Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Western Placer Unified School District, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Western Placer Unified School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Western Placer Unified School District, as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards (Government Auditing Standards)*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Western Placer Unified School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Western Placer Unified School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

(Continued)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Western Placer Unified School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Western Placer Unified School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 to 13 and the General Fund Budgetary Comparison Schedule, the Schedule of Changes in the District's Net Other Postemployment Benefits (OPEB) Liability, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of the District's Contributions on pages 54 to 59 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

(Continued)

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Western Placer Unified School District's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and, except for that portion marked "unaudited," was derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, that information is fairly stated in all material respects in relation to the basic financial statements as a whole. The information marked "unaudited" has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2023 on our consideration of Western Placer Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Western Placer Unified School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Western Placer Unified School District's internal control over financial reporting and compliance.

**Western Placer Unified School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2023**

The management's discussion and analysis of Western Placer Unified School District's (the District) financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2023. Management has prepared the financial statements and the related footnote disclosures along with this discussion and analysis. The intent of this discussion and analysis is to look at the District's financial performance as a whole.

To provide a complete understanding of the District's financial performance, please read it in conjunction with the Independent Auditor's Report on pages 1 through 3, notes to the financial statements on pages 23 through 53, and the District's financial statements, which begin on page 14.

FINANCIAL HIGHLIGHTS

- In 2022-23, the District's Total Assets increased by \$19,186,646 which represents a 4.60% increase from the 2021-22 fiscal year. The increase was primarily due to increases in cash and investments of \$31,229,779, due to one-time state Learning Recovery Emergency Block Grant and Arts, Music and Instructional Materials Discretionary Block Grant funds. Correspondingly, capital assets (net of accumulated depreciation decreased by \$6.8 million due to the net of deletions and depreciation expense of District capital assets.
- The District's Net Position increased by \$24.7 million from June 30, 2022. Total revenues were \$149,827,428, compared to \$125,066,534 in expenditures.
- The fund balance of the General Fund increased overall by \$8,237,598 from the prior year, ending the year at \$30,800,759. The fund balance in the undesignated fund balance category decreased by \$3,999,180, having begun the year with a balance of \$15,455,976. This reserve also includes the 3% Reserve for Economic Uncertainty of \$3,192,783. Deficit spending was projected in the 2022-23 fiscal year in both the original and revised budgets adopted by the board. Fund balance increased at year-end due to restricted federal and state program carryovers.
- District enrollment in 2022-23 was 7,560 at Second Period reporting, an increase of 325 students, or 4.5%. The attendance rate for 2022-23 was 93.5%. District enrollment is projected to increase by 313 students during 2023-24 due to increase enrollment growth in the Twelve Bridges attendance area with a projected attendance rate of 94%.
- The District continues to see an uptick in construction growth, specifically in Twelve Bridges and downtown areas of Lincoln. As we continue to see steady growth in new housing, we are adjusting our student enrollment growth.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial statements are organized to provide the reader first with a look at the financial status of the entire Western Placer Unified School District. The statements then proceed to provide an increasingly detailed look at specific financial activities. This annual report consists of three parts:

- Management's Discussion and Analysis – this section, which provides an overall review of the financial activity for the past fiscal year as well as a look at the future years.
- Basic Financial Statements – a look at Western Placer Unified School District's financial statement as a whole for the entire operating entity. The financial statements also include notes that explain some of the information in the statements and provide more detailed data.
- Required Supplementary Information – detailed information for specific financial activities including required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

Reporting on the District as a Whole

Statement of Net Position and Statement of Activities

These two statements provide information about the District as a whole using the accrual accounting methods similar to those used by private-sector companies. They help answer the question, "How did we do financially during 2022-23?"

The change in net position is reported in the Statement of Net Position. This change in net position is important because it tells the reader whether the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some of them financial and some not. Over time, the increases or decreases in the District's net position, as reported in the Statement of Activities, are one indicator of whether its financial health is improving or deteriorating.

All current year revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid. The relationship between revenues and expenses indicates the District's operating results. It is important to remember, the District's goal is to provide services to its students, not to generate profits as is necessary in commercial entities. One must consider many other non-financial factors, such as the quality of education provided and the safety of the schools in order to assess the overall health of the District.

