REGULAR SESSION A motion was made by C. Parks, seconded by B. Adams, to return to regular

The motion was carried. 5 yes 0 no 0 abstentions

APPROVE AGENDA: A motion was made by E. Mitchell, seconded by B. Adams, to approve the agenda for the meeting. The motion was carried. 5 yes 0 no 0 abstentions

PRESENTATIONS/RECOGNITIONS: Vice President Lisa Kostecki introduced a short video highlighting the heroic actions of Victor Senior High School student Jack Crabbe in the summer of 2024. Jack saved his father's life by performing CPR after his father experienced a cardiac emergency on the golf course. Mrs. Kostecki indicated on behalf of the Board of Education, and the entire Victor community, how proud they are of Jack for his quick thinking, calmness, and bravery in saving his father's life. Mrs. Kostecki then introduced Senator Pam Helming who presented Jack with the New York State Liberty Medal. Senator Helming explained that the Liberty Medal is awarded to individuals who demonstrate exceptional heroism and humanitarian acts on behalf of their fellow New Yorkers. This is the highest civilian honor that a New York State Senator can bestow upon an individual.

SUPERINTENDENT'S UPDATE: Dr. Terranova recognized the heroic efforts of Jack Crabbe, and congratulated him on the honor he received. He thanked Jack, his family, as well as the Health and Physical Education teachers who teach the critical skill of CPR. He also thanked Senator Helming for giving Jack the highest honor from the State Senate. Dr. Terranova then reminded the community of a central theme of the Victor Central School vision statement which states, "Every day, in every building, every person will feel safe, valued, inspired, and motivated to grow—both academically and personally. We will celebrate diversity, foster a sense of belonging and strive for academic achievement, and students will become informed, confident scholars and leaders who are prepared to thrive in an ever-changing world." He continued by saying it is a focus on belonging and celebrating diversity. A major key to this focus is a teaching of empathy so that differences in people are not looked upon as weaknesses or threats, and instead are seen as strengths and values. Dr. Terranova also noted the District is in the process of scheduling follow-up meetings with our local Legislators to advocate for the state aid needed by the

District. He reminded the community that Victor is an anomaly, with an increased student enrollment in the past 15 years, unlike most of the districts surrounding us. He thanked the Board of Education and their support for Advocacy for our District.

PUBLIC PARTICIPATION: No public participation at this time.

CAMPUS NEWS: VCS administrators summarized campus news and events.

ROLE OF THE LEARNING CENTER IN THE DISTRICT UPDATE: Mrs. Karen Finter. Assistant Superintendent for Instruction, and Mrs. Karyn Ryan, Assistant Superintendent for Pupil Services, presented on the role of the Learning Center in the District. The center aims to remove barriers to student success and ensure continuity of instruction, particularly for students who have been suspended, hospitalized, or need extra support. The Learning Center provides short and long-term tutoring needs, a space for professional development, and also houses the "Spot Mart" food pantry. A full-time Teacher and Teacher Assistant staff the center, and receive support from counselors, related service providers, classroom teachers, food service, and security personnel. 100 students were served last school year as of the end of January, and 78 have been served so far this school year in the same time frame. The decrease in students served is attributed to the district's focus on Tier 1 behavior needs and preventative supports at the building level. The center ensures continuity of instruction, keeps students connected to the campus, and provides transitional bridges back to regular classes after absences. Mrs. Ryan then highlighted two examples of students who succeeded in their time at the Learning Center. Mrs. Mitchell expressed her gratitude for the teacher and teacher assistant running the center and their ability to teach so many different subjects and grade levels. She then asked what their teaching certification is in, as it is phenomenal what they're able to do. Mrs. Ryan indicated the teacher has a certification in Special Education, Social Studies, and has a background in working with students with disabilities and also providing tutoring and instruction at the 7-12 grade level. Mrs. Ryan also noted she believed the Teacher Assistant has an Art certification. Mr. Adams thanked the presenters for providing the data, particularly the information regarding the decrease in pupil usage. He says it speaks volumes to what the Center does and can continue to do. Dr. Parks thanked the presenters for sharing the information on the decrease in

total students served. He noted it speaks to all the adults in the district who are identifying things earlier. Dr. Parks also encouraged Mrs. Ryan and Mrs. Finter to continue to envision what is needed in these spaces as we go through the Capital project; to be able to keep going in the magnificent direction it's currently going.

