1000-1400	Approved June 26, 2017
1500	Approved February 26, 2018; Approved October 14, 2024

2115 INSTRUCTIONAL GOALS

Fort Wayne Community Schools will provide learning experiences that afford opportunities for students to develop character, citizenship, critical thinking, creativity, communication and collaboration, and to demonstrate an understanding of emotional needs and develop a continual quest for good mental and physical health-

These goals shall be considered as guides rather than limits, subject to broad interpretation, flexible enough to meet the changing needs of both individuals and society, and pervasive through the entire school system for all grade levels and subject areas.

Realizing that education, as here defined, is a life-long process, the Fort Wayne Community Schools shall endeavor to orient its students toward many career pathways. The school system also recognizes the importance of providing educational opportunities created to meet the needs of adults, both as individuals and as citizens of a democracy.

2210 CURRICULUM DEVELOPMENT

The School Board recognizes its responsibility for the quality of the educational program of the schools. To this end, curriculum that is aligned with state and federal standards shall be developed, evaluated, and adopted on a continuing basis.

The Superintendent shall be responsible to the Board for the development and evaluation of curriculum and preparation of courses of study. S/He shall establish curriculum that ensures proper development, implementation, and evaluation.

The Superintendent shall make progress reports to the Board periodically.

The Superintendent may conduct such innovative programs as are deemed to be necessary to the continuing growth of the instructional program.

2220 ADOPTION OF COURSES OF STUDY

The School Board shall provide a comprehensive instructional program to serve the educational needs of the students of this Corporation. In furtherance of this goal and pursuant to law, the Board requires that all courses of study be consistent with Corporation mission and goals.

Each course of study is intended to provide a basic framework for instruction and learning. Within this framework, each teacher shall use the course of study in a manner best designed to meet the needs of the students for whom s/he is responsible. Deviation from its content must be approved by the Superintendent.

2221 MANDATORY CURRICULUM

The School Board directs the Superintendent to prepare, implement, and supervise courses of instruction in the areas as required by state and federal law. The Superintendent shall ensure compliance with these mandates through appropriate instruction.

2240 CONTROVERSIAL ISSUES

The School Board believes that consideration of controversial issues has a legitimate place in the instructional program of the schools.

Properly introduced and conducted, the consideration of such issues can help students learn to identify important issues, explore fully and fairly all sides of an issue, weigh carefully the values and factors involved, and develop techniques for formulating and evaluating positions.

For purposes of this policy, a controversial issue is a topic on which there are responsible opposing points of view, and which is likely to arouse both support and opposition in the community.

The Board will permit the introduction and proper educational use of controversial issues provided that their use in the instructional program:

- A. is related to the instructional goals of the course of study and level of maturity of the students;
- B. does not tend to indoctrinate or persuade students to a particular point of view;

C. Encourages open-mindedness and is conducted in a spirit of scholarly inquiry.

Controversial issues related to the program may be initiated by students themselves provided they are presented in the ordinary course of classroom instruction and are not substantially disruptive to the educational setting.

Controversial issues may not be initiated by a source outside the schools unless prior approval has been given by the principal.

When controversial issues have not been specified in the course of study, the Board will permit the instructional use of only those issues which have been approved by the unit head and support the District's goals.

The Board recognizes that a course of study or certain instructional materials may contain content and/or activities that some parents find objectionable. If after careful, personal review of the program lessons and/or materials, a parent indicates to the school that either the content of activities conflicts with his/her religious beliefs or value system, the school will honor a written request for his/her child to be excused from a particular class.

It is expected that such requests will be granted for a limited time period and not a substantial portion of any course of instruction. The student, however, will not be excused from participating in the course and will be provided alternate learning activities during times of such parent-requested absences.

2260 EQUITY POLICY

This Board seeks to stop discrimination, treat individuals equitably and eradicate the effects of discrimination in the entire FWCS educational program. FWCS defines equity as the quality of being fair and impartial, such that all people have the resources, opportunities, and access they need to reach their academic and social potential.

