Community Input

A Madison school is ...

A Madison school is

43 responses

Madison schools should have

Madison schools should have

A safe place for all kids to learn and educators to do their work.

Clean and safe spaces for children to learn, play, eat, and study.

Better facilities, better cafeteria solutions, and continuous inclusion of all populations

Spaces conducive to learning. Good sound proof

Support from community and our government

A welcoming atmosphere where students can feel comfortable and safe each day.

Natural light, a variety of flexible space,

More school gardens and free healthy food

Madison schools should have

A large gym with plenty of storage space. It should also have natural light. It should not be located in the center of the school and should have easy access to the outside

Spaces where all students can feel safe and learn in the style that works for them

A safe place for children learn and grow

"Different bathrooms for different grades" from a rising 6th grader

Energy efficiency, good flow of movement within the building, disability support

Community use considered in the planning phase.
Accessible for all
Reasonable sustainability

Highly paid teachers, proper ratio of SEAs, enough Special Ed staff, lockers that fit winter clothes, plenty of electrical outlets, storage area for materials, gender neutral bathrooms, green spa

A and inclusive and a place for community building and to support different learning styles and communication needs

1) A safe space for neighborhood kids to have fun

2) Science lab, Diverse library, Windows to outside to see seasons change

Different trees (not all oaks) to provide nature spaces like @ lake view. As kids age they also need that safe natural environment.

Garden space so kids can get their hands dirty

@ East high the forum & brick 34 height walls were very cool because they were permanent & let kids explore more

3) spar da middle school has their theatre & auditorium in the sun space. It lets the room be used daily for lunch & hyp/buzz the next performance space/project

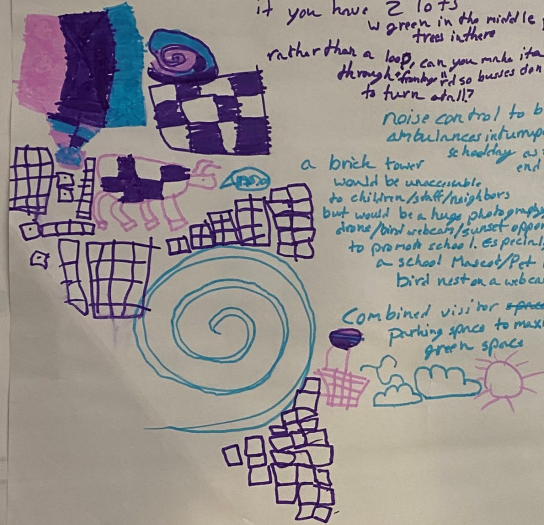

Irrigation run off with all the hills & marshes in the community to avoid erosion from foot traffic.

if you have 2 lots w green in the middle put trees in there rather than a loop, can you make it a throughway? so buses don't have to turn at all?

noise control to block ambulances interrupting the school day as they go to the end of life nursing home.

a brick tower would be inaccessible to children/staff/neighbors but would be a huge photography stone/bird watch/sunset opportunity to promote school. especially if a school mascot/pet is a bird nest on a webcam.