BUDGET DEVELOPMENT; Office of Instruction Supplies and Materials, Pupil Personnel Services Supplies and Materials: Mr. Richard Stutzman, interim Assistant Superintendent for Business, presented non-personnel related budget items within the Office of Instruction and the Office of Pupil Personnel Services. Since the previous Budget presentation on January 16, updated financial information from WFL BOCES has been communicated. Mr. Stutzman updated the Board that the Transportation costs increased by \$3,000 to account for the increased summer school program costs and for a Transportation Consultant from the Franklin, Essex, Hamilton BOCES to assist in maximizing our Transportation aid. Within the Office of Instruction budget, curriculum supplies saw an increase, driven by new ELA consumables, science curriculum, and general supplies. Mr. Stutzman clarified that the textbook line-item increase was a reallocation of existing funds, and not a new expense. The career and technical program budget also sees an increase due to rate increases and greater student participation. The summer school increase is based upon an anticipated rate increase and increased student participation. Mr. Stutzman then reviewed the Office of Pupil Services budget items. He spoke to the increases of general education tuition due to an additional student, the contractual increases as the needs for additional services are needed, and supplies increase attributed to the inflationary costs. The Students with Disabilities Tuition and BOCES lines increases are attributed to increased rates and an additional student and services. Mr. Stutzman then discussed the importance of federal and state funding. He clarified that if these funds go away, either the services will not be available, or the local taxpayer will pick up these costs. The total grants at the federal and state level are \$2.7 million. The upcoming budget calendar was then reviewed. Mrs. Mitchell thanked Mr. Stutzman for including the Federal Funds slide. She asked for Mr. Stutzman's input on what to do if the \$1.3 million from the Federal government were to go away. Mr. Stutzman said stopping a program in the middle of the year would be difficult, so he would suggest using surplus to finish the program year. Moving into the 2026-2027 budget, those funds would then either need to be accounted for differently, or the district would not be able to offer as much. Dr. Parks asked about the Transportation Consultant referenced, and what that consultant would be looking at. Mr. Stutzman clarified that they would be looking at the efficiency of the bus runs based on fleet size. They are not looking at the impact of the district moving from diesel to electric buses, but rather based on our current bus runs. Mr. Stutzman clarified that one of the challenges we have is due to scheduling constraints with our bus runs; he also noted that this consultation is able to be aided by BOCES.

APPROVE TRIPS: A motion was made by B. Adams, seconded by E. Mitchell to approve the following trips: Art Club to New York City, NY from 5/16/2025 to 5/18/2025, Winterguard to Salem, Massachusetts from 2/14/2025 to 2/16/2025 to compete in Regional competition; Winterguard to Bethlehem, Pennsylvania from 3/21/2025 to 3/23/2025 to compete in Regional competition; Winterguard to Dayton, Ohio from 4/2/2025 to 4/6/2025 to compete in the World Class Final Championships. The motion was carried. 5 yes 0 no 0 abstentions

POLICY REVIEW Second Read: Second Reading of Policy 1901, School Volunteers and Visitors to the School.

MEETING REPORTS:

Monroe County School Board Association Committee Reports: Mrs. Kostecki attended the District Operations meeting where they spoke about school district budgeting in the post Foundation and Federal COVID funds era. She mentioned it was excellent, informative, and something Monroe County School Boards should consider having all board members see. Dr. Parks agreed that it was beneficial and

something all boards should have access to each year. Mrs. Kostecki also attended the Information Exchange meeting on February 5th about FERPA and Ed Law 2-d. Mrs. Kostecki then spoke about the Legislative breakfast on February 1st where many of our board members were able to advocate for Victor and point out the differences here in our district compared to many of the others. Students were also able to speak on several topics such as mental health and transportation. In regards to the Information Exchange meetings, Dr. Parks stated that having one or two of our board members attend would be beneficial. He suggested looking at the calendar and dividing them up based on availability, as the information is worthwhile.

Standing Committee Updates: Mr. Adams updated the Board that the Graduates of Distinction Committee met recently, and he is impressed with the recommendation that will be forthcoming. Dr. Parks said he sits on the Athletic Hall of Fame Committee and one of the discussions they have had was around the plaques and recognitions that highlight not only Athletic achievements, but also Visual and Performing Arts and Graduates of Distinction groups; and being able to display those in a digital repository due to lack of wall space in the building. Mrs. Prescott then spoke about a recent Inquiry Program Advisory Council meeting where they highlighted different Enrichment opportunities. Intermediate School offerings by Mrs. Smith-Faczan included Math Olympiad, poetry, book clubs, robotics, engineering, building tiny houses, and rocket launchers. At the Primary School, Mrs. Coniglio had offerings including logic puzzles and cross-stitch. Mrs. Prescott also thanked and recognized Library Media Specialists Maggie Elliot and Michelle Linse, who are both retiring this year, for being assets to the Inquiry Program for years.

