Deadline: May 23 (\$100 after May 23)

Are you a current or future Marquette Swimmer or Diver looking to improve your skills? This clinic is open to both boys and girls that currently attend Marquette or will in the future, from 8^h grade to Seniors for the 2024-25 school year.

During the week, we will focus on a different stroke each day, with a day for starts and turns. For one hour we will focus on technique, and a half hour will be a leadup to what you can anticipate in high school practices. Diving will be approaches, entries, and everything in between!

For incoming athletes, this is a great way to meet the coaches! For returning athletes, it's a great chance to improve your technique in a non-competitive environment!