FWCS acknowledges that there are historically underserved and underrepresented populations and strives to identify and eliminate barriers that prevent the full participation of some groups. Educational equity means raising the achievement of all students while 1) narrowing the gaps between the lowest and highest performing students, and 2) eliminating the predictability and disproportionality of outcomes in achievement and discipline associated with identity characteristics or socioeconomic status. FWCS will offer equitable opportunities with the goal of leveling the educational playing field to enable all students to realize their full potential.

2261 TITLE I SERVICES

The School Board elects to augment the educational program of educationally disadvantaged students by the use of Federal funds and in accordance with Title I of the Amendments to the Elementary and Secondary School Improvement Act of 1965.

The Superintendent shall prepare and present to the State Department of Education a plan for the delivery of services which meets the requirements of the law.

20 U.S.C. 6301 et seq., Elementary and Secondary Education Act of 1965

2262 EXTENDED DAY CHILD CARE

The School Board is concerned about the number of children who are not provided sufficient care, nurture, or supervision before or after school. This has serious implications for their general well-being as well as for their ability to benefit from the school program to the extent they need or want.

The Fort Wayne Community Schools Corporation will partner with community organizations to provide a before school/after school child care program that is available in pre-kindergarten through fifth grade (K-5) as resources allow. The program(s) may be conducted in school corporation buildings or community agencies.

Implementation of this policy is delegated to the Superintendent and appropriate administrative staff.

2270 RELIGION IN THE CURRICULUM

The School Board believes that an understanding of religions and their effects on civilization is essential to the thorough education of young people and to their appreciation of a pluralistic society. To that end, curriculum may include, as appropriate to the various ages, instruction about the religions of the world.

The Board acknowledges the degree to which religious influence has permeated the arts, literature, music, and issues of morality. The instructional and resource materials approved for use in the Corporation schools frequently contain religious references or concern moral issues that have traditionally been the focus of religious concern. That such materials may be religious in nature shall not, by itself, bar their use by the Corporation. The Board directs that professional staff members employing such materials be neutral in their approach and avoid using them to advance or inhibit religion in any way.

The Board recognizes that religious traditions vary in their perceptions and doctrines regarding the natural world and its processes. The curriculum is chosen for its place in the education of the Corporation's students, not for its conformity to religious principles. Students should receive unbiased instruction in the schools, so they may privately accept or reject the knowledge thus gained, in accordance with their own religious tenets.

Accordingly, no student shall be exempted from attendance in a required course of study on the grounds that the instruction therein interferes with the free exercise of his/her religion.

U.S. Constitution, Amendment, 1

2270.1 Religious/Patriotic Ceremonies and Observances

This Board believes that it is not the province of a public school to advance or inhibit religious beliefs or practices. Corporation staff members shall not use prayer, religious readings, or religious symbols as a devotional exercise or in act of worship or celebration in the classroom with students. The Corporation shall not act as a disseminating agent for any person or outside agency for any religious or anti-religious document, book, or article. Distribution of such materials on Corporation property by any party shall be in accordance with Board Policy. Acknowledgement of, explanation of, and teaching about religious holidays of various religions are encouraged; but it is the responsibility of all faculty members to ensure that religious activities are strictly voluntary, do not place an atmosphere of social compulsion or ostracism on any groups or individuals, and do not interfere with the regular school program.

Some religious or patriotic ceremonies or observances may be observed if they further enhance the District curriculum or community pride.

2271 COLLEGE AND UNIVERSITY PROGRAMS

The School Board recognizes the value to students and to the Corporation for students to participate in programs offered by accredited colleges and universities.

Students who have not completed high school may be enrolled in recognized college, dual credit and advanced placement programs and receive high school credit. The credit for such work if applied to a high school diploma or certificate shall be in accordance with the policies of the District.

No student may participate, however, without the written consent of the high school principal.

