Campus Suspension

To ensure the proper supervision and ongoing learning of students who are suspended for any of the reasons enumerated in EC 48900 and 48900.2, but who pose no imminent danger or threat to anyone at school and for whom expulsion proceedings have not been initiated, the Superintendent or designee shall establish a supervised suspension classroom program which meets the requirements of law.

Except where a supervised suspension is permitted by law for a student's first offense, supervised suspension shall be imposed only when other means of correction have failed to bring about proper conduct. (EC 48900.5)

Additional Grounds for Suspension and Expulsion: Grades 4-12

Any student in grades 4-12 may be suspended, but not expelled, for disrupting school activities or otherwise willfully defying the valid authority of supervisors, teachers, administrators, other school officials, or other school personnel engaged in the performance of their duties. (EC 48900(k))
(cf. 5131.4 - Student Disturbances)

A student in grades 4-12 shall be subject to suspension or recommendation for expulsion when it is determined that he/she:

1. Committed sexual harassment as defined in EC 212.5 (EC 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (EC 212.5, 48900.2)

Suspension from Class by a Teacher

A teacher may suspend a student, including a grade K-3 student, from class for the remainder of the day and the following day for disruption, willful defiance, or any of the other acts specified in EC 48900 and listed as items #1-18 under "Grounds for Suspension and Expulsion: Grades K-12" above. (EC 48910)

When suspending a student from class, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been suspended. (EC 48910)

As soon as possible after the teacher decides to suspend the student, he/she shall ask the student's parent/guardian to attend a parent-teacher conference regarding the suspension. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (EC 48910)

A student suspended from class shall not be returned to class during the period of the suspension without the approval of the teacher of the class and the principal or designee. (EC 48910)

A student suspended from class shall not be placed in another regular class during the period of suspension. However, a student assigned to more than one class per day may continue to attend other regular classes except those held at the same time as the class from which he/she was suspended. (EC 48910)

The teacher of any class from which a student is suspended may require the student to complete any assignments and tests missed during the removal. (EC 48913)

Suspension by Superintendent, Principal or Principal's Designee

To implement disciplinary procedures at a school site, the principal may, in writing, designate as the principal's designee another administrator or, if the principal is the only administrator at the school site, a certificated employee. SUSPENSION AND EXPULSION/DUE PROCESS (continued)

The Superintendent, principal, or designee shall immediately suspend any student found at school or at a school activity to have committed any of the acts listed in the Board policy under "Authority to Expel" and for which he/she is required to recommend expulsion. (EC 48915(c))

The Superintendent, principal, or designee may impose a suspension for a first offense if he/she determines that the student violated any of items #1-5 listed under "Grounds for Suspension and Expulsion: Grades K-12" above or if the student's presence causes a danger to persons. (EC 48900.5)

For all other offenses, a student may be suspended only when the Superintendent or principal has determined that other means of correction have failed to bring about proper conduct in the student. (EC 48900.5)

When other means of correction are implemented prior to imposing suspension or supervised suspension upon a student, the Superintendent, principal, or designee shall document the other means of correction used and retain them in the student's record. (EC 48900.5)
(cf. 5125 - Student Records)

Length of Suspension

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days. (EC 48911)

A student may be suspended from school for not more than 20 school days in any school year. However, if a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class for the purpose of adjustment, he/she may be suspended for not more than 30 school days in a school year. The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (EC 48903, 48911, 48912)
(cf. 6184 - Continuation Education)

These restrictions on the number of days of suspension shall not apply when the suspension is extended pending an expulsion. (EC 48911)

Due Process Procedures for Suspension

Suspensions shall be imposed in accordance with the following procedures:

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the

student shall be informed of the reason for the disciplinary action, presented with the available evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (EC 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference and the conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (EC 48911)

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (EC 48911)
3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall also be notified in writing of the suspension. (EC 48911)

This notice shall state the specific offense committed by the student. (EC 48900.8)

In addition, the notice may state the date and time when the student may return to school.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may request a meeting with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (EC 48914)

If school officials request to meet with the parent/guardian, the notice may state that the law requires the parent/guardian to respond to such requests without delay. However, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied reinstatement solely because the parent/guardian failed to attend the conference. (EC 48911)

5. Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision, provided the following requirements are followed: (EC 48911)

The extension of the original period of suspension is preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension.
- b. The Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (EC 48911)
- c. If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (EC 48853.5, 48911, 48918.1)
(cf. 6173.1 - Education for Foster Youth)

In lieu of or in addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

Suspension by the Board

The Board may suspend a student for any of the acts listed under "Grounds for Suspension and Expulsion: Grades K-12" and "Additional Grounds for Suspension and Expulsion: Grades 4-12" above and within the limits specified under "Suspension by Superintendent, Principal, or Designee" above. (EC 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester. The suspension shall meet the requirements of EC 48915. (EC 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under EC 49073-49079. (EC 35146, 48912)

On-Campus Suspension

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to on-campus suspension in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (EC 48911.1)

1. The on-campus suspension classroom shall be staffed in accordance with law.
2. The student shall have access to appropriate counseling services.
3. The on-campus suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.
4. The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

At the time a student is assigned to an on-campus suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification may be made in writing. (EC 48911.1)

Superintendent or Principal's Authority to Recommend Expulsion

Unless the Superintendent or principal determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (EC 48915)

4. Robbery or extortion
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (EC 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed the act(s) that form the basis for the expulsion recommendation. (EC 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (EC 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (EC 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in EC 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. The offer shall be made only after the student or his/her parent/guardian has been given written notice of the expulsion hearing pursuant to EC 48918.

The stipulation agreement shall include notice of all the rights that the student is waiving, including the waiving of his/her right to have a full hearing, to appeal the expulsion to the County Board of Education, and to consult legal counsel.

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (EC 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (EC 48918.5)

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding EC 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public to the extent that privacy rights of other students are not violated. (EC 48918)

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (EC 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (EC 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (EC 48918(g))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (EC 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (EC 48918(i))

4. Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to EC 48900 and listed in "Grounds for Suspension and Expulsion: Grades K-12" and "Additional Grounds for Suspension and Expulsion: Grades 4-12" above. In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

5. Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (EC 48918, 48918.5)

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the referral was made, unless another placement is requested in writing by the student's parent/guardian. Before the student's placement decision is made by his/her parent/guardian, the Superintendent or designee shall consult with the parent/guardian and district staff, including the student's teachers, regarding other placement options for the student in addition to the option to return to the classroom instructional program from which the student's expulsion referral was made. The decision to not recommend expulsion shall be final. (EC 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. SUSPENSION AND EXPULSION/DUE PROCESS (continued)

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion. If the hearing officer or administrative panel recommends that the Board expel a student but suspend the enforcement of the expulsion, the student shall not be reinstated and permitted to return to the classroom instructional program from which the referral was made until the Board has ruled on the recommendation. (EC 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel or is waived through the signing of a stipulated expulsion agreement, the final action to expel shall be taken by the Board in public. (EC 48918(j))
(cf. 9321.1 - Closed Session Actions and Reports)

The Board's decision is final. If the decision is to not expel, the student shall be reinstated immediately. If the decision is to suspend the enforcement of the expulsion, the student shall be reinstated under the conditions of the suspended expulsion.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (EC 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (EC 48916)

1. Periodic review, as well as assessment at the time of review, for readmission
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (EC 48916.5)

2. The seriousness of the misconduct
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. NONDISCRIMINATION/HARASSMENT

This policy shall apply to all acts constituting unlawful discrimination or harassment related to school activity or to school attendance occurring within a district school, to acts which occur off campus or outside of school-related or school-sponsored activities but which may have an impact or create a hostile environment at school, and to all acts of the Governing Board and the Superintendent in enacting policies and procedures that govern the district.

The Board desires to provide a welcoming, safe, and supportive school environment that allows all students equal access to and opportunities in the district's academic, extracurricular, and other educational support programs, services, and activities. The Board prohibits, at any district school or school activity, unlawful discrimination, including discriminatory harassment, intimidation, and bullying, targeted at any student by anyone, based on the student's actual or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or association with a person or group with one or more of these actual or perceived characteristics.

Unlawful discrimination, including discriminatory harassment, intimidation, or bullying, may result from physical, verbal, nonverbal, or written conduct based on any of the categories listed above. Unlawful discrimination also occurs when prohibited conduct is so severe, persistent, or pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely affects a student's educational opportunities.

Unlawful discrimination also includes disparate treatment of students based on one of the categories above with respect to the provision of opportunities to participate in school programs or activities or the provision or receipt of educational benefits or services.

Because unlawful discrimination may occur when disciplining students, including suspension and expulsion, the Superintendent or designee shall ensure that staff enforce discipline rules fairly, consistently and in a non-discriminatory manner, as specified in Board Policy and Administrative Regulation 5144 - Discipline, Board Policy and Administrative Regulation 5144.1 - Suspension and Expulsion/Due Process, and Administrative Regulation 5144.2 - Suspension and Expulsion/Due Process (Students With Disabilities)

The Board also prohibits any form of retaliation against any individual who reports or participates in the reporting of unlawful discrimination, files or participates in the filing of a complaint, or investigates or participates in the investigation of a complaint or report alleging unlawful discrimination. Retaliation complaints shall be investigated and resolved in the same manner as a discrimination complaint.

NONDISCRIMINATION/HARASSMENT (continued)

The Superintendent or designee shall facilitate students' access to the educational program by publicizing the district's nondiscrimination policy and related complaint procedures to students, parents/guardians, and employees. In addition, the Superintendent or designee shall post the district's policies prohibiting discrimination, harassment, intimidation, and bullying and other required information on the district's website in a manner that is easily accessible to parents/guardians and students, in accordance with law and the accompanying administrative regulation. (Education Code 234.1, 234.6)

The Superintendent or designee shall provide training and/or information on the scope and use of the policy and complaint procedures and take other measures designed to increase the school community's understanding of the requirements of law related to discrimination. The Superintendent or designee shall regularly review the implementation of the district's nondiscrimination policies and practices and, as necessary, shall take action to remove any identified barrier to student access to or participation in the district's educational program. The Superintendent or designee shall report the findings and recommendations to the Board after each review.

Regardless of whether a complainant complies with the writing, timeline, and/or other formal filing requirements, all complaints alleging unlawful discrimination, including discriminatory harassment, intimidation, or bullying, shall be investigated and prompt action taken to stop the discrimination, prevent recurrence, and address any continuing effect on students.

Students who engage in unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, in violation of law, Board policy, or administrative regulation shall be subject to appropriate consequence or discipline, which may include suspension or expulsion when the behavior is severe or pervasive as defined in Education Code 48900.4. Any employee who permits or engages in prohibited discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, shall be subject to disciplinary action, up to and including dismissal.

All allegations of unlawful discrimination in district programs and activities shall be brought, investigated, and resolved in accordance with Board Policy 1312.3 - Uniform Complaint Procedures.

Record-Keeping

The Superintendent or designee shall maintain a record of all reported cases of unlawful discrimination, including discriminatory harassment, intimidation, or bullying, to enable the district to monitor, address, and prevent repetitive prohibited behavior in district schools.

Transgender and Gender-Nonconforming Students

Gender identity of a student means the student's gender-related identity, appearance, or behavior as determined from the student's internal sense of his/her gender, whether or not that gender-related identity, appearance, or behavior is different from that traditionally associated with the student's physiology or assigned sex at birth.

Gender expression means a student's gender-related appearance and behavior, whether stereotypically associated with the student's assigned sex at birth. (EC 210.7)

Gender transition refers to the process in which a student changes from living and identifying as the sex assigned to the student at birth to living and identifying as the sex that corresponds to the student's gender identity.

Gender-nonconforming student means a student whose gender expression differs from stereotypical expectations.

Transgender student means a student whose gender identity is different from the gender he/she was assigned at birth.

Regardless of whether they are sexual in nature, acts of verbal, nonverbal, or physical aggression, intimidation, or hostility that are based on sex, gender identity, or gender expression, or that have the purpose or effect of producing a negative impact on the student's academic performance or of creating an intimidating, hostile, or offensive educational environment are prohibited. Examples of the types of conduct which are prohibited in the district and which may constitute gender-based harassment include, but are not limited to:

1. Refusing to address a student by a name and the pronouns consistent with his/her gender identity
2. Disciplining or disparaging a student or excluding him/her from participating in activities for behavior or appearance that is consistent with his/her gender identity or that does not conform to stereotypical notions of masculinity or femininity, as applicable

3. Blocking a student's entry to the restroom that corresponds to his/her gender identity
4. Taunting a student because he/she participates in an athletic activity more typically favored by a student of the other sex
5. Revealing a student's transgender status to individuals who do not have a legitimate need for the information, without the student's consent
6. Use of gender-specific slurs
7. Physical assault of a student motivated by hostility toward him/her because of his/her gender, gender identity, or gender expression

The district's uniform complaint procedures (AR 1312.3) shall be used to report and resolve complaints alleging discrimination against transgender and gender-nonconforming students.

Examples of bases for complaints include, but are not limited to, the above list, as well as improper rejection by the district of a student's asserted gender identity, denial of access to facilities that correspond with a student's gender identity, improper disclosure of a student's transgender status, discriminatory enforcement of a dress code, and other instances of gender-based harassment.

To ensure that transgender and gender-nonconforming students are afforded the same rights, benefits, and protections provided to all students by law and Board policy, the district shall address each situation on a case-by-case basis, in accordance with the following guidelines:

1. Right to privacy: A student's transgender or gender-nonconforming status is his/her private information and the district shall only disclose the information to others with the student's prior written consent, except when the disclosure is otherwise required by law or when the district has compelling evidence that disclosure is necessary to preserve the student's physical or mental well-being. In any case, the district shall only allow disclosure of a student's personally identifiable information to employees with a legitimate educational interest as determined by the district pursuant to 34 CFR 99.31. Any district employee to whom a student's transgender or gender-nonconforming status is disclosed shall keep the student's information confidential. When disclosure of a student's gender identity is made to a district employee by a student, the employee shall seek the student's permission to notify the compliance officer. If the student refuses to give permission, the employee shall keep the student's information confidential, unless he/she is required to disclose or report the student's information pursuant to this administrative regulation, and shall inform the student that honoring the student's request may limit the district's ability to meet the student's needs related to his/her status as a transgender or gender-nonconforming student. If the student permits the employee to notify the compliance officer, the employee shall do so within three school days.

As appropriate given the student's need for support, the compliance officer may discuss with the student any need to disclose the student's transgender or gender-nonconformity status or gender identity or gender expression to his/her parents/guardians and/or others, including other students, teacher(s), or other adults on campus. The district shall offer support services, such as counseling, to students who wish to inform their parents/guardians of their status and desire assistance in doing so.

(cf. 1340 - Access to District Records)

(cf. 3580 - District Records)

2. **Determining a Student's Gender Identity:** The compliance officer shall accept the student's assertion of his/her gender identity and begin to treat the student consistent with his/her gender identity unless district personnel present a credible and supportable basis for believing that the student's assertion is for an improper purpose.
3. **Addressing a Student's Transition Needs:** The compliance officer shall arrange a meeting with the student and, if appropriate, his/her parents/guardians to identify and develop strategies for ensuring that the student's access to education programs and activities is maintained. The meeting shall discuss the transgender or gender-nonconforming student's rights and how those rights may affect and be affected by the rights of other students and shall address specific subjects related to the student's access to facilities and to academic or educational support programs, services, or activities, including, but not limited to, sports and other competitive endeavors. In addition, the compliance officer shall identify specific school site employee(s) to whom the student may report any problem related to his/her status as a transgender or gender-nonconforming individual, so that prompt action can be taken to address it. Alternatively, if appropriate and desired by the student, the school may form a support team for the student that will meet periodically to assess whether the arrangements for the student are meeting his/her educational needs and providing equal access to programs and activities, educate appropriate staff about the student's transition, and serve as a resource to the student to better protect the student from gender-based discrimination.
4. **Accessibility to Sex-Segregated Facilities, Programs, and Activities:** When the district maintains sex-segregated facilities, such as restrooms and locker rooms, or offers sex-segregated programs and activities, such as physical education classes, intermural sports, and interscholastic athletic programs, students shall be permitted to access facilities and participate in programs and activities consistent with their gender identity. To address any student's privacy concerns in using sex-segregated facilities, the district shall offer available options such as a gender-neutral or single-use restroom or changing area, a bathroom stall with a door, an area in the locker room separated by a curtain or screen, access to a staff member's office, or use of the locker room before or after the other students. However, the district shall not require a student to utilize these options because he/she is transgender or gender-nonconforming. In addition, a student

shall be permitted to participate in accordance with his/her gender identity in other circumstances where students are separated by gender, such as for class discussions, yearbook pictures, and field trips. A student's right to participate in a sex-segregated activity in accordance with his/her gender identity shall not render invalid or inapplicable any other eligibility rule established for participation in the activity.

(cf. 6145.2 - Athletic Competition)

(cf. 6153 - School-Sponsored Trips)

(cf. 7110 - Facilities Master Plan)

5. Student Records: A student's legal name or gender as entered on the mandatory student record required pursuant to 5 CCR 432 shall only be changed with proper documentation. However, at the written request of a student or, if appropriate, his/her parents/guardians, the district shall use the student's preferred name and pronouns consistent with his/her gender identity on all other district-related documents. Such preferred name may be added to the student's record and official documents as permitted by law.

(cf. 5125 - Student Records)

(cf. 5125.1 - Release of Directory Information)

6. Names and Pronouns: If a student so chooses, district personnel shall be required to address the student by a name and the pronouns consistent with his/her gender identity, without the necessity of a court order or a change to his/her official district record. However, inadvertent slips or honest mistakes by district personnel in the use of the student's name and/or consistent pronouns will, in general, not constitute a violation of this administrative regulation or the accompanying district policy.

7. Uniforms/Dress Code: A student has the right to dress in a manner consistent with his/her gender identity, subject to any dress code adopted on a school site.

The Governing Board desires to promote effective communication between the school and the home and to keep parents/guardians informed regarding educational programs, school operations, and the legal rights of students and their parents/guardians. The Superintendent or designee shall send parents/guardians and students all notifications required by law and any other notifications he/she believes will promote parental understanding and involvement.

(cf. 5020 - Parent Rights and Responsibilities)

(cf. 5022 - Student and Family Privacy Rights)

(cf. 6020 - Parent Involvement)

Notice of the rights and responsibilities of parents/guardians as specified in Education Code 48980 shall be sent at the beginning of each academic year and may be provided by regular mail, in electronic form when so requested by the parent/guardian, or by any other method normally used by the district for written communication with parents/guardians. (Education Code 48981)

No activity specified in Education Code 48980 shall be undertaken with respect to any particular student unless his/her parent/guardian has been informed of such action through the annual notification or other separate special notification. Such notice shall state the activity that will be undertaken and the approximate date on which the activity will occur. (Education Code 48983-48984)

The annual notification shall include a request that the parent/guardian sign the notice and return it to the school or, if the notice is provided in electronic format, that the parent/guardian submit a signed acknowledgment of receipt of the notice to the school. The parent/guardian's signature is an acknowledgment of receipt of the information but does not indicate that consent to participate in any particular program has been given or withheld. (Education Code 48982)

Whenever a student enrolls in a district school during the school year, his/her parents/guardians shall be given all required parental notifications at that time.

Notifications shall be presented in an understandable and uniform format and, to the extent practicable, in a language that parents/guardians can understand.

Whenever 15 percent or more of the students enrolled in a district school speak a single primary language other than English, as determined from the California Department of Education census data collected pursuant to Education Code 52164, all notices sent to the parent/guardian of any such student shall, in addition to being written in English, be written in the primary language, and may be responded to either in English or the primary language. (Education Code 48981, 48985)

Whenever an employee learns that a student's parent/guardian is unable to understand the district's printed notifications for any reason, he/she shall inform the principal or designee, who shall work with the parent/guardian to establish other appropriate means of communication.

SEXUAL HARASSMENT--STUDENTS

The Governing Board is committed to maintaining a safe school environment that is free from harassment and discrimination. The Board also prohibits retaliatory behavior or action against any person who reports, files a complaint or testifies about, or otherwise supports a complainant in alleging sexual harassment.

The district strongly encourages any student who feels that he/she is being or has been sexually harassed on school grounds or at a school-sponsored or school-related activity by another student or an adult to immediately contact his/her teacher, the principal, or any other available school employee. Any employee who receives a report or observes an incident of sexual harassment shall notify the principal or a district compliance officer.

(cf. 1312.3 - Uniform Complaint Procedures)

The Superintendent or designee shall take appropriate actions to reinforce the district's sexual harassment policy.

Instruction/Information

5. Information about the district's procedure for investigating complaints and the person(s) to whom a report of sexual harassment should be made
6. Information about the rights of students and parents/guardians to file a civil or criminal complaint, as applicable

Disciplinary Actions

Any student who engages in sexual harassment or sexual violence at school or at a school-sponsored or school-related activity is in violation of this policy and shall be subject to disciplinary action. For students in grades 4-12, disciplinary action may include suspension and/or expulsion, provided that, in imposing such discipline, the entire circumstances of the incident(s) shall be taken into account.

Reporting Process and Complaint Investigation and Resolution

Any student who believes that he/she has been subjected to sexual harassment or who has witnessed sexual harassment is strongly encouraged to report the incident to his/her teacher, the principal, or any other available school employee. Within one school day of receiving such a report, the school employee shall forward the report to the principal or the district's compliance officer identified in AR 1312.3. In addition, any school employee who observes an incident of sexual harassment involving a student shall, within one school day, report his/her observation to the principal or a district compliance officer. The employee shall take these actions, whether or not the alleged victim files a complaint.

In any case of sexual harassment involving the principal, compliance officer, or any other person to whom the incident would ordinarily be reported or filed, the report may instead be submitted the Superintendent or designee.

(cf. 5141.4 - Child Abuse Prevention and Reporting)

When a report of sexual harassment is submitted, the principal or compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with the district's uniform complaint procedures.

If a complaint of sexual harassment is initially submitted to the principal, he/she shall, within two school days, forward the report to the compliance officer to initiate investigation of the complaint.

STUDENTS

AR 5145.7

SEXUAL HARASSMENT—STUDENTS (continued)

The compliance officer shall contact the complainant and investigate and resolve the complaint in accordance with law and district procedures specified in AR 1312.3.

Confidentiality

All complaints and allegations of sexual harassment shall be kept confidential except as necessary to carry out the investigation or take other subsequent necessary action. (5 CCR 4964)

However, when a complainant or victim of sexual harassment notifies the district of the harassment but requests confidentiality, the compliance officer shall inform him/her that the request may limit the district's ability to investigate the harassment or take other necessary action. When honoring a request for confidentiality, the district will nevertheless take all reasonable steps to investigate and respond to the complaint consistent with the request.

When a complainant or victim of sexual harassment notifies the district of the harassment but requests that the district not pursue an investigation, the district will determine whether or not it can honor such a request while still providing a safe and nondiscriminatory environment for all students.
(cf. 4119.23/4219.23/4319.23 - Unauthorized Release of Confidential/Privileged Information)
(cf. 5125 - Student Records)

Response Pending Investigation

When an incident of sexual harassment is reported, the principal or designee, in consultation with the compliance officer, shall determine whether interim measures are necessary pending the results of the investigation. The principal/designee or compliance officer shall take immediate measures necessary to stop the harassment and protect students and/or ensure their access to the educational program. Such measures may include placing the individuals involved in separate classes or transferring a student to a class taught by a different teacher, in accordance with law and Board policy. The school should notify the individual who was harassed of his/her options to avoid contact with the alleged harasser and allow the complainant to change academic and extracurricular arrangements as appropriate. The school should also ensure that the complainant is aware of the resources and assistance, such as counseling, that are available to him/her. As appropriate, such actions shall be considered even when a student chooses to not file a formal complaint or the sexual harassment occurs off school grounds or outside school-sponsored or school-related programs or activities.

TITLE IX SEXUAL HARASSMENT COMPLAINT PROCEDURES

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a student was subjected to one or more of the following forms of sexual harassment: (34 CFR 106.30)

1. A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a student equal access to the district's education program or activity
3. Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

All other sexual harassment complaints shall be investigated and responded to pursuant to AR 1312.3 - Uniform Complaint Procedures.

A report of sexual harassment shall be submitted directly to or forwarded to the district's Title IX Coordinator using the contact information listed in AR 5145.7 - Sexual Harassment.
(cf. 5145.7 - Sexual Harassment)

Upon receiving such a report, the Title IX Coordinator shall inform the complainant of the process for filing a formal complaint.

Even if the alleged victim chooses not to file a formal complaint, the Title IX Coordinator shall file a formal complaint in situations in which a safety threat exists. In addition, the Title IX Coordinator may file a formal complaint in other situations as permitted under the Title IX regulations. In such cases, the alleged victim is not a party to the case, but will receive notices as required by the Title IX regulations at specific points in the complaint process.

A formal complaint, with the complainant's physical or digital signature, may be filed with the Title IX Coordinator in person, by mail, by email, or by any other method authorized by the district. (34 CFR 106.30)

The Superintendent or designee shall ensure that the Title IX Coordinator, investigator, decision-maker, or a facilitator of an informal resolution process does not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent, and that such persons receive training in accordance with 34 CFR 106.45. (34 CFR 106.45)

Supportive Measures

Upon receipt of a report of Title IX sexual harassment, even if a formal complaint is not filed, the Title IX Coordinator shall promptly contact the complainant to discuss the availability of supportive measures which are nondisciplinary, nonpunitive, and do not unreasonably burden the other party.

TITLE IX SEXUAL HARASSMENT COMPLAINT PROCEDURES (CONTINUED)

Such measures may include, but are not limited to, counseling, course-related adjustments, modifications of class schedules, mutual restrictions on contact, increased security, and monitoring of certain areas of the campus. The Title IX Coordinator shall consider the complainant's wishes with respect to supportive measures. (34 CFR 106.30, 106.44)

Emergency Removal from School

On an emergency basis, the district may remove a student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an immediate threat to the physical health or safety of any student or other individual arising from the allegations, and provides the student with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator shall dismiss a formal complaint if the alleged conduct would not constitute sexual harassment as defined in 34 CFR 106.30 even if proved. The Title IX Coordinator shall also dismiss any complaint that did not occur in the district's education program or activity or did not occur against a person in the United States, and may dismiss a formal complaint if the complainant notifies the district in writing that the complainant would like to withdraw the complaint or any allegations in the complaint, the respondent is no longer enrolled or employed by the district, or sufficient circumstances prevent the district from gathering evidence sufficient to reach a determination with regard to the complaint. (34 CFR 106.45)

Upon dismissal, the Title IX Coordinator shall promptly, and simultaneously to the parties, send written notice of the dismissal and the reasons for the dismissal. (34 CFR 106.45)

If a complaint is dismissed on the grounds that the alleged conduct does not constitute sexual harassment as defined in 34 CFR 106.30, the conduct may still be addressed pursuant to BP/AR 1312.3 - Uniform Complaint Procedures as applicable.

