January 8, 2020
6:00PM - 7:00PM
Agenda Items

- Welcome
- Existing Engineering and Design Course
 - New Name?
 - Curriculum and Supplies

Informational and Announcement Section

- ATSI and TSI Plans - Everything is on track and we are working with Dr. Foehl from BCIU
- Preliminary Scheduling for the 20-21 SY - Started
 - MCL in Mind at the Elementary Schools
- Preliminary School Calendar for the 20-21 SY - In Progress
- Advancing STEM Grant - We are partnering with the following organizations:
 - BCIU
 - STEM coaching and training for staff and students
 - FOSS Kits for grades K-8
 - STEM Furniture for the District
 - STEM Scouts
 - Scholarships for Students
 - STEM Supplies and Resources
 - Science Explorers
 - After School Programs and Summer Programming
 - Berks County Water Authority
 - Programming for students in grades 9-12
 - STEM resources and supplies
 - Berks County Parks Rec Department
 - Programming for students in grades 9-12
 - STEM resources and supplies
 - RACC
 - Programming for rising juniors and seniors who need extra math support for STEM related fields and/or education tracks
- Old Wood Shop in MSHS - Looking for community partnership ideas that lead to a certification and/or employment for local businesses and manufacturers. The partner would need to support the renovation project for this space and more. We are looking to

create a school within a school. We want to create a track for our high school students that BCTC does not offer, but will lead to employment.

- Book Study -MPEC led by Mrs. Landherr
 - Lost at School by Dr. Ross Greene
 - Intended Outcome: A collaborative approach to identifying and understanding a students concern about or perspective on a given issue.
 - The mindset is that “kids do well if they can”