The Superintendent shall establish the necessary administrative guidelines to ensure that eligibility criteria are clearly defined and properly communicated to both the students their parents/guardians, and the institutions offering such programs to students of this Corporation. The Superintendent shall also establish procedures for the awarding of credit and the proper entry on a student's transcript and other records of his/her participation in a postsecondary program.

2281 FAMILY INVOLVEMENT

The School Board recognizes that each student's education is a responsibility shared by the school and the family. Meaningful family support is critical if a student is to achieve his/her potential.

In order to foster meaningful family involvement, the Board directs the Superintendent to establish a program that both encourages and facilitates parent involvement in their child's educational program. In developing the program, the Superintendent should ensure that the following factors are addressed:

- A. Through appropriate school-level decision making, opportunities are available for the parents to participate in determining their child's educational program and procedural matters that affect the way the child functions in school.
- B. Curriculum objectives are shared with parents and, if curriculum committees are formed, the parents are invited to be members of the committee, when feasible.
- C. When family issues arise that affect the child's effective participation at school, assistance is provided to help the family establish a relationship with special service agencies and support groups in the community.

2312 CLASS SIZE

Recognizing that class size is an important factor in the instructional program with grade-level uniformity and smaller class size as a goal, the Board subscribes to a policy of establishing class size consistent with the instructional pedagogies and needs of students.

The availability of physical facilities, budget considerations, and the characteristics of the student body of specific schools may cause some variations in class sizes.

2330 HOMEWORK

The School Board acknowledges the educational validity of out-of-school assignments as adjuncts to and extensions of the instructional program of the schools.

“Homework” shall refer to those assignments to be prepared outside of the school by the student or independently while in attendance at school. Homework should be a properly planned part of the curriculum to extend and reinforce the learning experience of the school or to complete work not completed in class.

2335 GRADE POINT AVERAGE AND CLASS RANK

Grade point average and class rank should reflect the achievement of students in middle and high school. They should support and recognize scholarship as well as encourage students to take a variety of courses to meet diverse interests. Grades in Advanced Placement (AP) courses, International Baccalaureate terminal courses for which the Higher Level exam (or equivalent) is given, or college level courses will receive additional quality points to be included in the student’s cumulative grade point average.

2340 CORPORATION-SPONSORED STUDENT TRIPS

This Board defines Corporation-sponsored student trips as any planned journey away from Corporation premises under the supervision of a staff member to further a course of study. The Board recognizes that such trips, when used for instruction and learning, are an educationally sound and important component of the instructional program of the schools. Properly planned and executed trips should supplement and enrich classroom learning experiences by introducing students to new activities, cultures or experiences, and help students relate school experiences to real world problems and situations. Board approval is required for Corporation-sponsored trips that take students out of the Country. The Superintendent or his/her designee shall develop procedures for approval of all trips within the United States.

The Board does not endorse, support, or assume liability in any way for any staff member, volunteer, or parent of the Corporation who takes students on trips not approved by the Board or Superintendent or his/her designee. No staff member may solicit students of this Corporation for such trips within the facilities or on the school grounds of the Corporation without Board permission. Permission to solicit neither grants nor implies approval of the trip.

2400 HIGH SCHOOL CREDIT FOR MIDDLE SCHOOL COURSES

High school credit may be awarded to middle school students for courses that are equivalent to courses usually completed in grades 9 – 12. Credit will be awarded only when requested by the student and parent/guardian and only for middle school courses designated by the Corporation as equivalent to high school courses. When credit is awarded, the grade received will be figured into the high school grade point average and class rank.

2411 GUIDANCE AND COUNSELING

All students need guidance and direction in their college, career, social and emotional activities to develop competence in a global society. The School Board requires that a planned program of guidance and counseling be an integral part of the educational program of the Corporation. Such a program should:

- A. enable students to draw benefit from the offerings of the academic program of the schools;
- B. assist students in post-secondary education and in career awareness and planning;
- C. help integrate all the student's experience so that s/he can better relate school activity to life outside the school;
- D. help students learn to make their own decisions and solve problems independently;
- E. provide individual consultation with students and/or parents or guardians.

