

Dear parents,

We have some great news to share with you! Our district has purchased Chromebooks for all of our 5th grade students. We will begin a program with 1:1 chrome books for our fifth grade students. In alignment with our goal of helping students in their transition to middle school for next year, we will work with students in teaching how to properly use them as well as understand their individual responsibilities in their safe upkeep and maintenance.

Each student will be assigned their own machine and will be responsible for it throughout the school day as they trade classes. At this time, Chromebooks will only be used at school during the school day. If that changes, we will notify parents of the change. Students will receive the exact same machine when they start 6th grade.

There is a PowerPoint on our building website that parents and students must watch to understand costs, expectations and use of the devices.
https://www.lickingvalley.k12.oh.us/lickingvalleyintermediate_home.aspx After viewing the PowerPoint, you will need to complete and return the Chromebook Loan Agreement.

If you have questions or concerns, please contact your child's teacher or Mrs. Crum. We are really excited to be able to help guide your child in the safe and appropriate use of the device before they transition to middle school.

Sincerely,
The fifth grade team at LVIS
