

## General Course Information

<b>Course Name: Woodworking II</b>	
Department: Technology & Engineering	Grade Level(s): 9-12
Duration/Credits: 1 semester/ .5 practical art credit	Prerequisites: Successful completion of Woodworking I or teacher approval
BOE Approval Date:	Course Code: H4035
<b>Course Description:</b>	
Woodworking II provides woodworking students the opportunity to work on independent projects. Building upon Woodworking I, students in level II will develop new tool and finishing techniques. Woodworking II develops students' ability to problem solve and work more independently.	
<b>Course Rationale:</b>	
Woodworking II develops student confidence and ability to work both collaboratively and independently to problem solve and complete more complex projects. This course is designed for students who wish to develop beyond basic woodworking and may have an interest in a future career path.	
<b>Course Objectives:</b>	
<ul style="list-style-type: none"><li>• The student will read, understand, and apply safety protocols for techniques and equipment in the woodworking shop environment (A+ Reading).</li><li>• The student will select and use a wide range of appropriate tools safely and effectively to complete woodworking projects.</li><li>• The student will create, write, and follow plans for woodworking projects (A+ Writing).</li><li>• The student will research, design, and create independent projects (A+ Research).</li><li>• The student will work independently and collaboratively to complete projects and to give and receive constructive feedback. (A+ Speaking and Listening)</li><li>• The student will maintain a safe and clean working environment.</li></ul>