UPCOMING EVENTS: There will be a Budget Workshop on Thursday, February 27 at 6:30 PM. The next regular board meeting will be Wednesday, March 12 at 7:15 PM. There will also be another Budget Workshop on Thursday, March 20 at 6:30 PM. The above meetings are anticipated to be located in the Early Childhood School Boardroom. There is also an Advocacy trip to Albany on March 3.

1.0 Executive Summary

This document provides the operational protocols and tactics when responding to a critical or unexpected security incident. This document will be known as the *Cybersecurity Incident Response Plan*, and it will include a general overview of preparedness. The plan will consist of record-keeping investigation and communications templates, NIST Cybersecurity Framework pre-checklists, and a current district data flowchart. Also included are team roles with district staff names and contact information, and an emergency vendor call list. This *Cybersecurity Incident Response Plan* (CIRP) is essential for an efficient and swift response to a cyber incident. This plan provides steps and procedures that will be activated when responding to an incident.

The goals of the plan will be to:

- Identify, outline and document the control and support of critical systems and place a high level of security that will be identified with documentation and training.
- Hold the incident response plan as a confidential document that will be sealed to only critical stakeholders involved in supporting and protecting the critical areas identified.
- Create an emergency response team prepared to act in times of crisis.
- Create a process of prevention and preparedness from district stakeholders.
- Provide a high-level approach for how the incident response capability fits into the overall organization.
- Create a process that will activate when an incident is discovered.
- Protect and document any or any further vulnerabilities from an incident.
- Protect the district's critical systems, data, and student and staff record integrity.
- Meet all guidelines of state and federal regulations.

If a school district experiences a cybersecurity incident, it is essential to observe and follow the steps below to ensure the safety of district resources and assist in protecting the component districts.

- 1. **Identity**: Identify the systems that are impacted.
- 2. **Isolate**: Take those devices that are compromised offline immediately.
- 3. **Communicate**: Notify all relevant stakeholders and the appropriate agencies to assist in the correct mitigation response. During the communication process, the priorities must be identified, and a timeline created that will help to make decisions as the active incident investigation continues.
 - a. Notify the Superintendent of Schools
 - b. Notify the Director of EduTech
 - c. Notify the NYS Chief Privacy Officer
 - d. Notify the District Insurance Carrier
 - e. Notify the District Legal Counsel
- 4. Investigate: Investigate the impacted system to identify the primary cause of the incident with guidance from resources, such as EduTech and MS-ISAC. In ransomware or malware, there may be secondary infections not present at the time; however, the possibilities of reinfection are high because

of the likelihood of undetected auxiliary infections. Identify if personally identifiable information (PII) for staff and students may have been compromised.

- 5. **Mitigate**: Begin the cleanup process to ensure that all traces of the infections identified are removed from the environment. This will be the most time-consuming part of the process and is critical to restoring the environment to a secure and functional status. Refresh all computers with a clean operating system and software.
- 6. **Recovery:** The process of restoring and returning affected systems and devices to a secure state and using tools to return systems into production and restore business as usual.
- 7. **Lessons Learned:** Once the investigation is completed, the *Incident Response Team* (IRT) should discuss and review the documentation of the process and analyze the event. The IRT is looking for security holes, vulnerabilities, and areas needed for training. The lessons learned should prevent future incidents and create a more secure district environment.

The response to a cyber incident being reported is **critical**. The purpose of the Regional Information Center's response will be used to protect all parties. In partnership with district technology staff, EduTech, and the New York State Education Department, this team will respond swiftly in containing any further damage.

1.1 Definitions

Cybersecurity Incident – A cybersecurity incident is any event that threatens the confidentiality, integrity, or availability of the information resources supported or utilized internally, especially sensitive information whose theft or loss may be harmful to individual students, our partners, or our organization.

Cybersecurity Data Breach - A cybersecurity breach means the unauthorized release, access, or disclosure of students' personally identifiable information (PII) or teacher and principal APPR by or to a person not authorized to access, use, or receive the student, teacher, or principal data.

Cyber Incident Log – The Cybersecurity Incident Log will capture critical information about a cybersecurity incident and the organization's response to that incident. It should be maintained while the incident is in progress.

