School Plan for Student Achievement  
2024-2025

This School Plan for Student Achievement (SPSA) is a plan of actions to raise the performance of all students. The SPSA contains the following:

**Needs Assessment**

- School Demographics
- English Language Arts
- Mathematics
- English Learners
- Culture/Climate Domain
- SPSA Effectiveness

**Accountability Measure I: Increase Achievement**

- Core Programs (ELA, Writing, Math)
- Interventions
- Transitions

**Accountability Measure II: School Climate**

**Accountability Measure III: Professional Development**

- Professional Development
- Teacher Involvement

**Accountability Measure IV: Parents and Community Involvement Assurances**

- School Budget for Categorical Programs
- SSC Membership
- ELAC Membership
- ELAC Recommendations
- Assurances, Approval and Signatures

The School Site Council (SSC) completed a comprehensive needs assessment, including analyses of student performance in relation to the state

academic content standards. In order to provide supplemental interventions, the SSC analyzed the academic performance of all students and subgroups, and it considered the instructional program's effectiveness for at-risk students.

The School Site Council aligns the Long Beach Unified School District's Strategic Plan and LCAP into the SPSA. The LCAP Goals are presented at: [lbschools.net/lcap](https://lbschools.net/lcap). The LCAP Federal Addendum is presented at: [lbschools.net/departments/business-and-finance/fiscal-services/state-and-federal-programs/state-and-federal-required-plans](https://lbschools.net/departments/business-and-finance/fiscal-services/state-and-federal-programs/state-and-federal-required-plans)

Education Code 52062 (4) requires that the superintendent of the school district review school plans for schools within the school district and ensure that the specific actions included in the local control and accountability plan or annual update to the local control and accountability plan are consistent with strategies included in the school plans submitted.

Progress and components of LBUSD's Strategic Plan, viewable at [lbschools.net/departments/strategic-planning](https://lbschools.net/departments/strategic-planning), are rooted in the following core values:

- Centering student needs and voice
- Authentic community engagement and collaboration
- Culture of innovation and creativity
- Diversity and inclusion
- Environment that fosters connection, respect and safety
- Equity and social justice
- Excellence and accountability through continuous improvement
- Fostering joy and commitment
- Integrity and responsible leadership

The Board of Education has set goals to help guide the district and schools:

**Goal 1: Reading: Proficiency**

The percentage of Grade 3 students who meet or exceed grade-level standards on the state English Language Arts SBAC assessment will grow from 48% in June 2023 to 70% by June 2028.

**Goal 2: Reading: Acceleration**

The percentage of students in Grades 4-8 scoring at the “Not Met” achievement level in the prior year who meet the scale score growth target on the state SBAC-English Language Arts assessment will increase from 28% in June 2023 to 60% in June 2028.

**Goal 3: Algebra Proficiency**

In pursuit of having more than 80% of Black/African American students meet the Algebra A-G requirement by the end of Grade 9, the proficiency gap between Black/African American students and all other students will decline from 5% in June 2023 to 0% by June 2028.

**Goal 4: College & Career Readiness**

In pursuit of having more than 66% of Black/African American graduating seniors A-G eligible, the proficiency gap between Black/African American students and all other students will decline from 15% in June 2023 to 0% by June 2028

In addition, the SSC recognizes following recommendations made by the District Community Advisory Committee (DCAC) and the District English Learner Advisory Committee (DELAC):

**DCAC Recommendations:**

**Recommendation 1:** Provide more parent involvement and parent education training at all schools, including sending parent participants to conferences in order to empower and train parent leaders.

**Recommendation 2:** Create and provide a more inviting, safe and welcoming climate/community atmosphere at all sites for all cultures, parents and students.

**Recommendation 3:** Re-establish district Parent Centers and encourage sites to establish a parent center/parent resource room to better engage and serve parents.

**DELAC Recommendations:**

1. Monitor the implementation of the district's comprehensive English Language Development (ELD) program in grades K-12th addressing language and academic needs of a diverse EL population from newcomers to Long Term English Learners.
2. Provide parent workshops to build capacity on specific topics such as LCFF, LCAP and SSC to better understand how each functions;
3. Continue to explore programs at sites that address the social/emotional development and well-being of all students, including English Learners
4. Expand tutoring and other intervention programs that are content-specific to meet the student's identified needs including special education students

The SSC recognizes the importance of **Parent and Family Engagement** and emphasizes LBUSD Board Policy 6020:

The Governing Board recognizes that parents/guardians are their children's first and most influential teachers and that continued parent involvement in the education of children contributes greatly to student achievement and a positive school environment. For this reason, the Governing Board will have a written parent involvement policy developed jointly with and agreed upon by parents/guardians and applicable to non-Title I schools.

