Track Academic Progress

Regularly check your students' performance through Schoology and PowerSchool. These platforms provide up-to-date information about grades, assignments, and overall academic progress, allowing you to stay on top of your child's educational journey and provide support when needed.

Reach out to the EDHS Student Services Office after the first day of school to be sent an email with PowerSchool or Schoology instructions to setup your account. This is a great way to monitor your student's grades and communicate with their teachers.

Encourage Involvement

Encourage your child to participate in extracurricular activities such as clubs, sports, Linked Learning Academy, CTE program, or AVID. The more engaged students are, the more successful they are in academics and personal development. School involvement helps students make connections, develop valuable skills, and build a sense of belonging.

Attend School Events & Your Child's Activities

Show your support by attending school events, activities, and extracurricular performances. Attending these events demonstrates to your child that you value their education and achievements, creating a positive environment that encourages success.
