Dear Parents:

In collaboration with our transportation partner, First Student, Mt. Lebanon School District is launching FirstView®, a real-time vehicle GPS tracking and student transportation monitoring platform.

With FirstView, parents and caregivers can download the secure, easy-to-use vehicle tracking mobile app that will allow you to stay easily connected with your student(s) daily trips.

- See the real-time vehicle location via GPS and track its progress.
- Easy access to driver and vehicle details as well as updates regarding any changes.
- Set-up family members and caregivers to receive trip email alerts.
- Dedicated customer support team for all app-related questions.

Let's get you started with FirstView!

Step 1: Download the free, easy-to-use mobile app, which is available on both iOS and Android devices. Search for app name: **FirstView 1.0**

Step 2: Set up your FirstView 1.0 mobile app profile. You'll be asked to provide:

- The 5-character District Code: **F2A6Y**
- Your student's date of birth
- Phone number of the primary guardian on file
- Confirm the student(s) name to be added

Step 3: Once you have added your student, set-up and receive distance notifications in app, via push notification, or via email. To set this up within the FirstView app, go to Settings > Notifications > Manage Distance Notifications.

Step 4: Next, you can have yourself or other family members and caregivers receive daily trip email alerts. To set this up within the FirstView app, go to Settings > Notifications > Manage Recipients.

Step 5: Once you have added your student(s) and signed up any additional family members and caregivers with daily trip email alerts, begin tracking their daily trips!