Incident Response Plan – A step-by-step walk-through of high-level procedures and templates that prepares districts for a cyber incident and develops an effective action plan.

Incident Response Manager (IRM) – The Incident Response Manager has the overall responsibility and authority during the incident to coordinate and direct all facets of the incident response efforts.

Incident Response Team (IRT) – The IRT is made up of experts across different organizations whose charge is to navigate the organization through a cybersecurity incident from the initial investigation to mitigation to post-incident review. Members include an Incident Response Manager, technical hardware and networking experts, front-end software experts, communications experts, and legal experts

Incident Summary Report (ISR) – The Incident Summary Report (ISR) is a document prepared by the IRM at the conclusion of a cybersecurity incident. It will provide a detailed summary of the incident, including how and

why it may have occurred, estimated data loss, affected parties, and impacted services. Finally, it will examine the Cybersecurity Incident Response Plan procedures, including how the IRT followed the guidelines and required updates.

Isolate Thread – To prevent the spread of malware across local and regional networks, unplug the ethernet cable or turn off Wi-Fi on infected workstations.

Process Improvement Plan (PIP) – The PIP is a document prepared by the IRM at the conclusion of a cybersecurity incident. It will provide recommendations for avoiding or minimizing the impact of future cybersecurity incidents based upon the "lessons learned" from the recently completed incident. This plan should be kept confidential for security purposes.

Report Attack – School districts must report every discovery or report of a breach or unauthorized release of a student, teacher, or principal data to the Chief Privacy Officer no more than ten calendar days after discovery.

Secure Network – To help limit the scope and progression of an attack, information systems may be taken offline or have access terminated. The network may be isolated from regional or outside communications.

2.0 Purpose

The Victor Central School District is a trusted public education provider to PK-12 students. Victor stores information related to students, staff, and internal business operations and manages and maintains the technical infrastructure required to house and maintain this information.

Additionally, Victor contracts with EduTech, and vendors of digital services and products to manage and maintain this data and infrastructure.

This Cybersecurity Incident Response Plan outlines the procedures Victor uses to detect and respond to unauthorized access or disclosure of private information from systems utilized, housed, maintained, or serviced by Victor. More specifically, this plan defines the roles and responsibilities of various staff members with respect to the identification, isolation, and repair of data security breaches, outlines the timing, direction, and general content of communications among affected stakeholders, and defines the different documents that will be required during various steps of the incident response.

Victor also implements practices designed to proactively reduce the risk of unauthorized access or disclosure, such as training staff with respect to legal compliance requirements, following appropriate physical security and environmental controls for technical infrastructure, and deploying digital security measures such as firewalls, malware detection, and numerous other industry-standard systems.

In the event of a cybersecurity incident, Victor staff have been trained to deal with the matter expeditiously. Victor staff is trained on a yearly basis to recognize anomalies in the systems they regularly utilize and to report

any such irregularities as soon as possible to the **Incident Response Manager** (IRM), so the **Incident Response Team** (IRT) can be mobilized. Throughout the year, the IRM and the IRT members are kept up to date on the latest security threats and trained in modern techniques of incident remediation.

The availability and protection of the information resources managed by the systems we maintain are of paramount importance to our school district.

3.0 Roles

The Incident Response Team (IRT) leads, guides, manages, and controls the process of an incident. During the phases of investigation, the team works together to maintain and support the security, information, and operation of running the situation. All team members are trained in information security and data privacy best practices. The team keeps all information and processes confidential and secures the district's data and systems by enforcing the protection or containment of security issues.

Compulsory Attendance Ages

All children are required by New York State law to attend school full time, in a public, private or parochial school, unless exempt from attendance in conjunction with current law or regulation, and approved by the State Education Department from the first day of session in September of the school year in which the minor becomes six years of age through the last day of the school year in which such minor becomes sixteen years of age, unless he/she has completed a four-year high school course of study. A minor who has completed a four-year high school course of study is not required to attend.

Additionally, students between the ages of sixteen and seventeen are required to attend school until the last day of session in the school year in which they become seventeen, unless they are employed. Proof of employment must be furnished to the Superintendent of Schools in the form of a letter from the employer. In addition, exceptions to the required school age of seventeen can be made by the Superintendent in unique situations that warrant this consideration.

The Board of Education, through the Superintendent of Schools as chief administrative officer, is responsible for enforcement of the Compulsory Education Law.

