Community Input

A Madison school is ...

A Madison school is

20 responses

A MADISON SCHOOL IS...

architecturally
beautiful

encouraging for
pedestrian, bike
& bus access

- inclusive! welcoming to
every one

- something the community
can be proud of

**Madison schools
should have**

Madison schools should have

Flexible spaces

Architecturally interesting and not just another brown or grey box. Bring color, art and the theme of inclusivity into the design of the building on the outside.

The tools to integrate the community into the learning experience.

Interactive features, welcoming spaces, and areas for all learning styles.

Various types of learning environments
Color
Comfortable spaces and furniture
Welcoming spaces

Lots of windows, storage for musical instruments, small group space for student services, multi use space- kitchen, lab, etc.

A strong music program with the space to support it. I believe that a strong music program directly correlates with a highly collaborate and positive school climate and culture.

Madison Schools SHOULD HAVE...

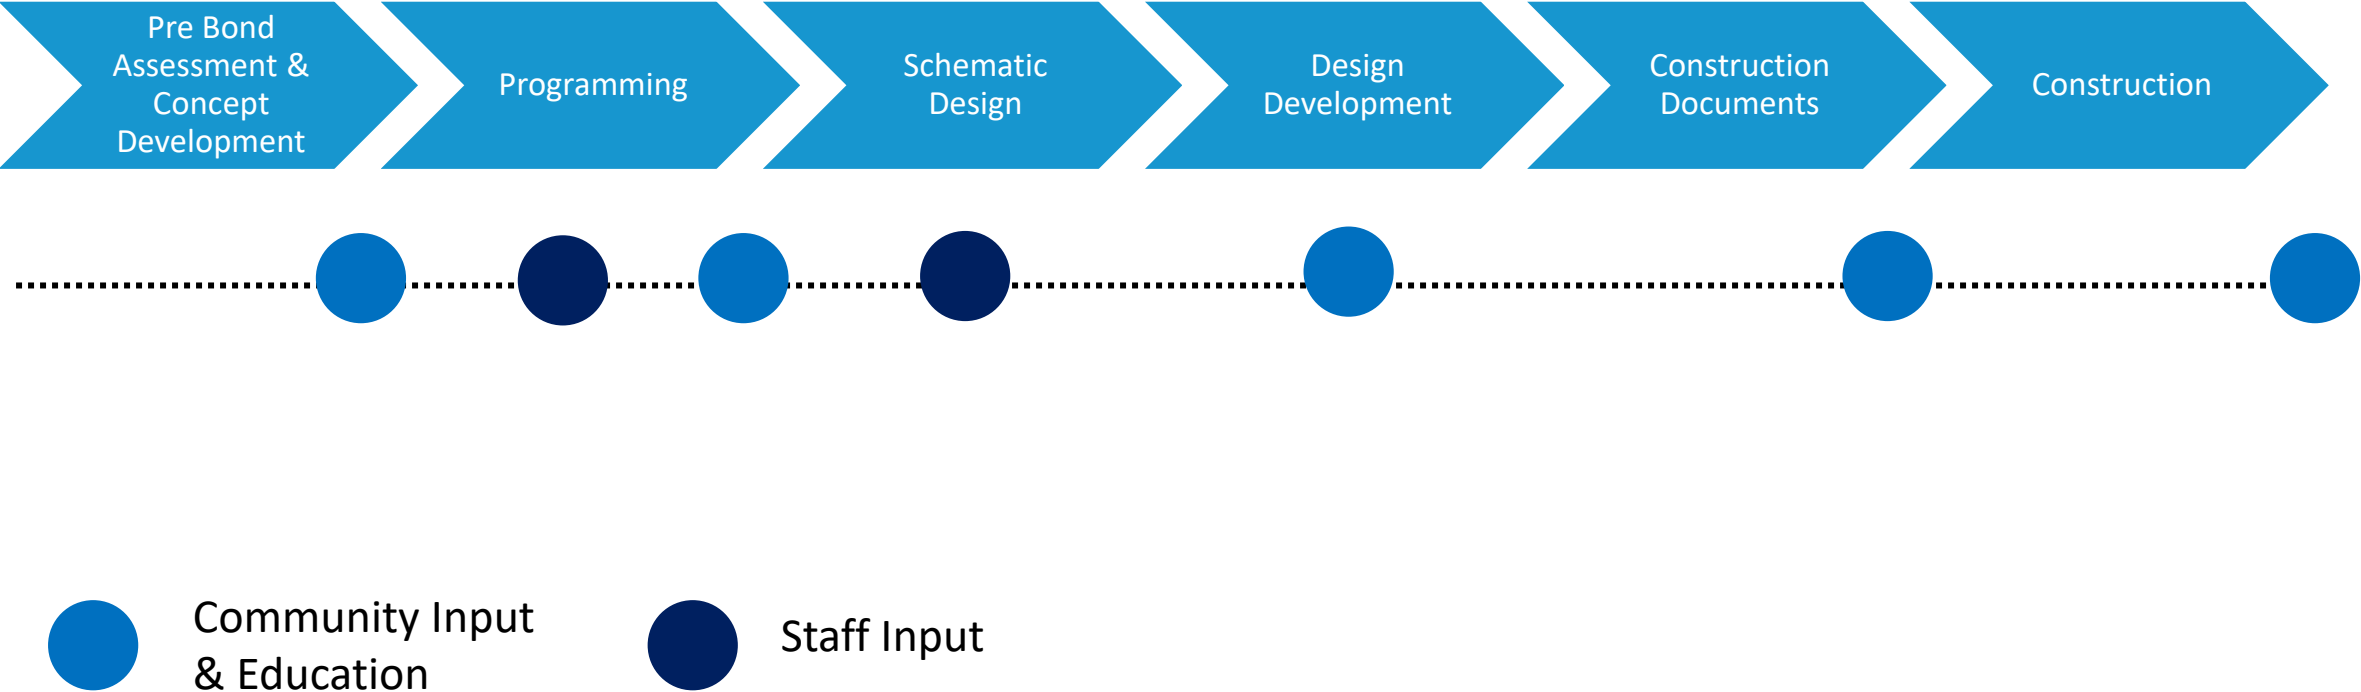

- long term flexibility
built into the plan
- community use involved
in all phases of the plan
- accessibility for all types
of disabilities.
- more than one
elevator if two floors

net zero & sustainability
vertical spaces in classroom
for student work
space in hallways to
showcase student work
flexible seating
unisex gender neutral
bathrooms