Informal Resolution Process

When a formal complaint of sexual harassment is filed, the district may offer an informal resolution process, such as mediation, at any time prior to reaching a determination regarding responsibility. The district shall not require a party to participate in the informal resolution process or to waive the right to an investigation and adjudication of a formal complaint. (34 CFR 106.45)

The district may facilitate an informal resolution process provided that the district: (34 CFR 106.45)

TITLE IX SEXUAL HARASSMENT COMPLAINT PROCEDURES (CONTINUED)

1. Provides the parties with written notice disclosing the allegations, the requirements of the informal resolution process, the right to withdraw from the informal process and resume the formal complaint process, and any consequences resulting from participating in the informal resolution process, including that records will be maintained or could be shared.
2. Obtains the parties' voluntary, written consent to the informal resolution process
3. Does not offer or facilitate an informal resolution process to resolve allegations that an employee sexually harassed a student

Formal Complaint Process

If a formal complaint is filed, the Title IX Coordinator shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process
2. The allegations potentially constituting sexual harassment with sufficient details known at the time, including the identity of parties involved in the incident if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident if known. Such notice shall be provided with sufficient time for the parties to prepare a response before any initial interview.

If, during the course of the investigation, the district investigates allegations about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.

3. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the complaint process
4. The opportunity for the parties to have an advisor of their choice who may be, but is not required to be, an attorney, and the ability to inspect and review evidence
5. The prohibition against knowingly making false statements or knowingly submitting false information during the complaint process

The above notice shall also include the name of the investigator, facilitator of an informal process, and decision-maker and shall provide either party with no less than three calendar days to raise concerns of conflict of interest or bias regarding any of these persons.

During the investigation process, the district shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence

TITLE IX SEXUAL HARASSMENT COMPLAINT PROCEDURES (CONTINUED)

2. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence
3. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney
4. Not limit the choice or presence of an advisor for either the complainant or respondent in any meeting or grievance proceeding, although the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings as long as the restrictions apply equally to both parties
5. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings, with sufficient time for the party to prepare to participate
6. Send in an electronic format or hard copy to both parties and their advisors, if any, the evidence that is directly related to the allegations raised in the complaint, and provide the parties at least 10 days to submit a written response for the investigator to consider prior to the completion of the investigative report
7. Objectively evaluate all relevant evidence, including both inculpatory and exculpatory evidence, and determine credibility in a manner that is not based on a person's status as a complainant, respondent, or witness
8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the determination of responsibility, send to the parties and their advisors, if any, the investigative report in an electronic format or a hard copy, for their review and written response
9. After sending the investigative report to the parties and before reaching a determination regarding responsibility, afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence are offered to prove that someone other than the respondent committed the conduct alleged by the complainant or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.

Privacy rights of all parties to the complaint shall be maintained in accordance with applicable state and federal laws.

If the complaint is against an employee, rights conferred under an applicable collective bargaining

agreement shall be applied to the extent they do not conflict with the Title IX requirements.

Written Decision

The Superintendent shall designate an employee as the decision-maker to determine responsibility for the alleged conduct, who shall not be the Title IX Coordinator or a person involved in the investigation of the matter. (34 CFR 106.45)

The decision-maker shall issue, and simultaneously provide to both parties, a written decision as to whether the respondent is responsible for the alleged conduct. (34 CFR 106.45)

The written decision shall be issued within 45 calendar days of the receipt of the complaint.

The timeline may be temporarily extended for good cause with written notice to the complainant and respondent of the extension and the reasons for the action. (34 CFR 106.45)

In making this determination, the district shall use the "preponderance of the evidence" standard for all formal complaints of sexual harassment. The same standard of evidence shall be used for formal complaints against students as for complaints against employees. (34 CFR 106.45)

The written decision shall include the following: (34 CFR 106.45)

1. Identification of the allegations potentially constituting sexual harassment as defined in 34 CFR 106.30
2. A description of the procedural steps taken from receipt of the formal complaint through the written decision, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held if the district includes hearings as part of the grievance process
3. Findings of fact supporting the determination
4. Conclusions regarding the application of the district's code of conduct to the facts
5. A statement of, and rationale for, the result as to each allegation, including a decision regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's educational program or activity will be provided by the district to the complainant
6. The district's procedures and permissible bases for the complainant and respondent to appeal

Appeals

Either party may appeal the district's decision or dismissal of a formal complaint or any allegation in

the complaint, if the party believes that a procedural irregularity affected the outcome, new evidence is available that could affect the outcome, or a conflict of interest or bias by the Title IX Coordinator, investigator(s), or decision-maker(s) affected the outcome. If an appeal is filed, the district shall: (34 CFR 106.45)

1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties
2. Ensure that the decision-maker(s) for the appeal is trained in accordance with 34 CFR 106.45 and is not the same decision-maker(s) who reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator
3. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome
4. Issue a written decision describing the result of the appeal and the rationale for the result
5. Provide the written decision simultaneously to both parties

An appeal must be filed in writing within 10 calendar days of receiving the determination, stating the grounds for the appeal and including any relevant documentation in support of the appeal. Appeals submitted after this deadline are not timely and shall not be considered. Either party has the right to file a complaint with the U.S. Department of Education's Office for Civil Rights.

A written decision shall be provided to the parties within 20 calendar days from the receipt of the appeal.

Remedies

When a determination of responsibility for sexual harassment has been made against the respondent, the district shall provide remedies to the complainant. Such remedies may include the same individualized services described above in the section "Supportive Measures," but need not be nondisciplinary or nonpunitive and need not avoid burdening the respondent. (34 CFR 106.45)

Corrective/Disciplinary Actions

The district shall not impose any disciplinary sanctions or other actions against a respondent, other than supportive measures as described above in the section "Supportive Measures," until the complaint procedure has been completed and a determination of responsibility has been made. (34 CFR 106.44)

For students in grades 4-12, discipline for sexual harassment may include suspension and/or expulsion. After the completion of the complaint procedure, if it is determined that a student at any

(cf. 5144 - Discipline)

(cf. 5144.1 - Suspension and Expulsion/Due Process)

Other actions that may be taken with a student who is determined to be responsible for sexual harassment include, but are not limited to:

2. Parent/guardian conference
3. Education of the student regarding the impact of the conduct on others
4. Positive behavior support

(cf. 6164.5 - Student Success Teams)
6. Denial of participation in extracurricular or cocurricular activities or other privileges as permitted by law
(cf. 6145 - Extracurricular and Cocurricular Activities)

When an employee is found to have committed sexual harassment or retaliation, the district shall take appropriate disciplinary action, up to and including dismissal, in accordance with applicable law and collective bargaining agreement.

Record-Keeping

The Superintendent or designee shall maintain for a period of seven years a record of all reported cases and Title IX investigations of sexual harassment, any determinations of responsibility, any audio or audiovisual recording and transcript if applicable, any disciplinary sanctions imposed, any remedies provided to the complainant, any appeal or informal resolution and the results therefrom, and responses made pursuant to 34 CFR 106.44. (34 CFR 106.45)

The Superintendent or designee shall also maintain for a period of seven years all materials used to train the Title IX Coordinator, investigator(s), decision-maker(s), and any person who facilitates an informal resolution process. The district shall make such training materials publicly available on its web site, or if the district does not maintain a web site, available upon request by members of the public. (34 CFR 106.45)

MARRIED/PREGNANT/PARENTING STUDENTS

The Governing Board recognizes that responsibilities related to marriage, pregnancy, or parenting and related responsibilities may disrupt a student's education and increase the chance of a student dropping out of school. The Board therefore desires to support married, pregnant, and parenting students to continue their education, attain strong academic and parenting skills, and promote the healthy development of their children.

(cf. 5113.1 - Chronic Absence and Truancy)

(cf. 5147 - Dropout Prevention)

(cf. 6011 - Academic Standards)

(cf. 6164.5 - Student Success Teams)

The district shall not exclude or deny any student from any educational program or activity, including any class or extracurricular activity, solely on the basis of the student's pregnancy, childbirth, false pregnancy, termination of pregnancy, or related recovery. In addition, the district shall not adopt any rule concerning a student's actual or potential parental, family, or marital status that treats students differently on the basis of sex. (EC 221.51, 230; 5 CCR 4950; 34 CFR 106.40) (cf. 0410 - Nondiscrimination in District Programs and Activities)

The Superintendent or designee shall annually notify parents/guardians at the beginning of the school year of the rights and options available to pregnant and parenting students under the law. In addition, pregnant and parenting students shall be notified of the rights and options available to them under the law through annual school year welcome packets and through independent study packets. (Education Code 222.5, 48980)

(cf. 5145.6 - Parental Notifications)

For school-related purposes, a student under the age of 18 years who enters into a valid marriage shall have all the rights and privileges of students who are 18 years old, even if the marriage has been dissolved. (Family Code 7002)

Education and Support Services for Pregnant and Parenting Students

Pregnant and parenting students shall retain the right to participate in the regular education program or an alternative education program. The classroom setting shall be the preferred instructional strategy unless an alternative is necessary to meet the needs of the student and/or the student's child.

(cf. 6158 - Independent Study)

(cf. 6181 - Alternative Schools/Programs of Choice)

(cf. 6184 - Continuation Education)

(cf. 6200 - Adult Education)

Any alternative education program, activity, or course that is offered separately to pregnant or parenting students, including any class or extracurricular activity, shall be equal to that offered to other district students. A student's participation in such programs shall be voluntary. (EC 221.51; 5 CCR 4950)

(EC 221.51; 5 CCR 4950; 34 CFR 106.40)

(cf. 6142.7 - Physical Education and Activity)

(cf. 6145 - Extracurricular and Cocurricular Activities)

(cf. 6183 - Home and Hospital Instruction)

To the extent feasible, the district shall provide educational and related support services, either directly or in collaboration with community agencies and organizations, to meet the needs of pregnant and parenting students and their children. Such services may include, but are not limited to:

1. Child care and development services for the children of parenting students on or near school site(s) during the school day and during school-sponsored activities
(cf. 5148 - Child Care and Development)

Absences

Pregnant or parenting students may be excused for absences for medical appointments and other purposes specified in BP/AR 5113 - Absences and Excuses.

Parental Leave

A pregnant or parenting student shall be entitled to eight weeks of parental leave in order to protect the health of the student who gives or expects to give birth and the infant, and to allow the pregnant or parenting student to care for and bond with the infant. Such leave may be taken before the birth of the student's infant if there is a medical necessity and after childbirth during the school year in which the birth takes place, inclusive of any mandatory summer instruction. The Superintendent or designee may grant parental leave beyond eight weeks if deemed medically necessary by the student's physician. (EC 46015; 34 CFR 106.40)

The student, if age 18 years or older, or the student's parent/guardian shall notify the school of the student's intent to take parental leave. No student shall be required to take all or part of the parental leave. (EC 46015)

(cf. 5113.11 - Attendance Supervision)

(EC 46015)

Vandalism includes negligent, willful, or unlawful damaging or taking of any district-owned real or personal property. The parents or guardian having custody or control of a minor who commits an act of vandalism may be held liable for up to \$7,500 for that act. The parents or guardian may also be held liable for rewards of up to \$7,500.

If the Superintendent or law enforcement officials are unable to fix the responsibility for the vandalism, the Superintendent is authorized to offer a reward in any amount he/she deems appropriate, not exceeding five hundred dollars (\$500), for information leading to the identification and apprehension of the guilty party. A reward in excess of \$500 must be authorized in advance by the Board.

SCHOOL IMPROVEMENT PROGRAM

It is the intention of the Enterprise Board of Education to participate in a program of improvement of elementary and secondary education as set forth in Education Code Section #52000-52058.

Since students benefit when parents and staff work together to achieve the purposes of the school, the Board of Education encourages the establishment of a School Site Advisory Council at each school. The following areas are to be given major consideration by the School Site Councils in their work to develop an improvement program for students:

1. Individualized Instruction – The Enterprise School District has a long-standing tradition of emphasizing a program which meets the individual's needs. This philosophy is hereby made a part of the direction given to the School Site Councils and is to be used as a guide to their deliberations and decisions.

Board Policy #0100:

"The philosophy of the Enterprise School District shall be to encourage each child in the district to progress to the full extent of his ability in the academic, creative, and social realms. Recognizing that the laws governing the conduct of individuals in our society are designed to protect the rights and freedoms of the society are designed to protect the rights and freedoms of the society as well as the individual, each child should be encouraged to respect the rights and privileges of others and to participate in as many group academic, creative, and social tasks as possible. To help achieve this, all activity should give attention to the need for balance and harmony between the common needs of the group and individual freedom."

2. Goals of Education – The district's goals and objectives were developed as a result of the combined efforts of teachers, parents, administrators, and the Board of Education. The goals emphasize the intellectual development of the student as the primary responsibility of the school. These goals are also made a part of this policy to serve as a guide to the School Site Councils in their deliberations and decisions.

Board Policy #0200

1. *A positive attitude towards school and the learning process.*
2. *Mastery of the basic skills in the use of words and numbers.*
3. *Creativity in one or more fields.*
4. *Habits and attitudes associated with responsible citizenship.*
5. *Good health habits and the understanding of the conditions necessary for the maintenance of physical and emotional well-being.*
6. *Understanding himself/ herself and the application of his/ her worthiness as a member of society.*
7. *Understanding and appreciation of human achievement in the (1) arts; (2) humanities; (3) social sciences; and (4) the natural sciences.*
8. *Understanding and appreciation of persons belonging to social, cultural, and ethnic groups different from his/ her own.*
9. *Understanding and appreciation of the opportunities open to him/ her for preparing himself/ herself for a productive life which will enable him/ her to take full advantage of these opportunities.*
10. *Preparation for a world of rapid changes and unforeseeable demands in which education throughout his adult life should be a normal expectation.*

SCHOOL IMPROVEMENT PROGRAM (continued)

3. Emphasis Upon Excellence – Helping students achieve excellence is a compatible goal which must be recognized. Excellence is an attitude, a purpose, a direction, and is broad in scope. It may be achieved in academic pursuits, but an honest respect for human differences will lead to recognition of excellence in the fine arts, athletics, values, and social responsibilities.
4. Communication – Effective communication is essential to the successful operation of the school district. Open channels of communication shall be maintained between the School Site Councils, the district administration, the district committees dealing with the program, and the Board of Education.
5. District Wide Consistency and Continuity – All students need to make continuous progress in learning those skills and in acquiring knowledge which will enable them to continue their education into adult life. Ideally, each student will have the opportunity to complete each stage of learning and move on to the next without delay. The skills in the basic academic areas shall be built on a series of steps which lead from the elementary to the intermediate school, and on to reasonable mastery at high school. The program at all three levels is part of a sequence in the student's mastery of skills, rather than three separate programs. In order to facilitate such consistency and continuity throughout this district, the curriculum selected by the School Site Council needs to be consistent at all levels and with district proficiency standards.
6. Community Participation – Each school shall include provisions for the active participation of parents in the school's program. The involvement of parents helps build support for the school's program. The primary purpose of the plan shall be to improve learning with particular emphasis in the academic areas. The plan needs to increase productive learning time.
7. Proficiency Standards – Proficiency standards for all students in the Enterprise School District at all grades, except kindergarten, shall be established in accordance with the requirements of the California Education Code. The standards shall be uniformly established in the district. Alternatives shall be provided for students who are unable to meet the standards for legitimate reasons. These standards are to be carefully reviewed by the School Site Councils to evaluate their effects and influence on academic excellence.
8. Professional Teaching – The importance of the individual teacher's competencies and the interrelationship between the pupil and teacher is recognized as being at the very heart of the instructional program. Students learn best when they are with a "true teacher," and the teacher's time needs to be protected. Planning and staff improvement are important, but they must supplement rather than supplant teacher time requirements. The Enterprise Board of Education continues to recognize and reiterates that the

BOARD POLICY**

INSTRUCTION

SCHOOL IMPROVEMENT PROGRAM (continued)

effectiveness of the instructional program will be directly proportional to the competencies and effectiveness of the teachers in the district, individually and collectively.

9. Other Personnel – Teacher aides, resource people, and volunteers also play an important role in the effectiveness of the overall instructional program. The Board of Education recognizes their contribution, and they must be given consideration in the development of the School Improvement Program at the local school site.
10. Evaluation – Continuous improvement depends upon thorough evaluation, and the Board of Education endorses the concept that parents should be included in the evaluation of the school's program. The school's staff shall develop a plan of evaluation which includes the participation of the School Site Council. The emphasis of all evaluations of the School Improvement Program will focus upon student achievement in the basic skills of reading, writing, and computation.

The Enterprise School District's Board of Education recognizes that the new provisions under the Education Code (AB65) provide this board with an opportunity to increase its impact on the quality of education. This policy is intended to improve the schools and to establish and identify purposes and priorities, provide necessary guidance and direction, exercise leadership required, and to work cooperatively and aggressively toward the accomplishment of the district's established philosophy and goals.

The purpose of providing competitive sports activities through school sponsorship is to enhance the learning experiences available to young people. Opportunities must be provided in a wholesome environment which will have direct learning opportunities for young people.

These competitive sports activities do not take the place of the regular on-going physical educational program which is to be conducted for all students at all grade levels at all the district's schools.

It is understood that not all will agree on how the competitive sports program can best be conducted. These Administrative Regulations are established in order to exercise control over activities which the district sponsors and to assure that a uniform and consistent approach will protect students, employees, participants, administrators, and the school district.

The following Administrative Regulations will apply in a uniform manner throughout the district at all K-6 schools for boys, girls, and co-educational activities:

- 1, A decentralized philosophy will apply, and participation in a competitive sports program will be determined at the school level on a strictly voluntary basis. Under the direction of the school principal, a determination will be made as to whether or not a school will participate in the competitive sports program, and to what degree such participation will take place.
2. Any competitive sports activities conducted under the auspices of the Enterprise Elementary School District will be considered to be school-sponsored and must be formally approved by the administration and/or the Board of Education.

EXTRA-PAY ACTIVITIES

The Enterprise Board of Education recognizes that many valuable learning experiences can occur in school-related activities that are not a direct part of the regular ongoing instructional program. It is further recognized that the need for such activities in a well defined and organized manner is greater at the 6th-8th grade level than at the K-6 level. Activities which can appropriately be school sponsored provide a wholesome environment which will help students in their learning process. Major activities include, but are not limited to, athletics, student government and activities, choral and instrumental music, yearbook, and newspaper activities. Others may also be considered in this category from time to time and it is not the intent of this policy to necessarily limit the activities to those areas listed.

The Enterprise Elementary School District sponsors such activities at the 6th-8th grade level and will attempt to provide for such activities for both boys and girls within the limits of the district's financial resources. All activities conducted under this policy are authorized by the school district and are under the direct supervision and control of school district authorities.

The District Superintendent is charged with the responsibility of providing guidelines through the development of Administrative Regulations. These Administrative Regulations are to be coordinated and approved with the Exclusive Representative in those areas where negotiations are required under the Rodda Act.

EXTRA-PAY ACTIVITIES

Extra-pay activities may be provided in the Enterprise Elementary School District according to Board Policy 6040. Appropriate sections of the employee agreement will apply in conducting such extra-pay activities.

The purpose is to provide extra-pay activities that take place separate and apart from the ongoing instructional program. Individuals who assume responsibilities for extra-pay activities do so with the understanding that these are added responsibilities above and beyond their regular teaching assignment, and that these assignments are not to interfere with or take the place of their ongoing teaching responsibilities.

There may be disagreement about how the extra-pay activity program is to be conducted or which activities are to be included. The Board of Education will consider all input prior to making final decisions on extra-pay activity offerings.

Vacancies in the Extra-Pay Activity Program will be announced and posted at each school five (5) calendar days before the position is filled. A general announcement listing all openings for extra-pay activities will be distributed in May of each year so that the district and individuals can plan well in advance. In the event an individual is unable to honor the commitment on short notice, the position will be filled by a temporary replacement while the position is advertised on a district-wide basis, giving five (5) days notice.

Individuals who fill extra-pay activity assignments will be selected by the following procedure:

1. Certificated teachers from the Enterprise Elementary School District will be selected first. Current First-Aid and CPR certificates are required, if applicable to the extra-pay activity involved.
2. For those activities where no certificated teacher applies from the specific school site, other certificated teachers from within the bargaining unit will be selected.
3. In the event that no certificated teacher from the bargaining unit applies, other applicants will be sought, with the best qualified person being selected. All applicants are required to have current First Aid and CPR certificates, if applicable to the extra-pay activity involved.

Where more than one person from any of the above three categories applies for a given position, normal selection procedures will be followed.

Supervision of extra-pay activities will not be transferred to other teachers within the district who have not been initially assigned the responsibility of the extra-pay activity.

EXTRA-PAY ACTIVITIES (continued)

Those individuals who assume extra-pay activities will be required to sign a “letter of commitment.” This letter will include the approximate starting and ending date of the activity and the maximum number of weeks required to fulfill the responsibility. The amount of pay for the activity will be listed and will correspond to the amount listed in the current employee agreement. Major responsibilities and goals included in the activity will be enumerated in the “letter of commitment.” A copy of the “letter of commitment” will be made available to the Exclusive Representative.

In the event an individual assumes a portion of the total responsibility of an activity, a pro-rata payment on a “time spent basis” will be applied, or the district and Exclusive Representative will establish another mutually acceptable solution.

RELIGIOUS ACTIVITIES

The Enterprise Board of Education recognizes the doctrine of separation of church and state in accordance with the First Amendment of the Constitution of the United States.

The Board of Education further recognizes that state and federal laws as well as court cases have addressed the subject of religious activities in public schools, and that the Board of Education is obligated to be in strict compliance with directions set forth regarding such matters.

The Enterprise Board of Education further recognizes that studies of a cultural nature are a necessary part of a sound, well-rounded social science program. The fact that religion is a major facet of man's culture and has vastly influenced man through the ages is recognized.

In an attempt to provide guidance to employees in the district in an area which is often contradictory and controversial, it shall be the policy of the Enterprise School District to provide instruction of a historical nature related to religion, provided that such instruction is accurate and documented from a historical and cultural point of view; and that activities' primary objectives are educational in nature.

Such instruction shall not infringe upon the rights of any student, and activities which attempt to unduly influence or indoctrinate individual students to a particular point of view are considered to be inappropriate.

RELIGIOUS ACTIVITIES

The following considerations are to assist staff members in instruction areas for religious related activities during the school year:

1. A well rounded instructional program includes studies of man's culture. Man's religion is a major facet of his culture. As such, it is an appropriate topic for consideration in the instructional program.
2. Any instruction of a religious nature must be historical, cultural, or educational in nature.
3. The "indoctrination" or "undue influence" of any individual student toward a particular point of view is inappropriate in the school setting.
4. Careful distinction must be made between "teaching" and "teaching about." "Teaching" implies an attempt to "indoctrinate;" while "teaching about" is an objective dissemination of information. In this regard, care must be taken to see that no religious doctrine is taught, but rather that instruction deals with happenings and the historical nature of events.
5. Care must be taken so that the school does not infringe upon the rights of any student.
6. Caution should be taken to see that the individual student is not embarrassed, and that there is no violation of his individual conscience.
7. Time spent in any instructional activity must be justified educationally and be kept in appropriate proportion with other instructional activities.
8. Any program should reflect instructional value, rather than entertainment.
9. Extravagant presentations and the use of extensive stage effects and settings are inappropriate.
10. Careful advance planning should take place so that any instructional activity is carefully thought out on a total school and district basis.
11. Holiday events which have a religious basis need to be kept in appropriate perspective in both emphasis and time spent to be justified from an instructional point of view.
12. Specific religious activities with their central theme as scripture or religious ceremonies are inappropriate. This would include reciting scripture, such things as nativity scenes, crosses, etc.

RELIGIOUS ACTIVITIES (continued)

13. Emphasis on holiday symbols of a non-religious basis (such as Santa Claus, the Easter Bunny, etc.) shall be kept at a very minimum.
14. Much of the finest music of our culture is of a religious nature, and as music, may be appropriately used for instructional purposes, including the presentation of musical programs.

PROFICIENCY PROCEDURES RELATED TO ALTERNATIVE INSTRUCTION

Any pupil who does not demonstrate sufficient progress toward the mastery of basic skills as established by the minimum proficiency standards of the Enterprise School District so that he/she will be able to meet these standards upon exit from the 4th and 7th grade shall be provided with a plan for remediation in these basic skills which will allow him/her to demonstrate mastery.

Parents of students in this category should be informed that the pupil has not demonstrated sufficient progress toward mastery of the basic skills, and the principal or his/her designee shall invite the parents to schedule a parent/teacher conference to discuss the results of the pupil assessment and to recommend actions which will further the pupil's progress. Instruction in the basic skills shall be provided for any pupil who does not indicate sufficient progress toward mastery of basic skills and shall continue until the pupil has been given numerous opportunities to achieve mastery. Such instruction may be provided in the regular program, a special program such as RSP, SDC, Chapter I, or ESL or through a separate proficiency class to be held in conjunction with the district summer school. The instructional program shall have as its primary purpose the mastery of the basic skills and should not be used as a means of punishment or coercion.

Attempts should be made at the parent conference to identify the main cause of the non-proficiency, including but not limited to academic problems, behavior problems, and environmental problems. Teachers will play a major role in recommending action which will best fit the needs of the child. The district will provide reasonable support in resources and personnel. Individual instructional plans for students will be developed jointly by the principal or his/her designee, the teacher, and, if possible parents and student.

STANDARDIZED TESTS, DISTRICT ASSESSMENTS, AND ACCOUNTABILITY

The purposes of district standardized, normed, and criterion-referenced tests and assessments will be to:

- Provide data to measure and improve student learning, achievement and motivation for learning.
- Inform students, parents, staff and community of achievement patterns.
- Provide feedback to teaching staff for continuous improvement.
- Provide a basis for decisions on curriculum development, management, alignment and abandonment.

The Enterprise School District, as a matter of educational justice and child advocacy, is committed to overcoming student socioeconomic status, gender, or ethnicity (language) as a predictor of standardized test performance.