Parents/guardians shall be notified of their rights to be informed about and to participate in their children's education and of the opportunities available to them to do so.

The district's local control and accountability plan (LCAP) shall include goals and strategies for parent/guardian involvement and family engagement, including district efforts to seek parent/guardian input in district and school site decision making and to promote parent/guardian participation in programs for English learners, foster youth, students eligible for free and reduced-price meals, and students with disabilities. (Education Code 42238.02, 52060)

The Superintendent or designee shall regularly evaluate and report to the Board on the effectiveness of the district's parent/guardian and family engagement efforts, including, but not limited to, input from parents/guardians, family members, and school staff on the adequacy of involvement opportunities and on barriers that may inhibit participation.

**Title I Schools**

The Superintendent or designee shall involve parents/guardians and family members in establishing district expectations and objectives for

meaningful parent/guardian and family engagement in schools supported by Title I funding, developing strategies that describe how the district will carry out each activity listed in 20 USC 6318, as contained in the accompanying administrative regulation, and implementing and evaluating such programs, activities, and procedures. As appropriate, the Superintendent or designee shall conduct outreach to all parents/guardians and family members. (Education Code 11503; 20 USC 6318)

When the district's Title I, Part A allocation exceeds the amount specified in 20 USC 6318, the Board shall reserve at least one percent of the funding to implement parent/guardian and family engagement activities and shall distribute at least 90 percent of those reserved funds to eligible schools, with priority given to high-need schools as defined in 20 USC 6631. The Superintendent or designee shall involve parents/guardians and family members of participating students in decisions regarding how the district's Title I funds will be allotted for parent/guardian and family engagement activities. (20 USC 6318).

Conclusions from the needs assessment were used to prioritize supplemental programs, materials, professional development, targeted interventions, and other activities that will strengthen the school's academic achievement, close the achievement gap, and provide a safe, civil and productive school.

## Accountability Measure 1: Increase Achievement

Core Program - English Language Arts		
Curriculum/Instruction	Assessments	Resources/Materials
Students pursue a balanced, integrated literacy program of literature and language study to promote academic discourse. In literature, students develop strategies to	Interim Assessments End of learning assessments to demonstrate competency in comprehension, analysis, synthesis,	My Perspectives, 2017, Pearson

construct meaning and interact thoughtfully with all genres of literature and nonfiction texts. Language production (in both speech and written response) becomes an extension of experiences developed through reading literary and nonfiction works. Students also receive instruction in the conventions of written language, effective oral communication, and research techniques.

Reading activities are based on contemporary themes in literature and non-fiction selections to provide for an ever-changing and highly motivational curriculum.

LBUSD offers the Expository Reading and Writing Course (ERWC) to prepare college-bound seniors for the literacy demands of higher education. Through a sequence of fourteen rigorous instructional modules, students in this yearlong, rhetoric-based course develop advanced proficiency in expository, analytical, and argumentative reading and writing. The cornerstone of the course—the assignment template—presents a process for helping students read, comprehend, and respond to nonfiction and literary texts. Modules also provide instruction in research methods and documentation conventions. Students will be expected to increase their awareness of the rhetorical strategies employed by authors and to apply those strategies in their own writing. Students who take this course by CSU ERWC Certified Teacher and who receive a grade of “C” or better in the course will be deemed ready for college level coursework in English by the CSU. ERWC meets the CSU English proficiency exam requirement.

evaluation, etc. These tasks are primarily unassisted student assessments. Some examples include the following:

- Interim district assessment
- Unit tests
- Portfolios

#### Reading & Writing Tasks: Making Meaning, Language Development, and Effective Expression Writing Tasks

These tasks provide students with opportunities to “attempt” or “discover” multiple strategies in their learning of new or reviewed skills. This process allows for multiple submissions to master the learning without penalty. These are primarily teacher guided or collaborative tasks that may include scaffolded supports. Some examples include the following:

- Unit and section introduction tasks: section overview activities, Launch Text activities
- Making Meaning tasks: First Read & Close Read guides, comprehension check, research to clarify and/or explore, close read the text, analyze the text, analyze craft and structure
- Language Development tasks: concept vocabulary, word study, conventions, author’s style
- Preparation for performance assessments, Unit reflections, evidence logs, word networks
- Short constructed response, Cornell notes, double entry journals, journal quick writes

