Verify Ethnicity & Race - Recently, the federal government expanded the categories for student ethnicity and race data. Because of these changes, the new laws require us to resurvey every student in our district. We need to ask you to identify your child ethnicity and one or more state racial groups.

Washington state now has 222 racial categories to choose from. You will be able to check multiple races for your child. Please do NOT use the Write-In for White. It is in the code table as W00.

### 23-24 Poulsbo Elem Online Check-in for Returning Students

JAYNE (POULSBO ELEMENTARY 2023-2024)

#### Step 2. Verify Ethnicity & Race (Required)

Recently, the federal government expanded the categories for student ethnicity and race data. Because of these changes, the new laws require us to resurvey every student in our district. We need to ask you to identify your child ethnicity and one or more state racial groups. Washington state now has 222 racial categories to choose from. You will be able to check multiple races for your child. Please do NOT use White Write-In. To select White, it is just below Pacific Islander Write In.

Dear Parent or Guardian:

Each year, school districts in Washington are required to report student data by ethnicity and race categories to the state's Office of Superintendent of Public Instruction (OSPI). Ethnicity and race categories used in our district are the same as are used in all Washington school districts. They are set by the federal government, the Washington State Legislature, and OSPI. OSPI is required to report the total number of students in various categories in each school to the federal government.

Student race and ethnicity information is collected for the purpose of improving teaching and learning. Accurately identifying groups of students currently underserved by the education system is the first step in creating positive changes at the local, state, and national level. Also, please note student data will never be reported in a way that identifies individual students, nor will it be used to harm individuals and/or groups of students. For more information on family privacy rights in education see the following website: [HTTP://FAMILYPOLICY.ED.GOV/FERPA-PARENTS-STUDENTS](http://FAMILYPOLICY.ED.GOV/FERPA-PARENTS-STUDENTS).

Recently, the federal government and OSPI changed the reporting categories for student ethnic and race data. As a result of the new reporting categories, we need to re-survey ALL students in the North Kitsap School District.

We prefer that parents complete the information through Online Check-In, as this ensures our school data is accurate. We feel it is in your best interest to self-identify the race and ethnicity of your child. If you decide not to complete the race and ethnicity survey, the school will do it for you by observer identification. To do this, we will collect background information about your student by:

- \* Reviewing student records and document the race and ethnicity of the student in previous years.
- \* If the student has siblings, reviewing their student records and document previous race and ethnicity data.
- \* Talking with counselors and teachers who have had the student. Ask for insights regarding the student's race, ethnicity, and culture.
- \* Using responses to the home language survey to identify the student's home language.

As a parent, you always have the option of changing the race and ethnicity records kept at the school. To do this, you can log into your parent skyward family access account and request the changes to be made. A notice will be sent to the school to process the change.

If you are more comfortable speaking in a language other than English, we can arrange to have an interpreter.

**North Kitsap School District**  
**Student Network/Internet User Agreement**  
**and Parent Permission Form**      **School Year 2023-24**

**Note: Fields with an asterisk (\*) are required**

**Introduction**

We are pleased to offer students of the North Kitsap School District access to the district computer network. To use these resources, all students under age 18 must obtain parental permission. complete this document carefully, review its contents with your student, and sign and initial with your name and date. If you have any questions or concerns about this permission form or any aspect of the computer network should be referred to the Technology Department. A copy of Board policy regarding student access to networked information resources is available on the North Kitsap School District web site, [Board Policies & Procedures](#).

**General Network Use**

The network is provided for students to conduct research, complete assignments, and communicate with family. Network services are given to students who agree to act in a considerate and responsible manner. Behavior on school computer networks just as they are in a classroom or a school hallway. As a result, the same rules of behavior and communications apply and users must comply with district standards and honor rules. Network storage areas should be treated like school lockers. Network administrators may use network storage areas to maintain system integrity and ensure users are using the system responsibly. Users should not use network storage areas for anything that is not intended for the student as they use the network.

**General Device Use**

All NKSD students are issued a district-owned laptop device and charger to use for educational purposes. The use of this equipment is limited to educational purposes only. It is the responsibility of the student to care for the device and ensure it is returned in good condition at the end of the school year.

**Parent/Guardian Permission:**

All students are provided with access to district computer resources.

These permissions are granted for an indefinite period of time, unless otherwise requested. I understand that individuals and families may be held liable for violations. I understand that some materials on the Internet may be objectionable, but I accept responsibility for guidance of Internet use - setting and conveying standards for my student to follow when selecting, sharing or exploring information and media.

"By typing my name in the signature field below, I hereby certify that the above information is true and correct to the best of my knowledge, and that I am granting permission for my child to access the Internet and e-mail system and to have their materials published to the World Wide Web. My child also agrees to use the network responsibly and grants their permission to have their materials published to the World Wide Web."
