

Want to become a **TEACHER?**

01

9th or 10th Grade

Take **Child and Adolescent Development**. Learn how kids develop from infancy through their teens. Visit the preschool, the special needs classes, or take care of a simulated baby. This is where you will learn about the stages of development and theories that show up in everyday classrooms! Maintain a C average or higher!

02

11th Grade

Take **Principals of Teaching**. Learn how teachers plan, teach, and manage a classroom. Be a Cadet Teacher in real classrooms for Field Experience.

Dual Credit

* EDUC 101

* Cadet Teach

* Lesson Plan

03

11th Grade

Take **Teaching and Learning**. Learn about how students learn. See the many differences that students have. Examine different types of technology used in schools. This is a class which is part of a two-hour block with **Principals of Teaching**.

04

12th Grade

Take **Education Professions Capstone**. Spend 3 afternoons a week Cadet Teaching and building your year-long teaching portfolio.

ParaPro Certification

All seniors in the Education Professions track will be given the opportunity to earn workplace certification and be qualified to work as a paraprofessional in a school immediately after graduation!