The Superintendent is directed to implement a counseling and guidance program which:

- A. involves certified and/or licensed staff members;
- B. honors the individuality and diversity of each student;
- C. integrates with the total educational program;
- D. coordinates with available resources of the community;
- E. cooperates with parents/guardians and recognizes their concerns and ideas for the development of their children.

2413 HEALTH AND WELLNESS SERVICES

The Board shall maintain close working relationships with State and local health departments in all matters of health programs in the school. The school staff shall safeguard the health of the child in school by supplementing and reinforcing the efforts of the home and by providing

conditions and educational opportunities conducive to good health. Health and Wellness Services offers medical and nursing services and is responsible for medical decisions.

To protect the health and safety of students, Corporation personnel and the community at large, the Board shall follow all state and federal law pertaining to immunization and other appropriate means for controlling communicable disease. A student who appears to be ill may be removed from school or isolated in their building. Parents who cannot afford medical or dental care should be referred to the school nurse for guidance in obtaining care through community agencies. Such referral is especially important in the case of needed vaccinations and immunizations.

The officers and employees of the School Corporation are responsible for maintaining the health program in accordance with state and federal law and initiating improvements. Provision shall be made for the necessary direction, facilities, materials, and qualified personnel to maintain a comprehensive health program.

Additionally, the Board recognizes the important relationship between nutritional integrity, physical activity, good health and student academic performance. The Board is committed to providing school environments that promote and protect children's health, well-being, and ability to learn by supporting healthy eating and physical activity. The Board supports and encourages efforts locally and nationally to reduce childhood obesity and the related health concerns of diabetes, elevated cholesterol levels, high blood pressure, asthma, joint problems and others, and believes that products sold in its schools should reflect this policy. It therefore delegates to the Superintendent the development of wellness programs and nutrition programs for students and staff consistent with this policy, best practices and legal requirements. Any health services program should also include instruction to staff members on the observance of students for conditions that indicate physical impairment or disability.

2414 HEALTH AND SEX EDUCATION

The School Corporation believes that, in accordance with State law, provision should be made for the teaching of reproductive health, human growth and development, child sexual abuse and dating violence, and the recognition, prevention, and treatment of sexually-transmitted diseases including AIDS Education, as essential ingredients in a comprehensive school health education curriculum.

Fort Wayne Community Schools shall make available for inspection by the parents or guardians of a student any materials which will be used in connection with a personal analysis, evaluation, or survey not directly related to academic instruction and which reveal, or attempt

to affect, the student's attitudes, habits, traits, opinions, beliefs, or feelings in the areas outlined below.

2430 CORPORATION-SPONSORED CO-CURRICULAR ACTIVITIES, ORGANIZATIONS AND ATHLETICS

The School Board believes that the goals and objectives of this Corporation are best achieved by a diversity of learning experiences, including those that are not conducted in a regular classroom. Such learning experiences may be conducted on or off school premises by organizations of students sponsored by the Board, and directed by staff advisors. Each school shall maintain a balanced program of co-curricular student organizations and activities consistent with age level and student needs. The oversight of all such organizations and activities shall be the responsibility of building administrators and designated staff advisors.

All students elected to student offices or who represent their schools in co-curricular organizations or activities shall maintain good citizenship records, both in and out of school. Any student who does not maintain a good citizenship record may not be allowed to represent his/her fellow students or the school for a period of time recommended by the principal. Periodic evaluations shall be made by the school principal and the staff so that the best interests of the student and school may be served.

Whenever or wherever an FWCS-sponsored student organization meets or a student activity occurs, all FWCS policy and procedure shall be observed.

FWCS athletic programs should contribute to the physical, social, emotional, and moral wellbeing of youth. Since the primary purpose of the athletic program is to enhance the education of participating students, the Board places top priority on the values of good sportsmanship, team play, and fair competition, in student participation.

Activities affiliated with the school will be open to all students of that school, provided stated qualifications are met.

2440 SUMMER PROGRAMS

Summer school programs may include development, enrichment, and general educational opportunities.

