

Waterford Township  
School District

Christine Manna  
Principal

September 2024

Dear Parents, Guardians or Staff,

This notice is being distributed to comply with the New Jersey School Integrated Pest Management Act. Waterford Township School District has adopted an Integrated Pest Management (IPM) Policy and has implemented an IPM Plan to comply with this law. IPM is a holistic, preventive approach to managing pests that is explained further in the school's IPM Policy which can be found on the school's website.

All schools in New Jersey are required to have an Integrated Pest Management Coordinator (IPM Coordinator) to oversee all activities related to IPM and pesticide use at the school.

The IPM Coordinator for Waterford Elementary School is:

Name of IPM Coordinator: Christine Manna

Business Phone number: (856)767-8293

Business Address: 1106 Old White Horse Pike, Waterford, NJ 08089

The IPM Coordinator maintains the pesticide product label, and the Material Safety Data Sheet (MSDS), (when one is available), of each pesticide that is used on school property. The label and the MSDS are available for review by a parent, guardian, staff member, or student attending the school. The IPM Coordinator is available to parents, guardians, and staff members for information and to discuss comments about IPM activities and pesticide use at the school.

As part of a school pest management plan, *the Atco Elementary School* may use pesticides to control pests. The U.S. Environmental Protection Agency (EPA) and the N.J. Department of Environmental Protection (DEP) register pesticides to determine that the use of a pesticide in accordance with instructions printed on the label does not pose an unreasonable risk to human health and the environment. Nevertheless, the EPA and the DEP cannot guarantee that registered pesticides do not pose any risk to human health, thus the unnecessary exposure to pesticides should be avoided. The EPA has issued the statement that where possible, persons who are potentially sensitive, such as pregnant women, infants and children, should avoid unnecessary pesticide exposure.