In the District-wide financial statements, the District's activities are divided into two categories:

- Governmental Activities – All of the District's services are reported here, including regular and special education, general administration, transportation, food services, plant services, facilities acquisition and construction, interest, and long-term debt. State support from LCFF and categorical apportionments finance most of these activities.
- Business-type Activities – The District does not currently have any business type activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required to be established by State law, bond covenants, or through grant or program restrictions.
- The District establishes other funds to control and manage money for specific purposes (like repaying its long-term debts) or to show that it is properly using certain revenues (like federal grants).

A District may have three kinds of funds:

- **Governmental Funds** – Most of the District's activities are reported in governmental funds. The major governmental funds of the District are the General Fund, Building Fund, Capital Facilities Fund, County School Facilities Fund, and Mello Roos Fund. Governmental funds focus on how money flows into and out of the funds and the balances that remain at the end of the year. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and services that help determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.
- **Proprietary Funds** – Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds use the full accrual basis of accounting, the same as the District-wide statements. The District does not have programs classified in this category.
- **Fiduciary Funds** – The District is the trustee, or fiduciary, for assets that belong to others, such as the Retiree Benefits fund. The District is responsible for ensuring that the assets that are reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the District-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE GOVERNMENT-WIDE STATEMENTS

The District as a Whole

Statement of Net Position

The District's total assets increased by \$19,186,646 to \$436,116,641 during the 2022-23 fiscal year. Cash and cash equivalent accounts increased \$31,229,779, mostly due to increases in state one-time funding. Deferred outflows of resources for pensions increased by \$7,973,965 due to the continued implementation of GASB 68.

Total liabilities increased \$26,377,167 primarily due to the increase of long-term liabilities due after one year by \$21,440,237 and accounts payable increased by \$3,790,468. Deferred inflows of resources for pensions and OPEB decreased by \$24,152,036 due to the continued implementation of GASB 68.

The District's net position for FY 2022-23 was \$48,802,192, an increase of \$24,760,894 (100%) from FY 2021-22. Of this balance, \$39,861,443 was restricted while \$49,331,004 was unrestricted. Net investment in capital assets accounted for \$58,271,753 of the total net position. The Statement of Net Position is included in the table below and provides the detail information for 2021-22 and 2022-23, along with the variances between the years.

The users of the District's programs paid \$4,258,431 (Charges and Services) of the cost. The federal and state governments subsidized certain programs with grants and contributions of \$41,017,676 (Grants & Contributions). This included over \$9.9 million in one-time state Learning Recovery Emergency Block Grant and Arts, Music and Instructional Materials Discretionary Block Grant funds. This increase also included \$2 million on-going revenues for state Transportation and Expanded Learning Opportunity Programs. Most of the governmental activities were paid with \$83,912,899 in property taxes, \$13,167,947 of unrestricted state aid based on the statewide Local Control Funding Formula, and \$1,065,581 of investment interest earnings. Miscellaneous revenues of \$6,079,116 is comprised of a number of items, including interest revenue, facilities use fees, developer fees, Mello-Roos receipts, interagency revenues and site co-curricular revenues.

Figure 1

As reported in the Statement of Activities, the cost of all of the District's governmental activities this year was \$125,066,534. Instruction, supervision of instructional, instructional library, media & technology, and school administration expenses made up approximately 62% of total 2022-23 expenditures, a 4.1% decrease from 2021-22. General administration accounted for approximately 6.2% of the expenditure budget, a 5.8% decrease from 2021-22. Interest on debt, fiscal charges and transfers between agencies represented 8.4% of all outgo, a 1.0% decrease from 2021-22, and pupil services accounted for 9.8% of expenditures, a 1.2% increase from 2021-22. Plant maintenance and operations accounted for 9.4% of the expenditure budget, a 1.0% increase from 2021-22. The net decrease on 5.0% in general administration and plant maintenance and operations is directly tied to use of one-time COVID-19 funds spent by the district in 2021-22.

FINANCIAL ANALYSIS OF THE FUND STATEMENTS

The fund financial statements focus on individual parts of the District's operations in more detail than the government-wide statements. The individual fund statements provide information on inflows and outflows and balances of spendable resources.