Curriculum will be designed to meet the needs of the adult citizens of the community. These needs are many and varied, such as high school completion, high school equivalency (HSE), English language acquisition skills, vocational training, or retraining, adult basic education, and recreation activities.

Advisory committees comprised of lay persons who are working in the particular areas help in determining specific programs and course content. All programs and courses will be adequately outlined and maintained on file in the Continuing Education office. The School Board shall maintain low student-enrollment fees in the FWCS Continuing Education Program through the use of all available state and federal grant dollars.

2451 ALTERNATIVE SCHOOL PROGRAM

The School Board recognizes that the regular school program may not be appropriate for all students. The Board will provide, within the resources available, alternative school education programs for students who, in the opinion of the Superintendent, will benefit from additional support. The Superintendent is authorized to seek grants and contract with providers for alternative education programs as necessary.

2460 SPECIAL EDUCATION

FWCS shall provide a free and appropriate public education (FAPE) in the least restrictive environment (LRE) to all eligible special education students. Every attempt will be made to serve disabled students in the context of a regular education classroom and more restrictive environments will be considered only when placement in the regular classroom has been determined by a case conference committee to be inappropriate.

2510 ADOPTION OF TEXTBOOKS

The School Board shall approve all textbooks used as part of the educational program of this Corporation. "Textbook," for purposes of this policy, shall mean the principal instructional materials for any given course of study, in whatever form the material may be presented, that is available or distributed to every student enrolled in the course.

The Superintendent shall be responsible for the establishment of procedures for textbook adoption. The procedures shall include, but not be limited to, the involvement of teachers and parents on an advisory committee for the preparation of recommendations for textbook adoptions. Each textbook selection shall be for an initial period of six (6) years or for as long as the selected textbook's adoption is effective, whichever is less. Any selection may be extended beyond that period for as long as the Superintendent deems the textbook satisfactory and as long as it remains on the appropriate state-adopted list.

2520 SELECTION OF INSTRUCTIONAL MATERIALS AND EQUIPMENT

The School Board shall provide instructional materials and equipment, within budgetary constraints, to implement the Corporation's educational goals and objectives and to meet students' needs. The primary objective of such instructional materials and equipment shall be to enrich, support, and implement the educational program of the school.

The amount of funds budgeted, the accounts under which funds will be budgeted, the allocations of all monies to individual schools, and the procedures to be followed in budgeting and allocating of funds will be the responsibility of the Superintendent of Schools or personnel designated by the Superintendent.

A student or his/her parents/guardians shall be held responsible for the cost of replacing any materials or properties which are lost or damaged through their negligence.

Costs for replacing lost instructional materials will be charged to the student to whom the materials are assigned.

The instructional materials fee or book rental fee to cover the rental cost of nonconsumable textbooks and related materials and the total cost of consumable materials such as workbooks shall be paid for by each student's parent/guardian or in accordance with State textbook

reimbursement rules. Expenditures for both consumable and nonconsumable materials will be made from the textbook rental fund only for materials approved by the governing body. All monies collected by the sale or rental of adopted materials will be received in the Textbook Rental Fund.

The cost of materials used for student projects that become the property of students will be paid by the individual students.

2531 COPYING COPYRIGHTED MATERIALS

It is the intent of the Board to adhere to the provisions of federal copyright law and to deter Corporation employees from violating the law. In this respect, the Board prohibits Corporation employees from infringing on the rights of copyright owners. All duplication, retention, and use of copyrighted materials by Corporation employees shall be in conformance with federal copyright law. Employees violating federal copyright law do so at their own risk and assume all liability for their actions.

By its adoption of this policy, the Board does not intend to discourage Corporation employees from lawfully duplicating and using copyrighted materials. Federal copyright law contains several important exceptions to the rules prohibiting the duplication or use of copyrighted materials. The most significant of these exceptions for the majority of employees is the “fair use” provision of the law. Under this exception educators are permitted to reproduce and/or use certain copyrighted materials for purposes of teaching, scholarship, or research. Furthermore, Corporation employees are also entitled to reproduce or use copyrighted works if the owner of the copyright grants them permission to do so in a license, agreement, or letter.

