Old SIP Goals

- Although we did not meet the goal set for us by GCS- we still improved in both overall performance and 3rd grade EOG proficiency goals.
- We have improved on the reducing of the lost instructional days by discipline referrals.
- We did not meet that goal of decreasing the chronic absenteeism rate, but lowered it by several percentage points.
- Teachers (especially K-2) should include the importance of attendance in their curriculum nights and how it can be detrimental if the foundation is not set prior to testing grades (3-5).