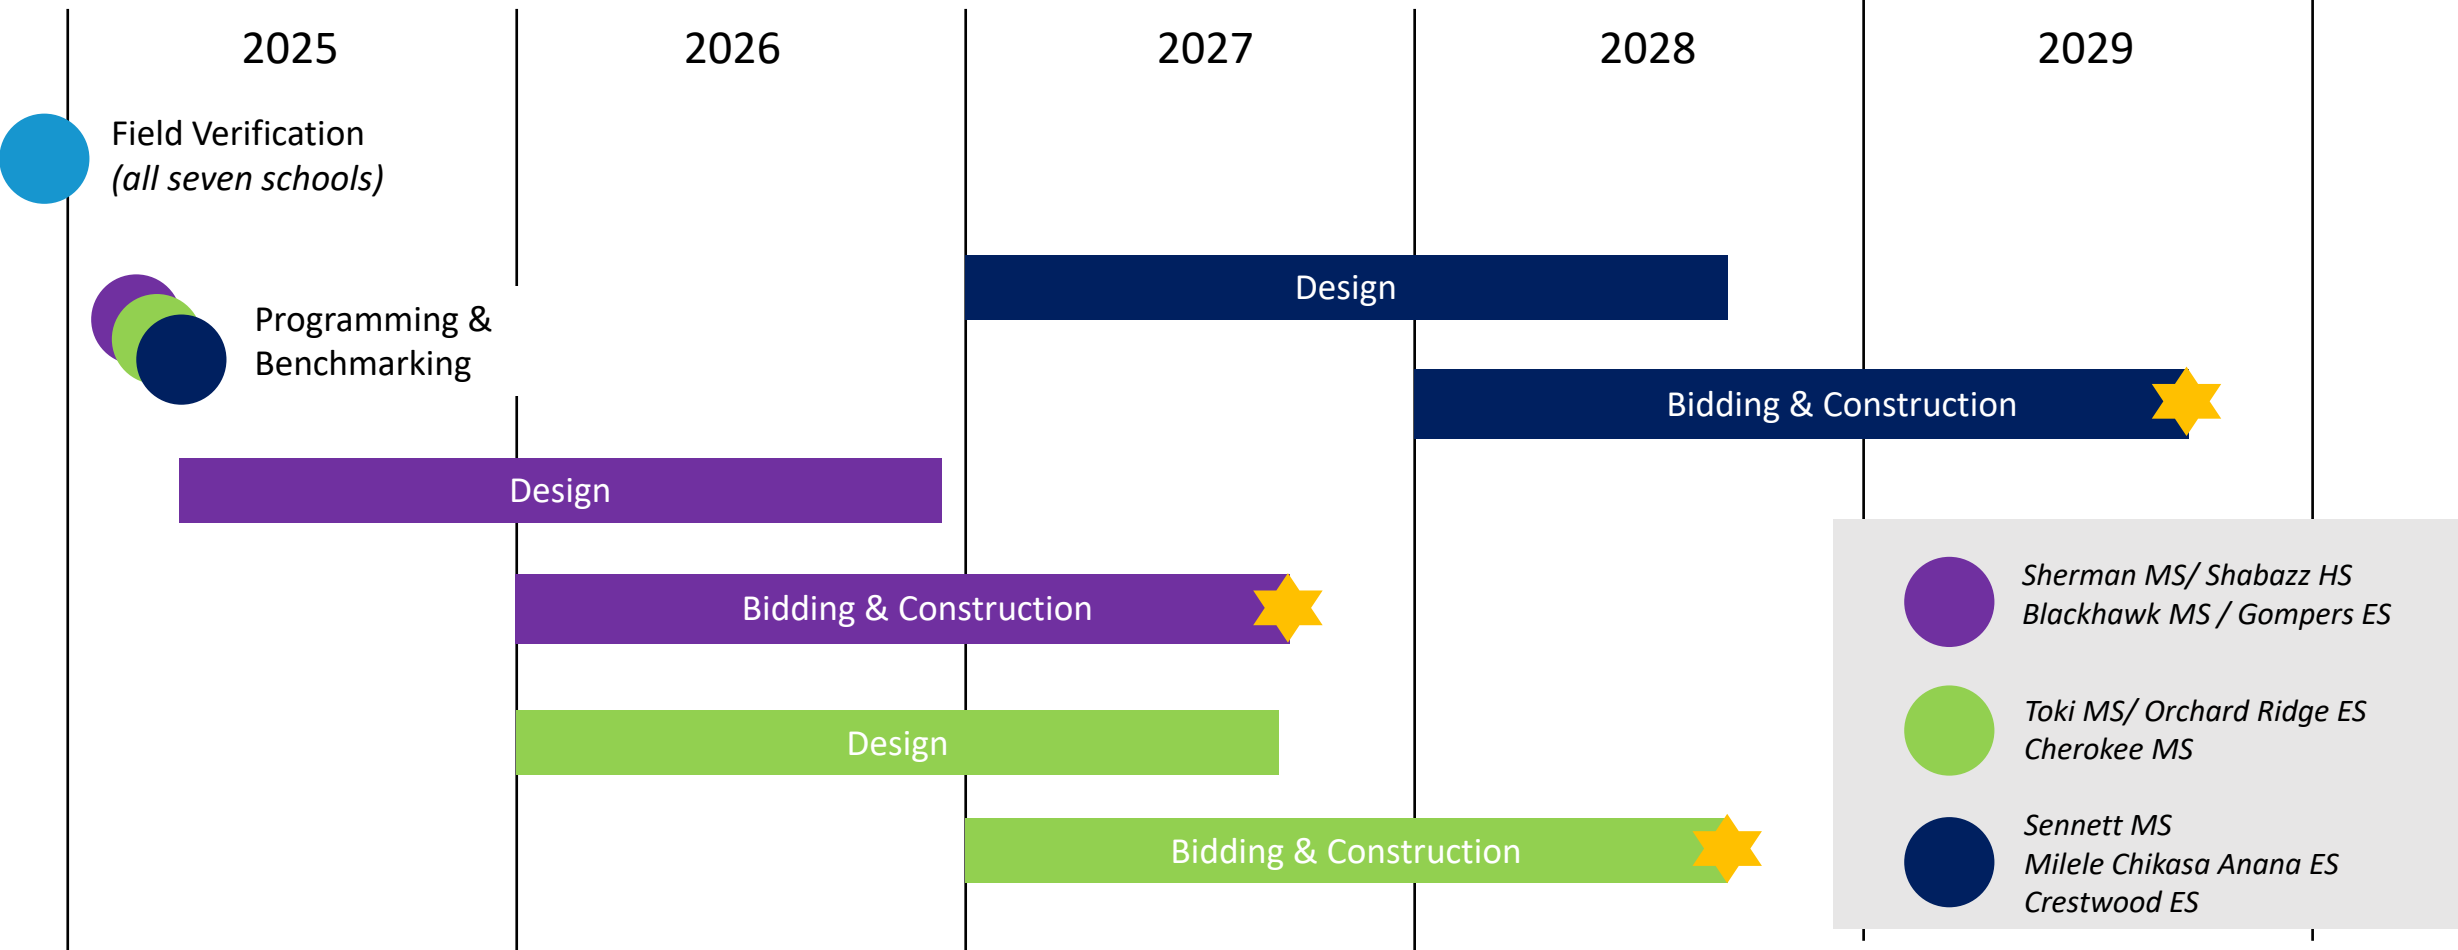

Process

A community focused & transparent process

Schedule

Input we heard

Overall

- Secure Vestibule
- Separate Entrances for combination schools
- Mobile Technology
- Flexible and Adaptable learning environments
- Universal and Inclusive
- Community Space

Middle School

- Connectivity
- Collaboration