17 U.S.C. 101 et seq.

2610 CONTINUOUS EVALUATION OF DISTRICT CURRICULUM

The Board has the responsibility for assessing the accomplishment of District goals. Such evaluation shall be expected to result in recommendations for changes in content, methods, and instructional materials.

The Board reserves the right to employ experts from outside the School Corporation to serve in the evaluation process and to recommend changes.

The Board will annually make available to the public the progress of the student body toward the goals of the Corporation.

The Board shall then vote upon that recommendation in a public session.

If an appeal to the Board is appropriate as determined by this policy, the Board shall meet in executive session to consider a written summary of the evidence heard at the expulsion meeting, any newly discovered evidence, and the arguments of the principal or principal's designee and the student or the student's parent or legal guardian. The Superintendent is authorized to obtain emergency loans without prior Board approval when needed to keep the School Corporation in operation. Such loans must subsequently be brought to the Board for ratification.

The Board recognizes that annual funding is insufficient for certain capital expenditures. When it is necessary to borrow funds for capital expenditures, the Board agrees that the repayment term should not exceed the life of the capital expenditure. All borrowing must be preapproved by the Board and follow all statutory requirements. The Superintendent shall annually develop plans for anticipated future borrowing including the impact on future annual debt repayment.

6152 STUDENT FEES, FINES, AND CHARGES

6152.1 Special Materials Fee

A "special materials fee" may be assessed to all students in accordance with the grade level or classification of the student. Students eligible for state textbook assistance will not be assessed. This fee will be used for certain expendable instructional materials utilized by the student as a part of a basic curriculum. An additional minimum fee may be charged for those activities beyond the basic curriculum in which the student may elect to participate, the projects of which

become the property of the student. All special materials fees shall be approved by the Board.

6152.2 Fines

When school property, equipment, or supplies are damaged, lost, or taken by a student, a fine will be assessed. The fine will be reasonable, seeking only to compensate the school for the expense or loss incurred.

Borrowed books or materials from school libraries not returned will be subject to appropriate fines.

All fines collected will be deposited in the appropriate fund.

6152.3 Unpaid Fees/Fines

In the event the above course of action does not result in the fee being collected, the Board authorizes the Corporation to use appropriate collection processes.

6153 COLLECTION AND FORGIVENESS OF DEBT

The Board understands it is required to collect all monies owed to it by patrons, employees, parents and students, including money owed through student lunch accounts, educational material fee accounts (excluding textbooks), and other extracurricular accounts. Every effort should be made by the school administration to collect the monies owed to the Corporation including collection procedures. Such efforts must be documented by school administration before the debt is forgiven, waived, or written off of the Corporation accounts and considered an uncollectable account.

The Corporation may forgive, waive, or write-off all or a portion of the debt if one of the following conditions is met:

1. The school administration determines that the student or the parent or guardian of the student is unable to pay the debt;
2. The payment of the debt could impact the health or safety of the student;
3. The cost to pursue and collect the debt from the student and his/her parents would cost more than the potential total debt collected; or
4. There are mitigating circumstances as determined by the Superintendent that preclude the collection of the debt.

Every decision to forgive, waive, or write-off a debt must be documented and include the specific facts for the decision relating to one of the above stated reasons. If the uncollectable debt is a student lunch account, it cannot be an expense to the school food service account and must be covered by non-Federal funds.

The Superintendent may develop procedures addressing specific situations relating to the above conditions.

In the cases where a positive balance exists in the accounts, every effort must be made by the school administration to return the positive balance to the account holder when the person is no longer in the Corporation. If attempts made to refund the balance have been unsuccessful, the balance should be transferred to the corresponding school fund or if such transfer is not appropriate, to the Corporation General Fund.

