2024-2025

San Joaquin County SELPA

**SAN JOAQUIN COUNTY
OFFICE OF EDUCATION**

SERVICES TO ALL DISTRICTS

WHO WE ARE

The San Joaquin County Special Education Local Plan Area (SJC SELPA) is a regionalized services office, providing special education services to the San Joaquin County Special Education Local Plan Area school districts. Our goal is to provide support to district personnel leading to improved programs and resources. We are made up of 11 Local Education Agencies as indicated in the column to the right. An important function is to act as an interagency liaison and a bridge between community resources and student needs.

The SJC SELPA, one of three SELPAs in San Joaquin County, has been in operation providing support since 1981. There are approximately 12,000 students with identified special education needs within the SJC SELPA, ranging in age from birth to 22. Staff and services available include but are not limited to the following:

- Program/Educational Specialists may be requested to consult with teachers/administrators on individual students providing technical assistance regarding Individualized Education Program (IEP), Alternative Dispute Resolution or Individual Transition Plan (ITP) development; behavioral interventions; curricular resources, and program recommendations. Networking and staff development are major components and are provided at the district, SELPA, and regional levels.
- Career vocational staff provide consultation to school site staff in areas of vocational screening, career exploration, life skills curriculum, and community based instruction. Information on local resources such as public transportation, the Department of Rehabilitation, Social Security Administration, Workforce Investment Board, and Valley Mountain Regional Center is also available. Job training and coaching to assist with work skill development may be provided to students through the Workability I Grant.

WHAT WE PROVIDE

GENERAL SERVICES
