

2025-28 TECHNOLOGY PLAN

The Great Falls Public Schools Technology Plan must be updated to reflect both the current status and future needs, and your input as staff in GFPS is valued and requested. We look forward to hearing from all staff, regardless of what position or job title, as technology is essential to our operation as a school district.

You have a few options to provide your perspective to better inform the drafting of the 2025-2028 technology plan. You can choose to 1) complete the survey (linked below), 2) complete the survey and attend a forum, or 3) attend a forum.

- Complete this technology needs survey by March 31, 2025: <https://forms.gle/uTkDerB6U7L2x3nY8>
- Attend the upcoming Technology Needs Forum (final session)
 - Thursday, March 20, 5:00-7:00 p.m., at Great Fall High School in the Geology Room (by the Hub)

Your time and effort to communicate your needs and visions are greatly appreciated!