It is also recognized that standardized test scores are only one factor of many in the measure of great teaching. Accordingly, standardized test scores will not be used by the district for teacher evaluation. (EC 44662). The District will use the high stakes testing movement for improvement of its educational system and will monitor and take steps to ameliorate any unintended negative side effects of the movement. Multiple measures will be employed to assess various facets of student learning and organizational accountability in support of learning.

Administrators and teachers will be trained and are expected to:

1. Possess a high level of current knowledge and understanding of test and assessment data as well as the use of data for the improvement of student learning and teacher practice;
2. Work collaboratively in the development of assessment instruments;
3. Work collaboratively on the systematic analysis of student achievement data which will result in the implementation of best instructional practices and the closest alignment of instruction and curriculum with district goals and standards.

Teachers are required to administer tests and assessments as directed by the district. Parents will have access to their own child's scores. Individual student scores will remain confidential and available to appropriate professional staff. Students are expected to work diligently on tests and assessments for the purpose of improving their own learning and achievement.

Whenever possible, the same test or assessment instrument will be utilized over a three (or more) year period in order to provide meaningful trend information. STAR scores and growth, as well as appropriate district assessments, will be made available to the public in the School Accountability Report Cards displayed as three year trend reports for:

1. District
2. School Wide API
3. Subject Matter by School and District

Administrators will have access to all standardized test and criterion-referenced assessment data. Administrators are charged with analyzing and sharing data in a collaborative manner that will support the goals of this policy. Individual teacher data will not be made available in a manner that provides a disincentive for teachers to work with the students most in need. Administrators will insure that those closest to the point of implementation, the practitioners, will analyze the data collaboratively to the greatest extent possible. Teams of teachers will be given as much autonomy as possible in selecting the kind of data they think will be most helpful. Test and assessment scores will be provided to the grade level or department without identification of individual teachers for collaborative analysis. If individual teachers decide to identify their own classroom scores in sharing with grade level or departmental or colleagues, such information will be held in confidence by the colleagues who are entrusted with it.

Administrators will utilize as a minimum the following criterion referenced assessment and standardized test information:

1. Individual classroom scores by teacher
2. Scores by grade level
3. Scores by department
 - Scores by school including API
 - Scores by District, County, State
 - Scores by Item Analysis
 - Scores by Gender, Ethnicity

The Governing Board shall fix the length of the school day in accordance with law. (EC 46100)

At each school, the length of the school day shall be the same for all students, except as otherwise permitted by law. For any student with a disability, the length of the school day shall be as specified in the student's individualized education program or Section 504 plan.

Unless there is a field trip or other educational program, the daily schedule for grades K-5 shall include at least one or more periods of recess of at least 30 minutes on regular instructional days and 15 minutes on early release days. During this time, students shall be provided supervised opportunities, outdoors when weather and air quality permit unless space is not sufficient in which case recess may be held indoors, to engage in unstructured physical activity, play, organized games, and/or social engagement with peers, and may be provided a snack. (EC 49056)

In establishing the daily instructional schedule for each secondary school, the Superintendent or designee shall give consideration to course requirements and curricular demands, availability of school facilities and equipment, and applicable legal requirements.

The Board encourages flexibility in scheduling so as to provide longer time blocks or class periods when appropriate and desirable to support student learning, provide more intensive study of core academic subjects or extended exploration of complex topics, and reduce transition time between classes.

Prior to implementing a block or alternative schedule that will allow secondary students to attend school for fewer school days than the total number of school days for which the school is in session, the Board shall consult in good faith, in an effort to reach agreement with the certificated and classified employees of the school, parents/guardians of the students who would be affected by the change, and the community at large. STAFF DEVELOPMENT

The Governing Board strongly supports the professional development of all staff members. It is the expectation of the Board that all District and school-based staff development be focused on District goal priorities and aligned to the mission and curriculum of the District. A comprehensive long-range staff development plan needs to be in place to focus the organization toward increased student productivity. All school staff development endeavors need to be aligned to the District staff development plan.

Identification of staff development needs should draw major emphasis and priorities from District goals, established student expectations, parameters of the State content standards, and test data. Staff development efforts need to be evaluated to determine whether the result is improved employee performance.

Under the provisions of SB 1193, Instructional Time and Staff Development Reform Program, staff development is required to be in instructional methods, including teaching strategies, classroom management and other training designed to improve pupil performance, and academic content in the core curriculum areas provided by the school district, county office of education or charter school.

These days will be scheduled and agendas developed to meet the specific needs of the District's goals and objectives. The scheduling of the dates needs to maximize resources and minimize the impact on the home, making use of common dates whenever possible. School principals will be responsible for supporting and evaluating inservice activities.

**CURRICULUM DEVELOPMENT, IMPLEMENTATION,
AND EVALUATION**

Curriculum development and Evaluation requires seven comprehensive steps necessary for implementation and student success: (1) Curriculum Development and Review, (2) The Planned and Written Curriculum, (3) Taught Curriculum, (4) Evaluated Curriculum, (5) Time Allocation by Subject, (6) Staff Development, (7) Budget, and (8) Roles and Responsibilities.

1. **CURRICULUM DEVELOPMENT AND REVIEW**

The need for a systematic, ongoing program of curriculum development and evaluation involving students, instructional aides, parents, teachers, board members, and administrators is essential. The design and implementation of curriculum will be consistent with the Board's stated curriculum goals and objectives. The Board deems it essential that the curriculum is developed and modified on an ongoing basis to meet the continually changing needs of students.

The Board authorizes the Superintendent to develop the curriculum and to organize committees to review the curriculum. Staff contributions to curriculum development will be provided through curriculum task forces. The curriculum needs to be developed so that it provides for an articulated set of student learning goals.

The design and implementation of the taught curriculum will be aligned with the planned and written curriculum. The taught curriculum as presented to students by the teachers and evaluated curriculum as determined by the students' assessments, must be compatible. Each of these three components of the curriculum shall be aligned to bring about a high degree of consistency, except where planned otherwise (e.g. national/state norm-referenced test).

The Superintendent shall ensure that a long-range plan is in place for District curriculum development, as well as, for student and program assessment. All pre K-8 curriculum areas are to undergo internal development cycles on a rotating basis. The purpose of such an ongoing review is to lend a concentrated focus to a given curriculum area. This procedure will provide a formal means by which all planned courses are revised and kept up to date.

When a subject area is undergoing a development/redevelopment review, a pre K-8 task force will be established composed of a representative group of teachers, administrators and support staff. The task force will be used to provide input into the development cycle. The Superintendent or designee is to establish the procedures for such task forces.

**CURRICULUM DEVELOPMENT, IMPLEMENTATION,
AND EVALUATION (continued)**

It is the expectation of the Board that staff members will move as quickly as possible toward the accomplishment of the development and redevelopment curriculum cycle as resources are made available and as needed.

All core curriculums will be subject to Board approval. All curricular proposals from certificated staff, including those outside of the regular adoption cycle may be presented to the Superintendent who will be responsible for making recommendations to the Board on such matters.

It shall be the responsibility of the Superintendent to develop proposals relating to curriculum modifications and additions that, in the opinion of the Board and staff are essential to the maintenance of a high quality program of education from pre-kindergarten through grade eight.

2. THE PLANNED AND WRITTEN CURRICULUM

Learning will be enhanced by adherence to an integrated curriculum that promotes continuity and cumulative acquisition of skills and knowledge from grade to grade and from school to school. The curriculum should reflect the best knowledge of the growth and development of learners; the content of various curriculum disciplines; the needs of learners; and alignment with State Standards. The curriculum is designed to provide teachers and students with the District's expectations of what children and young people are to learn. Teachers are to align their teaching to the State standards.

A standards-based curriculum is a set of student goals and objectives designed using a spiraling curriculum built from 8th grade standards downward.

The components of the written standards-based curriculum will include "layers" of goals and objectives in order to achieve total alignment and articulation through the level of teacher lesson delivery. The components are:

- K-8 State Standards describe the core knowledge, strategies, and skills for teachers to teach and students to acquire and be able to demonstrate in each subject area. They describe what students know or what they will be able to do. Performance standards will indicate both the nature of the evidence required to demonstrate the content Standards have been met and the quality of student performance that will be deemed acceptable.

ADMINISTRATIVE REGULATION**

INSTRUCTION

AR 6140

**CURRICULUM DEVELOPMENT, IMPLEMENTATION,
AND EVALUATION (continued)**

- Performance Standards will indicate both the nature of the evidence required to demonstrate the content standards have been met and the quality of student performance that will be deemed acceptable.
- Essential Learnings From the K-8 Content Standards, essential learnings are derived. These objectives describe standards in specific terms of what students will be able to do at the end of a year. The essential learnings are the California State Standards that are absolutely essential for students to be successful in the current and succeeding grade levels. These essential learnings are not just covered, but are taught to mastery. The curriculum needs to be defined system-wide through this level. Benchmark essential learning standards will be established as a recognized quality of student performance deemed necessary at a particular level or course.

Copies of the essential learnings in complete sets shall be given to all students and teachers. The public will have access through each school library media center for review and reference.

- Challenging and Appropriate Learning – Successful, “authentic” student learning must be based on providing appropriate educational experiences at the appropriate level of challenge in order to ensure maximum student achievement.
- Documented Curriculum – There is an expectation that all curriculum will be documented in writing and updated at least once every seven (7) years, that teachers will have copies of state standards, frameworks and course descriptions, where appropriate, and use them to develop daily lesson plans, and that administrators will work with teachers to maintain consistency between curriculum design (written curriculum) and curriculum delivery (what objectives are actually taught).
- Instructional resources such as textbooks, software, and other materials shall be selected based upon their alignment with the written standards-based curriculum.

3. TAUGHT CURRICULUM

The District has several expectations about the teaching process. Teachers have a right to expect that their teaching efforts are part of a broad plan of quality education. There is to be assurance that teachers and their colleagues are working toward a common goal. All teachers have a responsibility not only to contribute to the refinements of the written curriculum, but also to teach the curriculum. The principal and other supervisors shall see that optimum use is made of available essential learnings.

**ENTERPRISE ELEMENTARY SCHOOL DISTRICT
ADMINISTRATIVE REGULATION**

INSTRUCTION

AR 6140

**CURRICULUM DEVELOPMENT, IMPLEMENTATION,
AND EVALUATION (continued)**

Essential learnings are to serve as a framework from which a teacher will develop units of study, individual lesson plans and approaches to instruction that will serve the students' particular needs at a particular time. The essential learnings shall be used to map the logical sequence of instruction. Teachers will adhere to the essential learnings objectives, while choosing methodologies and resources that are appropriate and effective. Teachers will teach all state standards and work toward mastery of the essential learnings.

In addition to consistent delivery of the learning objectives in the curriculum, it is expected that instructional delivery will be based on sound teaching principals grounded in education research. Instructional supervision efforts are to focus on these sound teaching principles.

A systematic process is to be in place for planning and providing instruction appropriate for each student and for engaging the student until learning objectives are attained. This systematic process is to include:

- The establishment of a school climate that continually affirms the worth and diversity of all students.
- The expectation that all students will perform at high levels of learning, with focus on state standards.
- Support and encouragement for staff as they implement state standards and state and district testing.
- Unit and lesson objectives that are derived by the school and/or teacher.
- Course/Level Objectives. Curriculum-based assessments built around benchmarks will be used to determine acquisition and mastery of the learnings. In some special program efforts, the objectives may be developed by the District.

4. EVALUATED CURRICULUM

The District staff is to design and use a variety of assessment approaches in determining the effectiveness of the planned and written curriculum as well as the taught curriculum.

Curriculum-based assessments built around benchmarks of the standards will be used to determine acquisition and mastery of the learnings.

The "evaluated" curriculum is to include the following components:

- - An assessment system that documents, records and reports levels of success
 - District-level assessments in all core subject areas

ENTERPRISE ELEMENTARY SCHOOL DISTRICT ADMINISTRATIVE REGULATION

INSTRUCTION

AR 6140

CURRICULUM DEVELOPMENT, IMPLEMENTATION, AND EVALUATION (continued)

- A management system at the classroom and building levels for coordinating timely instructional planning, student assessment and placement, instructional delivery, and program evaluation.
- Assessment strategies for teachers to diagnose and determine instructional assignments of student learning.
- Clearly defined outcomes for students so that they know exactly what is expected in order to meet and to exceed standards.
- An evaluation system that allows students to demonstrate and receive credit for mastery.
- Provides parents with direct indicators of how their child is progressing toward mastery of the state standards.
- Assessment tools to help in determining student success toward District and state standards.

It is expected that teachers will conduct frequent diagnosis of students on the state standards. Teacher-made assessments, as well as, criterion referenced, will be used to determine patterns of student achievement. Teachers and supervisors are to use assessment results to assess the status of individual student achievement, to continually regroup students for instruction, to identify general achievement trends of various groups of students, and to modify curriculum and/or instruction as warranted by assessment results.

Principals may review teacher-made assessments to help teachers ensure that assessments are congruent with the written curriculum and with what is to be taught.

Board Report Approval

The superintendent shall organize a report/presentation to the Board by August of each year, which demonstrates how the policy and regulations are being implemented and to present such recommendations as may be necessary for the improvement of student growth. It shall candidly point out strengths and weaknesses and form the base for later budget development.

5. **TIME ALLOCATION BY SUBJECT**

The unique function of the public school is to provide instruction in the academic areas. A balanced curriculum requires that appropriate time be allocated to each of the subject areas.

AR 6140

**CURRICULUM DEVELOPMENT, IMPLEMENTATION,
AND EVALUATION (continued)**

The Enterprise Board of Education adopts a recommended learning time schedule as listed below. It is recognized that there will be some variation from school to school and classroom to classroom. It is also recognized and recommended that teachers should continue integrating curriculum across the content areas to provide adequate time for each, *i.e.* science, math, and history can be integrated into Language Arts as expository reading/comprehension and writing lessons, and vice versa. Care must be taken to ensure that grade level competencies are being taught in all subjects involved in an integrated approach.

The Superintendent is charged with the responsibility to establish procedures which will ensure a minimum allocation of instructional minutes by subject in accordance with the established guidelines.

Students who are not performing at grade level in language arts and mathematics will attend before and/or after school tutoring or receive an extra period of instruction in the area they are below grade level.

6. STAFF DEVELOPMENT

The District staff development program shall include a researched-based approach to teaching to provide staff members with alternative ways to view their teaching methods so that they may be as effective as possible.

A focused staff development plan, as outlined in Enterprise Board Policy 6113, will be designed and implemented to prepare staff members to teach the designed curriculum, principals to monitor the curriculum, and parents to assist students in the learning of the curriculum.

7. BUDGET

The Board shall adopt a District budget that reflects funding decisions based on the organization's educational goals and priorities—the type of document commonly referred to as a program-driven budget. The budget development process will ensure that goals and priorities are considered in the preparation of budget proposals and that any decisions related to reduction or increase in funding levels can be addressed in those terms. The format used in preparation will reflect these considerations and the public document eventually developed will be an interpretive document that communicates the budget to the public in consideration of the goals and priorities. The expected results of proposed expenditures will be clearly explained in the public document as well as in the proposal preparation documents.

8. ROLES AND RESPONSIBILITIES:

Governing Board

It is recognized that the Board has the responsibility for establishing what students should learn. Therefore, the Board shall adopt a district curriculum that, to the extent possible, reflects the desires of the community, the needs of society and the requirements of law.

Superintendent

The Superintendent or designee shall have general coordinating authority over the development of the curriculum/ the Superintendent or designee shall develop a process for curriculum review and development which includes the participation of teachers, administrators, students, parent/guardians, instructional aides, and members of the Board.

SERVICE LEARNING/COMMUNITY SERVICE CLASSES

The Governing Board recognizes that preparing each generation to understand and support democratic principles is the responsibility of our institutions. High quality service-learning experiences provide students with opportunities to apply a standards-based curriculum that addresses local school and community needs and shows students that they can make a positive contribution to a community through involved citizenship. Research demonstrates that service-learning can help students develop transferable skills, increase career exploration, and improve confidence as well as strengthen academic outcomes and civic education. These opportunities help students recognize the relevance of what they are learning in school and can be designed to help develop cross-cultural relationships with the community.

(cf. 6011 - Academic Standards)

Service Learning

The Board affirms the importance of service learning as an integral component of the district's curriculum because it enables students to be confident, effective thinkers and problem solvers, as well as ethical participants in society. The Board encourages staff to collaborate with local public and nonprofit agencies in order to develop service learning activities that meet educational objectives, align with state and local academic standards, and address current community needs.

(cf. 1600 - Relations Between other Governmental Agencies and the Schools)

(cf. 1700 - Relations Between Private Industry and the Schools)

High quality service-learning is defined as an innovative strategy in which students apply curriculum skills to community service and includes:

Identifying and meeting a real community need

Integrating into and enhancing the standards-based curriculum

Coordinating with a community agency, another school or classroom, or the community at large

Helping foster civic responsibility

Providing structured time for reflection

SERVICE LEARNING/COMMUNITY SERVICE CLASSES (continued)

The Board of Education encourages each student to participate in at least one age-appropriate service-learning activity at each grade span (PreK,-6, 7-8), and thus support the integration of service-learning into the curriculum and encourages staff and students to collaborate with local public and nonprofit agencies in order to develop service-learning activities that meet educational objectives, address state-adopted academic standards, and also fit the current community needs.

The Board of Education recommends that the Superintendent or designee develop a long-term plan to implement service-learning in the district as an instructional strategy.

PHYSICAL EDUCATION

Definitions

Physical education is a sequential educational program that teaches students to understand and participate in regular physical activity for developing and maintaining physical fitness throughout their lifetime, understand and improve their motor skills, enjoy using their skills and knowledge to establish a healthy lifestyle, and understand how their bodies work.

Physical activity is bodily movement that is produced by the contraction of skeletal muscle and that substantially increases energy expenditure, including exercise, sport, dance, and other movement forms.

Moderate physical activity is any activity which generally requires sustained, rhythmic movements and refers to a level of effort a healthy individual might expend while, for example, walking briskly, dancing, swimming, or bicycling on level terrain. A person should feel some exertion but should be able to carry on a conversation comfortably during the activity.

Vigorous physical activity is any activity which generally requires sustained, rhythmic movements and refers to a level of effort a healthy individual might expend while, for example, jogging, participating in high-impact aerobic dancing, swimming continuous laps, or bicycling uphill. Vigorous physical activity may be intense enough to result in a significant increase in heart and respiration rate.

Instructional Time

Instruction in physical education shall be provided for at least the following minimum period of time: (EC 51210, 51222, 51223)

1. For students in grades 1-6, 200 minutes each 10 school days, exclusive of recesses and the lunch period
2. For students in grades 7-8 attending an elementary school, 200 minutes each 10 school days, exclusive of recesses and the lunch period
3. For students in grades 7-8 attending a middle school or junior high school, 400 minutes each 10 school days

If the instructional minute requirement cannot be met during any 10-day period due to inclement weather, a school assembly, field trip, student assessment, or other circumstance, the school shall make up those minutes on another day in order to satisfy the instructional minute requirement.

Any complaint alleging noncompliance with the instructional minute requirement for elementary schools may be filed in accordance with the district's procedures in AR 1312.3 - Uniform Complaint Procedures. A complainant not satisfied with the district's decision may appeal the decision to the California Department of Education (CDE). If the district or the CDE finds merit in a complaint, the district shall provide a remedy to all affected students and parents/guardians. (EC 51210, 51223; 5 CCR 4600-4687)

(cf. 1312.3 - Uniform Complaint Procedures)

(cf. 5125 - Student Records)

CONTROVERSIAL ISSUES

The Governing Board recognizes that the district's educational program may sometimes include instruction related to controversial issues that may arouse strong reactions based on personal values and beliefs, political philosophy, culture, religion, or other influences. Instruction concerning such topics shall be relevant to the adopted course of study and curricular goals and should be designed to develop students' critical thinking skills, ability to discriminate between fact and opinion, respect for others, and understanding and tolerance of diverse points of view.

(cf. 6141.2 - Recognition of Religious Beliefs and Customs)

(cf. 6142.1 - Sexual Health and HIV/AIDS Prevention Instruction)

(cf. 6142.8 - Comprehensive Health Education)

(cf. 6142.94 - History-Social Science Instruction)

(cf. 6143 - Courses of Study)

The Board expects administrators and teachers to exercise professional judgment when deciding whether or not a particular issue is suitable for study or discussion. They shall consult with the Superintendent or designee as necessary to determine the appropriateness of the subject matter, guest speakers, and/or related instructional materials or resources.

(cf. 6141 - Curriculum Development and Evaluation)

(cf. 6161.1 - Selection and Evaluation of Instructional Materials)

(cf. 6161.11 - Supplementary Instructional Materials)

When providing instruction related to a controversial issue, the following guidelines shall apply:

1. The topic shall be suitable to the age and maturity of the students.
2. Instruction shall be presented in a balanced manner, addressing all sides of the issue without bias or prejudice and without promoting any particular point of view.
3. In the classroom, teachers act on behalf of the district and are expected to follow the adopted curriculum. In leading or guiding class discussions about issues that may be controversial, a teacher may not advocate his/her personal opinion or viewpoint. When necessary, the Superintendent or designee may instruct teachers to refrain from sharing personal views in the classroom on controversial topics.
4. Students shall be assured of their right to form and express an opinion without jeopardizing their grades or being subject to discrimination, retaliation, or discipline, provided the viewpoint does not constitute harassment, threats, intimidation, or bullying or is otherwise unlawful.

(cf. 5131 - Conduct)

(cf. 5131.2 - Bullying)

(cf. 5137 - Positive School Climate)

6. Adequate factual information shall be provided to help students objectively analyze and evaluate the issue and draw their own conclusions.

7. The instruction shall not reflect adversely upon persons because of their race, ethnicity, national origin, sex, sexual orientation, gender identity or expression, disability, religion, or any other basis prohibited by law.

(cf. 0410 - Nondiscrimination in District Programs and Activities)

(cf. 5145.3 - Nondiscrimination/Harassment)

(cf. 5145.9 - Hate-Motivated Behavior)

8. The subject matter of the instruction shall not otherwise be prohibited by state or federal law.

When a guest speaker is invited to make a presentation related to a controversial issue, the Superintendent or designee shall notify him/her of this policy and the expectations and goals regarding the instruction. If the guest speaker is presenting only one point of view on an issue, the teacher shall be responsible for ensuring that students also receive information on opposing viewpoints.

(cf. 6145.8 - Assemblies and Special Events)

When required by law, such as in regards to comprehensive sexual health and HIV prevention education, parents/guardians shall be notified prior to instruction that they may request in writing that their child be excused from the instruction. Students whose parents/guardians decline such instruction may be offered an alternative activity of similar educational value.

A student or parent/guardian with concerns regarding instruction about controversial issues may communicate directly with the teacher or principal and/or use appropriate district complaint procedures.

HIGH SCHOOL GRADUATION REQUIREMENTS

The Governing Board desires to prepare all students to successfully complete the high school course of study and obtain a diploma that represents their educational achievement and increases their opportunities for postsecondary education and employment.

District students shall complete graduation course requirements as specified in Education Code 51225.3. Unless exempted as provided in "Exemptions from District-Adopted Graduation Requirements," district students shall also complete other course requirements adopted by the Board. Students who are exempted from district-adopted graduation requirements shall be eligible to participate in any graduation ceremony and school activity related to graduation in which other students are eligible to participate.

Course Requirements

To obtain a high school diploma, students shall complete the following courses in grades 9-12, with each course being one year unless otherwise specified:

1. Three courses in English (EC 51225.3)
2. Two courses in mathematics (EC 51225.3)

Students shall complete at least one mathematics course that meets the state academic content standards for Algebra I or Mathematics I. Students may complete such coursework prior to grade 9 provided that they also complete two mathematics courses in grades 9-12. (EC 51224.5)

Successful completion of an approved computer science course that is classified as a "category C" course based on the University of California (UC) and California State University (CSU) "A-G" admission requirements shall be counted toward the satisfaction of additional graduation requirements in mathematics. (EC 51225.3, 51225.35)

3. Two courses in science, including biological and physical sciences (EC 51225.3)
4. Three courses in social studies, including United States (U.S.) history and geography; world history, culture, and geography; a one-semester course in American government and civics; and a one-semester course in economics (EC 51225.3)
5. One course in visual or performing arts, world language, or career technical education (CTE). For purposes of this requirement, a course in American Sign Language shall be deemed a course in world language. (EC 51225.3)

HIGH SCHOOL GRADUATION REQUIREMENTS (continued)

To be counted towards meeting graduation requirements, a CTE course shall be aligned to the CTE model curriculum standards and framework adopted by the State Board of Education.

6. Two courses in physical education, unless the student has been otherwise exempted pursuant to other sections of the Education Code (EC 51225.3)
7. Beginning with the 2029-30 school year, a one-semester course in ethnic studies (EC 51225.3)

Because the prescribed course of study may not accommodate the needs of some students, the Board shall provide alternative means for the completion of prescribed courses in accordance with law.

Exemptions from District-Adopted Graduation Requirements

A foster youth, student experiencing homelessness, former juvenile court school student, child of a military family, migrant student who transfers into the district or between district schools any time after completing the second year of high school, or newcomer student who is in the third or fourth year of high school shall be exempted from any graduation requirements adopted by the Board that are in addition to statewide course requirements. This exemption shall not apply if the Superintendent or designee makes a finding that the student is reasonably able to complete the additional requirements in time to graduate by the end of the fourth year of high school.

Within 30 days of the transfer into school by the foster youth, student experiencing homelessness, former juvenile court school student, child of a military family, migrant student, or newcomer student, as applicable, the Superintendent or designee shall notify any eligible student, and others as required by law, of the availability of the exemption from local graduation requirements and whether the student qualifies for it. (EC 51225.1)

The Superintendent or designee shall not require or request the foster youth, student experiencing homelessness, former juvenile court school student, child of a military family, migrant student, or newcomer student who is exempted from district-established graduation requirements and who completes the statewide coursework requirements before the end of the fourth year of high school, and would otherwise be entitled to remain in school to graduate before the end of the student's fourth year of high school. (EC 51225.1)

If the foster youth, student experiencing homelessness, former juvenile court student, child of a military family, migrant student, or newcomer student was not properly notified of an exemption

or was not previously exempted, the student or the student's educational rights holder may request the exemption and the Superintendent or designee shall exempt the student within 30 days of the request. Any such student who at one time qualified for the exemption may request the exemption even if the student is no longer eligible. (EC 51225.1)

Additionally, a student with disabilities shall be eligible for an exemption from all coursework and other requirements adopted by the Board in addition to the statewide course requirements for high school graduation, if the student's individualized education program (IEP) provides for both of the following requirements: (EC 51225.31)

1. That the student is eligible to take the alternate assessment as described in Education Code 60640.
2. That the student complete state standards aligned coursework to meet the statewide coursework specified in Education Code 51225.3.