The District's Governmental Funds reported a combined fund balance of \$102 million, an increase of \$21.5 million from the previous fiscal year's combined ending balance of \$80.5 million. The funds with greatest change were:

- Building Fund increasing by a net \$15.2 million due to the transfers of state facility reimbursements from the County School facilities Fund.
- Capital Facilities Fund increasing by \$2.8 million due to the net of developer fees and interest revenues in excess of facilities expenditures and transfers out to the Mello Roos Fund,
- Mello-Roos Fund increasing by \$5.4 million due to Mello Roos revenues and transfers from the Capital Facilities Fund in excess of debt payments, and
- County School Facilities Fund decreasing by \$10.3 million due to the transfer of state facility reimbursements to the Building Fund.
- General Fund increasing nearly \$8.2 million, primarily due to state and federal on-going and one-time revenues received in 2022-23 but not spent. These funds will carry over and be spent in 2023-24 or later.

General Fund Budgetary Highlights

Over the course of the year, the District revised the annual operating budget regularly. Significant budget adjustments fell into the following categories:

- Budget revisions acknowledging the inclusion of restricted ending balances, deferred revenue, and unspent carryover funds from the prior year.
- Budget revisions to update revenues to actual enrollment information and to update expenditures for staffing adjustments related to actual enrollments.
- Budget revisions to reflect salary settlements.
- Other budget revisions are routine for the district operations, including adjustments to state and federal revenues and expenditures based on final awards and allocations, and adjustments between expenditure categories for school and department budgets.

The final revised budget for the General Fund reflected a net increase to the ending balance of approximately \$90,755. Actual audited activity reflected a net increase to the ending balance of \$8.2 million. The difference between the final budget and the actual ending balance is due primarily to unspent federal and state program carryover funds, including one-time state Learning Recovery Emergency Block Grant and Arts, Music and Instructional Materials Discretionary Block Grant funds.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

By the end of the 2022-23 fiscal year, the District had invested \$322 million in a broad range of capital assets, including school sites, school buildings, site improvements, vehicles, and equipment. This amount represents a decrease of \$6.8 million from the previous fiscal year, which consists of construction work in progress, building construction, site improvement and equipment additions totaling \$1.7 million, net of deletions and depreciation expense in the current fiscal year of \$8.5 million.

Long-Term Debt

At June 30, 2023, the District had \$388,364,504 in long-term debt outstanding.

Table 4
Outstanding Liabilities

	2021-22	2022-23

Net Pension Liability	38,773,000	64,878,000
TOTAL	\$ 366,406,921	\$ 388,364,504

The General Obligation Bonds are financed by the local taxpayers and represent 27.4% of the District's long-term debt. Bond Anticipation Notes are financed through a lease financing paid by local taxpayers and represents 13.8% of the District's long-term debt. Certificates of Participation (COPs) are defeased through Mello-Roos special taxes and developer fees. COPs represent an additional 35.6% of the District long-term debt. The District's Net Pension Liability represents 16.71% of the District's long-term liability. The District's remaining debt is composed off other post-employment benefits, special tax bond, unamortized premiums and compensated absences.

FACTORS BEARING ON THE DISTRICT'S FUTURE

Over the last several years, the District has seen a progressing increase in growth as new housing developments are completed and new homeowners moved into the District. Over the last ten years since 2012-13, the district has increased enrollment by 962 students (or 14.3%) with an average of 1.4% enrollment over that same period.

In 2021-22, the District experienced a decrease in enrollment of 175 students from 2020-21, mainly due to students moving out of the area, to another district or home schooling due to the COVID-19 pandemic. If we were to exclude the 2021-22 enrollment decrease due to the COVID-19 pandemic, the average enrollment growth rate would increase to 1.8% over the last ten years.

In 2022-23, the District saw many students enroll in our school with an increase in enrollment of 325 students from 2021-22.

For 2023-24, at First Interim Budget, we are projecting to continue to see students return to school and growth in the Twelve Bridges and downtown areas of Lincoln, and at First Interim reporting we have updated our original Adopted enrollment projections to 7,869 students, an increase of 309 students (4.1%) from 2022-23 with an ADA-to-enrollment rate of 94.5% and projected ADA of 7,414. This increase reflects a 10-year average enrollment growth of 1.4% and an additional 0.2% increase due to additional students enrolling in the Twelve Bridges and Lincoln downtown area schools due to new housing development in the areas. For 2024-25, we are projecting 2.25 % enrollment growth with an ADA-to-enrollment rate of 94.5%, resulting in a projected ADA of 7,620, an increase of 206 ADA from the projected 2023-24 ADA.

