## School District Areas of Improvement and Planning - Indicators

### Suspension/Expulsion by Race/Ethnicity (Indicator 4B)

**Indicator not flagged at this time.**

### Disproportionate Representation by Race/Ethnicity (Indicator 9)

**Indicator not flagged at this time.**

### Disproportionate Representation by Race/Ethnicity/Disability (Indicator 10)

**Indicator not flagged at this time.**

### Timely Initial Evaluations (Indicator 11)

**Indicator not flagged at this time.**

## Secondary Transition (Indicator 13)

<b>Improvement and Planning Activity</b>
Training and collaboration with DCDT to promote best practices for transition age students.
Professional development supported through the Allegheny Intermediate Unit specific to Indicator 13.
Internal auditing with building LEAs to ensure compliance with Indicator 13.

## Graduation (Indicator 1)

**Indicator not flagged at this time.**

## Drop Out (Indicator 2)

**Indicator not flagged at this time.**

## Assessment (Indicator 3)

<b>Improvement and Planning Activity</b>
Professional development supported through the Allegheny Intermediate Unit specific to PASA, PSSA, and Keystone assessments.
Professional development with staff to review student participation and positive outcomes related to PASA, PSSA, and Keystone assessments.
Community sessions discussing the PASA, PSSA, and Keystone assessments including a review of participation and outcome data as part of the student portfolio.

Education Environments (Indicator 5)

<b>Improvement and Planning Activity</b>
Professional development supported through the Allegheny Intermediate Unit specific to educational environment.
Further develop of SWPBIS programming to support tiers of behavioral support in an effort to reduce placements outside of the home building.
Further develop secondary emotional support programming to increase supportive measures and mitigate referrals for higher levels of support.

Parent Involvement (Indicator 8)

**Indicator not flagged at this time.**

Early Childhood Transition (Indicator 12)

**Indicator not flagged at this time.**

Post-School Outcomes (Indicator 14)

**Indicator not flagged at this time.**

Resolution Sessions (Indicator 15)

**Indicator not flagged at this time.**

Mediation (Indicator 16)

**Indicator not flagged at this time.**

School District Areas of Improvement and Planning - Monitoring

District has completed all monitoring corrective action/improvement plans.

## Identification Method

**Identify the District's method for identifying students with specific learning disabilities**

Discrepancy Model

Building Name	AUN	Branch Number	RTI	Approved RTI Use
---------------	-----	---------------	-----	------------------

## Non-Resident Students Oversight

### 1. Is your district currently a host district for a 1306 facility?

No

### 1. Describe the host's educational oversight to ensure students with disabilities are educated in the least restrictive environment while in the 1306 facility? (If not a host, answer as if you were.)

The FCASD ensures that students are receiving FAPE within the LRE through appropriate evaluation and programming as outlined in PA Code 22: Chapter 14. The FCASD also plans with the home district and guardians with respect to the student. The district LEA attends all BID and IEP meetings for students placed within the facility and collaborates with home districts, facility staff, families, and school-based educational teams to ensure that students are educated within the LRE based on his or her individual circumstances.

### 2. Describe the district's procedures for communicating with 1306 facilities and how the district ensures a successful transition back to school?

The FCASD has direct communication with guardians, supervisors and caregivers to ensure students are receiving appropriate educational opportunities within the LRE. Communications come through annual notices as well as continuous contact and IEP team meetings. During times of transition, the district coordinates and collaborates with the home district, care representatives from the home, appropriate guardians, and any other service providers to determine best placement and transition planning for students to return to school.

## Incarcerated Students Oversight

1. **Does the district have an adult correctional facility that houses juveniles within its geographical boundaries?**

No

1. **Describe the system of oversight the District would implement to ensure that all incarcerated students who may be eligible for special education are located, identified, evaluated and when deemed eligible, are offered a free appropriate public education (FAPE).**

There are currently no facilities in FCASD for incarcerated students. The district would establish a set of procedures in collaboration with the educational program provider at the facility in order to identify, evaluate, and offer FAPE to incarcerated students. The procedures would include locating existing educational records. If the student has never been identified as eligible for special education services, then the records will be reviewed by FCASD to determine whether the student should be referred for a multi-disciplinary evaluation. The district in collaboration with the educational provider would assure that special education laws are followed, including the provision of a Free Appropriate Public Education.