The district's responsibility to provide a free appropriate public education shall not terminate when a student with a disability who is exempted from district adopted graduation requirements participates in graduation activities unless the IEP team, which includes the parent/guardian and student, has determined that the student has completed the high school experience. (EC 51225.31)

Annually, the Superintendent or designee shall report to the California Department of Education, in accordance with Education Code 51225.1, the number of student's graduating from the fourth or fifth year of high school who, for the prior school year, graduated with an exemption from district established graduation requirements that are in addition to statewide coursework requirements.

Retroactive Diplomas

Any student who completed grade 12 in the 2003-04 through 2014-15 school year and met all applicable graduation requirements other than the passage of the high school exit examination shall be granted a high school diploma. (EC 51413)

In addition, the district may retroactively grant high school diplomas to former students who: (EC 48204.4, 51430, 51440)

1. Departed California against their will while in grade 12 and did not receive a diploma because the departure interrupted their education, provided that they were in good academic standing at the time of the departure

In determining whether to award a diploma under these circumstances, the Superintendent or designee shall consider any coursework that may have been completed outside of the U.S. or through online or virtual courses.

2. Were interned by order of the federal government during World War II or are honorably discharged veterans of World War II, the Korean War, or the Vietnam War, provided that they were enrolled in a district high school immediately preceding the internment or military service and did not receive a diploma because their education was interrupted due to the internment or military service in those wars

Deceased former students who satisfy these conditions may be granted a retroactive diploma to be received by their next of kin.

4. Are former members of the military, a resident of California, and received an honorable discharge, or, are current members of the military, a resident of California, and a resident of California when entering the military

In determining whether to award a diploma under these circumstances, the Superintendent or designee shall evaluate classes completed in any high school, community college, or state college, grant credit toward graduation for military service and training received while in the military, and if satisfied that the person has completed the equivalent of the requirements for graduation from high school, grant the person a diploma of graduation.

5. Were in their senior year of high school during the 2019-20 school year, were in good academic standing and on track to graduate at the end of the 2019-20 school year as of March 1, 2020, and were unable to complete the statewide graduation requirements as a result of the COVID-19 crisis

SCHOOL-SPONSORED TRIPS

The Governing Board recognizes that school-sponsored trips are important components of a student's development. Besides supplementing and enriching classroom learning experiences, such trips encourage new interests among students, make them more aware of community resources, and help them relate their school experiences to the outside world. The Board believes that careful planning can greatly enhance the value and safety of such trips.

If the Board allocates funds for school-sponsored trips, individual schools may be provided with budgetary allocations so they can plan ahead. Special trip expenses funds may be established when necessary for fund-raising purposes.

All trips involving out-of-state or overnight travel shall require the prior approval of the board. The requests shall be presented to the Superintendent for board agenda inclusion preferably no later than the third Friday of each month or, at a minimum, by the meeting date unless otherwise notified. If requests are not presented for board approval within this time frame and a special meeting must be called to approve the request, the person requesting the approval must attend the special meeting. Other trips which do not involve out of state or overnight may be approved by the superintendent or designee.

Principals shall ensure that teachers develop plans that provide for the safety of students and their proper supervision by certificated staff on all school-sponsored trips. Other school employees and parents/guardians also may participate in this supervision and may be asked to attend preparatory training sessions and/or meetings.

At least one certificated individual must attend each field trip.

The ratio of adults to students on school-sponsored trips shall be at least one to 10. If the trip involves water activities, this ratio shall be revised to ensure closer supervision of elementary grade students, appropriate to their ages.

All trips shall conform to sound risk management practices. High risk and excluded activities as outlined in Administrative Regulation 6153 must be avoided.

Study Trips

In advance of a study trip, teachers shall determine educational objectives that relate directly to curriculum. Principals shall ensure that teachers develop plans that provide for the best use of students' learning time while on the trip. Teachers also shall provide appropriate instruction before and after the trip.

HOMEWORK/MAKEUP WORK

The Governing Board recognizes that meaningful homework assignments can be a valuable extension of student learning time and assist students in developing good study habits. Homework shall be assigned when necessary to support classroom lessons, enable students to complete unfinished assignments, or review and apply academic content for better understanding.

The Superintendent or designee shall collaborate with school administrators and teachers to develop and regularly review guidelines for the assignment of homework and the related responsibilities of students, staff, and parents/guardians.

Homework assignments shall be reasonable in length and appropriate to the grade level and course. The Board expects that the number, frequency, and degree of difficulty of homework assignments will increase with the grade level and the maturity of students. Teachers shall assign homework only as necessary to fulfill academic goals and reinforce current instruction.

(cf. 6011 - Academic Standards)

As needed, teachers may receive training in designing relevant homework assignments that reinforce classroom learning objectives.

(cf. 4131 - Staff Development)

Although on-time completion of homework is important to maintain academic progress, the Board recognizes that students learn at different rates. Students shall receive credit for work that is completed late in order to encourage their continued learning.

Age-appropriate instruction may be given to help students allocate their time wisely, meet their deadlines, learn to work independently, and develop good personal study habits.

At the beginning of the school year, teachers shall communicate homework expectations to students and their parents/guardians. Homework guidelines shall also be included in student and/or parent/guardian handbooks. These communications shall include the manner in which homework relates to achievement of academic standards and course content, the impact of homework assignments on students' grades, any school resources and programs that are available to provide homework support, and ways in which parents/guardians may appropriately assist their children.

Although it is the student's responsibility to undertake assignments independently, parents/guardians may serve as a resource and are encouraged to ensure that their child's homework assignments are completed. When a student repeatedly fails to complete homework, the teacher shall notify the student's parents/guardians as soon as possible so that corrective action can be taken prior to the release of any final grades or report cards.

(cf. 5020 - Parent Rights and Responsibilities)

(cf. 6020 - Parent Involvement)

To further support students' homework efforts, the Superintendent or designee may establish and maintain electronic forums, provide access to school library media centers and technological

Teachers shall review all completed homework to assess the student's understanding of academic content and shall provide timely feedback to the student.

Makeup Work

Students who miss school work because of absences shall be given the opportunity to complete all assignments and tests that can be reasonably provided. As determined by the teacher, the assignments and tests shall be reasonably equivalent to, but not necessarily identical to, the assignments and tests missed during the absence. Students shall receive full credit for work satisfactorily completed within a reasonable period of time. (EC 48205) Students will be given, at a minimum, a day for every day of school missed to complete their makeup work. Teachers shall assign such makeup work as necessary to ensure academic progress, not as a punitive measure.

(cf. 5113 - Absences and Excuses)

The Superintendent or designee shall notify parents/guardians that no student may have a grade reduced or lose academic credit for any excused absence when missed assignments and tests are satisfactorily completed within a reasonable period of time. Such notification shall include the full text of Education Code 48205. (EC 48980)

(cf. 5121 - Grades/Evaluation of Student Achievement)

(cf. 5145.6 - Parental Notifications)

Suspended Students

When a parent/guardian of a student who has been suspended for two or more school days requests homework that the student would otherwise have been assigned, the student's teacher shall provide such homework. If a homework assignment is requested and is turned in to the teacher by the student either upon the student's return from suspension or within the timeframe originally prescribed by the teacher, whichever is later, and is not graded before the end of the academic term, the homework assignment shall not be included in the calculation of the student's overall grade in the class. HOMEWORK/MAKEUP WORK

The principal and staff at each school shall develop and regularly review a school-site homework plan, which follows the Administrative Guidelines listed below for the assignment of homework and describes the responsibilities of students, staff, and parents/guardians. In addition, each school-site homework plan will include information on how to complete makeup work.

Purpose of Homework

Homework should:

1. Provide practice and reinforce concepts already taught in the classroom.
2. Develop good study habits, a positive attitude, and serve as a message to students and parents that learning takes place outside the school as well as inside the school.
3. Be completed independently, as best as possible, without parental influence except in rare occasions where students are struggling to complete the homework.
4. Increase communication between the home and school.
5. Promote wise and good management of time.
6. Be necessary and useful, as well as appropriate to the ability and maturity level of students.
7. Be well explained and clearly understood by students and parents.
8. Be useful to teachers to monitor student learning toward academic standards.

Amount of time by grade level required for completion on a nightly basis,* not including long-term projects or special assignments:

Kindergarten.....	10-15 minutes	Fifth.....	30-45 minutes
First	10-20 minutes	Sixth.....	35-50 minutes
Second	15-25 minutes	Seventh	40-55 minutes
Third	20-30 minutes	Eighth	45-60 minutes
Fourth.....	25-40 minutes		

*Additional time may be added for honors classes at the 6-8 grade junior high level not to exceed double the maximum minutes listed above for those grades.

Note: Independent reading is recognized as a universal skill that relates to all subjects. Therefore, reading assignments are considered separate homework and not included in the expected minutes listed above.

HOMEWORK/MAKEUP WORK (continued)

Note: If students are exceeding the maximum minutes listed above on a regular basis, parents should talk with the classroom teacher. If the situation is not remedied, parents are encouraged to talk with the principal.

Note: Students who do not use classroom time wisely may need to complete class work in addition to the minutes listed above. In the case of the special need students, see the Modifications section.

Teachers' Responsibility

Teachers should insure that:

1. Homework assignments are clearly explained and understood by students.
2. Homework is used to practice and reinforce skills taught in the classroom.
3. Students understand the concepts and have the skills necessary to complete the assignments independently at home.
4. Students are provided regular feedback on the homework assigned.
5. Parents have a clear understanding of their role in helping their child, the amount of time expected for students to complete the assignments, and the schedule or expectations of when work will be due.
6. Inform parents when student class work is not completed and that it may affect their overall achievement.
7. Modifications are made when necessary.

Parents' Responsibility:

Parents should insure that:

1. Students are provided a time and place each evening for quiet study without distractions in order to complete their work.
2. Provide encouragement to complete their work in a timely manner.
3. Help their child organize materials and establish a routine to insure that work completed is returned to school when due.
4. Ensure that student work completed is their own.
5. They are supportive of the classroom teacher and, if confused or upset with an assignment, the student will work independently with the teacher to correct the confusion.
6. They are supportive and assist their child when their child becomes frustrated. This should include helping them understand how to complete the work on their own.
7. Communication takes place with the teacher if the work is too difficult or has become excessive and requires more time than the policy states.

HOMEWORK/MAKEUP WORK (continued)

Students' Responsibility

Students will insure that:

1. They write down the assignments due.
2. Assignments are clearly understood and ask questions if necessary.
3. A time is set aside along with a place each evening for quiet study without distractions in order to complete their work.
4. Work completed is their own.
5. Materials are organized and a routine is established to insure that work completed is returned to school when due.

Principals' Responsibility

Principals will:

1. Ensure that parents and staff are informed of the homework policy.
2. Monitor implementation and management of the policy.
3. Work with families to provide resources as needed to help insure that students have the ability to complete their work at home.
4. Seek feedback on a regular basis from parents, students, and teachers regarding the amount of time required to complete homework assigned on a nightly basis.

Modifications

It is vital that teachers monitor homework assignments for students to insure that the homework is appropriate for the student. This includes students who are struggling academically, have learning disabilities, and students who find the work too easy.

Examples of modifications appropriate for different types of learners:

Struggling students or students with learning disabilities:

1. Shorten assignments.
2. Ensure that homework is clearly understood and allows the student the ability to practice skills taught in class.
3. Provide parents with appropriate ways to help their children complete their work.
4. Be cognizant of the time required for students to complete their work and do not expect students to work beyond the time allotted per grade level.
5. Teach students specific organizational tools needed to complete the work assigned.

Students who find the work easy or demonstrate successful mastery of work expected:

1. Do not lengthen the assignment or provide extra work.
2. Alter the assignment with a few problems that are different with the required application of the skill learned (*i.e.*, word problems, etc.)
3. Assign work in another subject area than the area in which they have mastery.

Makeup Work Due to Absences

Students who miss school work because of absences shall be given the opportunity to complete all assignments and tests that can be reasonably provided. As determined by the teacher, the assignments and tests shall be reasonably equivalent to, but not necessarily identical to, the assignments and tests missed during the absence. Students shall receive full credit for work satisfactorily completed within a reasonable period of time (Education Code 48205). INDEPENDENT STUDY

The Governing Board authorizes independent study as an optional alternative instructional strategy for students whose needs may be best met through study outside of the regular classroom setting. Independent study shall offer a means of individualizing the educational plan to serve students who desire a more challenging educational experience, whose health or other personal circumstances make classroom attendance difficult, who are unable to access course(s) due to scheduling problems, and/or who need to make up credits or fill gaps in their learning. As necessary to meet student needs, independent study may be offered for short- or long-term placements, on a full-time or part-time basis, and/or in conjunction with part- or full-time classroom study. Independent study may also be offered through course-based independent study pursuant to Education Code section 51749.5 et seq.

The Board shall hold a public hearing when considering the scope of its existing or prospective use of independent study as an instructional strategy, its purposes in authorizing independent study, and factors bearing specifically on the maximum realistic lengths of assignments and acceptable number of missed assignments for specific populations of students or adult education students. (EC 51747; 5 CCR 11701)

The Superintendent or designee may provide a variety of independent study opportunities, including, but not limited to, through a program or class within a comprehensive school, an alternative school or program of choice, a charter school, and an online course.

Student participation in independent study shall be voluntary. (EC 51747, 51749.5, 51749.6)

Independent study for each student shall be under the general supervision of a district employee who possesses a valid certification document pursuant to Education Code 44865 or an emergency credential pursuant to Education Code 44300. Students' independent study shall be coordinated, evaluated, and documented, as prescribed by law and reflected in the accompanying administrative regulation. (EC 51747.5)

General Independent Study Requirements

For the 2022-2023 school year and thereafter, the Superintendent or designee may continue to offer and approve independent study for an individual student upon determining that the student is prepared to meet the district's requirements for independent study and is likely to succeed in independent study as well as or better than the student would in the regular classroom setting.

An individual with exceptional needs, as defined in Section 56026, may participate in independent study if the pupil's individualized education program developed pursuant to Article

INDEPENDENT STUDY (continued)

3 (commencing with section 56340) of Chapter 4 of Part 30 specifically provides for that participation.

The minimum instructional minutes for students participating in independent study shall be the same as required for their peers at the school who are receiving in-person instruction, except as otherwise permitted by law. (EC 46100)

Because excessive leniency in the duration of independent study assignments may result in a student falling behind peers and increase the risk of dropping out of school, independent study assignments shall be completed no more than one week after assigned for all grade levels and types of program. However, when necessary based on the specific circumstances of the student's approved program, the Superintendent or designee may allow for a longer period of time between the date an assignment is made and when it is due. However, in no event shall the due date of an assignment be extended beyond the termination date specified in the student's written agreement.

An evaluation shall be conducted to determine whether it is in a student's best interest to remain in independent study whenever the student fails to make satisfactory educational progress and/or misses two assignments. Satisfactory educational progress shall be determined based on all of the following indicators: (EC 51747)

1. The student's achievement and engagement in the independent study program, as indicated by the student's performance on applicable student-level measures of student achievement and engagement specified in Education Code 52060
2. The completion of assignments, assessments, or other indicators that evidence that the student is working on assignments
3. Learning required concepts, as determined by the supervising teacher
4. Progress towards successful completion of the course of study or individual course, as determined by the supervising teacher

The Superintendent or designee shall ensure that students participating in independent study are provided with content aligned to grade level standards at a level of quality and intellectual challenge substantially equivalent to in-person instruction.

The Superintendent or designee shall ensure that students participating in independent study for 16 or more cumulative school days receive the following throughout the school year: (EC 51747)

1. For students in grades transitional kindergarten, kindergarten, and grades 1 to 3, opportunities for daily synchronous instruction
2. For students in grades 4-8, opportunities for both daily live interaction and at least weekly synchronous instruction
3. For students in grades 9-12, opportunities for at least weekly synchronous instruction

The Superintendent or designee shall ensure that procedures for tiered reengagement strategies are used for all students participating in an independent study program for 16 or more cumulative school days who:

1. Are not generating attendance for more than three school days or 60 percent of the instructional days in a school week, or 10 percent of required minimum instructional time over four continuous weeks of the district's approved instructional calendar;
2. Are found to be not participatory pursuant to Section 51747.5 for more than the greater of three schooldays or 60 percent of the scheduled days of synchronous instruction in a school month as applicable by grade span; or
3. Are in violation of their written agreement.

Beginning with the 2024-2025 school year, the Superintendent or designee shall ensure that procedures for tiered reengagement are used for all students participating in an independent study program for 16 or more cumulative school days who:

Tiered reengagement strategies procedures used in district independent study programs shall include, but not limited to the following: (EC 51747)

1. Verification of current contact information for each enrolled student;
2. Notification to parents/guardians of lack of participation within one school day of the absence or lack of participation;
3. A plan for outreach from the school to determine student needs, including connection with health and social services as necessary;
4. A clear standard for requiring a student-parent-educator conference to review a student's written agreement and reconsider the independent study program's impact on the student's achievement and well-being; and
5. Beginning with the 2022-2023 school year, local programs intended to address chronic absenteeism, as applicable.

The Superintendent or designee shall develop a plan to transition students whose families wish to return to in-person instruction from independent study expeditiously, and, in no case, later than five instructional days. This requirement only applies to students participating in an independent study program for 16 or more cumulative school days. (EC 51747)

Beginning with the 2022-2023 school year, the requirements for tiered reengagement, synchronous instruction / live interaction, and a required plan to transition to return to in-person instruction from independent study shall not apply to any pupils who participate in an independent study program for 15 cumulative school days or less in a school year and pupils enrolled in a comprehensive school for classroom-based instruction who, under the care of appropriately licensed professionals, participate in independent study due to necessary medical treatments or inpatient treatment for mental health care or substance abuse. INDEPENDENT STUDY FOR 2021-2022 AND SUBSEQUENT SCHOOL YEARS

The Board of Education has previously authorized independent study as an optional alternative instructional strategy for eligible students whose needs may be best met through study outside of the regular classroom setting. (cf. 6158 – Independent Study.) With the enactment of Assembly Bill No. 130 (Ch.44, Stats. 2021, hereafter “AB 130”), school districts and county offices of education are required to offer independent study for the 2021-2022 school year, with limited exceptions.

Education Code section 51747, as it read prior to July 8, 2021, provided that a local educational agency shall not be eligible to receive apportionments for independent study unless it has adopted and implemented written policies as specified in that statute. AB 130 continues the requirement for local educational agencies to adopt and implement written policies, and adds additional content required to be included in such policies. This policy is intended to supplement Board Policy (BP) and Administrative Regulation (AR) No. 6158 to include the additional requirements of AB 130. To the extent that there is any conflict between this policy and BP and AR No. 6158, the provisions of this policy shall govern.

The District shall comply with the requirements of AB 130 by either providing an independent study option to all students or contracting with the County Office of Education or through an interdistrict transfer agreement with another school district to provide independent study to students.

This policy shall govern dependent charter schools authorized by the Board and operated by the District that offer independent study.

PHYSICAL PERFORMANCE TESTING

The Enterprise Board of Education recognizes physical education as an important major curriculum area at all levels in the school district. Physical education should be enjoyable, and should be success-oriented. The purpose of physical education should include physical fitness and game skills, but even greater focus should be directed toward acquiring basic motor and perceptual abilities which will help children perform successfully in all times of movement environments, regardless of what the task calls for.

The goal of physical education should consist of planned experiences that challenge and encourage children to develop a positive self-image, socially desirable behavior, efficient and effective motor skills, and recreational interests.

All students in the Enterprise Elementary School District shall be tested on their physical performance and the results of the testing recorded in the cumulative record. Physically handicapped students and each pupil who is physically unable to take all of the physical performance tests shall be given as much of the test as their conditions will permit.

SELECTION AND EVALUATION OF INSTRUCTIONAL MATERIALS

The Governing Board desires that district instructional materials, as a whole, present a broad spectrum of knowledge and viewpoints, reflect society's diversity, and enhance the use of multiple teaching strategies and technologies. The Board shall adopt instructional materials based on a determination that such materials are an effective learning resource to help students achieve grade-level competency and that the materials meet criteria specified in law. Textbooks, technology-based materials, and other educational materials shall be aligned with academic content standards and the district's curriculum to ensure that they effectively support the district's adopted courses of study.

(cf. 6161.11 - Supplementary Instructional Materials)

(cf. 6162.5 - Student Assessment)

(cf. 6163.1 - Library Media Centers)

The Board shall select instructional materials for use in grades K-8 that have been approved by the State Board of Education (SBE) or have otherwise been determined to be aligned with the state academic content standards adopted pursuant to Education Code 60605 or the Common Core State Standards adopted pursuant to Education Code 60605.8. (EC 60200, 60210)

The Board shall adopt instructional materials for grades 9-12 upon determining that the materials meet the criteria specified in law and administrative regulation. (EC 60400)

Review Process

The Superintendent or designee shall establish a process by which instructional materials shall be reviewed for recommendation to the Board. Toward that end, he/she may establish an instructional materials review committee to evaluate and recommend instructional materials.

(cf. 1220 - Citizen Advisory Committees)

The review process shall involve teachers in a substantial manner and shall encourage the participation of parents/guardians and community members. (EC 60002)

(cf. 6020 - Parent Involvement)

In addition, the instructional materials review committee may include administrators, other staff who have subject-matter expertise, and students as appropriate.

SELECTION AND EVALUATION OF INSTRUCTIONAL MATERIALS (continued)

If the district chooses to use instructional materials for grades K-8 that have not been adopted by the SBE, the Superintendent or designee shall ensure that a majority of the participants in the district's review process are classroom teachers who are assigned to the subject area or grade level of the materials. (EC 60210)

Individuals who participate in the selection or review of instructional materials shall not have a conflict of interest, as defined in administrative regulation, in the materials being reviewed.
(cf. 9270 - Conflict of Interest)

The committee shall review instructional materials using criteria provided in law and administrative regulation, and shall provide the Board with documentation supporting its recommendations.

All recommended instructional materials shall be available for public inspection at the district office.
(cf. 5020 - Parent Rights and Responsibilities)

The district may pilot instructional materials, using a representative sample of classrooms for a specified period of time during a school year, in order to determine how well the materials support the district's curricular goals and academic standards. Feedback from teachers piloting the materials shall be made available to the Board before the materials are adopted.

Public Hearing on Sufficiency of Instructional Materials

The Board shall annually conduct one or more public hearings on the sufficiency of the district's textbooks and other instructional materials. (EC 60119)

The hearing shall be held on or before the end of the eighth week from the first day students attend school for that year. (EC 60119)

The Board encourages participation by parents/guardians, teachers, interested community members, and bargaining unit leaders at the hearing. Ten days prior to the hearing, the Superintendent or designee shall post a notice in three public places within the district containing the time, place, and purpose of the hearing. The hearing shall not take place during or immediately following school hours. (EC 60119)
(cf. 9322 - Agenda/Meeting Materials)

At the hearing(s), the Board shall determine, through a resolution, whether each student in each school, including each English learner, has sufficient textbooks or instructional materials which are aligned to the state content standards adopted pursuant to Education Code 60605 or the Common Core State Standards adopted pursuant to Education Code 60605.8 and which are consistent with the content and cycles of the state's curriculum frameworks. In making these determinations, the Board shall consider whether each student has sufficient textbooks and/or instructional materials to use in class and to take home. However, this does not require that each student have two sets of materials. The materials may be in a digital format as long as each student, at a minimum, has and can access the same materials in the class and to take home as all other students in the same class or course in the district and has the ability to use and access them at home. However, the materials shall not be considered sufficient if they are photocopied sheets from only a portion of a textbook or instructional materials copied to address a shortage. (EC 60119)

If the Board determines that there are insufficient textbooks or instructional materials, it shall provide information to classroom teachers and to the public setting forth, for each school in which an insufficiency exists, the percentage of students who lack sufficient standards-aligned textbooks or instructional materials in each subject area and the reasons that each student does not have sufficient textbooks or instructional materials. The Board shall take any action, except an action that would require reimbursement by the Commission of State Mandates, to ensure that each student has sufficient materials within two months of the beginning of the school year in which the determination is made.  - a. California Alternate Assessment in English language arts and mathematics for students with significant cognitive disabilities
 - b. For the science assessment, either the California Modified Assessment or, for students with significant cognitive disabilities, the California Alternate Performance Assessment

In addition, the Superintendent or designee may administer a primary language assessment to English learners. Administration of this test shall not replace the administration of the above tests, administered in English, to English learners. (Education Code 60640)

Exemptions

Each year the Superintendent or designee shall notify parents/guardians of their child's participation in the CAASPP and of the provisions of Education Code 60615 related to exemptions from testing. (5 CCR 852)
(cf. 5145.6 - Parental Notifications)

A parent/guardian may annually submit to the school a written request to excuse his/her child from any or all parts of the CAASPP assessments for the school year, and such a request shall be granted by the Superintendent or designee. However, district employees shall not solicit or encourage any exemption request on behalf of any student or group of students. (EC 60615; 5 CCR 852)

If a parent/guardian submits an exemption request after testing has begun, any test(s) completed before the request is submitted will be scored and the results reported to the parent/guardian and included in the student's records. (5 CCR 852)

Testing Period

The Superintendent or designee shall establish testing days for district students within the following available testing windows: (5 CCR 855)

1. Assessments in English language arts and mathematics shall be administered between the date on which at least 66 percent of the school's or track's annual instructional days for grades 3-8, have been completed and the last day of instruction for the regular annual calendar of the school.

2. All science assessments, including CAPA and CMA, shall be administered during an available testing window of 25 instructional days that includes 12 instructional days before and after completion of 85 percent of the school's annual instructional days.
3. Beginning in the 2016-17 school year, the CAA shall be administered during the available testing windows specified in item #1.
4. The primary language assessment shall be administered to English learners within the testing window specified in item #2.

Within the above testing windows, the Superintendent or designee may designate one testing period for each school. The district shall not exceed six selected testing periods within the available testing window. The testing period shall be no fewer than 25 consecutive instructional days and may be extended up to an additional 10 consecutive instructional days if still within the available testing window set forth in items #1-4 above. (5 CCR 855)

Students who are absent during testing shall be provided an opportunity to take the tests within the testing window.

