## Meal Allergy Modifications *(please check one of the boxes below):*

- My child has no known food allergies or intolerances and can make their own food choices. (This box may also be checked if your child will not be eating any school meals).
- My child has an allergy or intolerances that does NOT require a substitution. I have or will notify the School Nurse of this allergy or intolerance, so an alert can be put on my child's meal account. The majority of students can avoid their allergens and still build a healthy meal without needing any substitutions. Examples of foods that can be avoided: peanuts or peanut butter, fluid milk, plain eggs, fish, pork, fruits, veggies, etc.
- My child has an allergy, intolerance, or texture modification that DOES require a substitution to the regular menu. I have or will turn in the "Medical Statement to Request Special Meals And/or Accommodations" (can be obtained from the website noted below, the School Nurse, or Café Manager). I will provide meals from home for my child until I have turned in the form and the school has had enough time to prepare a special menu and order in special foods (about two weeks). I understand that menu modifications or substitutions cannot be made unless a medical form is on file.

Additional information is available on your child's school's website and [www.nkcschools.org](http://www.nkcschools.org) under the Drink and Apple icon with the word "Menus". Click on the "Home" tab, scroll down, and click on "Special Meal Accommodations". To review menus and allergy guides, click on the "Menus" tab.

If you have questions or concerns about your child's food allergy, food intolerance, or texture modification, please contact the School Nurse or Café Manager at your child's school. If your child develops a new allergy or intolerance or outgrows an old allergy or intolerance, please contact the School Nurse at your child's school.

## Secure Firearm Storage

**School safety is the responsibility of everyone. At home, we urge you to take simple, key steps to protect our community.**

We are all aware of incidents of gun violence in our region and across the nation. Studies of all types of school-based gun violence across decades all point to the same significant point of intervention – **addressing students' unauthorized access to guns in the home**. A recent Secret Service National Threat Assessment Center study of targeted school violence incidents from 2008 to 2017 found that 76 percent of the firearms were obtained from the home of a parent or close relative.

Unsecured guns in the home pose a risk to students beyond gun violence in schools. Every year, nearly 350 children under the age of 18 unintentionally shoot themselves or someone else. That's roughly one unintentional shooting per day. Almost 1,200 children die by gun suicide each year. In the overwhelming majority of these incidents, the gun used was one that belonged to someone in their home.

**We strongly encourage you to help protect our community by storing any firearms in your home safely.** One study found that 87 percent of kids know where their parents' guns are kept, and 60 percent have handled them. Research shows that secure firearm storage practices are associated with up to an 85 percent reduction in the risk of self-inflicted and unintentional firearm injuries among children and teens.

**Storing firearms securely – by locking both weapons and ammunition in separate locations – protects children at home and throughout our community.**