## Least Restrictive Environment

**1. Review the district's most recent data for Least Restrictive Environment. Highlight areas of improvement.**

The Fox Chapel Area School District is above (87.4%) the state average (61.6%) of students within the regular classroom 80% or more. This is representative of quality MTSS supports and meeting the needs of students within the LRE. The district is below (4.9%) the state average (10.0%) of students within the regular education class less than 40% of the time as students are continuously educated within the inclusive environment and LRE. The district is currently above (5.5%) the state average (4.4%) students in other settings. This enrollment within the home setting can be improved through increased training and support within emotional and behavioral supports within the district.

**2. What universal practices does the district utilize to address the academic and social/emotional needs of all students in need of accommodations to their learning environments?**

The district implements a K-12 scope of Multi Tiered Systems of Support (MTSS) to meet the academic and social/emotional needs of all students. This includes rigorous core academic programs with systematic interventions to address need based on data, as well as universal K-12 SEL programming and universal access to school-based mental health in the K-12 environment.

**3. Describe the academic programming and training efforts the LEA utilizes to ensure meaningful participation of students with disabilities in the general education curriculum.**

Academic programs are built to meet the needs of students based on multiple qualifying criteria including teacher recommendations, benchmark data, classroom data, and parent input. Academic supports include specific, alternative, interventions as well as tiered support within the core program. Teachers complete ongoing training within the curriculum and tiers as well as ongoing disability training in the schools.

**4. Describe the supplementary aids and services the LEA utilizes to ensure meaningful participation of students with disabilities in extracurricular activities.**

The Fox Chapel Area School district has been twice recognized as a National Banner Unified Champion School through Special Olympics. The district currently participates in K-12 Best Buddies programs to support social inclusion within the school setting. The district also participates in Unified Sports 6-12 and continuously collaborates with activities chairs, athletic directors, and teachers to identify opportunities to meaningfully participate. The supplementary aids and services the district utilizes is 1:1 or small group support within the activity, pre-teaching, specialized equipment, pacing, planning and collaboration, and additional training among other considerations.

**5. Describe the District procedures, which ensure that, to the maximum extent appropriate, children with disabilities placed in private institutions are educated with non-disabled children and have the opportunity to participate in district lead extracurricular activities?**

IEP teams meet annually to discuss programming, the types of support, and progress towards goals within the placement. The district also shares opportunities within the K-12 environment that may allow students an opportunity to participate in extracurricular clubs and activities. These clubs are also shared in building mailings as well as posted on the district website.

**6. Discuss the district’s need to build capacity and expand programs and services in an effort to provide a continuum of services. (Consider the out of district placement chart)**

The Fox Chapel Area School District will need to build additional internal capacity to support students with significant emotional and behavioral needs. By developing more substantial emotional support services, the district may be able to meet the needs of students within the home building and provide an opportunity to participate more regularly with non-disabled peers. Currently, the district has implemented K-12 School-Wide Positive Behavioral Support Programs and is working with the Allegheny Intermediate Unit to continue development of Tier 3 behavioral support programs in an effort to reduce referrals and increase supports within the least restrictive environment.

## Positive Behavior Support

### Date of Approval

2022-06-13

### Uploaded Files

113\_1.pdf

**1. How does the district support the emotional, social needs of students with disabilities?**

The District has implemented K-12 social and emotional wellness programs for students in a tiered approach. Through tier I, students are instructed within the Second Step curriculum (K-8) and integrated SEL programs (9-12). Tier II supports are provided through small group lessons focused on group thinking and in coordination with the scope of SEL lessons presented within the curriculum. Tier III support is presented within individualized services through the University of Pittsburgh MAPS program; psycho-educational groups through HSAO, school counselors, special education teachers, and behavioral specialists; school-based mental health through Clarvida and school psychologists. Students move through tiers of support based on individualized data responses and IEP team meetings when a need is presented to the team.

**2. Describe training provided to staff in the use of positive behavior supports, de-escalation techniques and responses to behavior that may require immediate intervention.**

Ongoing training is provided by AIU3, PaTTAN, consultants and district staff. The District also utilizes Safety Care training through QBS inc. This program encompasses, 4 certified trainers in the district, as well as building level teams trained annually on de-escalation and response to behavior that may require immediate intervention. All paraprofessionals also complete full-day and a half certification or half-day re-certification, annually, in Safety Care to address the needs of students with whom they work.