The District's greatest challenge continues to be maintaining a viable relationship between its revenues and expenditures while at the same time expanding its infrastructure and services to address the educational, technology and facility needs of its existing and future students. The District must also continue to use one-time state and federal funding for one-time purposes. The District is committed to a balanced budget and maintaining a minimum reserve of 3% of expenditures for economic uncertainties.

The 2023-24 State Budget was approved by June 30, 2023. The final budget for 2023-24 included a statutory COLA of 8.22%.

In 2023-24, the District's First Interim Budget reporting shows the General Fund with a planned structural deficit of \$15.6 million, largely due to \$13.3 million in prior year unspent funds budgeted in expenditures to be spent in 2023-24, \$2.8 million in 2023/24 employee settlement costs and \$1 million in increased staffing costs due to enrollment growth that are now included in the budgeted expenditures. Although the district projects deficit spending, it still maintains the required 3% reserve for Economic Uncertainty plus an additional 2%, 1.8% and 1.4% of unassigned surplus for 2023-24, 2024-25 and 2025-26.

WESTERN PLACER UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Western Placer Unified School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The following is a summary of the more significant policies:

Reporting Entity: The Board of Trustees is the level of government which has governance responsibilities over all activities related to public school education in the District. The Board is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board since Board members have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters.

Mello-Roos Community Facilities District: The District and the Mello-Roos Community Facilities District (the "CFD") have a financial and operational relationship that meets the reporting entity definition criteria of GASB Codification Section 2100, *The Financial Reporting Entity*, for inclusion of the CFD as a blended component unit of the District. Accordingly, the financial activities of the CFD have been included in the financial statements of the District within the Mello-Roos Fund, a debt service fund. Special tax bonds issued by the CFD are included in long-term liabilities on the government-wide financial statements.

Western Placer Unified School District Financing Corporation: The District and the Western Placer Unified School District Financing Corporation (the Corporation) have a financial and operational relationship that meets the reporting entity definition criteria of GASB Codification Section 2100, *The Financial Reporting Entity*, for inclusion of the Corporation as a blended component unit of the District. Accordingly, the financial activities of the Corporation have been included in the general-purpose financial statements of the District within the Building Fund, a capital projects fund. The certificates of participation issued by the Corporation are included in long-term liabilities on the government-wide financial statements.

The following are those aspects of the relationship between the District and the Corporation and the District and the CFD and Corporation which satisfy *Codification of Governmental Accounting and Financial Reporting Standards, Section 2100*, as amended by criteria:

A - Accountability:

1. The CFD and Corporation's Board of Directors were appointed by the District's Board of Trustees.
2. The CFD and Corporation have no employees. The District's Assistant Superintendent, Business and Operations functions as the agent of the CFD and Corporation and does not receive additional compensation for work performed in this capacity.
3. The District's Board exercises significant influence over operations of the CFD and Corporation as the District is the sole lessee of all facilities owned by the CFD and Corporation.
4. All major financing arrangements, contracts, and other transactions of the CFD and Corporation must have the consent of the District.
5. Any deficits incurred by the CFD and Corporation will be reflected in the lease payments of the District. Any surpluses of the CFD and Corporation revert to the District at the end of the lease period.
6. The District's lease payments are the sole revenue source of the CFD and Corporation.
7. The District has assumed a "moral obligation," and potentially a legal obligation, for any debt incurred by the CFD and Corporation.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B - Scope of Public Service - The CFD and Corporation were formed for the sole purpose of financially assisting the District. The CFD and Corporation were formed to provide financing assistance to the District for construction, rehabilitation and acquisition of major capital facilities to support the student population.

C - Financial Presentation - For financial presentation purposes, the CFD and Corporation's financial activity have been blended with the financial data of the District. The basic financial statements present the CFD and Corporation's financial activity within the Mello-Roos and Building Funds, respectively.

Basis of Presentation - Financial Statements: The basic financial statements include a Management's Discussion and Analysis (MD & A) section providing an analysis of the District's overall financial position and results of operations, financial statements prepared using full accrual accounting for all of the District's activities, including infrastructure, and a focus on the major funds.

Basis of Presentation - Government-Wide Financial Statements: The Statement of Net Position and the Statement of Activities displays information about the reporting government as a whole. Custodial funds are not included in the government-wide financial statements. Fiduciary funds are reported only in the Statement of Fiduciary Assets and Liabilities.

The Statement of Net Position and the Statement of Activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of Governmental Accounting Standards Board Codification Section (GASB Cod. Sec.) N50.118-.121.

