

Origami Club

Students will have the opportunity to:

Explore their creativity through the art of paper folding (origami).

Practice fine motor skills by creating a variety of origami models, including animals, flowers, and geometric shapes.

Learn the cultural significance and history of origami as an art form.

Follow step-by-step instructions to create complex designs and develop problem-solving skills.

Develop patience, precision, and attention to detail through the folding process.

- Understand the importance of practice and persistence in mastering new skills.

Teacher: Emilija Blazheska Grades: 1 - 3

The total number of students is limited on 10.