Testing Variations

CAASPP achievement tests and the primary language test shall be administered in accordance with the manuals or other instructions provided by the test contractor or CDE except that, as appropriate, the following testing variations may be used: (5 CCR 850, 853-853.8)

1. Universal tools specified in 5 CCR 853.5 may be used with any student.
2. Designated supports specified in 5 CCR 853.5 and, if an English learner, in 5 CCR 853.7, may be used with a student for whom the need has been indicated by an educator or team of educators, with parent/guardian and student input as appropriate, or for whom the need is specified in the student's IEP or Section 504 plan.
3. Accommodations specified in 5 CCR 853.5 may be used with a student with disabilities when included in the student's IEP or Section 504 plan as resources that are regularly used in the classroom for the student's instruction and/or assessment(s). Such accommodations shall be either utilized in the assessment environment or consist of changes in procedures or materials that increase equitable access during the assessment.
4. An unlisted resource that has not been specifically identified as an approved universal tool, designated support, or accommodation may be used with a student who has an IEP or Section 504 plan provided that the resource is one that is regularly used in the classroom for instruction

If the CDE determines that the unlisted resource changes the construct being measured, the unlisted resource may nevertheless be used with the student in order to generate an individual score report even though the student shall not be counted in the participation rate for accountability measures. (5 CCR 853.8)

In the administration of the CAA to a student with significant cognitive disabilities, the student may have all instructional supports that may be used in daily instruction or assessment, including language and physical supports, with the exception of any inappropriate test practices listed in test administration manuals. Use of Animals for Instructional Purposes

Before any student or employee brings an animal to school for an instructional purpose, he/she shall receive written permission from the principal or designee. The principal or designee shall give such permission only after he/she has provided written notification to all parents/guardians of students in the affected class, asking them to verify whether their child has any known allergies, asthma, or other health condition that may be aggravated by the animal's presence. When a parent/guardian has provided notification that his/her child has an allergy, asthma, or other health condition that may be aggravated by the animal, the principal shall take appropriate measures to protect the student from exposure to the animal.

(cf. 3514 - Environmental Safety)

(cf. 5141.21 - Administering Medication and Monitoring Health Conditions)

(cf. 5141.23 - Asthma Management)

All animals brought to school must be in good physical condition and must be appropriately immunized. The teacher shall ensure that the species of animal is appropriate for the instructional purpose and age and maturity of the students; and students bringing animals to school must first obtain the consent of the teacher and the parent/guardian.

All animals brought to school shall be adequately fed, effectively controlled, humanely treated, and properly housed in cages or containers suitable for the species. The teacher shall ensure that cages and containers are cleaned regularly and that waste materials are removed and disposed of in an appropriate manner.

(cf. 5141 - Health Care and Emergencies)

With the consent of the principal or designee, animals may remain at school longer under the following conditions:

BEST PRACTICES:

The procurements, care, and use of animals in the classroom must comply with existing local, state, and federal regulations for K-12 educational programs. The use of animals in the classroom shall be consistent with District Policy.

Instructors shall be familiar with the needs and behaviors of a given species prior to its introduction into the classroom. Students shall be instructed on proper animal care and handling before having direct contact with the animals.

Allergies and Health

- Special attention shall be given to furred and feathered animals in terms of their effect on allergic students.
- Pet birds, including parrots and parakeets, shall not be permitted at school, unless they have been veterinarian-certified as psittacosis-free.
- Avoid contact between humans and animals when either of them may be a disease carrier.
- Any animal exhibiting signs of illness or distress shall be removed from the classroom.

STUDENT USE OF TECHNOLOGY

The Governing Board believes that effective use of technology is integral to the education and development of students. In order to promote digital citizenship, the Board recognizes that students must have access to the latest digital tools and receive instruction that allows students to positively engage with technology in ways that respect human rights and avoids Internet dangers. Technological resources provided to students, including technology based on artificial intelligence (AI), shall be aligned to district goals, objectives, and academic standards. The use of technology shall augment the use of Board adopted instructional materials.

The Board intends that technological resources provided by the district be used in a safe and responsible manner in support of the instructional program and for the advancement of student learning. Students shall be allowed to use such technology, including AI technology, in accordance with district policies, including, but not limited to, policies on academic honesty, data privacy, nondiscrimination, and copyright protections. All students using these resources shall receive instruction in the proper and appropriate use of technology. Such instruction shall incorporate students' responsibilities regarding academic honesty, honoring copyright provisions, assessing the reliability and accuracy of information, protecting personal data, and the potential for biases and errors in artificially generated content.

District technology includes, but is not limited to, computer hardware, software, or software as a service provided or paid for by the district, whether accessed on or off site or through district-owned or personally owned equipment or devices, including tablets and laptops; computer servers, wireless access points (routers), and wireless computer networking technology (wi-fi); the Internet; email; applications (apps), including AI apps; telephones, cellular telephones, smartphones, smart devices, and wearable technology; or any wireless communication device, including radios.

Teachers, administrators, and/or library media specialists are expected to review the technological resources and online sites that will be used in the classroom or assigned to students in order to ensure that they are appropriate for the intended purpose and the age of the students.

The Superintendent or designee shall notify students and parents/guardians about authorized uses of district technology, user obligations and responsibilities, and consequences for unauthorized use and/or unlawful activities in accordance with this board policy and the district's Acceptable Use Agreement.

Before a student is authorized to use district technology, the student and the student's parent/guardian shall sign and return the Acceptable Use Agreement. In that agreement, the student and parent/guardian shall agree not to hold the district or any district staff responsible for the failure of any technology protection measures or user mistakes or negligence and shall agree to indemnify and hold harmless the district and district staff for any damages or costs incurred.

STUDENT USE OF TECHNOLOGY (continued)

The district reserves the right to monitor student use of technology within the jurisdiction of the district without advance notice or consent. Students shall be informed that the use of district technology, as defined above, is not private and may be accessed by the district for the purpose of ensuring proper use. Students have no reasonable expectation of privacy in the use of district technology. Students' personally owned devices shall not be searched except in cases where there is a reasonable suspicion, based on specific and objective facts, that the search will uncover evidence of a violation of law, district policy, or school rules.

The Superintendent or designee may gather and maintain information pertaining directly to school safety or student safety from the social media activity of any district student in accordance with Education Code 49073.6 and Board Policy/Administrative Regulation 5125 - Student Records.

Whenever a student is found to have violated board policy or the district's Acceptable Use Agreement, the principal or designee may cancel or limit a student's user privileges or increase supervision of the student's use of the district's equipment and other technological resources, as appropriate. Inappropriate use also may result in disciplinary action and/or legal action in accordance with law and board policy.

The Superintendent or designee, with input from students and appropriate staff, shall regularly review and update procedures to enhance the safety and security of students using district technology and to help ensure that the district adapts to changing technologies and circumstances.

Internet Safety

The Superintendent or designee shall ensure that all district computers with Internet access have a technology protection measure that protects against access to visual depictions that are obscene, child pornography, or harmful to minors and that the operation of such measures is enforced. (20 USC 7131; 47 USC 254; 47 CFR 54.520)

To reinforce these measures, the Superintendent or designee shall implement rules and procedures designed to restrict students' access to harmful or inappropriate matter on the Internet and to ensure that students do not engage in unauthorized or unlawful online activities.

Harmful matter includes matter, taken as a whole, which to the average person, applying contemporary statewide standards, appeals to the prurient interest and is matter which depicts or describes, in a patently offensive way, sexual conduct and which lacks serious literary, artistic, political, or scientific value for minors. GUIDANCE/COUNSELING SERVICES

The Governing Board recognizes that a comprehensive counseling program can help promote academic achievement and serve the diverse needs of all district students.

Supplemental School Counseling Program for Students in Grades 7-8

The Board has adopted the Supplemental School Counseling Program as outlined in the administrative regulation in order to provide supplemental counseling services to all students in grades 7-8 delivered by personnel who hold a valid pupil personnel services credential. Crisis Counseling

The Board recognizes the need for a prompt and effective response when students are confronted with a traumatic incident. School counselors shall assist in the development of the comprehensive school safety plan, emergency and disaster preparedness plan, and other prevention and intervention practices designed to assist students before and after a crisis.

In addition, the Superintendent or designee shall identify crisis counseling resources to train district staff in appropriate response techniques and/or to directly help students cope with such crises if they occur.

**IDENTIFICATION AND EVALUATION OF INDIVIDUALS
FOR SPECIAL EDUCATION**

The Superintendent or designee shall ensure that the district's child find process includes the collection of data and, at reasonable intervals, the screening of such data to determine if students are making adequate progress, as appropriate.

A student shall be referred for special education instruction and services only after the resources of the regular education program have been considered and used where appropriate. (EC 56303)

However, the district shall ensure that evaluations of children suspected of having a disability are not delayed or denied because of the implementation of response to intervention strategies.

A parent/guardian or the district may initiate a request for an initial evaluation to determine if the student is a student with a disability. (34 CFR 300.301)

When a verbal referral is made, staff shall offer assistance to the individual to make the request in writing and shall assist the individual if the individual requests such assistance. (5 CCR 3021)

All referrals from school staff for an initial evaluation shall include a brief reason for the referral and description of the regular program resources that were considered and/or modified for use with the student and, when appropriate, the results of intervention. This documentation shall not delay the timelines for completing the assessment plan or assessment. (5 CCR 3021)

Initial Evaluation for Special Education Services

Before the initial provision of special education and related services to a student with a disability, the district shall conduct a full and individual initial evaluation of the student. (EC 56320; 34 CFR 300.301)

Upon receipt of a referral of any student for special education and related services, a proposed evaluation plan shall be developed within 15 calendar days, not counting days between the student's regular school sessions or terms or calendar days of school vacation in excess of five school days, unless the parent/guardian agrees, in writing, to an extension. If the referral is made within 10 days or less prior to the end of the student's regular school year or term, the proposed evaluation plan shall be developed within 10 days after the beginning of the next regular school year or term. (EC 56043, 56321)

The proposed evaluation plan shall meet all of the following requirements: (EC 56321)

1. Be in a language easily understood by the general public
2. Be provided in the native language of the parent/guardian or other mode of communication used by the parent/guardian unless it is clearly not feasible
3. Explain the types of evaluation to be conducted
4. State that no individualized education program (IEP) will result from the evaluation without parent/guardian consent

**IDENTIFICATION AND EVALUATION OF INDIVIDUALS
FOR SPECIAL EDUCATION (continued)**

A copy of the notice of a parent/guardian's rights and procedural safeguards shall be attached to the evaluation plan. (EC 56321)

The proposed written evaluation plan shall include a description of recent assessments conducted, including available independent assessments and assessment information requested by the parent/guardian to be considered, as well as information indicating the student's primary language and the student's primary language proficiency as determined by Education Code section 52164.1. (5 CCR 3022)

Before conducting an initial evaluation, the district shall provide the parent/guardian with prior written notice in accordance with 34 CFR 300.503. In addition, as part of the evaluation plan, the parent/guardian shall receive written notice that includes all of the following information: (EC 56329; 34 CFR 300.304, 300.502, 300.504)

1. Upon completion of the administration of tests and other evaluation materials, an IEP team meeting that includes the parent/guardian or the parent/guardian's representative shall be scheduled pursuant to Education Code 56341. At this meeting, the team shall determine whether or not the student is a student with disabilities, as defined in Education Code 56026, and shall discuss the evaluation, the educational recommendations, and the reasons for the recommendations.
2. When making a determination of eligibility for special education, the district shall not determine that the student is disabled if the primary factor for such determination is lack of appropriate instruction in reading, including the essential components of reading instruction as defined in 20 USC 6368, lack of appropriate instruction in mathematics, or limited English proficiency, if the student does not otherwise meet the eligibility criteria under 34 CFR 300.8.
3. A copy of the evaluation report and the documentation of determination of eligibility shall be given to the parent/guardian.
4. If the parent/guardian disagrees with an evaluation obtained by the district, the parent/guardian has the right to obtain, at public expense, an independent educational evaluation (IEE) of the student from qualified specialists, in accordance with 34 CFR 300.502. The parent/guardian is entitled to only one such evaluation at public expense each time the district conducts an assessment with which the parent/guardian disagrees.

If the district observed the student in conducting its evaluation, or if its evaluation procedures make it permissible to have in-class observation of the student, an equivalent opportunity shall apply to the IEE. This equivalent opportunity shall apply to the student's current placement and setting as well as observation of the district's proposed placement and setting, if any, regardless of whether the IEE is initiated before or after the filing of a due process hearing proceeding.

5. The district may initiate a due process hearing pursuant to Education Code 56500-56508 to show that its evaluation is appropriate. If the final decision resulting from the due process hearing is that the evaluation is appropriate, the parent/guardian maintains the right for an IEE, but not at public expense.

If the parent/guardian obtains an IEE at private expense, the results of the IEE shall be considered by the district with respect to the provision of a free appropriate public education (FAPE) to the student, and may be presented as evidence at a due process hearing regarding the student. If the district observed the student in conducting its evaluation, or if its evaluation procedures make it permissible to

have in-class observation of a student, an equivalent opportunity shall apply to an IEE of the student in the student's current educational placement and setting and in any educational placement and setting proposed by the district, regardless of whether the IEE is initiated before or after the filing of a due process hearing.

6. If the parent/guardian proposes a publicly financed placement of the student in a nonpublic school, the district shall have an opportunity to observe the proposed placement and, if the student has already been unilaterally placed in the nonpublic school by the student's parent/guardian, the student in that proposed placement. Any such observation shall only be of the student who is the subject of the observation and shall not include the observation or evaluation of any other student in the proposed placement unless that other student's parent/guardian consents to the observation or evaluation. The results of any observation or evaluation of another student in violation of Education Code 56329(d) shall be inadmissible in any due process or judicial proceeding regarding FAPE of that other student.

Parent/Guardian Consent for Evaluations

Upon receiving the proposed evaluation plan, the parent/guardian shall have at least 15 days to decide whether to consent to the initial evaluation. The district shall not interpret parent/guardian consent for initial evaluation as consent for initial placement or initial provision of special education services. (EC 56321; 34 CFR 300.300)

Informed parental consent means that the parent/guardian: (EC 56021.1; 34 CFR 300.9)

1. Has been fully informed, in the parent/guardian's native language or other mode of communication, of all information relevant to the activity for which consent is sought
2. Understands and agrees, in writing, to the carrying out of the activity for which parent/guardian consent is sought and the consent describes that activity and lists the records (if any) that will be released and to whom
3. Understands that the granting of consent is voluntary on the parent/guardian's part and may be revoked at any time
4. Understands that if the parent/guardian revokes consent, that revocation is not retroactive (i.e., it does not negate an action that has occurred after the consent was given and before the consent was revoked). The district is not required to amend the education records of a student to remove any reference to the student's receipt of special education and services if the student's parent/guardian submits a written revocation of consent after the initial provision of special education and related services to the student.

The district shall make reasonable efforts to obtain the informed consent of the parent/guardian for an initial evaluation or reevaluation of a student. (EC 56321; 34 CFR 300.300, 300.322)

The district shall maintain a record of its attempts to obtain consent, which may include:

1. Detailed records of telephone calls made or attempted and the results of those calls
2. Copies of correspondence sent to the parent/guardian and any responses received

3. Detailed records of visits made to the parent/guardian's home or place of employment and the results of those visits

If a parent/guardian refuses to consent to the initial evaluation or fails to respond to a request to provide consent, the district may, but is not required to, pursue an evaluation by utilizing the procedural safeguards, including the mediation and due process procedures pursuant to 20 USC 1415 and 34 CFR 300.506-300.516. (EC 56321; 34 CFR 300.300)

For a student who is a ward of the state and not residing with the student's parent/guardian, the district shall make reasonable efforts to obtain the informed consent from the parent of the student for an initial evaluation to determine whether the student is a student with a disability. The district may conduct an initial evaluation without obtaining informed consent if any of the following situations exists: (EC 56321.1; 20 USC 1414; 34 CFR 300.300)

1. Despite reasonable efforts to do so, the district cannot discover the whereabouts of the parent/guardian of the student.
2. The rights of the parent/guardian of the student have been terminated in accordance with state law.
3. The rights of the parent/guardian to make educational decisions have been subrogated by a judge in accordance with state law and consent for an initial evaluation has been given by an individual appointed by the judge to represent the student.

The district need not obtain parent/guardian consent before reviewing existing data as part of an evaluation or reevaluation, or before administering a test or other evaluation that is administered to all students, unless consent is required from the parents/guardians of all students. (EC 56321; 34 CFR 300.300)

Conduct of the Evaluation

Within 60 calendar days of receiving parental consent for the initial assessment of a student, not counting days between the student's regular school sessions, terms, or days of school vacation in excess of five schooldays, a determination whether the student is eligible for special education and the educational needs of the student shall be made, an IEP team meeting shall occur, and an IEP shall be developed, unless the parent/guardian agrees in writing to an extension, pursuant to Education Code 56344. If the 60-day time is interrupted by a student school vacation, the 60-day time shall recommence on the date that student schooldays reconvene and a meeting to develop an IEP for the student shall be conducted within 30 days of a determination that the student needs special education and related services. (EC 56043, 56344).

However, when a referral has been made for a student 30 days or less prior to the end of the regular school year, an IEP required as a result of an assessment of the student shall be developed within 30 days after the commencement of the subsequent regular school year. (EC 56320, 56322).

**IDENTIFICATION AND EVALUATION OF INDIVIDUALS
FOR SPECIAL EDUCATION (continued)**

The evaluation shall be conducted by qualified personnel who are competent to perform the assessment as determined by the district. (EC 56320, 56322)

In addition, evaluations and reevaluations shall be administered by qualified personnel who are competent in the oral or sign language skills and written skills of the student's primary language or mode of communication and have a knowledge and understanding of the cultural and ethnic background of the student. If it is clearly not feasible to do so, an interpreter shall be used, and the assessment report shall document this condition and note that the validity of the assessment may have been affected. The normal process of second-language acquisition, as well as manifestations of dialect and sociolinguistic variance shall not be diagnosed as a disabling condition. (5 CCR 3023)

The screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation shall not be considered to be an evaluation for eligibility for special education and related services. (EC 56321; 20 USC 1414; 34 CFR 300.302)

In conducting the evaluation, the district shall use a variety of assessment tools and strategies to gather relevant functional, developmental, and academic information about the student. The district shall also use any information provided by the parent/guardian that may assist the district in making the determination as to whether the student is a student with a disability and, if so, the necessary components of the student's IEP when the IEP is developed, including information related to enabling the student to be involved in and to progress in the general education curriculum. (34 CFR 300.304)

The district's evaluation shall not use any single measure or assessment as the sole criterion for determining whether a student is a student with a disability and for determining the appropriate educational program for the student. The assessment shall use technically sound instruments that may assess the relative contribution of cognitive and behavioral factors in addition to physical or developmental factors. (34 CFR 300.304)

The district shall also ensure that assessments and other evaluation materials provide relevant information that assists in determining the student's educational needs and are: (EC 56320; 34 CFR 300.304)

1. Selected and administered so as not to be discriminatory on a racial, cultural, or sexual basis
2. Provided and administered in the student's native language or other mode of communication and in the form most likely to yield accurate information on what the student knows and can do academically, developmentally, and functionally, unless it is clearly not feasible to so provide or administer
3. Used for the purposes for which the assessments or measures are valid and reliable
4. Administered by trained and knowledgeable personnel except that individually administered tests of intellectual or emotional functioning shall be administered by a credentialed school psychologist

5. Administered in accordance with any instructions provided by the producer of the assessments
6. Tailored to assess specific areas of educational need and not merely designed to provide a single general intelligence quotient
7. If administered to a student with impaired sensory, manual, or speaking skills, selected and administered to best ensure that the results accurately reflect the student's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual, or speaking skills (unless those skills are the factors that the test purports to measure).

Students shall be assessed in all areas related to the suspected disability, including, if appropriate, health and development, vision (including low vision), hearing, motor abilities, language function, general intelligence, academic performance, communicative status, self-help, orientation and mobility skills, career and vocational abilities and interests, and social and emotional status. When appropriate, a developmental history shall be obtained. For students with residual vision, a low vision assessment shall be provided in accordance with guidelines established pursuant to Education Code 56136. The district shall ensure that the evaluation is sufficiently comprehensive to identify all of the student's special education and related service needs, whether or not commonly linked to the disability category in which the student has been classified. (EC 56320; 34 CFR 300.304)

As part of the initial evaluation and any reevaluation, the IEP team and other qualified professionals shall, if appropriate, review existing evaluation data on the student, including evaluations and information provided by the parents/guardians, current classroom-based local or state assessments and classroom-based observations, and observations by teachers and related services providers. On the basis of that review and input from the student's parent/guardian, the team shall identify what additional data, if any, are needed to determine: (EC 56381; 34 CFR 300.305)

1. Whether the student is a student with a disability, or in the case of a reevaluation, whether the student continues to have a disability, and the educational needs of the student
2. The present levels of academic achievement and related developmental needs of the student
3. Whether the student needs, or continues to need, special education and related services
4. Whether any additions or modifications to the special education and related services are needed to enable the student to meet the measurable annual goals set out in the student's IEP and to participate, as appropriate, in the general education curriculum

If a student has transferred from another district in the same school year or leaves this district, the district shall coordinate with the student's prior or subsequent district as necessary and as expeditiously as possible to ensure prompt completion of full evaluations. (34 CFR 300.304)

Evaluation Report

The personnel who evaluate the student shall prepare a written report of the results of each evaluation. The report shall include, but not be limited to, the following: (EC 56327)

1. Whether the student may need special education and related services
2. The basis for making the determination
3. The relevant behavior noted during the observation of the student in an appropriate setting
4. The relationship of that behavior to the student's academic and social functioning
5. The educationally relevant health, developmental, and medical findings, if any
6. For students with learning disabilities, whether there is such a discrepancy between achievement and ability that it cannot be corrected without special education and related services
7. A determination concerning the effects of environmental, cultural, or economic disadvantage, where appropriate
8. The need for specialized services, materials, and equipment for students with low incidence disabilities, consistent with Education Code 56136

Eligibility Determination

Upon completion of the administration of assessments and other evaluation measures, a group of qualified professionals and the parent/guardian shall determine whether the student is a student with a disability as defined in 5 CCR 3030 and 34 CFR 300.8 and, if so, the student's educational needs. In interpreting the data, the group shall draw information from a variety of sources, including aptitude and achievement tests, parent/guardian input, and teacher recommendations, as well as information about the student's physical condition, social or cultural background, and adaptive behavior. The group shall ensure that the information obtained from these sources is documented and carefully considered. (34 CFR 300.306)

When making a determination of eligibility for special education and related services, the district shall not determine that a student is disabled if the primary factor for such determination is a lack of appropriate instruction in reading, including the essential components of reading instruction pursuant to 20 USC 6368, lack of instruction in mathematics, limited English proficiency, or that the student does not otherwise meet the eligibility criteria. Independent Educational Evaluation

An independent educational evaluation is defined as an evaluation conducted by a qualified examiner who is not employed by the district. (34 CFR 300.502)

Public expense means that the district either pays for the full cost of the IEE or ensures that the evaluation is otherwise provided at no cost to the parent/guardian. (34 CFR 300.502)

The parents/guardians of a student with a disability have the right to obtain an IEE at public expense under the same criteria, including the location of the evaluation and the qualifications of the examiner, that the district uses for a district-initiated evaluation. (34 CFR 300.502)

The parent/guardian is entitled to only one IEE at public expense each time the district conducts an evaluation with which the parent/guardian disagrees. (EC 56329; 34 CFR 300.502)

If a parent/guardian has requested an IEE, the district may ask for the reason that the parent/guardian objects to the district's evaluation. However, the parent/guardian is not required to provide an explanation and the district may not unreasonably delay either providing the IEE at public expense or filing a due process complaint to request a due process hearing to defend the public evaluation. (34 CFR 300.502)

Upon receiving the request for an IEE, the district shall, without unnecessary delay, either: (34 CFR 300.502)

1. File a due process complaint to request a hearing to show that its evaluation is appropriate
2. Ensure that an IEE is provided at public expense, unless the district demonstrates at a hearing that the evaluation obtained by the parent/guardian did not satisfy the district's criteria

If a due process hearing decision determines that the district's evaluation is appropriate, then the parent/guardian may obtain an IEE but not at public expense. (EC 56329; 34 CFR 300.502)

In any decision made with respect to providing FAPE to a student with a disability, the result of any IEE obtained by the student's parent/guardian shall be considered by the district if it meets district criteria. Any such result also may be presented as evidence at a hearing on a due process complaint. (EC 56329; 34 CFR 300.502)

Reevaluation

A reevaluation shall be conducted when the district determines that the educational or related service needs of the student, including improved academic achievement and functional performance, warrant a reevaluation or if the student's parent/guardian or teacher requests reevaluation. Such reevaluations shall occur every three years, unless the parent/guardian and district agree in writing that a reevaluation is unnecessary. A reevaluation may not occur more than once a year, unless the parent/guardian and the district agree otherwise. (EC 56043, 56381; 34 CFR 300.303)

Before entering kindergarten or first grade, as the case may be, children with disabilities who are in a preschool program shall be reevaluated to determine if they still need special education and services. CHILDREN WITH DISABILITIES ENROLLED BY THEIR PARENTS IN PRIVATE SCHOOL

The Governing Board recognizes its obligations under state and federal to locate, identify, evaluate, and provide equitable services to children voluntarily enrolled by their parents/guardians in private schools located within the district.

The Superintendent or designee shall ensure that activities to locate, identify, and evaluate children with disabilities enrolled by their parents/guardians in private schools within the district are comparable to activities undertaken for individuals with disabilities aged three to 22 in public schools within the district. (EC 56171; 34 CFR 300.131)

The Superintendent or designee shall develop a budget for the provision of services to children with disabilities enrolled by their parents/guardians in private school based on the proportionate share of federal funds received and the number of eligible children, including the possibility of mid-year enrollees, and the types of services to be provided.

CHILDREN WITH DISABILITIES ENROLLED BY THEIR PARENTS IN PRIVATE SCHOOL

Definitions

Parentally placed private school children with disabilities means children with disabilities who are voluntarily enrolled by their parents/guardians in a private school or facility within district boundaries, including children who are attending a private school or facility within district boundaries but who reside in another district or state. (34 CFR 300.130, 300.131)

Private school or facility means a private full-time day school, including a religious school, located within district boundaries, that has filed an affidavit with the California Department of Education pursuant to Education Code 33190 and is registered in the California Private School Directory.

