

Homer Community Consolidated School District 33C

15733 S Bell Road • Homer Glen, IL 60491
(708) 226-7600 • FAX (708) 226-7627

Illinois Public Act 105 ILCS 145/1 Care of Students with Diabetes Act requires schools to request an updated Diabetic Medical Management Plan for students with diabetes at the start of every school year. If your student has diabetes, please reach out to the school nurse. All supplies and the Diabetes Medical Management Plan (DMMP) are required by the first day of school.

Your child's forms and supplies should include:

- Diabetes Management and Treatment Plan
- Blood glucose monitor
- Test Strips
- Insulin or pump supplies
- Syringes or insulin pen needles
- Glucagon for emergency
- Glucose tablets or glucose gel
- Snacks and Juice if needed
- Ketone Testing strips
- Medication request form

In order for your child to have the best possible school year, it is important that all the necessary supplies and paperwork are in place to provide appropriate care and respond in the case of an emergency.

Please reach out to the school nurse in which your student will be attending prior to the start of the school year to determine a time to meet to discuss the Diabetes Medical Management Plan. All students with diabetes are also required to have a 504 Plan for accommodations at school.

If you have any questions, please contact your child's school nurse.