6160 INTERNAL CONTROLS

It is the Policy of the Board of School Trustees that all employees, board members, consultants, vendors, contractors and other parties maintaining a business relationship with the school corporation shall act with due diligence in duties involving the school corporation's fiscal resources.

2. Reliability of financial reporting.
3. Compliance with applicable laws and regulations.

The Superintendent or designee shall be responsible to implement the internal control standards designed to prevent and detect fraud, financial impropriety, or fiscal irregularities within the school corporation and to recommend to the Board any policies or procedures required to carry out the standards.

Training shall be provided on the internal control standards and procedures to all school employees and newly hired employees whose duties include receiving, processing, depositing, disbursing, or having access to school and extracurricular funds. Such training should be given periodically to these employees whenever the standards have been changed or updated, including new school corporation policies and procedures relating to the internal control standards and training to refresh the employees on the standards requirements.

6161 MATERIALITY POLICY REGARDING LOSSES, SHORTAGES, OR THEFT OF SCHOOL FUNDS OR PROPERTY

The Board recognizes that even with strong internal controls, losses, shortages, and theft of school corporation funds and other assets may occur. State law requires the school corporation to report to the Indiana State Board of Accounts all erroneous or irregular material losses, shortages or theft of school corporation funds or property according to the school corporation's materiality policy. The Indiana State Board of Accounts requires school corporations to determine their own material threshold.

The threshold for material losses, shortages, or theft for Fort Wayne Community Schools which must be reported to the Indiana State Board of Accounts by the superintendent or the superintendent's designee, is as follows:

6161.1 Cash Losses, Shortage, or Theft

Any single occurrence of a loss, shortage, or theft of cash from any school corporation fund is an amount over \$5,000.

6161.2 Other Assets Loss, Shortage or Theft

Any single occurrence of a loss, shortage, or theft of a school corporation asset other than cash exceeding a value of \$25,000.

In addition, State law requires public employees who have actual knowledge of, or reasonable cause to believe, a misappropriation of school funds has occurred to report any such misappropriation to the Indiana State Board of Accounts and the county prosecuting attorney. Misappropriation occurs when an employee or in-house contractor of Fort Wayne Community Schools wrongly takes or embezzles public funds.

Whenever a loss, shortage or theft of school funds or property occurs, no matter the amount or value, or the requirement to report such to the Indiana State Board of Accounts, the administration should investigate. The administration must document the investigation and resolution of all cash related incidents and incidents involving assets that are tagged for property control purposes.

The Corporation's long-range planning and budget preparation priorities shall be consistent with the goals of the Board to achieve and maintain academic excellence and to engage parents and the community. The Board directs the Superintendent to present the budget to the Board in sufficient time for proper review and discussion and in compliance with Indiana Code.

The budget presented to the Board for approval shall plan for sufficient cash balances to protect the Corporation. The Board desires to maintain an unrestricted-fund balance as of December 31 in the Education Fund and Operations Fund. The desired balance is between eight (8) to fifteen (15) percent of the annual budget for the same year in each of those funds. As part of the annual budget process, the Chief Financial Officer will prepare a projection of the year-end unrestricted-fund balance. Such projection will include an analysis of historical data and future projections. If the unrestricted-fund balance declines below the established minimum level, the

Superintendent and Chief Financial Officer will develop a budget to replenish the unrestricted-fund balance.

The School Board places the responsibility of administering the budget, once adopted, with the Superintendent.

All payments shall be submitted for Board approval in the form of a list that includes the vendor's name, the type of purchase, and the amount of payment. In order to assure that future Corporation construction supports the educational program and responds to community needs, the Board will annually adopt a Capital Projects Fund Plan and will revise that Plan periodically.

In planning for the enlargement, modification or consolidation of its facilities, the Board shall consider not only the number of children whose educational needs must be met, but also the physical requirements of the program it deems best suited to meet those needs, the Mission, Vision and Goals of the Corporation, and the possible flexible use of space to accommodate future needs. Each school building and site shall provide suitable accommodations to carry out the educational program of the school including provision for the disabled, pursuant to law and regulation.