Consultation with Private School Representatives

The Superintendent or designee shall consult with all private school representatives and representatives of parents/guardians of parentally placed private school children with disabilities during the design and development of equitable services for the children. In order to ensure a meaningful and timely consultation, the consultation shall include: (EC 56301; 20 USC 1412(a)(10)(A)(iii); 34 CFR 300.134)

1. The child find process and how parentally-placed private school children suspected of having a disability can participate equitably
2. The manner in which parents/guardians, teachers, and private school officials will be informed of the child find process
3. The determination of the proportionate share of federal funds available to serve parentally-placed private school children with disabilities and how this share is calculated
4. How the consultation process among district staff, private school officials, and representatives of parents of parentally-placed private school children with disabilities will operate throughout the school year to ensure that identified children can meaningfully participate in equitable services
5. The provision of equitable special education and related services including how, when, and by whom such services will be provided including a discussion about the types of services, alternate service delivery mechanisms, how services will be apportioned if funds are insufficient to serve all of the identified children, and how and when those decisions will be made

6. In the event that the district and private school disagree on the provision of or the types of services, how the district will provide the private school officials with a written explanation of the reasons that the district chose to not provide the services

When meaningful and timely consultation has occurred, the district shall obtain a written affirmation signed by the representatives of participating private schools. If the private school representatives do not provide the affirmation within a reasonable period of time, the district shall forward documentation of the consultation process to the California Department of Education. (EC 56172; 20 USC 1412; 34 CFR 300.135)

After the consultation has occurred, the district shall ensure an annual count of the number of parentally placed children with disabilities attending private schools located within the district. This count shall be conducted between October 1 and December 1 each year and shall be used to determine the amount the district must spend on providing equitable services to the children in the subsequent fiscal year. (34 CFR 300.133)

Provision of Services

A child with a disability parentally-placed in a private school has no individual right to receive some or all of the special education and related services that would have been received if enrolled in public school. Such a child may receive a different amount of services than students with disabilities in public schools. (34 CFR 300.137, 300.138)

The district shall evaluate all identified parentally-placed private school children with disabilities for purposes of considering them for equitable services. This evaluation shall be conducted in accordance with the timelines and procedures for evaluating public school students with disabilities pursuant to 34 CFR 300.300-300.311 and as specified in BP/AR 6164.4 - Identification and Evaluation of Individuals for Special Education, including obtaining parent/guardian consent and providing the parent/guardian with a copy of the procedural safeguards notice. (34 CFR 300.131, 300.504)

If the child resides in the district and is eligible for an individualized education program (IEP), the district shall make a free appropriate public education (FAPE) available to the child. However, the district is not required to develop an IEP if the parent/guardian makes clear the intention to keep the child enrolled in private school. In such situations, the district shall obtain written certification confirming the parent/guardian's intention to keep the child enrolled in private school, including the fact that the parent/guardian is not interested in the development of an IEP or the district's offer of

FAPE. If the parent/guardian does not provide confirmation in writing, the district shall obtain oral confirmation of the parent/guardian's intention and confirm the conversation in writing.

If the child resides in a different district, then this district and the district of residence shall work together to ensure that the parent/guardian receives an offer of FAPE in accordance with law.

The district shall develop and implement for each identified child with a disability enrolled by their parents/guardians in a private school within the district's boundaries an individual services plan (ISP) that describes the equitable services that the district will provide, as determined by the district after the consultation process with private school representatives. (34 CFR 300.138)

The ISP shall be developed, reviewed, and revised consistent with 20 USC 1414. A representative of the private school shall be invited to attend each ISP team meeting. If the representative cannot attend the meeting, the district shall use other methods to ensure the representative's participation, including individual or conference calls. (34 CFR 300.137, 300.138)

The district may provide services on the private school premises, including a religious school, to the extent consistent with law. The services shall be provided by personnel meeting the same standards as personnel providing services in the public school except that private elementary school and secondary school teachers who are providing equitable services to parentally-placed private school children with disabilities do not have to meet the special education teacher qualification requirements specified in 34 CFR 300.156. The personnel shall either be district employees or contractors of the district. (34 CFR 300.138, 300.139)

The district shall offer transportation to the child if services are provided on a site other than the child's school and the ISP team determines that transportation is necessary for the child to benefit from or participate in the services provided in the ISP. Depending on the timing of the services, the district shall provide transportation from the child's school or home to the service site and from the service site to the child's school or home. (34 CFR 300.139)

The district may place equipment and supplies in a private school for the period of time necessary to provide the services pursuant to the ISP. All such equipment shall remain the property of the district and must be able to be removed without remodeling or causing damage to the private school. The district shall remove the equipment when no longer required by the child, when the child no longer attends the private school, or when removal is necessary to prevent unauthorized use. STUDENT SUCCESS TEAMS

The Governing Board encourages the collaboration of parents/guardians, certificated and classified staff, administrators, and/or the student, as appropriate, in evaluating the strengths and needs of students having academic, attendance, social, emotional, or behavioral difficulties and in identifying strategies and programs that may assist such students in maximizing their potential. The Superintendent or designee shall establish student success teams (SST) as needed to address individual student needs.

The Superintendent or designee shall establish and maintain a process for initiating the referral of students to SSTs, which may include referral by district staff, parents/guardians, and/or agency representatives. The Superintendent or designee may also establish and maintain a process for responding to SST referrals, which may include a determination by the district as to whether an SST shall be convened for an individual student.

Each SST may collect and analyze relevant student data, as appropriate. The SST may also review the student's educational history, work samples, strengths and areas for growth, and identify available resources and strategies.

Each SST shall develop a plan to support the student which incorporates intervention strategies. Such strategies may include changes in program placement or instructional methods, recommendation of supplemental educational services, parent involvement strategies, social, emotional and/or behavioral interventions, discipline, referrals to other agencies or resources, and/or other appropriate interventions.

The SST shall monitor the student's progress, evaluate the extent to which the recommended strategies have been implemented, make adjustments to the plan, and develop additional interventions as needed.

The SST process shall not delay or deny a referral for evaluation for eligibility for special education, as may be required under state or federal law.

The Superintendent or designee may integrate SSTs into the district's multi-tiered system of support, including identification of students who need additional support, the level(s) of support, appropriate interventions, monitoring of progress, and whether the goal of intervention has been met.

To strengthen the effectiveness of SSTs, the Superintendent or designee may provide staff development in the identification of students who may need additional support, implementation of measurable and targeted interventions, and monitoring of progress and goal attainment.

IDENTIFICATION AND EDUCATION UNDER SECTION 504

The Governing Board recognizes the need to identify and evaluate children with disabilities in order to provide them with a free, appropriate public education. Under Section 504 of the federal Rehabilitation Act of 1973, individuals with a physical or mental impairment that substantially limits one or more major life activities, including learning, are eligible to receive services and aids designed to meet their needs as adequately as the needs of non-disabled students are met.

The Superintendent or designee shall establish screening and evaluation procedures to be used whenever there is reason to believe that a student has a disability that limits his/her ability to attend or function at school.

To evaluate the student's eligibility under Section 504, the Superintendent or designee shall convene a school 504 team of professionals knowledgeable about the student's individual needs and school history, the meaning of evaluation data, and accommodation options. The student's parent/guardian shall be invited to participate on this committee.

If the student is found to have a disability that requires services under Section 504, the school 504 team shall develop a written accommodation plan for the student. Upon reviewing the nature of the disability and how it affects the student's education, the 504 team shall determine what modifications and/or special services and aids are needed. The student shall be educated with non-disabled students to the maximum extent appropriate to the student's individual needs.

The school 504 team shall provide the parent/guardian with a written copy of the accommodation plan and notice of procedural safeguards guaranteed by law.

This determination shall be based on a review of the student's school records (including academic, social and behavioral records) and the student's needs. Students requiring evaluation shall be referred to appropriate evaluation specialists.
3. If a request for evaluation is denied, the school 504 team shall inform the parents/guardians of this decision and of their procedural rights as described below.

Accommodation Plan

1. When a student is identified as disabled within the meaning of Section 504, the school 504 team shall determine what services are necessary to ensure that the student's individual education needs are met as adequately as the needs of non-disabled students.
2. In making this determination, the school 504 team shall consider all significant factors relating to the learning process for the student, including his/her adaptive behavior and cultural and language background. The evaluation may include, but is not limited to, classroom and playground observation, performance-based testing, academic assessment information, and data offered by the parent/guardian.
3. The parents/guardians shall be invited to participate in the school 504 team meeting where services for the student will be determined and shall be given an opportunity to examine all relevant records.

The student's teacher and any other staff who provide services to the student shall be informed of the services necessary for the student, to the extent that they need to be informed in order to provide for the student in the school setting.

ENTERPRISE ELEMENTARY SCHOOL DISTRICT BOARD POLICY

INSTRUCTION

BP 6171

TITLE I PROGRAMS

The Governing Board desires to provide a high-quality education that enables all students to meet challenging state academic standards. In schools with a large number or percentage of economically disadvantaged families, the district shall use Title I funds to provide services that strengthen the academic program and provide support to students at risk of failing to achieve academic standards.

(cf. 6011 - Academic Standards)

(cf. 6162.5 - Student Assessment)

(cf. 6162.51 - State Academic Achievement Tests)

Title I funds shall be used to supplement, not supplant, funds available from state and local sources for the education of students participating in Title I programs. (20 USC 6314, 6321)

Descriptions of how the district will address the required components of the Title I local educational agency plan, as specified in 20 USC 6312, shall be included within the district's control and accountability plan (LCAP), the LCAP Federal Addendum, or another document. School-level strategies shall be aligned with the district's plan and be tailored to the specific needs of the students at the school.

(cf. 0420 - School Plans/Site Councils)

(cf. 0400 - Comprehensive Plans)

(cf. 0460 - Local Control and Accountability Plan)

In addition, the district and each school receiving Title I funds shall develop a written parent/guardian and family engagement policy in accordance with 20 USC 6318.

(cf. 6020 - Parent Involvement)

Comparability of Services

In schools receiving Title I funds, state and local funds shall be used to provide services that, taken as a whole, are at least comparable to services in schools that are not receiving Title I funds or, if all district schools are receiving Title I funds, that are substantially comparable in each school.

Comparability may be determined on a school-by-school basis or by grade span. (20 USC 6321)

To demonstrate comparability of services among district schools, the district shall:

1. Adopt and implement a districtwide salary schedule
2. Ensure equivalence in teachers, administrators, and other staff, as measured by either or both of the following:
 - a. The ratio of students to instructional staff at each Title I school within a grade span, which shall not exceed 110 percent of the average ratio for all non-Title I district schools within that grade span

**ENTERPRISE ELEMENTARY SCHOOL DISTRICT
BOARD POLICY**

INSTRUCTION

BP 6171

TITLE I PROGRAMS (Continued)

- b. Salary expenditures for instructional staff at each Title I school, which shall be no less than 90 percent of the average salary expenditure across non-Title I district schools.
3. Ensure equivalence in the provision of curriculum materials and instructional supplies, by determining whether the per-student expenditure of state and local funds for curriculum materials and instructional supplies in Title I schools is between 90 and 110 percent of the districtwide average
4. Determine whether the amount of state and local funds allocated per student for each grade span is between 90 and 110 percent of the per student average for each grade span in non-Title I schools
(cf. 6161.1 - Selection and Evaluation of Instructional Materials)

In determining comparability, the district shall not include staff salary differentials for years of employment. The district also may exclude unpredictable changes in student enrollment or personnel assignments that occur after the beginning of the school year, state and local funds expended for language instruction educational programs, state and local funds expended for the excess costs of providing services to students with disabilities, and supplemental state or local funds expended in any school attendance area or school for programs that specifically meet the intent and purposes of Title I. (20 USC 6321)

The Superintendent or designee shall annually assess comparability in accordance with the above criteria and maintain records documenting the district's compliance. If any instances of noncomparability are identified, the Superintendent or designee shall promptly implement adjustments as needed to ensure comparability.

Participation of Private School Students

The district shall provide or contract to provide special educational services, instructional services (including evaluations to determine the progress being made in meeting students' academic needs), counseling, mentoring, one-on-one tutoring, or other Title I benefits to eligible private school students residing in a participating school attendance area. Such services and benefits shall be provided on an equitable basis in comparison to services and other benefits for public school students. (20 USC 6320, 7881)

TITLE I PROGRAMS (Continued)

Program Evaluation

The Superintendent or designee shall regularly monitor the progress of economically disadvantaged and low-achieving students in Title I schools. During the annual evaluation of the district's progress toward achieving each goal identified in the LCAP or other planning document addressing 20 USC 6312, the Board shall review disaggregated data on academic achievement, school attendance, and other outcomes for such students and shall ensure that strategies are revised as necessary to support continuous improvement.

The district shall make placement decisions for homeless students based on the student's best interest. (42 USC 11432)

When making a placement decision for a homeless student, the Superintendent or designee may consider the age of the student, the distance of the commute and the impact it may have on the student's education, personal safety issues, the student's need for special instruction, the length of anticipated stay in the temporary shelter or other temporary location, likely area of future housing, school placement of siblings, and the time remaining in the school year.

However, placement decisions shall not be based on whether a homeless student lives with his/her homeless parent/guardian or has been temporarily placed elsewhere. (42 USC 11432)

In the case of an unaccompanied youth, the liaison shall assist in placement or enrollment decisions, consider the views of the student, and provide notice to the student of his/her appeal rights. (42 USC 11432)

In determining a student's best interest, a homeless student shall, to the extent feasible, be placed in his/her school of origin, unless his/her parent/guardian requests otherwise. (EC 48852.7; 42 USC 11432)

Once a placement decision has been made, the principal or designee shall immediately enroll the student in the school of choice. The student shall be enrolled even if he/she: (EC 48852.7; 42 USC 11432)

EDUCATION FOR ENGLISH LEARNERS

The Governing Board intends to provide English learners with challenging curriculum and instruction that maximize the attainment of high levels of proficiency in English, advance multilingual capabilities, and facilitate student achievement in the district's regular course of study.

English learners shall be provided differentiated English language development instruction which is targeted to their English proficiency level. Such instruction shall be based on sound instructional theory, be aligned with state content standards, emphasize inquiry-based learning and critical thinking skills, and be integrated across all subject areas.

(cf. 6011 - Academic Standards)

(cf. 6141 - Curriculum Development and Evaluation)

(cf. 6161.1 - Selection and Evaluation of Instructional Materials)

(cf. 6161.11 - Supplementary Instructional Materials)

(cf. 6171 - Title I Programs)

No middle or high school student who is an English learner shall be denied enrollment in any of the following: (EC 60811.8)

1. Courses in the core curriculum areas of reading/language arts, mathematics, science, and history-social science, courses required to meet state and local high school graduation requirements, or courses required for middle school grade promotion

However, an English learner may be denied participation in any such course if the student has been enrolled in a school in the United States for less than 12 months or is enrolled in a program designed to develop the basic English skills of newly arrived immigrant students, and the course of study provided to the student is designed to remedy academic deficits incurred during participation and to enable the student to attain parity of participation in the standard instructional program within a reasonable length of time after the student enters the school system.

2. A full course load of courses specified in item #1 above
3. Other courses that meet the "a-g" course requirements for college admission or are advanced courses such as honors or Advanced Placement courses, on the sole basis of the student's classification as an English learner
(cf. 0415 - Equity)
(cf. 6141.4 - International Baccalaureate Program)
(cf. 6141.5 - Advanced Placement)

The district shall identify in its local control and accountability plan (LCAP) goals and specific actions and services to enhance student engagement, academic achievement, and other outcomes for English learners.

(cf. 0460 - Local Control and Accountability Plan)

(cf. 3100 - Budget)

The Superintendent or designee shall encourage parent/guardian and community involvement in the development and evaluation of programs for English learners. The Superintendent or designee may also provide an English development literacy training program for parents/guardians and community members so that they may better support students' English language development.

(cf. 4112.22 - Staff Teaching English Learners)

The district shall provide effective professional development to teachers (including teachers in classroom settings that are not the settings of language instruction educational programs), administrators, and other school or community-based organization personnel to improve the instruction and assessment of English learners and enhance staff's ability to understand and use curricula, assessment, and instructional strategies for English learners. Such professional development shall be of sufficient intensity and duration to produce a positive and lasting impact on teachers' performance in the classroom. (20 USC 6825)

(cf. 4131 - Staff Development)

(cf. 4231 - Staff Development)

(cf. 4331 - Staff Development)

Staff development shall also address the sociocultural needs of English learners and provide opportunities for teachers to engage in supportive, collaborative learning communities.

Identification and Assessment

The Superintendent or designee shall maintain procedures for the early identification of English learners and an assessment of their proficiency using the state's English Language Proficiency Assessments for California (ELPAC). To oversee test administration, the Superintendent or designee shall annually designate a district ELPAC coordinator and a site coordinator for each test site in accordance with 5 CCR 11518.40-11518.45.

Once identified as an English learner, a student shall be annually assessed for language proficiency until the student is reclassified based on criteria specified in the accompanying administrative regulation.

In addition, English learners' academic achievement in English language arts, mathematics, science, and any additional subject required by law shall be assessed using the California Assessment of Student Performance and Progress. As necessary, the test shall be administered with testing variations in accordance with 5 CCR 854.1-854.3. English learners who are in their first 12 months of attending a school in the United States shall be exempted from taking the English language arts assessment to the extent allowed by federal law. (EC 60603, 60640; 5 CCR 854.1-854.3)

(cf. 6162.51 - State Academic Achievement Tests)

Formative assessments may be utilized to analyze student performance and appropriately adapt teaching methodologies and instructions.

(cf. 6162.5 - Student Assessment)

Language Acquisition Programs

The district shall offer research-based language acquisition programs that are designed to ensure English acquisition as rapidly and as effectively as possible and that provide instruction to students on the state-adopted academic content standards, including the English language development standards. At a minimum, the district shall offer a structured English immersion program which includes designated and integrated English language development. In the structured English immersion program, nearly all of the classroom instruction shall be provided in English, but with the curriculum and presentation designed for students who are learning English. (EC 305-306; 5 CCR 11309)

For the purpose of determining the amount of instruction to be conducted in English in the structured English immersion program, "nearly all" means that all classroom instruction shall be conducted in English except for clarification, explanation, and support as needed.

In addition, language acquisition programs offered by the district may include, but are not limited to, the following: (EC 305-306)

1. A dual-language immersion program that provides integrated language learning and academic instruction for native speakers of English and native speakers of another language, with the goals of high academic achievement, first and second language proficiency, and cross-cultural understanding
(cf. 6142.2 - World Language Instruction)

The district's language acquisition programs for grades K-3 shall comply with class size requirements specified in Education Code 42238.02. (EC 310)
(cf. 6151 - Class Size)

In establishing the district's language acquisition programs, the Superintendent or designee shall consult with parents/guardians and the community during the LCAP development process. The Superintendent or designee shall also consult with administrators, teachers, and other personnel with appropriate authorizations and experience in establishing a language acquisition program. (EC 305)

At the beginning of each school year or upon a student's enrollment, parents/guardians shall be provided information on the types of language acquisition programs available to students enrolled in the district, including, but not limited to, a description of each program, the process to be followed in making a program selection, identification of any language to be taught in addition to English when the program includes instruction in another language, and the process to request establishment of a language acquisition program. (EC 310; 5 CCR 11310)
(cf. 5145.6 - Parental Notifications)

Whenever a student is identified as an English learner based on the results of the ELPAC, the student's parents/guardians may choose a language acquisition program that best suits their child. To the extent possible, any language acquisition program requested by the parents/guardians of 30 or more students at the school or by the parents/guardians of 20 or more students at any grade level shall be offered by the school. (EC 310; 5 CCR 11311)

Reclassification

When an English learner is determined based on state and district reclassification criteria to have acquired a reasonable level of English proficiency pursuant to Education Code 313 and 52164.6, or upon request by the student's parent/guardian, the student shall be transferred from a language acquisition program into an English language mainstream classroom.

EDUCATION FOR ENGLISH LEARNERS

Definitions

English learner means a student who is age 3-21 years, who is enrolled or is preparing to enroll in an elementary or secondary school, and whose difficulties in speaking, reading, writing, or understanding the English language may be sufficient to deny the student the ability to meet state academic standards, the ability to successfully achieve in classrooms where the language of instruction is English, or the opportunity to participate fully in society. An English learner may include a student who was not born in the United States or whose native language is a language other than English; a student who is Native American or Alaska Native, or a native resident of the outlying areas, who comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; or a student who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant. (EC 306; 20 USC 7801)

Designated English language development means instruction provided during a time set aside in the regular school day for focused instruction on the state-adopted English language development standards to assist English learners to develop critical English language skills necessary for academic content learning in English. (5 CCR 11300)

Integrated English language development means instruction in which the state-adopted English language development standards are used in tandem with the state-adopted academic content standards. Integrated English language development includes specially designed academic instruction in English. (5 CCR 11300)

Native speaker of English means a student who has learned and used English at home from early childhood and English has been the primary means of concept formation and communication. (EC 306)

Identification and Assessments

Upon enrollment in the district, each student's primary language shall be determined through the use of a home language survey. (EC 52164.1; 5 CCR 11307, 11518.5)

Any student who is identified as having a primary language other than English as determined by the home language survey, and who has not previously been identified as an English learner by a California public school or for whom there is no record of results from an administration of an English language proficiency test, shall be initially assessed for English proficiency using the English Language Proficiency Assessments for California (ELPAC). Prior to administering the ELPAC, the Superintendent or designee shall notify the student's parent/guardian in writing that the student will be administered the initial ELPAC. (EC 313, 52164.1; 5 CCR 11518.5)

Administration of the ELPAC, including the use of variations and accommodations in test administration when authorized, shall be conducted in accordance with test publisher instructions and 5 CCR 11518.5-11518.35.

(cf. 6159 - Individualized Education Program)

(cf. 6162.51 - State Academic Achievement Tests)

(cf. 6164.6 - Identification and Education Under Section 504)

Based on the initial assessment, the student shall be classified either as initially fluent in English proficient or as an English learner. The Superintendent or designee shall notify the student's parent/guardian, in writing, of the results of the ELPAC initial assessment within 30 calendar days after the student's date of initial enrollment, or, if administered prior to the student's initial date of enrollment, up to 60 calendar days prior to such enrollment, but not before July 1 of the school year of the student's initial enrollment. The notice shall indicate whether the student

met the ELPAC initial assessment criterion for proficiency and include the district's contact information for use if the parent/guardian has questions or concerns regarding the student's classification. (5 CCR 11518.5)

Each year after a student is identified as an English learner and until the student is redesignated as English proficient, the summative assessment of the ELPAC shall be administered to the student during a four-month period after January 1 as determined by the California Department of Education. (EC 313)

The Superintendent or designee shall notify parents/guardians of their child's results on the summative assessment of the ELPAC within 30 calendar days following receipt of the results from the test contractor or, if the results are received from the test contractor after the last day of instruction for the school year, within 15 working days of the start of the next school year. (EC 52164.1; 5 CCR 11518.15)
(cf. 5145.6 - Parental Notifications)

The parent/guardian of a student participating in, or identified for participation in, a language instruction program supported by federal Title I or Title III funds shall receive notification of the assessment of the student's English proficiency. Such notice shall be provided not later than 30 calendar days after the beginning of the school year or, if the student is identified for program participation during the school year, within two weeks of the student's placement in the program. The notice shall include all of the following: (EC 313.2, 440; 20 USC 6312)

1. The reason for the identification of the student as an English learner and the need for placement in a language acquisition program
2. The level of English proficiency, how the level was assessed, and the status of the student's academic achievement
3. A description of the language acquisition program in which the student is, or will be, participating, including a description of all of the following:
 - a. The methods of instruction used in the program and in other available programs, including how such programs differ in content, instructional goals, and the use of English and a native language in instruction
 - b. The manner in which the program will meet the educational strengths and needs of the student
 - c. The manner in which the program will help the student develop English proficiency and meet age-appropriate academic standards for grade promotion and graduation
 - d. The specific exit requirements for the program, the expected rate of transition from the program into classes not tailored for English learners, and the expected rate of graduation from secondary school if applicable
 - e. When the student has been identified for special education, the manner in which the program meets the requirements of the student's IEP
4. As applicable, the identification of a student as a long-term English learner or at risk of becoming a long-term English learner, as defined in Education Code 313.1, and the manner in which the program for English language development instruction will meet the educational strengths and needs of such students and help such students develop English proficiency and meet age-appropriate academic standards

Language Acquisition Programs

Whenever parents/guardians of enrolled students, and those enrolled for attendance in the next school year, request that the district establish a specific language acquisition program in accordance with Education Code 310, such requests shall be addressed through the following process: (5 CCR 11311)

1. The school shall make a written record of each request, including any request submitted verbally, that includes the date of the request, the names of the parent/guardian and student making the request, a general description of the request, and the student's grade level on the date of the request. As needed, the school shall assist the parent/guardian in clarifying the request. All requests shall be maintained for at least three years from the date of the request.
2. The school shall monitor requests on a regular basis and notify the Superintendent or designee when the parents/guardians of at least 30 students enrolled in the school, or at least 20 students in the same grade level, request the same or a substantially similar type of language acquisition program. If the requests are for a multilingual program model, the district shall consider requests from parents/guardians of students enrolled in the school who are native English speakers in determining whether this threshold is reached.
3. If the number of parents/guardians described in item #2 is attained, the Superintendent or designee shall:
 - a. Within 10 days of reaching the threshold, notify the parents/guardians of students attending the school, the school's teachers, administrators, and the district's English learner parent advisory committee and parent advisory committee, in writing, of the requests for a language acquisition program
 - b. Identify costs and resources necessary to implement any new language acquisition program, including, but not limited to, certificated teachers with the appropriate authorizations, necessary instructional materials, pertinent professional development for the proposed program, and opportunities for parent/guardian and community engagement to support the proposed program goals
 - c. Within 60 calendar days of reaching the threshold number of parents/guardians described in item #2 above, determine whether it is possible to implement the requested language acquisition program and provide written notice of the determination to parents/guardians of students attending the school, the school's teachers, and administrators
 - d. If a determination is made to implement the language acquisition program, create and publish a reasonable timeline of actions necessary to implement the program. The Superintendent or designee shall monitor the progress of reclassified students to ensure their correct classification and placement. (5 CCR 11304)

The Superintendent or designee shall monitor students for at least four years following their reclassification to ensure correct classification and placement and to determine whether any additional academic support is needed.

