Graduation Requirements

In order to graduate from Diman Regional Vocational Technical High School, a student must have earned 210/240 credits and complied with all state accountability requirements. Course requirements are the following:

English (5 credits per course) – Must pass four ELA courses. Must pass one ELA course each year.

Mathematics (5 credits / 7.5 credits per course) Must pass all four Math courses, through at least Algebra II. Must pass one Math course each year.

Science (5 credits per course) – Must pass three Science courses. Must pass both ninth and tenth grade science courses.

History (5 credits per course) - Must pass three courses, including US History I, US History II, and World History.

CVTE Theory (5 credits per course) – Must pass three courses.

CVTE Program (25 credits /35 credits per course) – Must pass four courses or three and a half years. Must pass CVTE Program each year.

State requirements for MCAS Testing

Other requirements may be established by the school administration in relation to the particular program, otherwise the additional credits needed for a graduation may be selected from among elective courses. For the total number of credits required please see the high school program of studies or student handbook.

Credit for Foreign Study: Students who are away for a term or year to participate in a student exchange program or otherwise study abroad may receive credits toward high school graduation when (1) study plans are approved by the school administration in advance; and (2) the institution where the study occurred submits a record of the student's work. In these instances, the Principal and student's guidance counselor will evaluate the work and assign credit for it according to standards prevailing in Diman Regional Vocational Technical High School.

NOTE: If there are test requirements for graduation, these should be noted in the policy on Graduation Requirements. However, a policy on competency testing is properly filed in category IL, Evaluation of Instructional Programs, or a special subcategory of that code.