**3. Describe the district positive school wide support programs.**

Students with disabilities shall be educated in the least restrictive environment and shall only be placed in settings other than the regular education class when the nature or severity of the student's disability is such that education in the regular education class with the use of appropriate supplementary aids and services cannot be achieved satisfactorily. The IEP team for a student with a disability shall develop a positive behavior support plan if the student requires specific intervention to address behavior that interferes with learning. The identification, evaluation, and plan or program shall be conducted and implemented in accordance with state and federal law and regulations. In addition to the district policy, there are several initiatives in place that address student behavior in a proactive manner in the schools. The district utilizes a system of Multi-Tiered Systems of Support for academic, social/emotional, and behavioral supports. Buildings utilize a School-Wide Positive

Behavior Supports (SWPBS) systems that are structurally similar, but unique based on the student population within the building. The MTSS programs utilize consultants from the AIU3 to provide ongoing professional development to all administrators and faculty in order to implement the SWPBS and MTSS systems. The standardize the SWPBIS program, the district has implemented PBIS Rewards through Navigate 360 and has registered all programs with the Pennsylvania SWPBIS Network. Additionally, the district has implemented the Olweus Bullying Program K-8 as a structured method for addressing bullying in a proactive manner over the past several years. The high school has a team that meets periodically to address bullying and behavioral issues and continuously works to improve the systems in place at the high school level. There is an anonymous bullying report system in place K-12 to promote the reporting of bullying in a safe manner for students. Various methods of data are used to make sound decisions/plans for each student in order to meet their needs prior to them being evaluated for special education. The district has K-12 Student Assistance Program (SAP) in place in which each building has a trained SAP team that meets bi-weekly. The district contracts with Human Services Administration Organization (HSAO) to provide liaisons to each SAP team. This liaison(s) conducts any recommended mental health or drug and alcohol assessments and provides resources to parents. Parents are an integral part of this process and are informed and involved in their child's programming from the onset. Additionally, the district has added school-based mental health in conjunction with Clarvida. Students are able to access licensed mental health care during the school day. Finally, the district has a team of various personnel in each of the five buildings that are certified in Safety Care. These teams are available to address those behaviors of students that require immediate intervention that may involve de-escalation or the possible need for restraint. Every year, these teams receive updated training in order to keep their certification active from trainers within the district who have been certified through QBS, inc. Only those certified as a specialist are permitted to engage in deescalation and use of the specific practices. Each building has a system in place if the need should arise. While the district does not typically engage in student restraints, it does follow the proper guidelines in the event a restraint is conducted. If the child is identified as a child with a disability, then the proper reporting and IEP protocol is followed after the restraint takes place. For those students with IEPs who exhibit behavioral issues, the IEP team follows the proper process for addressing these concerns. A formal or informal Functional Behavioral Assessment (FBA) may be recommended in order to design an appropriate Positive Behavioral Support Plan (PBSP) that will better meet the child's needs. All special education teachers and building administrators have received training on how to conduct, write and implement effective FBAs and PBSPs. If discipline is necessary for a student with a disability, the appropriate discipline process is followed according to IDEA and Chapter 14: Special Education Services of the Pennsylvania School Code. All building administrators receive ongoing training on issues related to discipline and special education. In summary, the Board directs that the district's behavior support programs shall be based on positive rather than negative behavior techniques to ensure that students shall be free from demeaning treatment and unreasonable use of restraints or other aversive techniques. The use of restraints shall be considered a measure of last resort and shall only be used after other less restrictive measures, including de-escalation techniques. Behavior support programs and plans shall be based on a functional assessment of behavior and shall include a variety of research-based techniques to develop and maintain skills that will enhance students' opportunity for learning and self-fulfillment. A functional assessment of behavior requires

parental consent (permission to evaluate or re-evaluate). Development of a separate Behavior Support Plan is not required when appropriate positive behavioral interventions, strategies and supports can be incorporated into a student's IEP. When an intervention is necessary to address problem behavior, the types of intervention chosen for a student shall be the least intrusive necessary.

**4. Describe the district school-based behavior health services.**

The District provides direct School-Based Mental Health Services through partnerships with Clarvida across all school buildings. Additionally, the University of Pittsburgh, Maximizing Adolescent Potentials (MAPS) program provides social service liaisons to the district. Finally, the Fox Chapel Area community is provided access to Care Solace as a mental health and social services concierge to support access to all.