The Superintendent is responsible for an environment free of known hazards, proper employee training, availability of required protective devices and meeting all legal requirements.

In accordance with State law, the Corporation shall comply with disaster protection guidelines. The Superintendent shall be responsible for the maintenance of standards in the facilities to prevent accidents and to minimize their consequences.

The Fort Wayne Community Schools is a large and complex organization that owns and uses many different items of instructional and operational equipment in carrying out its public mission. From time to time other public or private schools, institutions of higher learning or private entrepreneurs inquire about the loan or lease of School Corporation equipment.

The Corporation administration does not believe loaning or leasing equipment is in the best interest of the School Corporation. Nonetheless, the administration may make exceptions to this policy and lend certain equipment. It is believed Fort Wayne Community Schools students and staff will fully depreciate all instructional equipment over an established period of time (as a general rule) without outside use.

The user of Corporation-owned equipment shall be fully liable for any damage or loss occurring to the equipment during the period of its use, and shall be responsible for its safe return.

Corporation-owned equipment may be removed from Corporation property by students or staff members only when such equipment is necessary to accomplish tasks arising from their school or job responsibilities. The Board supports and encourages efforts locally and nationally to reduce childhood obesity and the related health concerns of diabetes, elevated cholesterol levels, high blood pressure, asthma, joint problems and others, and believes that products sold in its schools should reflect this policy. It therefore delegates to the Superintendent the development of wellness programs and nutrition programs for students and staff consistent with this policy, best practices and legal requirements.

9125 USE OF CORPORATION NAME OR LOGO

No person or organization may use the name “Fort Wayne Community Schools,” “FWCS,” or logo or other symbol adopted by the Corporation without the express written consent of the Corporation. But in order for the educational program to continue undisturbed when visitors are present and to prevent the intrusion of disruptive persons into the schools, it is necessary to invoke reasonable visitor controls.

The Superintendent or principal has the authority to prohibit the entry of any person to a school of this Corporation or to expel any person when there is reason to believe the presence of such person would be detrimental to the good order of the school or the safety of students or other individuals. The School Board supports all organizations of parents whose objectives are to promote the educational experiences of FWCS students, and permits the use of its name, with permission, by organizations associated with or partners with the Corporation. However, in using the name of the Corporation or its schools and in organizing a group whose identity derives from a school of this Corporation, the parent organization thereby shares responsibility with this Board for the welfare of participating students.

The Board supports the organization and establishment of a Parent Teacher Association (PTA) in every school in the Corporation. Any parent organization desiring to use the name of the Corporation must obtain the approval of the Superintendent. The Board relies upon approved organizations to operate in a manner consistent with public expectations for the schools and reserves the right to withdraw sponsorship from organizations that violate the bounds of community standards and expectations.

9500 COMMUNITY PARTNERSHIPS

School systems play a role in a community's productivity and well-being, and likewise, community partnerships enrich educational outcomes for students enabling their success after graduation. Therefore, this Board shall seek to establish new partnerships and to maintain existing relationships and lines of communication with any institution, organization, or business that provides FWCS students with programs, training, resources, or services not otherwise available in the District.

The Superintendent may enter into such cooperative ventures for the purpose of providing programs that correlate to the Corporation's mission, vision, goals, and core values and help

students better accomplish the educational outcomes established by this Board. Further, the Board encourages members of the FWCS staff to make their many talents and specialized knowledge available, as time permits, to enhance the quality of community activities.

9700 RELATIONS WITH SPECIAL INTEREST GROUPS

Any request from civic institutions, charitable organizations, or special interest groups which involve such activities as patriotic functions, contests, exhibits, sales of products to and by students, fund raising, and free teaching materials must be carefully reviewed to ensure that such activities promote student interests without advancing the special interests of any particular group.

It is the policy of the School Board that students, staff members, and Corporation facilities not be used for advertising or promoting the interests of any nonschool agency or organization, public or private, without the approval of the Board or its delegated representative.
