# AI Tools for All

A Veritable Pot of Gold for  
Diman Educators!!

By Eric Benoit

Artificial Intelligence and Machine Based Learning Models are not just current industry buzz terms: AI is here to stay!

As part of our vision to prepare our students as skilled workers with technological competencies we offer two AI tools for Faculty to experiment with and incorporate into instruction:

- [BriskTeaching](#)
- [NoteBookLM](#)

Both of these tools are approved for educators to use. Brisk complies with Student Data Privacy Agreements and NotebookLM is built off of Google Workspace. Enjoy!

## Resources for Instruction & Reinforcement

Reminder of other tools available:

While Artificial Intelligence may get all the press, we'd like to remind our faculty of the other resources available you may or may not be aware of:

- [Quizizz.com](#): Create different types of quizzes and surveys, combine multimedia and slides into interactive lessons and MORE!
- [Kahoots](#): Create quizzes, develop material reviews, provide formative assessments, assign homework and more with this game-based learning platform!!

Issues logging in or any questions on these resources can be submitted to [helpdesk@dimanregional.org](mailto:helpdesk@dimanregional.org). Do you find these tools helpful? Drop us a line and let us know how you're using them!

### **Noteables:**

- **Brisk Teaching is accessible through Chrome Extension**
- **NotebookLM is available directly from the web**
- **Any questions please reach out to the helpdesk**

## Diman Data Delivery

The Implementation of Aspen Wednesdays

By Karen Glover

### ASPEN WEDNESDAYS

\*Last Wednesday of the Month Beginning 3/26/2025\*

Ever wanted to know more about Aspen? Maybe different views available or a general question about if there is a better way to do something?

Then come to the Library the **last Wednesday of each Month** with your coffee and questions -- The District Data Specialist will be there with all the answers (and possibly more than a little espresso!!)

With a more structured format in the future, this month is intended to be an informal Q and A session/general Aspen User Group discussion..

Stop by the library any time throughout the day during the **last Wednesday of each Month**. If your schedule does not allow for this time please reach out and we will accommodate what works for you!

## Tech Fridays

Help Desk & IT Projects

By Eric Benoit

Have you ever had a question about:

- Laptops
- Touch Display Boards
- Chromebooks
- Apps

Maybe you're using one of the above (or something else) in your class and you'd like to share with colleagues?

Then Stop by the library each Friday after school and get some of these answers before your weekend!

Tech Fridays are meant to be casual & assist with instructional tech needs.