Supplementary supports include coordination with Allegheny County, PDE, PaTTAN, AIU3, University of Pittsburgh, the STAR Center, Clarvida, and the Watson Institute for continued training and consultation for all of our students and staff.

**5. Describe the district restraint procedure.**

**Physical Restraints:** Restraints to control acute or episodic aggressive behavior may be used only when the student is acting in a manner that presents a clear and present danger to the student, other students or employees, and only when less restrictive measures and techniques have proven to be or are less effective. The Special Education Coordinator or designee shall notify the parent/guardian as soon as possible of the use of restraints to control the aggressive behavior of the student and shall convene a meeting of the IEP team within ten (10) school days of the use of restraints, unless the parent/guardian, after written notice, agrees in writing to waive the meeting. At this meeting, the IEP team shall consider whether the student needs a functional behavioral assessment, re-evaluation, a new or revised positive Behavior Support Plan, or a change of placement to address the inappropriate behavior. The use of restraints shall not be included in the IEP for the convenience of staff, as a substitute for an educational program, or employed as punishment. Restraints may be included in an IEP only if: 1. The restraint is used with specific component elements of a Positive Behavior Support Plan. 2. The restraint is used in conjunction with teaching socially appropriate alternative skills or behaviors. 3. Staff are authorized to use the restraint and have received appropriate training. 4. Behavior Support Plan includes efforts to eliminate the use of restraints.

**Mechanical Restraints** Mechanical restraints, which are used to control involuntary movement or lack of muscular control of students when due to organic causes or conditions, may be employed only when specified by an IEP and as determined by a medical professional qualified to make the determination, and as agreed to by the student's parents/guardians. Mechanical restraints shall prevent a student from injuring him/herself or others or promote normative body positioning and physical functioning.

**Aversive Techniques** The following aversive techniques of handling behavior are considered inappropriate and shall not be used in educational programs: 1. Corporal punishment. 2. Punishment for a manifestation of a student's disability. 3. Locked rooms, locked boxes, other locked structures or spaces from which the student cannot readily exit. 4. Noxious substances. 5. Deprivation of basic human rights, such as withholding meals, water or fresh air. 6. Suspensions constituting a pattern as defined in state regulations. 7. Treatment of a demeaning nature. 8. Electric shock. 9. Methods implemented by untrained personnel. 10. Prone restraints, which are restraints by which a student is held face down on the floor.

## Intensive Interagency

**Please address any areas of concern with students who are placed on Instruction Conducted in the Home or who are at a substantial risk of waiting more than 30 days for an appropriate educational placement.**

The Fox Chapel Area School District has been successful in providing a Free Appropriate Public Education to students with disabilities. At the present time, the Fox Chapel Area School District has no unresolved issues with locating and ensuring FAPE for any individual student, or for a particular disability category.

		21
<b>Age Range Justification</b>		<b>FTE %</b>
Special education students at Fox Chapel Area High School have the opportunity to remain in school until they are 21 years of age. To best support students within the LRE, some students may be in a classroom where there is greater than a 4 year age gap in the secondary setting. Each student IEP team discusses this age gap within the classroom and agrees to the justification within the IEP document.		0.3

## Signatures & Affirmations

Approval Date

### Uploaded Files

- There are a full range of services, programs and alternative placements available to the school district for placement and implementation of the special education programs in the school district.
- The school district has adopted a child find system to locate, identify and evaluate young children and children who are thought to be a child with a disability eligible for special education residing within the school district's jurisdiction. Child find data is collected, maintained, and used in decision-making. Child find process and procedures are evaluated for its effectiveness. The school district implements mechanisms to disseminate child find information to the public, organizations, agencies, and individuals on at least an annual basis.
- The school district has adopted policies and procedures that assure that students with disabilities are included in general education programs and extracurricular and non-academic programs and activities to the maximum extent appropriate in accordance with an Individualized Education Program.
- The school district will comply with the PA Department of Education, Bureau of Special Education's revision notice process.
- The school district follows the state and federal guidelines for participation of students with disabilities in state and district-wide assessments including the determination of participation, the need for accommodations, and the methods of assessing students for whom regular assessment is not appropriate.
- The school district affirms the Pennsylvania Department of Education that funds received through participation in the medical assistance reimbursement program, ACCESS, will be used to enhance or expand the current level of services and programs provided to students with disabilities in this local education agency.
