Background:

The City of Papillion and the City of La Vista have provided School Resource Officers at secondary schools the last several years. The City of Papillion has recently proposed adding a School Resource Officer (SRO) Supervisor position. The purpose of this position is to provide more robust monitoring, evaluation, and supervision of the front-line SROs. Additional responsibilities are outlined below. The City proposes splitting the cost of the proposed SRO Supervisor position evenly between the City and the school district.

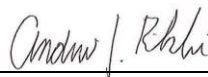

The following items are proposed based on discussions with the city, police department and the school district.

Subject: RFP for Wireless Network System Hardware and Software

Meeting Date: March 10, 2025

Prior Meeting Discussion Date:

Department: Curriculum, Instruction, Assessment & Technology

Action Desired: Approval _____ Discussion X Information Only _____

Background: The District released a Request for Proposals (RFP) for wireless network system hardware and software and is currently evaluating responses. The RFP was released in conjunction with the Federal Communication Commission's E-Rate program. E-Rate provides funding assistance for such hardware purchases for public school districts and libraries.

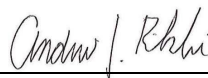

The District's wireless network infrastructure serves PLCS staff, students and guests daily and is slated for replacement based on the technology plan hardware and budget cycles. This periodic refresh and hardware upgrade will allow continued utilization of the District's network and fiber backbone. Additionally, PLCS currently operates four different wireless systems from three different manufactures across our facilities to provide wireless network/Internet (WiFi) service. The scope of the RFP is to replace the multiple existing systems with one unified system to support reliable wireless access across our campuses.

Evaluating RFP responses now with an anticipated approval at the March 24, 2025 meeting adheres to the cyclical E-Rate funding timeline.

Recommendation: For discussion with an anticipated recommendation for approval at the March 24, 2025 board meeting.

Responsible Person: Matt Moore & Shureen Seery