Student Records

The Board of Education recognizes its legal responsibility to maintain the confidentiality of student records. As part of this responsibility, eligible students and parents/guardians have the right to inspect and review education records, the right to seek to amend education records and the right to have some control over the disclosure of information from the education records. These rights shall be consistent with state and federal law, including the Family Educational Rights and Privacy Act of 1974 (FERPA) and its implementing regulations.

The Board also recognizes its responsibility for the retention and disposition of the District's student records in accordance with Schedule ED-1 as adopted by the Board in policy 1120.

The District will use reasonable methods to provide access to student education records only to those authorized under the law and to authenticate the identity of the requestor. The District will document requests for and release of records, and retain the documentation in accordance with law. Furthermore, pursuant to Chapter 56 of the Laws of 2014, the District will execute agreements with third-party contractors who collect, process, store, organize, manage or analyze student personally identifiable information (PII) to verify that the contractors comply with the law in using appropriate means to safeguard the data.

The Superintendent of Schools shall be responsible for all requirements under law and the Commissioner's regulations are carried out by the District.

Definitions

Authorized Representative: an authorized representative is any individual or entity designated by a State or local educational authority or a Federal agency headed by the Secretary, the Comptroller General or the Attorney General to carry out audits, evaluations, or enforcement or compliance activities relating to educational programs.

Education Record: records, in any format, directly related to the student and maintained by the District or by a party acting on behalf of the District, except:

- (a) Records in the sole possession of the individual who made them and not accessible or revealed to any other person except a substitute (e.g. memory joggers);
- (b) Records of the District's law enforcement unit;
- (c) Grades on peer-graded papers before they are collected and recorded by a teacher.

Eligible Student: a student who has reached the age of 18 or is attending postsecondary school.

Legitimate educational interest: a school official has a legitimate educational interest if he/she needs to review a student's record in order to fulfill his or her professional responsibilities.

Personally identifiable information: information that would allow a reasonable person in the school or its community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty. Such data might include

social security number, student identification number, parent's name and/or address, a biometric record, etc.

School official: a person who has a legitimate educational interest in a student record who is employed by the District as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a member of the Board of Education; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official performing his or her tasks. Volunteers may be considered school officials for purposes of access to personally identifiable information if they are under the direct control of the District, are trained in the requirements of law under this policy, have a legitimate educational interest, and the District uses reasonable methods to limit access to only the information that is necessary to fulfill their volunteer duties. Volunteers may only access the information necessary for the assignment, and must not disclose student information to anyone other than a school official with a legitimate educational interest. The building principal shall provide adequate training on confidentiality of students' records.

Third party contractor: is any person or entity, other than an educational agency, that receives student data or teacher or principal data from an educational agency pursuant to a contract or other written agreement for purposes of providing services to such educational agency, including but not limited to data management or storage services, conducting studies or audit or evaluation of publicly funded programs.

Annual Notification

At the beginning of each school year, the District shall publish a notification that informs parents, guardians and students currently in attendance of their rights under FERPA and New York State Law and the procedures for exercising those rights. A 'Parents' Bill of Rights for Data Privacy and Security' will be posted on the District website and included in any agreements with third-party contractors. This notice and 'Bills Of Rights' may be published in a newspaper, handbook or other school bulletin or publication. This notice and 'Bill of Rights' will also be provided to parents, guardians, and students who enroll during the school year.

The notice and Parents' Bill of Rights will include a statement that the parent/guardian or eligible student has a right to:

- 1. inspect and review the student's education records;
- 2. request that records be amended so they are not inaccurate, misleading, or otherwise in violation of the student's privacy rights;
- 3. consent to disclosure of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent; and
- 4. file a complaint with the U.S. Department of Education alleging failure of the District to comply with FERPA and its regulations; and/or file a complaint regarding a possible data breech by a third party contractor with the District and/or the New York State Education Department's Chief Privacy Officer for failure to comply with state law.

The annual notice and Parents' Bill of Rights will inform parents/quardians and students:

- 1. that it is the District's policy to disclose personally identifiable information from student records, without consent, to other school officials within the District whom the District has determined to have legitimate educational interests. The notice will define "school official" and "legitimate educational interest".
- 2. that, upon request, the District will disclose education records without consent to officials of another school district in which a student seeks to or intends to enroll or is actually enrolled.
- 3. that personally identifiable information will be released to third party authorized representatives for the purposes of educational program audit, evaluation, enforcement or compliance purposes.
- 4. that the District, at its discretion, releases directory information (see definition below) without prior consent, unless the parent/guardian or eligible student has exercised his/her right to prohibit release of the information without prior written consent. The District will not sell directory information.
- 5. that, upon request, the District will disclose a high school student's name, address and telephone number to military recruiters and institutions of higher learning unless the parent or secondary school student exercises his/her right to prohibit release of the information without prior written consent.
- 6. of the procedure for exercising the right to inspect, review and request amendment of student records.
- 7. that the District will provide information as a supplement to the 'Parents' Bill of Rights' about third parties with which the District contracts that use or have access to personally identifiable student data.