Advisory Committees

A school-level English Learner Advisory Committee (ELAC) shall be established when there are more than 20 English learners at the school. Parents/guardians of English learners, elected by parents/guardians of English learners at the school, shall constitute committee membership in at least the same percentage as English learners represent of the total number of students in the school. The school may designate for this purpose an existing school-level advisory committee provided that it meets these criteria for committee membership. (EC 52176; 5 CCR 11308)

The ELAC shall be responsible for assisting in the development of a schoolwide needs assessment, recommending ways to make parents/guardians aware of the importance of school attendance, and advising the principal and school staff in the development of a detailed master plan for English learners for the individual school and submitting the plan to the Governing Board for consideration for inclusion in the district master plan. (EC 52176)

When the district has more than 50 English learners, the Superintendent or designee shall establish a District English Learner Advisory Committee (DELAC), the majority of whose membership shall be composed of parents/guardians of English learners who are not employed by the district. HOME AND HOSPITAL INSTRUCTION

A student with a temporary disability which makes school attendance impossible or inadvisable shall be entitled to receive individual instruction at home or in a hospital or other residential health facility, excluding state hospitals. (EC 48206.3)

Temporary disability means a physical, mental, or emotional disability incurred while a student is enrolled in regular day classes or an alternative education program, and after which the student can reasonably be expected to return to regular day classes or the alternative education program in which the student is enrolled. Temporary disability does not include a disability that would qualify a student for special education pursuant to Education Code 56026. (EC 48206.3)

At the beginning of the school year, the Superintendent or designee shall notify parents/guardians of district students regarding: (EC 48206.3, 48208, 48980)

1. The availability of individual instruction for any student with a temporary disability, including information regarding student eligibility for, and the duration of, individual instruction
2. The rights and responsibilities of parents/guardians of any student with a temporary disability pursuant to Education Code 48207 and 48208

Parents/guardians shall notify the principal or designee when their child is temporarily disabled and needs individual instruction at home or in a hospital or other residential health facility.

Determination of Student Eligibility

Not later than five working days after receiving notification from a parent/guardian that a student has a temporary disability, the Superintendent or designee shall determine whether the student will be able to receive individual instruction at home or in a hospital or residential health facility. (EC 48208)

The Superintendent or designee may require verification through any reasonable means that the student is temporarily disabled and needs individual instruction.

Provision of Individual Instruction

Individual instruction at a student's home or in a hospital or other residential health facility shall begin no later than five working days after the Superintendent or designee makes the determination that the student is eligible to receive individual instruction. (EC 48207.5, 48208)

(EC 48208)

Whenever the district provides individual instruction to a non-district student who is in a hospital or other residential health facility located within district boundaries, the Superintendent or designee shall, within five working days of the beginning of the individual instruction, provide written notification to the student's district of residence that, effective on the date on which individual instruction began, the district of residence may not count the student for purposes of computing that district's average daily attendance. (EC 48208)

A student receiving individual instruction in a hospital or residential health facility for a partial week shall be entitled to attend school or receive individual instruction at home on days in which the student is not receiving individual instruction in the hospital or other residential health facility, if the student is well enough to do so. (EC 48207.3)

Home or hospital instruction shall be provided only by teachers with valid California teaching credentials who consent to the assignment. (EC 44865)

Insofar as possible, the teacher providing home or hospital instruction shall consult with the student's current classroom teacher(s) so as to provide a continuity of instruction that enables the student to stay abreast with the regular school program.

The district's attendance supervisor shall ensure that the absences of any temporarily disabled student receiving individual instruction at home or in a hospital or other residential health facility are excused until the student is able to return to the regular school program. (EC 48240)

Return to School

A student receiving individual instruction who is well enough to return to school shall be allowed to return to the school that the student attended immediately before receiving individual instruction, if the return occurs during the school year in which the individual instruction was initiated. DISTRICTWIDE ACTIVITIES

The Enterprise Board of Education recognizes that many valuable learning experiences can occur in school-related activities that are not a direct part of the regular, ongoing instructional program. Activities which can appropriately be District-sponsored must meet the criteria of providing a wholesome environment, helping students in their learning process, and must be limited to Enterprise students either residing in the District or attending an Enterprise School under an inter-district agreement. Major activities include, but are not limited to, athletics, student government and activities, choral music, yearbook, and newspaper activities. Others may also be considered in this category from time to time, and it is not the intent of this policy to necessarily limit the activities to those areas listed.

The Enterprise School District sponsors such activities and will attempt to provide for such activities for all students within the limits of the District's financial resources. All activities conducted under this policy are authorized by the District and are under the direct supervision and control of school district authorities. All districtwide activities must be recognized by the Board.

The District Superintendent is charged with the responsibility for providing guidelines through the development of administrative regulations. These administrative regulations are to be coordinated and approved with the exclusive representative in those areas where negotiations are required under the Rodda Act.

DISTRICTWIDE ACTIVITIES

Districtwide activities shall be defined as any activity sponsored by the District which includes students from different schools K-8. Any middle school activity is, de facto, a districtwide activity 6-8.

District facilities shall be defined as all cafeterias/multipurpose rooms in the District, all gymnasiums, and all outdoor playing fields.

Criteria for scheduling use of facilities:

1. The activity must first be recognized by the Board (Board Policy 6190).
2. The home school should have first priority for use of its own facilities with reasonable consideration for District activities.
3. The activity must be on a districtwide basis and include District students only.
4. The group must demonstrate a need for the particular facility requested.
5. Individual school programs can "bump" on a one-time basis to provide flexibility within the system; i.e., special music program, play, etc.
6. The athletic directors will plan scheduling within the parameters of available facilities. It is recognized that precise scheduling cannot be accomplished before league schedules are known.
7. Games and performances will have priority over practices.
8. During a season, a rotation system will be implemented to provide reasonable practice time for many groups and teams before and after school.

Process and timelines for application and scheduling of facilities:

1. The athletic directors shall schedule District facilities based on the criteria listed above.
2. Activity sponsors must complete a use form and submit the form to the athletic director by July 1.
3. The schedule will be completed and published as accurately as possible by five days prior to the opening of school in Fall.
4. In case of disagreement between sponsors and the athletic director, the following appeal process will be used:

HOME STUDY PROGRAM

The Enterprise School District Governing Board recognizes that some parents wish to teach their child(ren) at home. It is the Board's desire to add flexibility to the instructional programs of the district to meet special needs of all students and to ensure that all students be provided an opportunity to obtain an education. It is further desired that the Home Study Program shall become an integral part of the overall educational program of the district.

The policies and procedures described below are for the purpose of establishing a Home Study Program for the Enterprise School District. This program is an alternative to classroom instruction and is consistent with the district's course of study. It is not an alternative curriculum. Enrollment in Home Study must be voluntary; a choice made by the student, parent or guardian, and the teachers—not an administrative decision of last resort (see Appendix A, Education Code Section 51747(c)(7)).

Purpose and Scope

The primary goal of Home Study is to offer a means of individualizing the educational program for students whose needs may best be met through study outside of the regular classroom instructional setting. Through Home Study, the district wishes to provide for optional individualized ways in which students may acquire values, skills, and knowledge.

Home Study requires a commitment by both the parent/guardian and the student and may be offered only to students who can achieve in this program as well as or better than they would in the regular classroom. Students enrolled in Home Study shall have access to the same services and resources of the school district as classroom students.

Criteria for Participation

1. Interest in Home Study shall be initiated through contact with the Home Study Resource Teacher and the school administrator. The following information will be shared during this contact:
 - a. The parent will be given information on the Home Study Program such as requirements of the program, advantages and disadvantages of home study and the need for parental dedication and organization.
 - b. The parents will be asked to share their reason(s) for wanting to teach their child(ren) at home. The site administrator shall make a determination based on the following:
 - A sincere desire to teach their child(ren) at home
 - A positive attitude between parent and student, and a positive attitude by both parent and student about the program
 - The parent's ability to supervise and instruct in the home
 - Agreement by parent and student to follow all program requirements

HOME STUDY PROGRAM (continued)

2. Individualized evaluations shall be made by school site administrator and Home Study teacher to determine if full-time home study is the most appropriate method available for the student and if the student will work independently to complete the program.
3. The site administrator, and/or designee, and home study teacher will work with the parent to design an educational program which will provide school-based activities such as attendance at assemblies, music instruction, sports activities, field trips, media productions, literary festival, etc.
4. A written statement of educational objectives, how the objectives will be accomplished, and how progress will be measured shall be signed by student, parent, school administrator and home study teacher. This educational plan shall be on file at the school office with a copy forwarded to the Assistant Superintendent. The parent shall also receive a signed copy of the educational plan.
 - Student must be taught the same subjects that would be taught at his/her grade level in school and complete all required assignments.
 - Assistant Superintendent of Instructional Services shall act as supervisor of the Home Study Program.
5. If the Home Study Teacher and site administrator determine that the student may qualify to enter the Home Study Program, the parent completes a REQUEST FOR PARTICIPATION and a HOME STUDY ENTRY FORM. This form is sent to the Assistant Superintendent of Instructional Services for approval. Upon completion of the Home Study Entry Form, another appointment is scheduled with the home study teacher. At this second meeting, the student is given a reading/math placement test while the curriculum is explained to the parent, textbooks are checked out, a contract signed and evaluation visits are scheduled.
6. Each Home Study Program contract must be signed by all concerned parties and shall include the following:
 - a. Name of student and supervising employee
 - b. Statement of student's educational needs
 - c. Goals and objectives for the year/course
 - d. An Educational Plan
 - e. Materials to be used to achieve course objectives
 - f. Methods of monitoring (procedures, time and place of reporting, etc.)
 - g. Process by which objectives and competencies are to be evaluated.

HOME STUDY PROGRAM (continued)

7. The maximum length of time which may elapse before a Home Study assignment is due shall be four (4) weeks. This requires meeting with the home study teacher for evaluation and assignment of work for the next four week period
8. Failure to comply with the requirements of the Home Study contract through non-performance of assigned tasks shall be cause for re-evaluation of student's placement in the Home Study Program and he/she could potentially be returned to a regular classroom. Before a student may be terminated from the program, a concerted effort to foster improvement shall be made and documented.
9. No individual with exceptional needs may participate in Home Study unless his/her IEP specifically provides for that participation.

Promotion/Retention Policy

1. The supervising teacher, parent, and student (when appropriate), shall review completed curriculum materials and/or skill levels of the student. The age of the student shall be considered but should not be the determining factor. Test results shall be reviewed when available. Successful completion of competency standards shall be required per California Education Code. Every effort shall be made to reach mutual agreement regarding promotion/retention.
2. If mutual agreement cannot be reached, a conference shall be scheduled with the parent, supervising teacher, school site administrator, and student (if appropriate) to review the student's placement. Appropriate grade level competency test(s) shall be given, and the results reviewed at the conference. The best interest of the student shall be the major concern. Every effort shall be made to reach mutual agreement.
3. If mutual agreement cannot be reached, the school site administrator and Assistant Superintendent of Instructional Services shall determine promotion/retention. If parents disagree with the final decision, they have right of appeal to the District Superintendent.
4. If a student is terminating enrollment in the Home Study Program and returning to a regular classroom, the grade level placement shall be determined in consideration of regular classroom annual grade level modification and future student success. **EXAMPLE:** Student's ability/skill level determined to be 4.5. The student will be nine years, three months old at the start of school. Placement would be fourth grade, thereby facilitating above level achievement, positive self-concept, and appropriate age/maturity placement. This is only a guideline and each student placement shall be independently based on the special circumstances of each.

3. The Contract signed by student, parent and site administrator.
4. Normal district assessment results
5. Samples of student work and tests taken
6. Contact records filled out during the scheduled meetings

Student Accountability

Accountability of Home Study students shall be determined by six factors.

1. Contact Records - records kept by supervising teacher relative to learning environment, concerns, materials and instructional needs, and evidence of progress.
2. Completion of assigned work
3. Progress Record - subject areas
4. Written work
5. Supervising teacher observation
6. Test results

There are no excused absences; completion of the contracted educational assignments is required for attendance credit.

The following regulations shall apply to the attendance of students enrolled in this program:

1. Attendance accounting will be based on completed assignments
2. Assignments given during a school register month are due at the end of that month.
3. Attendance credit will be based on the completed assignments submitted to the Home Study teacher.

Failure to attend two meetings with the supervising teacher without just cause may also be reason for the student's removal from the Home Study Program. A written record of this evaluation will be placed in the student's permanent record.

HOME STUDY PROGRAM

The student's principal and the Home Study teacher may determine if it is in the best interest of the student to participate in a Home Study Program. A Home Study Program may include classes in the regular school program. A Home Study Program must adhere to the following guidelines:

No student shall be required to participate in Home Study (Ed. Code 51747)

No individual with exceptional needs, as defined in Ed. Code 56026, may participate in Home Study unless his/her individualized education program specifically provides for such participation. (Ed. Code 51745)

There must be a written agreement between the instructor, the parent, and the student.

Records must be maintained and include copies of the adopted board policy, the signed agreement, as well as copies of student work.

A separate attendance register must be maintained for Home Study students.

No temporarily disabled student may receive individual instruction pursuant to Ed. Code 48206.3 by means of Home Study (Ed. Code 51745). However, if the temporarily disabled pupil's parents and the district agree, the pupil may receive instruction through Home Study instead of the "home and hospital" instruction provided pursuant to Education Code Section 48206.3.

1. Home Study for each student shall be coordinated, evaluated and under the general supervision of an appropriately certified district employee.
2. An educational plan is required for each student and must be agreed upon and signed by the student, parent/guardian, and the certificated teacher working with the student. Parent and student shall receive a signed copy of the educational plan.
3. Educational plans for students must represent the equivalent of a minimum school day for the student's grade level and shall include:

 - b. learner objectives and how the objectives will be evaluated
 - c. the exact time the plan shall be in effect (maximum of one semester)
 - d. the method, time and place of reporting and evaluating progress
 - e. a listing of specific resources, including materials and staff, which will be made available to the student.

EDUCATION FOR ENGLISH LANGUAGE LEARNERS

The Board of Education intends to provide English language learners with a challenging core curriculum and instruction that develops proficiency in English as rapidly and effectively as possible.

The District's program shall be based on sound instructional theory and shall be adequately supported so that English language learners will have the opportunity to achieve results at the same academic level as their English-proficient peers.

To ensure that the District is using methods that effectively serve the needs of the English language learners, the Superintendent or designee shall annually examine program results, including reports of students' academic achievement and their progress towards proficiency in English. The Superintendent shall ensure that schools compile data on programs for English language learners in order to help determine program effectiveness.

The Superintendent or designee shall maintain procedures which provide for the identification, assessment and placement of English language learners and for their redesignation as based on criteria adopted by the Board and specified in administrative regulations.

State mandated assessments will be provided to all ELL students. In accordance with Title V Regulations, English learners enrolled in our district for less than 12 months may take the STAR test with accommodations.

Students who are beginning English language learners shall be educated through a structured English immersion program for a portion of their school day. All instruction shall be in English. However, clarification, explanation, and support, as needed, may be in a student's primary language (Education Code 305,306).

An English language learner shall be transferred from a structured English immersion program to an all-day English language mainstream program when the student has acquired a reasonable level of English proficiency as measured by a variety of District approved and state approved assessments (Education Code 305; 5CCR 11301).

Upon request of his/her parent or guardian, a student shall be placed in an all-day English language mainstream classroom with no additional support or services (5 CCR11301).

Parent/guardian requests for waivers from Education Code 305 shall be granted in accordance with law and administrative regulation. Education Code 310 provides that when 20 or more students in a given grade level at the same school receive a waiver to be in a class where English is not the language of instruction, the school is required to offer such a class; otherwise the school must allow the students to transfer to a public school in which such a class is offered. Students wishing to transfer shall be subject to the District's intra-district and inter-district attendance policies and regulations.

EDUCATION FOR ENGLISH LANGUAGE LEARNERS (continued)

If a waiver requested by the parent/guardian is granted, and less than 20 students at one grade level at the same school receive a waiver, the student shall also be allowed to transfer to another public school in which such a class is offered (Education Code 310).

If the Superintendent or designee denies the waiver request he/she shall provide a written justification to the parent/guardian describing the reasons for the denial. A parent/guardian may appeal the Superintendent's decision to the Board. The Board may consider the appeal at its next regular Board meeting or the Board may decide not to hear the appeal, in which case the Superintendent's decision is final. If the Board hears the appeal, the Superintendent shall send the Board's decision to the parent/guardian within seven working days.

EDUCATION FOR ENGLISH LANGUAGE LEARNERS

Except as provided in Education Code 310 and 311, all students shall be taught in English. In particular, this shall require that all students be placed in English language classrooms. Students who are beginning English learners shall be educated through structured English immersion, a temporary transition period not normally intended to exceed one year (Education Code 306).

Upon enrollment, each student's primary language shall be determined. Within 30 days of their initial enrollment, students who are identified as having a primary language other than English shall be assessed for English proficiency in comprehension, speaking, reading and writing, as appropriate for the grade level. Within 90 days of initial enrollment, students identified as having limited English proficiency shall be further assessed for primary language proficiency. The superintendent or designee shall develop criteria for determining student needs on the basis of these assessments (Education Code 521164.1; 62002; 5 CCR 4304).

The Superintendent or designee shall send a notification of the results of English proficiency assessments to all parents/guardians of students who are assessed, whether the student is designated fluent English proficient or limited English proficiency (Education Code 4898995).

Parents/guardians also shall be notified of the results of any reassessments (Education Code 62164).

Before students are enrolled in a program for English language learners, parents/guardians shall receive information about the program and their opportunities for parental involvement. This information shall include the fact that an individual student's participation in the program is voluntary on the part to the parent/guardian (Education Code 52164.3).

Parent Exception Waivers

A parent/guardian may request that the District waive the requirements of Education Code 305 if one of the following circumstances exists (Education Code 310,311):

1. Students who already know English: The student already possesses good English language skills, as measured by standardized tests of English vocabulary comprehension, reading, and writing, in which the student scores at are above the state average for his/her grade level or at or above the fifth grade level, whichever is lower.
2. Older students: The student is age 10 years or older, and it is the informed belief of the school principal and education staff that an alternate course of study would be better suited to the student's rapid acquisition of basic English skills.

EDUCATION FOR ENGLISH LANGUAGE LEARNERS (continued)

3. Students with special needs: The student already has been placed for a period of not less than 30 days during that school year in an English language classroom and it is the informed belief of the school principal and the educational staff that the student has special physical, emotional, psychological or educational needs that an alternate course of educational study would be better suited to the student's educational development.

At the beginning of program placement, parents/guardians shall be informed of the educational placement of their children and shall be notified of an opportunity to apply for a parental exception waiver (Education Code 310).

Parental exception waivers shall be granted unless the principal and educational staff has determined that an alternative program offered at the school would not be suited for the overall educational development of the student.

Redesignation/Reclassification

The District shall continue to provide additional and appropriate educational services to English learners for the purposes of overcoming language barriers until English learners have:

1. Demonstrated English language proficiency comparable to that of the District's average native English language speakers;
2. Recouped any academic deficits which may have incurred in other areas of the core curriculum as a result of language barriers.

English language learners shall be redesignated as fluent English proficient when they are able to comprehend, speak, read and write English well enough to receive instruction in the regular program and make academic progress at a level substantially equivalent to that of students of the same age or grade whose primary language is English. This proficiency shall be assessed by using the criteria stipulated in the most current EL Master Plan.

The Superintendent or designee shall provide subsequent monitoring and support of redesignated students.

Advisory Committees

At the District level when there are more than 50 English language learners and at each school with more than 20 English language learners, parent/advisory committees shall be maintained to serve the advisory functions specified in law. Parents/guardians of English language learners shall constitute committee membership in at least the same percentage as their children represent the total number of students in the school (Education Code 52176, 62002.5).

- A. Ensure that there is a long-range facilities management and funding plan in place.
- B. Provide policy direction for decisions that support the long-range plan.
- C. Ensure there is an appropriate framework for ongoing maintenance of District facilities.
- D. Make the major decisions that support the long-range plan concerning financing, building, opening, renovating, upgrading, reconfiguring, closing, leasing, and selling schools and other facilities.

FACILITIES MASTER PLAN

The Enterprise School District facilities master plan shall be maintained and kept up to date. The plan shall reflect the long term educational program needs of the students based on the District educational vision and goals. To assist in the accurate assessment of these needs, the plan shall include an identification of community, social, economic and political factors and District housing and funding issues which ultimately affect the success and effectiveness of the District building and renovation program.

The plan shall incorporate population and enrollment projections.

Concurrent with efforts to identify those demographic factors affecting school enrollment, the plan shall include an analysis of present and future design needs of the District together with an assessment of those qualitative factors which reflect the characteristics and capacity of each school facility.

Qualitative factors may include, but are not limited to:

1. State allocation building area standards
2. Maximum student capacity according to designated student-teacher ratios
3. Current student capacity based on current District program requirements

The Board recognizes the importance of having current, complete and accurate information as the basis for developing and maintaining the facilities master plan. DETERMINING NEEDS OF SCHOOL FACILITIES

The Superintendent or designee shall maintain planning procedures for school facilities. These procedures shall serve as the basis for determining facility needs that enhance the District educational program. Accordingly, criteria for determining these needs shall reflect the goals and objectives of the District facilities master plan.

The Superintendent or designee shall draw upon all necessary resources to assure that proposed District facilities meet the educational needs of the students and conform to all planning requirements imposed by state and local governmental agencies. These resources shall include District staff, educational consultants, architectural and engineering firms, utility companies, local governmental and planning agencies, the Shasta County Office of Education, the State Department of Education, and the Office of the State Architect.

To assure a comprehensive approach to projecting and planning needs, the following elements shall be considered in planning school facilities:

1. Expanding and changing educational program of the District including the number of students to be served and their specific educational needs
2. Impact of proposed facilities on the community and considerations regarding community use of the facilities
3. Safety and welfare of students

RELATIONS WITH OTHER GOVERNMENTAL UNITS

The District will cooperate with city, county, state, and federal agencies to provide the best possible school facilities and obtain the greatest efficiency and economy in the use of funds expended for school construction.

In matters relating to the selection and acquisition of school sites and in the construction of school buildings, structures or additions thereto, the District will work in the planning stages in cooperation with other county and municipal bodies such as planning and zoning commissions, the police, fire, health and welfare departments and other relevant bodies.

Special care shall be taken to work with the planning staffs of each governmental body with responsibility for approving, refusing or otherwise controlling land development. Procedures shall be maintained to ensure the exchange of accurate information between the surrounding Districts and these agencies regarding the impact of development on the District's educational programs and facility needs.

When the District determines that overcrowding will occur as a result of new land development, the Superintendent or designee will prepare an official declaration of impact for Board approval and subsequent delivery to the appropriate local agency. If the agency has adopted an impact ordinance requiring developers to cooperate in the development of plans to mitigate the consequences of development on the District, the declaration of impact would "trigger" the imposition of the ordinance.

METHODS OF FINANCING

As economic development continues in Shasta County and homes and apartments multiply, school facilities must be built or expanded to accommodate a growing number of students. With time, safety considerations and educational program changes may require the reconstruction of existing facilities. The purchase of school sites and the construction of buildings may be financed by any legally provided means which the District is qualified to employ.

Developer Fees

In order to finance the construction or reconstruction of school facilities needed to accommodate students coming from new development, the Governing Board may levy developer fees on residential, commercial and industrial construction within the District, subject to restrictions specified by law. (Education Code section 17620 and Government Code section 65995)

Findings/Fee Levying/Exemptions

Before levying developer fees, the Board shall make all findings required by law. Findings shall show a reasonable relationship between the construction or reconstruction on which the fee is imposed and the need for school facilities. A reasonable relationship also shall be found between the amount of the fee and the cost of the needed school construction. All decisions to levy fees shall be based upon such reasonable relationships. Exemptions from fees shall be granted when reasonable relationships cannot be shown.

Before levying developer fees, the Board shall schedule a public hearing at which it may adopt the resolutions required by law. Information on the anticipated amount of fees, other available funds and funding sources, and the estimated cost of planning, land acquisition and school construction shall be available to the public at least 10 days before the hearing. Notice of the hearing shall be given as required by law. (GC section 54954.1)

The resolution adopted by the Board shall state the Board's findings which justify the fees and the conditions which have been met to allow collection of the fees at the time when building permits are issued.

The Superintendent or designee shall establish procedures for the timely and consistent levying of developer fees in accordance with the requirements of law. He/she shall cooperate with local governmental agencies in issuing building permits. (Education Code section 17620)

The Board shall regularly review its school construction plans to evaluate its capital needs and its need for developer fees.

BP 7210

METHODS OF FINANCING (continued)

Fees may be revised in accordance with the increase legally allowed for inflation as determined every two years by the State Allocation Board. (GC section 65995)

Developer fees shall be deposited, invested, accounted for and expended pursuant to Government Code section 66006.

The District shall annually make findings regarding any portion of the fee remaining unexpended or uncommitted in its account five or more years after deposit. The board will take action based on its findings in accordance with law. (GC section 66001)

Developer fees shall be deposited in a separate capital facilities account, except for temporary investments allowed by law, and shall be used only for the purpose for which they were collected. Interest income earned by the capital facilities account shall also be deposited in that account and used only for the purpose for which the fee was originally collected. (GC section 66006)

For each separate account so established, the District shall, within 90 days of the close of each fiscal year, make available to the public the beginning and ending balance for the fiscal year; the fee, interest and other income received; the amount of expenditure; and the amount of refunds made pursuant to Government Code section 66001. The Board shall review this information at the first regularly scheduled public Board meeting which occurs 15 days after the information is made available to the public. (GC section 66006)

PUBLIC STATEMENTS

The Governing Board recognizes the responsibility of Board members in their role as community leaders to participate in public discourse on matters of civic or community interest, including those involving the district, and their right to freely express their personal views. MEMBERS

Limits of Board Members Authority

The Board has broad but clearly limited powers. The exercise of its authority is restricted to the functions required or permitted by law, and then only when it acts in a legally constituted meeting.

The Board is the unit of authority. Apart from the normal function as part of the unit, a Board member has no individual authority. Individually, a Board member may not commit the District to any policy, act or expenditure. A Board member should not do business with the District served, nor should a Board member have an interest in any contract with the District in general. A Board member does not represent any factional segment of the community, but is rather a part of a body which represents and acts for the community as a whole.

No individual member of the Board, by virtue of holding office, shall exercise any administrative responsibility with respect to the schools; nor, as an individual, command the services of any school employee.

No members of the Board shall be asked to perform any routine or clerical duties that may be assigned to an employee or shall any Board member become an employee of the District while serving on the Board.

