

The background of the image shows a group of students in a science classroom. They are seated at desks, each with a microscope. The students are focused on their work, and the classroom is dimly lit, with the primary light source coming from the front, creating a focused and studious atmosphere. The text is overlaid on this background.

A grayscale photograph of three students in a science laboratory. They are wearing safety goggles and are focused on their work. The student on the left is using a pipette to transfer liquid into a small container. The student in the middle is holding a test tube. The student on the right is using a pipette. There are microscopes and other lab equipment on the table.

THANK

YOU

PLEASE DRIVE SAFELY!