#### Formative Assessments/Quizzes

These assessments allow teachers and students to collect the best possible evidence about where

These are quick assessments to check for understanding of the content and skills taught so far. These mini assessments can be oral, multiple choice, short answer, essay format, or visual. They can be graded or not. Some examples include the following:</p> <ul style="list-style-type: none"> <li>• Brief quizzes and general comprehension checks</li> <li>• Thinking Maps</li> <li>• Selection Tests</li> </ul> <p>Homework This independent practice reinforces or extends the instruction or learning done in class. ## Core Program - Writing

Curriculum/Instruction	Assessments	Resources/Materials
Students engage in a variety of academic and creative writing tasks which connect both literature and nonfiction to their life experiences. Students use writing process activities in a variety of genres; argumentative, expository, narrative, reflective and literary analysis of texts, and research or inquiry. Students also receive instruction in the conventions of written language and effective oral communication. Students are provided a concentrated study of the writing process, essay genres, close reading of fiction and non-fiction, research skills and correctness. Writing activities are based on contemporary themes in literature and non-fiction selections to provide for an ever changing and highly motivational curriculum. Students use technology to support production of text, correctness, and research reading and writing

## Core Program - Math

Curriculum/Instruction	Assessments	Resources/Materials

For high school, the core program includes Algebra 1, Geometry, Algebra 2 and Precalculus.</p> <p><b>Algebra 1</b> The fundamental purpose of the Algebra 1 course is to formalize and extend the mathematics that students learned in the middle grades. This course includes standards from the conceptual categories of Number and Quantity, Algebra, Functions, and Statistics and Probability. Successful completion of Algebra 1, or an equivalent sequence, is a graduation requirement. Instructional time focuses on four critical areas: (1) deepen and extend understanding of linear and exponential relationships; (2) contrast linear and exponential relationships with each other and engage in methods for analyzing, solving, and using quadratic functions; (3) extend the laws of exponents to square and cube roots; and (4) apply linear models to data that exhibit a linear trend.</p> <p>Intensified Algebra I is offered to a small group of approximately 30 students at selected sites. and succeed in Algebra I within a single academic year. Students are enrolled in a double block of Algebra which is supplemented with mindset activities and a hands-on approach to help students gain confidence and competence in Algebra.

#### Geometry

The fundamental purpose of the Geometry course is to formalize and extend students' geometric experiences from the middle grades. This course includes standards from the Geometry conceptual category. In this Geometry course, students explore more complex geometric situations and deepen their explanations of geometric relationships, presenting and hearing formal mathematical arguments. Instructional time focuses on five critical areas: (1) establish criteria for congruence of triangles based on rigid motions; (2) establish criteria for similarity of triangles based on dilation and proportional reasoning; (3) informally develop explanations of circumference, area, and volume formulas; (4) apply the Pythagorean Theorem to the coordinate plane; and (5) prove basic geometric theorems.

#### Algebra 2

Building on their work with linear, quadratic, and exponential functions, students extend their repertoire of functions to include logarithmic, polynomial, rational, and radical functions in the Algebra 2 course. This course includes standards from the conceptual categories of Number and Quantity, Algebra, Functions, Geometry, and Statistics and Probability. Students work closely with the expressions that define the functions, competently manipulate algebraic expressions, and continue to expand and hone their abilities to model situations and to solve equations, including solving quadratic equations over the

set of complex numbers and solving exponential equations using the properties of logarithms. Instructional time focuses on four critical areas: (1) relate arithmetic of rational expressions to arithmetic of rational numbers; (2) expand understandings of functions and graphing to include trigonometric functions; (3) synthesize and generalize functions and extend understanding of exponential functions to logarithmic functions; and (4) relate data display and summary statistics to probability and explore a variety of data collection methods.

#### Precalculus

Precalculus combines the trigonometric, geometric, and algebraic techniques needed to prepare students for the study of calculus, and strengthens students' conceptual understanding of problems and mathematical reasoning in solving problems. Instructional time focuses on four critical areas: (1) extend work with complex numbers; (2) expand understanding of logarithms and exponential functions; (3) use characteristics of polynomial and rational functions to sketch graphs of those functions; and (4) perform operations with vectors. Precalculus is not a required course for A-G completion. See additional 4th year options below.

#### 4th Year Options

To meet the four year math requirement and to provide access to upper level math classes, some schools offer additional math electives, which may include:

- Introduction to Applied Math (not A-G)
- Intro to Data Science (IDS)
- Functions, Statistics & Trigonometry (FST)
- Finite Math
- AP Statistics