Obligations of Members

Members of the Board must endeavor to attend all meetings, study all materials presented with the agenda prior to attending the meeting, participate in the discussion of any items that come before the Board, and vote on all motions and resolutions, abstaining only for compelling reasons.

The Board member should be prepared and willing to devote a sufficient amount of time to the study of the problems of education in the District.

CONFLICT OF INTEREST

The Governing Board desires to maintain the highest ethical standards and help ensure that decisions are made in the best interest of the district and the public. Accordingly, no Board member, district employee, or other person in a designated position shall participate in the making of any decision for the district when the decision will or may be affected by his/her financial, family, or other personal interest or consideration.

(cf. 9005 - Governance Standards)

Even if a prohibited conflict of interest does not exist, a Board member shall abstain from voting on personnel matters that uniquely affect his/her relatives. However, a Board member may vote on collective bargaining agreements and personnel matters that affect a class of employees to which his/her relative belongs. Relative means an adult who is related to the Board member by blood or affinity within the third degree, as determined by the common law, or an individual in an adoptive relationship within the third degree. (EC 35107)

A relationship within the third degree includes an individual's parents, grandparents, greatgrandparents, children, grandchildren, great-grandchildren, brothers, sisters, aunts, uncles, nieces, nephews, and the similar family of the individual's spouse/registered domestic partner unless the individual is widowed or divorced.

The Board shall adopt for the district a conflict of interest code that incorporates the provisions of 2 CCR 18730 by reference, specifies the district's designated positions, and provides the disclosure categories required for each position. The conflict of interest code shall be submitted to the district's code reviewing body for approval, in accordance with Government Code 87303 and within the deadline for submission established by the code reviewing body. (GC 87303)

Upon direction by the code reviewing body, the Board shall review the district's conflict of interest code and submit any changes to the code reviewing body or, if no change is required, the Board shall submit a written statement to that effect. (GC 87306.5)

When a change in the district's conflict of interest code is necessitated due to changed circumstances, such as the creation of new designated positions, changes to the duties assigned to existing positions, amendments, or revisions, the amended code shall be submitted to the code reviewing body within 90 days after the changed circumstances necessitating the amendments have become apparent. (GC 87306)

When reviewing and preparing the district's conflict of interest code, the Superintendent or designee shall provide officers, employees, consultants, and members of the community adequate notice and a fair opportunity to present their views. (GC 87311)

(cf. 9320 - Meetings and Notices)

ENTERPRISE ELEMENTARY SCHOOL DISTRICT BOARD BYLAW

BYLAWS OF THE BOARD

CONFLICT OF INTEREST (continued)

Board members and designated employees shall annually file a Statement of Economic Interest/Form 700 in accordance with the disclosure categories specified in the district's conflict of interest code. A Board member who leaves office or a designated employee who leaves district employment shall, within 30 days, file a revised statement covering the period of time between the closing date of the last required statement and the date of leaving office or district employment.

(GC 87302, 87302.6)

(cf. 4117.2/4217.2/4317.2 - Resignation)

(cf. 9222 - Resignation)

Conflict of Interest under the Political Reform Act

A Board member, designated employee, or other person in a designated position shall not make, participate in making, or in any way use or attempt to use his/her official position to influence a governmental decision in which he/she knows or has reason to know that he/she has a disqualifying conflict of interest. A disqualifying conflict of interest exists if the decision will have a "reasonably foreseeable material financial effect," which is distinguishable from the effect on the public generally, on the Board member, designated employee, or other person in a designated position, his/her immediate family, or any financial interest described in 2 CCR 18700. (GC 87100, 87101, 87103; 2 CCR 18700-18709)

A Board member, designated employee, or other person in a designated position makes a governmental decision when he/she, acting within the authority of his/her office or position, authorizes or directs any action on a matter, votes or provides information or opinion on it, contacts or appears before a district official for the purpose of affecting the decision, or takes any other action specified in 2 CCR 18704.

However, a Board member shall participate in the making of a contract in which he/she has a financial interest if his/her participation is required by the rule of necessity or legally required participation pursuant to Government Code 87101 and 2 CCR 18705.

Additional Requirements for Boards that Manage Public Investments

Any Board member who manages public investments pursuant to Government Code 87200 and who has a financial interest in a decision shall, upon identifying a conflict or potential conflict of interest and immediately prior to the consideration of the matter, do all of the following: (GC 87105; 2 CCR 18707)

CONFLICT OF INTEREST (continued)

1. Publicly identify each financial interest that gives rise to the conflict or potential conflict of interest in detail sufficient to be understood by the public, except that disclosure of the exact street address of a residence is not required.
2. Recuse himself/herself from discussing and voting on the matter, or otherwise acting in violation of Government Code 87100. The Board member shall not be counted toward achieving a quorum while the item is discussed.

However, the Board member may speak on the issue during the time that the general public speaks on it and may leave the dais to speak from the same area as members of the public. He/she may listen to the public discussion and deliberations of the matter with members of the public.

3. Leave the room until after the discussion, vote, and any other disposition of the matter is concluded, unless the matter has been placed on the portion of the agenda reserved for uncontested matters.

If the item is on the consent calendar, the Board member must recuse himself/herself from discussing or voting on that matter, but the Board member is not required to leave the room during consideration of the consent calendar.

4. If the Board's decision is made during closed session, disclose his/her interest orally during the open session preceding the closed session. This disclosure shall be limited to a declaration that his/her recusal is because of a conflict of interest pursuant to Government Code 87100. He/she shall not be present when the item is considered in closed session and shall not knowingly obtain or review a recording or any other nonpublic information regarding the Board's decision.

Conflict of Interest under Government Code 1090 - Financial Interest in a Contract

Board members, employees, or district consultants shall not be financially interested in any contract made by the Board on behalf of the district, including in the development, preliminary discussions, negotiations, compromises, planning, reasoning, and specifications and solicitations for bids. If a Board member has such a financial interest in a contract made by the Board, the contract is void. (GC 1090)

BYLAWS OF THE BOARD

CONFLICT OF INTEREST (continued)

A Board member shall not be considered to be financially interested in a contract in which he/she has only a "remote interest," as specified in Government Code 1091, if the interest is disclosed during a Board meeting and noted in the official Board minutes. The affected Board member shall not vote or debate on the matter or attempt to influence any other Board member or district official to enter into the contract. (GC 1091)

In addition, a Board member shall not be considered to be financially interested in a contract in which his/her interest is a "noninterest" as defined in Government Code 1091.5. Noninterest includes a Board member's interest in being reimbursed for his/her actual and necessary expenses incurred in the performance of his/her official duties, in the employment of his/her spouse/registered domestic partner who has been a district employee for at least one year prior to the Board member's election or appointment, or in any other applicable circumstance specified in Government Code 1091.5.

Common Law Doctrine Against Conflict of Interest

A Board member shall abstain from any official action in which his/her private or personal interest may conflict with his/her official duties.

Incompatible Offices and Activities

Board members shall not engage in any employment or activity or hold any office which is inconsistent with, incompatible with, in conflict with, or inimical to the Board member's duties as an officer of the district. (GC 1099, 1126)
(cf. 4136/4236/4336 - Nonschool Employment)

Gifts

Board members and designated employees may accept gifts only under the conditions and limitations specified in Government Code 89503 and 2 CCR 18730.

The limitation on gifts does not apply to wedding gifts and gifts exchanged between individuals on birthdays, holidays, and other similar occasions, provided that the gifts exchanged are not substantially disproportionate in value. (GC 89503)

In addition, the limitation on gifts does not apply to informational materials such as books, reports, pamphlets, calendars, and periodicals. (GC 82028)

CONFLICT OF INTEREST (continued)

Gifts of travel and related lodging and subsistence shall be subject to the current gift limitation, except when: (GC 89506)

1. The travel is in connection with a speech given by a Board member or designated employee, provided the lodging and subsistence expenses are limited to the day immediately preceding, the day of, and the day immediately following the speech and the travel is within the United States.
2. The travel is provided by a person or agency specified in Government Code 89506, including a government, governmental agency or authority, bona fide public or private educational institution, as defined in Revenue and Taxation Code 203, or nonprofit organization exempt from taxation under section 501(c)(3) of the Internal Revenue Code.

Gifts of travel exempted from the gift limitation, as described in items #1 and 2 above, shall nevertheless be reportable on the recipient's Statement of Economic Interest/Form 700 as required by law.

A gift of travel does not include travel provided by the district for Board members and designated employees. (GC 89506)

Honoraria

Board members and designated employees shall not accept any honorarium, which is defined as any payment made in consideration for any speech given, article published, or attendance at any public or private conference, convention, meeting, social event, meal, or like gathering. (GC 89501, 89502)

The term honorarium does not include: (GC 89501)

1. Earned income for personal services customarily provided in connection with a bona fide business, trade, or profession, unless the sole or predominant activity of the business, trade, or profession is making speeches
2. Any honorarium which is not used and, within 30 days after receipt, is either returned to the donor or delivered to the district for donation into the general fund without being claimed as a deduction from income for tax purposes

GOVERNANCE

The Board has the power of establishing its own procedures (Education Code Section 35010).

The Board shall provide guides of discretionary action to those agents of the District to whom the Board delegates authority. This right shall be retained solely by the Board. These guides for discretionary action shall constitute the policies governing the operation of the school system.

The formulation and adoption of these written policies shall constitute the basic method by which the Board shall exercise its leadership in the operation of the Enterprise Elementary School District. The study and evaluation of reports concerning the execution of its written policies shall constitute the basic method by which the Board shall exercise its management of the schools.

The formal adoption of policies shall be recorded in the minutes of the Board. Only those written statements so adopted and so recorded shall be regarded as official Board policy.

The implementation of policies is an administrative task to be performed by the Superintendent and the Superintendent's staff, who shall be held responsible for the effective administration and supervision of the entire school system.

All actions of the Board shall be taken only in official Board meetings called, scheduled, and conducted according to these bylaws and the statutes of the state.

BOARD POLICIES

The Board recognizes that its most important function is the establishment of long-range policies for the District. The Board acknowledges that these policies must provide for the best possible education for its students, and must also reflect mature consideration of the will and needs of the community.

In order to assure that policy adopted by the Board is timely, legal, consistent, and in the public interest, the Board appoints the Superintendent as policy coordinator.

Procedures for adoption of policy shall conform in all respects to the bylaws of the Board concerning agendas, meetings, and voting. The procedures shall provide a means whereby all interested parties in the school community may submit proposals for additions and amendments to the District policy manual, and may contribute opinions and information for the Board's consideration.

The Superintendent shall ascertain any conflicts between proposed and existing policies and bring them to the attention of the Board.

The draft of a new or revised policy shall be presented in the Board meeting agenda for preliminary review. At the public Board meeting, the Board shall discuss the draft policy, open the floor for comments on the policy, and make revisions if needed. Should revisions be necessary, the Board may vote to adopt the policy subject to the noted revisions or may choose to bring the revised policy back to a subsequent meeting for a second reading. At its second reading, the Board may take action on the proposed policy. The Board may waive the second reading or may require an additional reading if necessary. Once the Board is satisfied with the content of a policy, the policy shall be adopted by a majority vote of all members of the Board. The action shall be recorded in the minutes. Only those written statements adopted and recorded shall constitute official Board policy.

Board policy is an ever-changing statement of District educational, operational, and managerial needs. New policies will be necessary and existing policies will require revision. Policy development and maintenance shall be the responsibility of all Board members working with the Superintendent.

The Superintendent or his designee shall provide the District policies by the most convenient and cost-effective method to the following:

1. Board members.
2. Other key District personnel.

SUSPENSION OF POLICIES, BYLAWS, BOARD-ADOPTED REGULATIONS

Policies, bylaws, and Board-adopted regulations may be suspended for a specified purpose and limited time by majority vote of the Board. The proposed suspension shall be placed on the agenda of the meeting at which the suspension shall be considered.

Requests for suspension of any policy, bylaw, or Board-adopted regulation shall undergo the following consideration:

1. Policies, bylaws or Board-adopted regulations shall be reviewed on their own merits rather than the circumstances of the moment.
2. The Board shall decide whether the policy, bylaw or Board-adopted regulation still reflect the intent of the Board and the law. If so, the suspension will be denied and the policy, bylaw, or Board-adopted regulation will be reaffirmed in the minutes.
3. If the policy, bylaw, or Board-adopted regulation does not reflect the intent of the Board or the law, it shall be rescinded by the same voting process by which it was adopted.
4. Development of a new policy, bylaw, or Board-adopted regulation shall become the Board's prime policy priority.

Superintendent's Authority

The Superintendent is authorized to suspend any policy, bylaw, or Board-adopted regulation. Suspension should only occur in those cases where the District's adopted policy is in conflict with the law or State Board of Education rules and regulations.

Suspension shall only be valid until the next meeting of the Board. At that meeting, the Superintendent shall report the suspension, present the justification for the suspension, and request that the Board take action to suspend the policy, bylaw, or Board-adopted regulation for a specified purpose and for a limited time. The Superintendent may either:

1. Present a revision of the policy, bylaw, or Board-adopted regulation in question which resolves the conflict or
2. Recommend that the Board rescind the policy, bylaw, or Board-adopted regulation

Meetings of the Governing Board are conducted for accomplishing district business.

A Board meeting exists whenever a majority of Board members gathers at the same time and place to hear, discuss, or deliberate upon any item within the subject matter jurisdiction of the Board or district. (GC 54952.2)

In accordance with state open meeting laws (Brown Act), the Board shall hold its meetings in public and shall conduct closed sessions during such meetings only as authorized by law. To encourage community involvement in the schools, meetings shall provide opportunities for questions and comments by members of the public and be conducted in accordance with law and Board-adopted bylaws.

Except as otherwise authorized by law, direct communication, personal intermediaries, and technological devices shall not be used by a majority of Board members to develop a collective concurrence as to an action to be taken by the Board on any item of district business. (GC 54952.2)

In order to help ensure participation in the meeting by disabled individuals, the Superintendent or designee shall provide appropriate disability-related accommodations or modifications upon request in accordance with the Americans with Disabilities Act. (GC 54953.2, 54954.1)

Meeting notices and agendas shall specify that any individual, who requires disability-related accommodations or modifications including auxiliary aids and services, in order to participate in the Board meeting, should contact the Superintendent or designee in writing.

Each agenda shall also list the address designated by the Superintendent or designee for public inspection of agenda documents that have been distributed to the Board less than 72 hours before the meeting. (GC 54957.5)

Regular Meetings

The Board shall hold one regular meeting each month. At the Board's discretion, this schedule may be modified. AGENDA/MEETING MATERIALS

Agenda Content

Governing Board meeting agendas shall state the meeting time and place and shall briefly describe each business item to be transacted or discussed, including items to be discussed in closed session. (GC 54954.2)

(cf. 9320 - Meetings and Notices)
(cf. 9321- Closed Session Purposes and Agendas)

The agenda shall provide members of the public the opportunity to address the Board on any agenda item before or during the Board's consideration of the item. The agenda shall also provide members of the public an opportunity to testify at regular meetings on matters which are not on the agenda but which are within the subject matter jurisdiction of the Board. (Education Code 35145.5; Government Code 54954.3)

(cf. 9323 - Meeting Conduct)

Each meeting agenda shall list the address designated by the Superintendent or designee for public inspection of agenda documents that have been distributed to the Board less than 72 hours before the meeting. (GC 54957.5)

The agenda shall specify that an individual who requires disability-related accommodations or modifications, including auxiliary aids and services, in order to participate in the Board meeting should contact the Superintendent or designee. (GC 54954.2)

Agenda Preparation

The Board president and the Superintendent, as secretary to the Board, shall work together to develop the agenda for each regular and special meeting. Each agenda shall reflect the district's vision and goals and the Board's focus on student learning.

(cf. 0000 - Vision)
(cf. 0200 - Goals for the School District)
(cf. 9121 - President)
(cf. 9122 - Secretary)

A Board member or member of the public may request that a matter within the jurisdiction of the Board be placed on the agenda of a regular meeting. The request shall be in writing and be submitted to the Superintendent or designee with supporting documents and information, if any, at least one week before the scheduled meeting date. Items submitted less than a week before the scheduled meeting date may be postponed to a later meeting in order to allow sufficient time for consideration and research of the issue.

AGENDA/MEETING MATERIALS (continued)

The Board president and Superintendent shall decide whether a request is within the subject matter jurisdiction of the Board. Items not within the subject matter jurisdiction of the Board may not be placed on the agenda. In addition, the Board president and Superintendent shall determine if the item is merely a request for information or whether the issue is covered by an existing policy or administrative regulation before placing the item on the agenda.

The Board president and Superintendent shall decide whether an agenda item is appropriate for discussion in open or closed session, and whether the item should be an action item subject to Board vote, an information item that does not require immediate action, or a consent item that is routine in nature and for which no discussion is anticipated.

Any Board action that involves borrowing \$100,000 or more shall be discussed, considered, and deliberated upon as a separate item of business on the meeting agenda. (GC 53635.7)

(cf. 9323.2 - Actions by the Board)

All public communications with the Board are subject to requirements of relevant Board policies and administrative regulations.

(cf. 1312.1 - Complaints Concerning District Employees)

(cf. 1312.3 - Uniform Complaint Procedures)
(cf. 3320 - Claims and Actions Against the District)
(cf. 5144.1 - Suspension and Expulsion/Due Process)

Consent Items

In order to promote efficient meetings, the Board may act upon more than one item by a single vote through the use of a consent agenda. Consent items shall be items of a routine nature or items for which no Board discussion is anticipated and for which the Superintendent recommends approval.

In accordance with law, the public has a right to comment on any consent item. At the request of any member of the Board, any item on the consent agenda shall be removed and given individual consideration for action as a regular agenda item.

Agenda Dissemination to Board Members

At least three days before each regular meeting, a copy of the agenda and agenda packet shall be forwarded to each Board member, including the Superintendent or designee's report; minutes to be approved; copies of communications; reports from committees, staff, citizens, and others; and other available documents pertinent to the meeting.

AGENDA/MEETING MATERIALS (continued)

When special meetings are called, the Superintendent or designee shall make every effort to distribute the agenda and supporting materials to Board members as soon as possible before the meeting.

Board members shall review agenda materials before each meeting. Individual members may confer directly with the Superintendent or designee to request additional information on agenda items.

Agenda Dissemination to Members of the Public

The Superintendent or designee shall mail a copy of the agenda or a copy of all the documents constituting the agenda packet to any person who requests the items. Any request for mailed copies of agendas or agenda packets shall be in writing and shall be valid for the calendar year in which it is filed. Written requests must be renewed following January 1 of each year. The materials shall be mailed at the time the agenda is posted or upon distribution of the agenda to a majority of the Board, whichever occurs first. (GC 54954.1) Persons requesting mailing of the agenda or agenda packet shall pay an annual fee, as determined by the Superintendent or designee, not to exceed the cost of providing the service.

If a document is distributed to the Board less than 72 hours prior to a meeting, the Superintendent or designee shall make the document available for public inspection at the time the document is distributed to a majority of the Board provided that the document is a public record under the Public Records Act and relates to an agenda item for an open session of a regular Board meeting. The Superintendent or designee may also post the document on the district's web site in a position and manner that makes it clear that the document relates to an agenda item for an upcoming meeting. (GC 54957.5)

(cf. 1113 - District and School Web Sites)

(cf. 1340 - Access to District Records)

Any documents prepared by the district or the Board and distributed during a public meeting shall be made available for public inspection at the meeting. Any documents prepared by another person shall be made available for public inspection after the meeting. These requirements shall not apply to a document that is exempt from public disclosure under the Public Records Act. (GC 54957.5)

Upon request, the Superintendent or designee shall make the agenda, agenda packet, and/or any writings distributed at the meeting available in appropriate alternative formats to persons with a disability, as required by the Americans with Disabilities Act. (GC 54954.1)

ENTERPRISE ELEMENTARY SCHOOL DISTRICT BOARD BYLAWS

BYLAWS OF THE BOARD

BP 9323

MEETING CONDUCT

All Board meetings shall commence at the stated time and shall be guided by an agenda prepared in accordance with Board bylaws and posted and distributed in accordance with the Ralph M. Brown Act (open meeting requirements) and other applicable laws.

The conduct of meetings shall, to the fullest possible extent, enable members of the Board (1) to consider problems to be solved, weigh evidence related thereto, and make wise decisions intended to solve the problems, and (2) to receive reports on students, personnel, and District operations. The Board shall consider and take any necessary action concerning such reports.

Parliamentary Procedures

Robert's Rules of Order shall govern the procedures of all meetings of the Governing Board unless otherwise stated in these bylaws.

The Board of Education meetings shall be formal enough for orderly procedure, but informal enough to be natural, encourage discussion, and to promote thought and action. The Board recognizes the need to adopt necessary procedures to conduct meetings effectively.

The Board shall adhere to the following rules for small boards sanctioned by Robert's Rules of Order:

1. Board members may speak while seated without being recognized by the presiding officer.
2. Informal discussion of a subject is permitted while no motion is pending.
3. The presiding officer may speak in discussion and vote on all questions without leaving the chair.

The Board shall further adhere to the following rules:

1. Motions before the Board:

Any person not a member of the Board attempting to discuss any motion before the Board is out of order unless the presiding officer calls for discussion from the staff or audience, or unless the Board votes to hear such discussion.

The Board shall receive reports and presentations, if applicable, from designated members of the staff prior to opening the floor to discussion.

All motions may be made or seconded by any member of the Board, including the presiding officer.

All motions shall be seconded before being considered for action by the Board.

BYLAWS OF THE BOARD

BP 9323

MEETING CONDUCT (continued)

2. Postponement of action:

When less than the full Board is present at any meeting, any member, absent or present, who feels that any item to be presented should have the attention of the full Board, may request that consideration of the item be postponed. It will be the policy of the Board to determine the merit of postponement of each item by a consensus of the membership.

Quorum

A majority of the members of the Board (3) shall constitute a quorum. Affirmative votes by a majority of the Board members are required to approve any action item under consideration regardless of the number of members present unless otherwise provided by law.

Public Participation

So as not to inhibit public participation, persons attending Board meetings shall not be requested to sign in, complete a questionnaire, or otherwise provide his or her name or other information as a condition of attending the meeting. Members of the public, whether individuals or groups, may address the Board subject to the following procedures:

1. Any individual or group representative may address the Board on any item on the agenda or within the Board's jurisdiction. Additional opportunities to address the Board will be provided during the course of the meeting as various items are considered (Education Code 35145.5, Government Code 54954.3). A final opportunity to address the Board will be given at the end of the agenda under "Items from the Floor." The Board of Education reserves the right to limit the time allotted to each speaker and the number of times an individual is allowed to address the Board on a given subject.
2. At a time so designated on the agenda, members of the public may bring matters before the Board that are not on the agenda. The Board may not take action at that time, except as authorized by law. (Education Code 35145.5, Government Code 54954.2) The matter may be placed on the agenda of a subsequent meeting for action or discussion by the Board. Whenever a member of the public initiates specific complaints or charges against an employee, the Board president shall inform the complainant that in order to protect the employee's right to adequate notice before a hearing of such complaints or charges, and also to preserve the ability of the Board to legally consider the complaints or charges in any subsequent evaluation of the employee, it is the policy of the Board to hear such complaints or charges in closed session unless otherwise requested by the employee pursuant to Government Code 54957. The Board president shall also encourage the complainant to file a complaint using the appropriate district complaint procedure.

MEETING CONDUCT (continued)

3. No disturbance or willful interruption of any Board meeting shall be permitted. Persistence by an individual or group shall be grounds for the chair to terminate their privilege of address or removal from the meeting.

The Board may remove disruptive individuals and order the room cleared if necessary. In this case, members of the media not participating in the disturbance shall be allowed to remain, and individuals not participating in such disturbances may be allowed to remain at the discretion of the Board. When the room is ordered cleared due to a disturbance, further Board proceedings shall concern only matters appearing on the agenda. (GC 54957.9)

When such disruptive conduct occurs, the Superintendent or designee shall contact local law enforcement.

4. The Board need not allow the public to speak on any item that has already been considered by a committee composed exclusively of Board members at a public meeting where the public had the opportunity to address the committee on that item. However, if the Board determines that the item has been substantially changed since the committee heard the item, the Board shall provide an opportunity for the public to speak. (GC 54954.3)
5. A person wishing to be heard by the Board shall first be recognized by the President and shall then proceed to comment as briefly as the subject permits.

Individual speakers shall be allowed three minutes to address the Board on each agenda or non-agenda item. The Board shall limit the total time for public input on each item to 20 minutes. With Board consent, the president may increase or decrease the time allowed for public presentation, depending on the topic and the number of persons wishing to be heard. The president may take a poll of speakers for or against a particular issue and may ask that additional persons speak only if they have something new to add.

6. The Board president may rule on the appropriateness of a topic. If the topic would be more suitably addressed at a later time, the president may indicate the time and place when it should be presented.

The Board shall not prohibit public criticism of its policies, procedures, programs, services, acts, or omissions. (GC 54954.3) In addition, the Board may not prohibit public criticism of district employees.

The Superintendent or designee shall designate locations from which members of the public may broadcast, photograph, or tape record open meetings without causing a distraction.

The Board shall adopt a written resolution when it is required by law, where the intent of the Board is to publish a status position, to commend staff members or other agencies for work well done or when otherwise appropriate as determined by the Board.

All actions taken by the Board shall be recorded in the minutes of each Board meeting (Education Code Section 35145(a)).

6. Reducing city or county zoning ordinances inapplicable as allowed by Government Code Section 53094.

Actions requiring a unanimous vote of the Board shall be as required by law to include:

1. Disposal of surplus property as specified in Education Code Section 39521.
2. Resolution authorizing and prescribing the terms of a community lease for extraction of gas as specified in Education Code Section 39431.

BOARD SELF-EVALUATION

Effective and efficient Board operations are an integral part of creating a successful educational program. In order to measure progress towards its stated goals and objectives, the Board will schedule a time and place at which all its members may participate in a formal self-evaluation.

The Board shall be evaluated as a whole and not as individuals. The evaluation will focus on the internal operations and performance of the Board. The Board members shall develop goals and objectives against which the Board will be evaluated. A self-evaluation instrument will be based on these goals and objectives and not on goals set for the District.

Each Board member will complete a self-evaluation instrument independently. The ensuing evaluation will be based on the resulting composite picture of Board strengths and weaknesses. The Board will discuss the tabulated results as a group.

The evaluation process should include the establishment of strategies for improving Board performance. Revised priorities and new goals will be set for the following year's evaluation.

The Board may invite the Superintendent or others to participate in the evaluation and suggest specific criteria to measure Board success as a governing body.