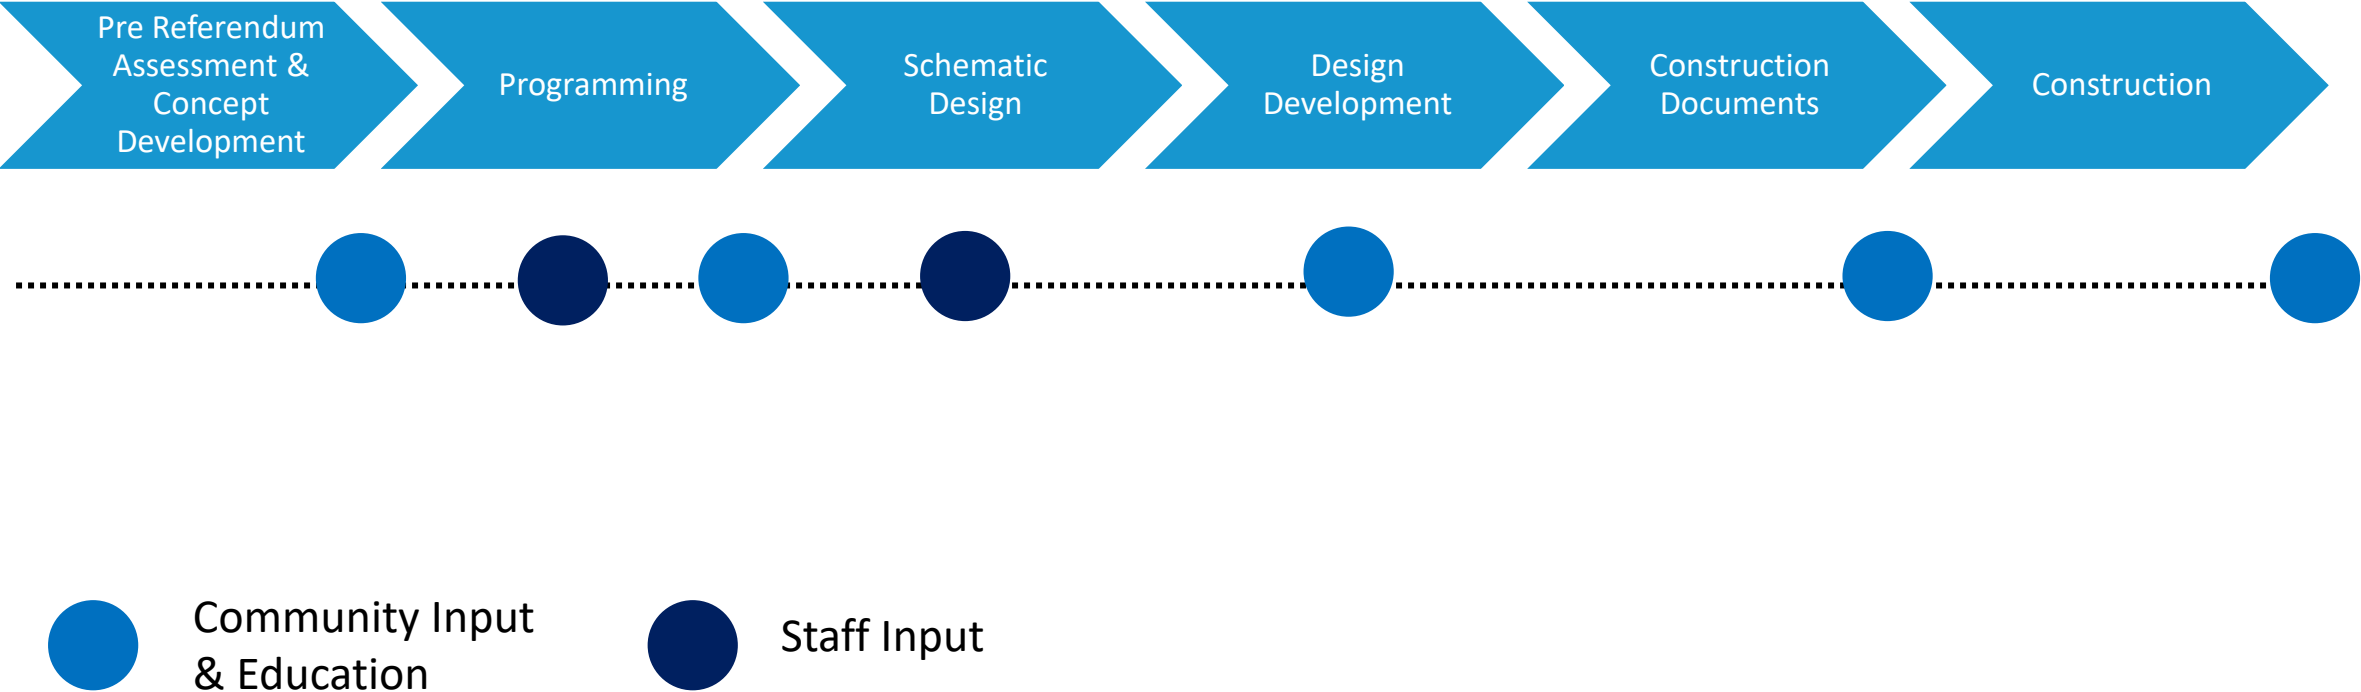

Combined visitor space parking space to maximise green space

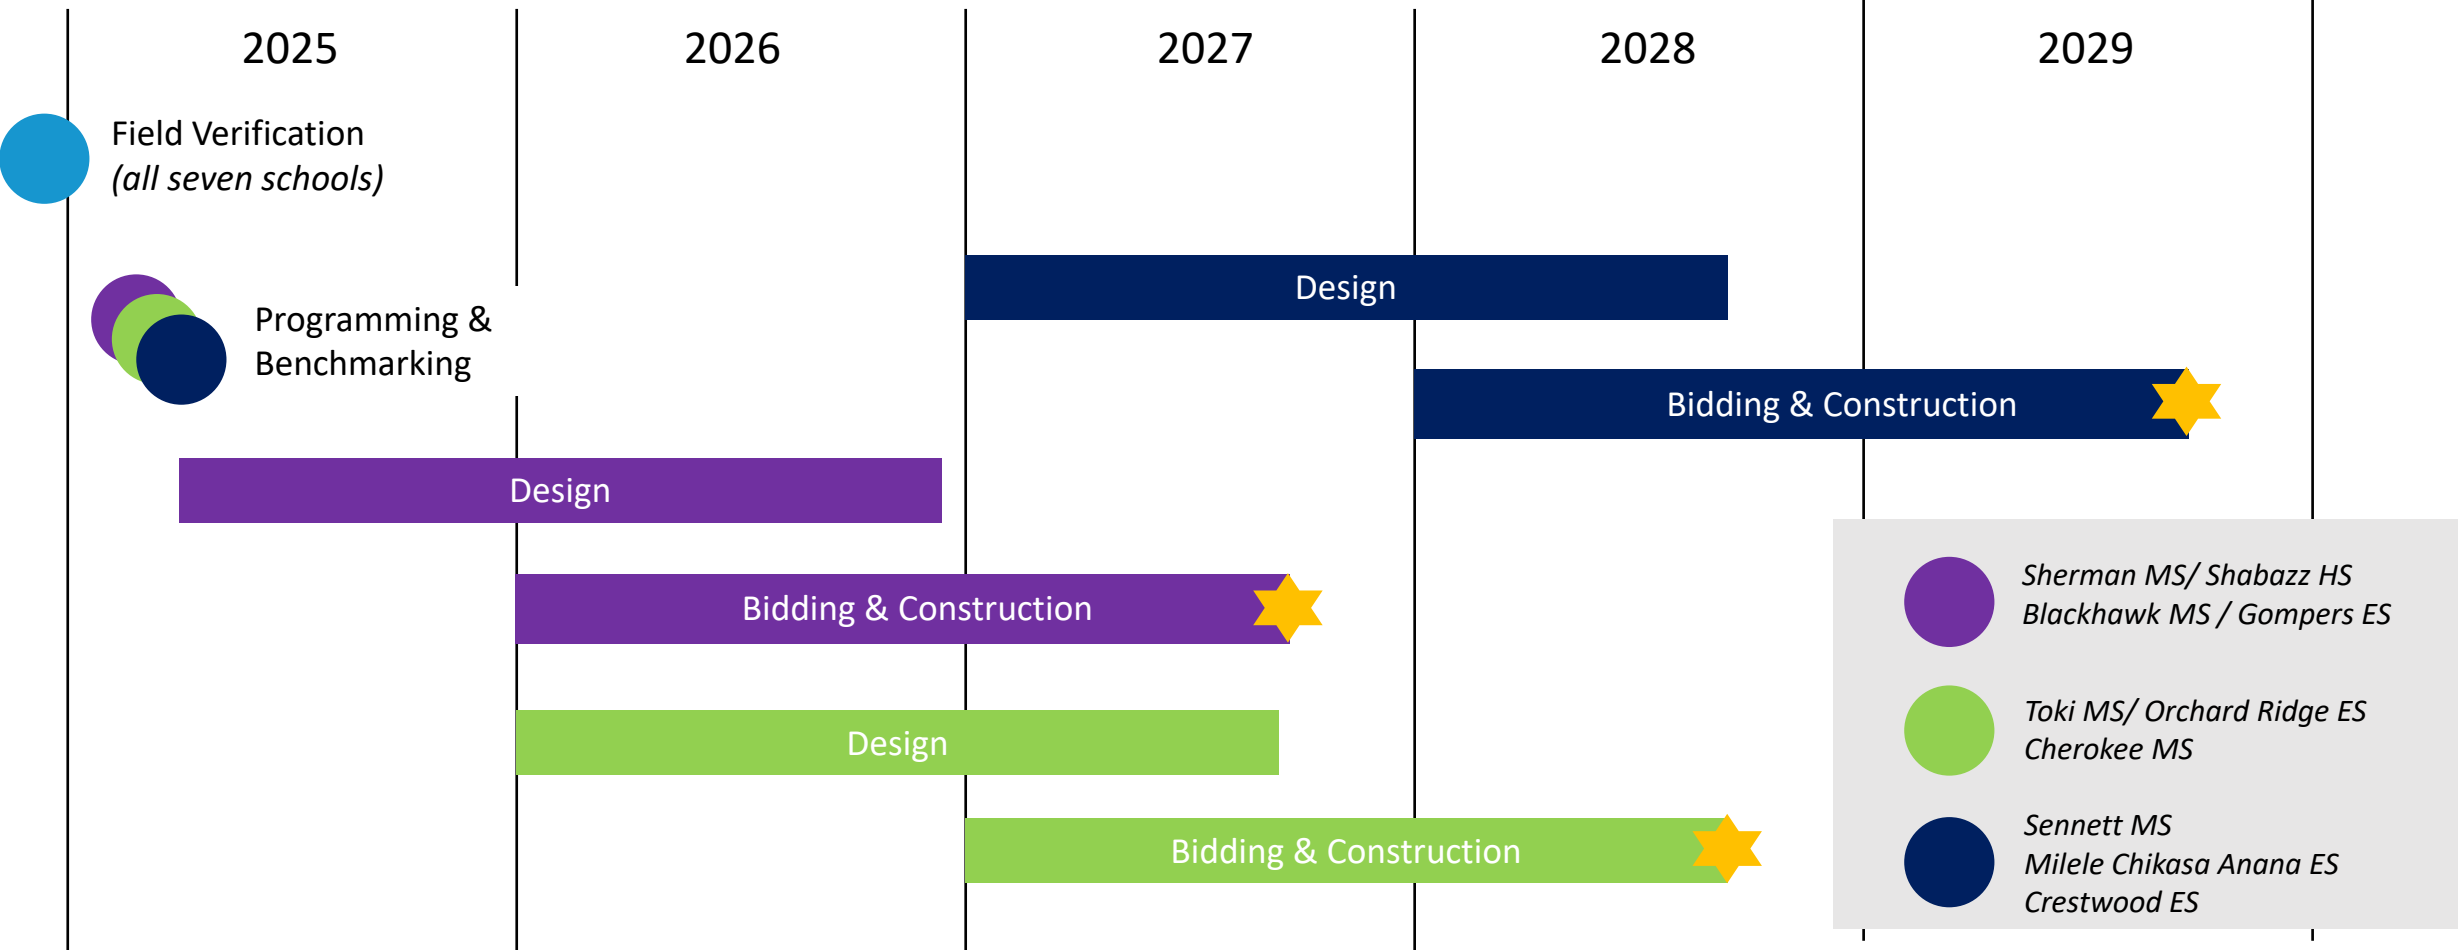

Process

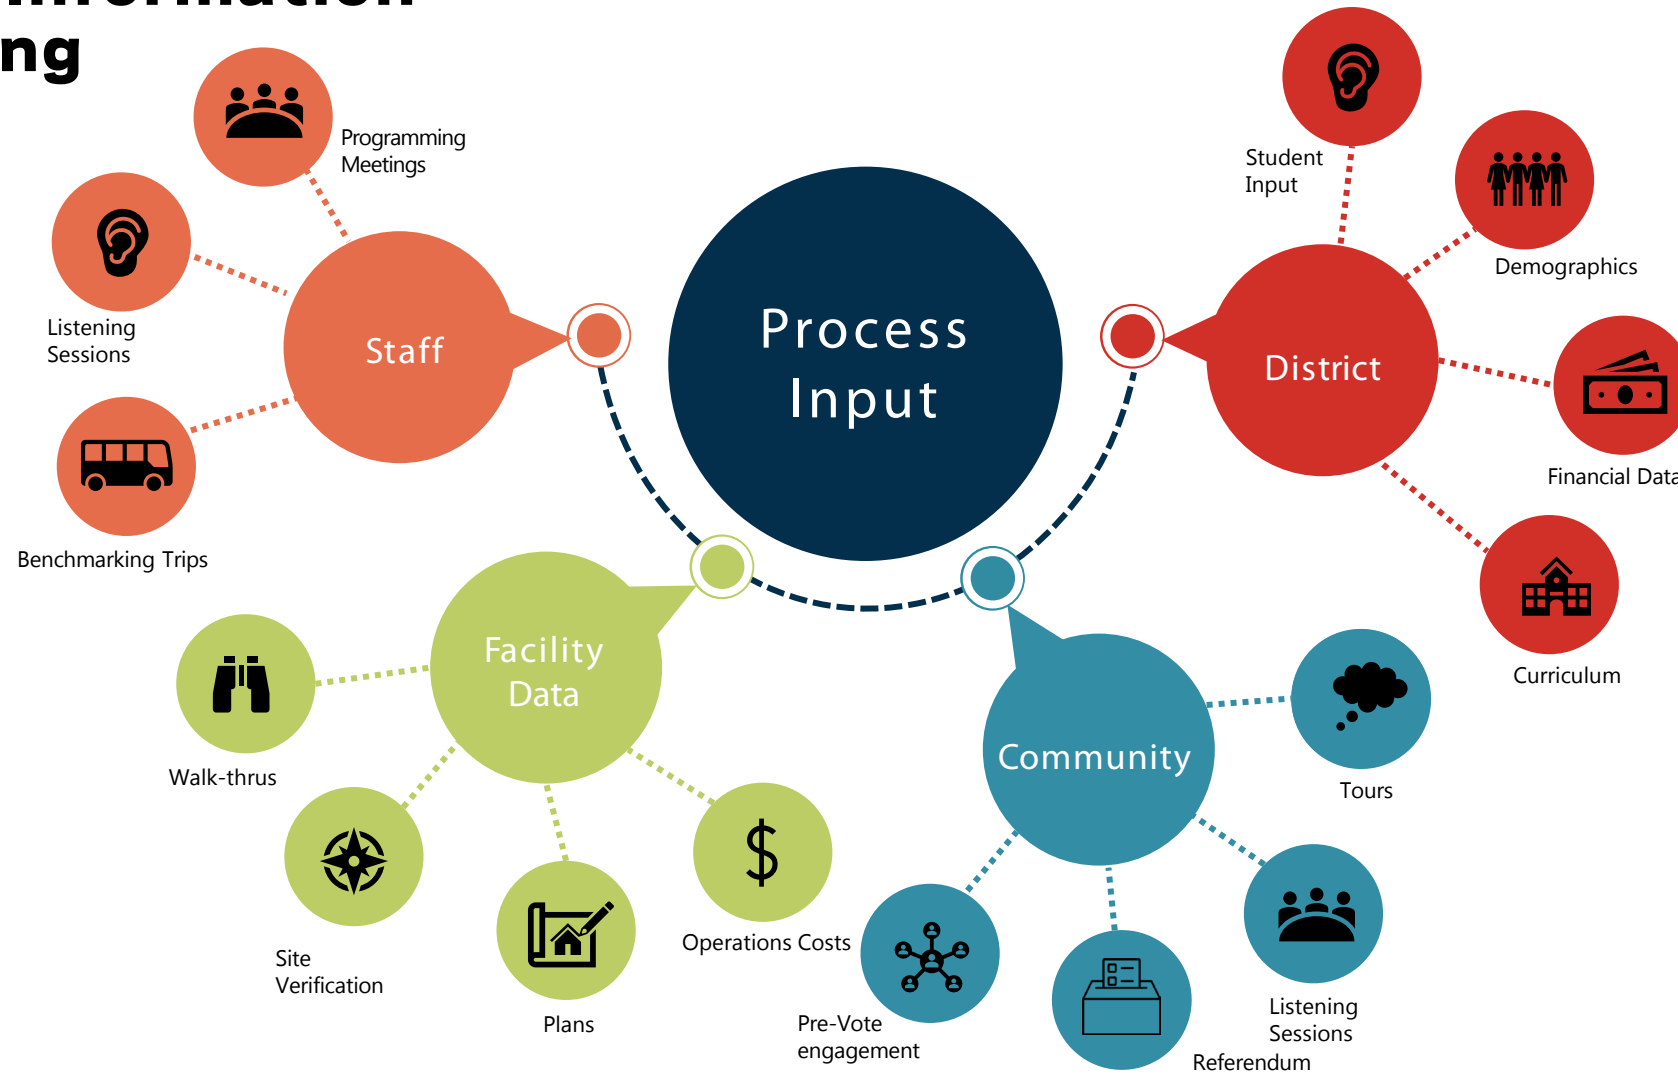

A community focused & transparent process

Schedule

Input & Information Gathering

Input we heard

Overall

- Secure Vestibule
- Separate Entrances for combination schools
- Mobile Technology
- Flexible and Adaptable learning environments
- Universal and Inclusive
- Community Space

Middle School

- Connectivity
- Collaboration
- Resilient flooring and maintainable finishes
- Flexible furniture and technology
- Small group learning opportunities
- Student Services suite

Small High School

- Unique identity
- Separate entry
- Inside / Outside Education
- Flexible classrooms and lab spaces
- Storage
- Mentoring and small group space

CTE & Unified Arts

- Clean labs
- Maker labs
- Flex labs
- Instrumental, vocal, general music
- Performance space (gymnatorium or cafetorium)
- Storage

Athletics

- Wood competition courts
- No concessions
- Spectator seating
- Access to outdoor fields
- Restrooms with changing space
- Storage