The District may also release student education records, or the personally identifiable information contained within, without consent, where permitted under federal law and regulation.

The District shall effectively notify parents/guardians and students who have a primary or home language other than English.

In the absence of the parent or secondary school student exercising his/her right to opt out of the release of information to the military, the District is required, under federal law, to release the information indicated in number five (5) above.

Directory Information

The District has the option under FERPA of designating certain categories of student information as "directory information." The Board directs that "directory information" include a student's:

- Name
- ID number, user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems (only if the ID cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the student's identity)

- Address (except information about a homeless student's living situation, as described below)
- Telephone number
- Date and place of birth
- Major course of study
- Participation in school activities or sports
- Weight and height if a member of an athletic team
- Dates of attendance
- Degrees and awards received
- Most recent school attended
- Grade level
- Photograph
- E-mail address
- Enrollment status

Information about a homeless student's living situation shall be treated as a student educational record, and shall not be deemed directory information. A parent/guardian or eligible student may elect, but cannot be compelled, to consent to release of a student's address information in the same way they would for other student education records. The District's McKinney-Vento liaison shall take reasonable measures to provide homeless students with beneficial activities. The District permits the parent/guardian to select the school's address as the student's address for purposes of directory information.

Social security numbers or other personally identifiable information will not be considered directory information.

Students who opt out of having directory information shared are still required to disclose their student ID cards.

Once the proper FERPA notification is given by the District, a parent/guardian or student will have 14 days to notify the District of any objections he/she has to any of the "directory information" designations. If no objection is received, the District may release this information, at the discretion of the Superintendent, without prior approval of the parent/guardian or student for the release. The purposes for which directory information may be released include, and shall be limited to, placing the information in school newsletters, school yearbooks, school-sponsored websites, and school sports programs, and disclosure to the media for school purposes to celebrate the academic and extra-curricular achievements of individual students.

Once the student or parent/guardian provides the "opt-out", it will remain in effect after the student is no longer enrolled in the School District.

The District may elect to provide a single notice regarding both directory information and information disclosed to military recruiters and institutions of higher education.

School Volunteers and Visitors to the School

The Board recognizes the need to develop a school volunteer program to support District instructional programs and extracurricular activities. The purpose of the volunteer program will be to strengthen school/community relations through positive participation.

Volunteers are persons who are willing to donate their time and energies to assist Principals, teachers, and other school personnel in implementing various phases of school programs. Volunteers shall serve in that capacity without compensation or employee benefits except for liability protection under the District's insurance program. All volunteers will work under the supervision of a District employee.

All visitors, including volunteers, will be required to report to the Main Office upon arrival at school and share the purpose for their visit. Visitors will be required to provide a state or government issued ID to enter into the Visitor Management System at the appropriate school building.

During School Hours

Each prospective volunteer will be required to provide a valid state or government issued ID and be cleared by the Visitor Management System at the appropriate school building prior to entering. Once entry is approved, the volunteer will be issued a badge with the visitor's name, the date, and purpose of visit.

The District retains the right to determine the status and service of volunteers. It is the responsibility of the building principal/administrator to inform all staff and prospective volunteers of the volunteer policy.

Electronic Visitor Management System The District utilizes an electronic visitor management system (EVMS) in order to ensure the safety and welfare of its students, staff, and guests. When any visitor, including parents and volunteers, wishes to enter any school building during school hours, they must present a valid state or government issued photo ID, such as a valid driver's license. Prior to entry being permitted, the EVMS will check visitors against known sexual offender databases. Once the visitor's ID is scanned, the EVMS will print a visitor's badge which must be worn throughout the duration of the visit. Visitors should return this badge at the end of their visit so that they may be checked out of the building in a timely fashion. Visitors who refuse to produce IDs or fail the check of sexual offender databases, will be asked to either wait in the school building lobby or to leave school premises.

Administrative regulations will be developed to implement the terms of this policy.
