# Communication Update

## *SM App*

This app appears to have glitches that the company has not been able to solve. It is not happening to everyone but it doesn't fully work for a lot of members. **You may delete this app!**

## *School Messenger*

This app has been successful across all phone types and carriers. **Please download this app!!!** You can submit attendance and receive district/building messages on this app. ~~You can also communicate directly with any group you have joined!~~

*Thank you!*

## *Apologies and Thank You*

We truly appreciate your patience with this process. The company's development team has been working on this since early in the year and at this point we have decided to use their original app instead of the updated SM app. We appreciate all of those who helped us problem solve!

*Update Your Info!*

## *Power School App*

- login in
- go to MORE (3 dots bottom right)
- go to Forms
- begin completing all the forms- to ensure data is correct and up to date
- this will be done annually in the fall as well