Program Revenues: Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues.

Allocation of Indirect Expenses: The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term liabilities is considered an indirect expense and is reported separately on the Statement of Activities.

Basis of Presentation - Fund Accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

(Continued)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A - Major Funds

General Fund - The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund. The activities of the Special Reserve for Other Than Capital Outlay Fund have been included in the General Fund for financial reporting purposes.

Building Fund - The Building Fund is a capital projects fund used to account for resources used for the acquisition of capital facilities by the District.

Capital Facilities Fund - The Capital Facilities Fund is used to account for resources used for the acquisition or construction of capital facilities by the District.

Mello-Roos Fund - The Mello-Roos Fund is a debt service fund used to account for the accumulation of resources for, and the payment of, Mello-Roos debt principal, interest, and related costs.

B - Other Funds

Special Revenue Funds - The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. This classification includes the Student Activity, Adult Education, Child Development, Cafeteria Funds and Deferred Maintenance.

Capital Projects Fund - The Capital Projects Fund is used to account for resources used for the acquisition or construction of capital facilities by the District. This classification includes the Special Reserve for Capital Outlay Fund.

County School Facilities Fund - The County School Facilities Fund is a capital projects fund used to account for resources used for the acquisition of capital facilities by the District.

Debt Service Funds - The Bond Interest and Redemption Fund is a debt service fund used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Trust Funds - The Trust Funds are used to account for assets held by the District as Trustee. The District maintains two expendable trust funds, the Scholarship Trust, which is to be used to provide financial assistance to students of the District, and the Retiree Benefits Fund, which is used by the District to reserve for funds to pay for retiree benefits.

Basis of Accounting: Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the basic financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

Accrual: The governmental activities in the government-wide financial statements and the fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

WESTERN PLACER UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Modified Accrual: The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term liabilities, if any, is recognized when due.

Budgets and Budgetary Accounting: By state law, the Board of Trustees must adopt a final budget by July 1. A public hearing is conducted to receive comments prior to adoption. The Board of Trustees complied with these requirements.

Receivables: Receivables are made up principally of amounts due from the State of California and Categorical programs. The District has determined that no allowance for doubtful accounts was needed as of June 30, 2023.

Stores Inventory: Inventory is stated at cost (average cost) which does not exceed replacement cost. Inventory consists of expendable supplies held for future use in the following period by the District's operating units, transportation supplies, and food held for consumption. Maintenance and other supplies held for physical plant repair are not included in inventory; rather, these amounts are recorded as expenditures when purchased.

Capital Assets: Capital assets purchased or acquired, with an original cost of \$5,000 or more, are recorded at historical cost or estimated historical cost. Contributed assets are reported at acquisition value for the contributed asset. Additions, improvements and other capital outlay that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are depreciated using the straight-line method over 5 - 50 years depending on asset types.

Deferred Outflows/Inflows of Resources: In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized a deferred loss on refunding reported, which is in the Statement of Net Position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter life of the refunded or refunding debt. Also, the District has recognized a deferred outflow of resources relate to recognition of the net pension liability and net OPEB liability reported in the Statement of Net Position.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of the net pension liability and net OPEB liability reported in the Statement of Net Position.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and Public Employers Retirement Fund B (PERF B) and additions to/deductions from STRP's and PERF B's fiduciary net position have been determined on the same basis as they are reported by STRP and PERF B. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Certain investments are reported at fair value. The following is a summary of pension amounts in the aggregate as of June 30, 2023:

	<u>STRP</u>	<u>PERF B</u>	<u>Total</u>
Deferred outflows of resources	\$ 12,210,168	\$ 10,113,358	\$ 22,323,526
Deferred inflows of resources	\$ 7,711,000	\$ 668,000	\$ 8,379,000
Net pension liability	\$ 38,984,000	\$ 25,894,000	\$ 64,878,000
Pension expense	\$ 5,869,979	\$ 3,700,917	\$ 9,570,896

Compensated Absences: Compensated absences totaling \$465,571 are recorded as a liability of the District. The liability is for the earned but unused benefits.

Accumulated Sick Leave: Sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expenditure or expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits for certain STRP and PERF B employees, when the employee retires.

Unearned Revenue: Revenue from federal, state, and local special projects and programs is recognized when qualified expenditures have been incurred. Funds received but not earned are recorded as unearned revenue until earned.

Interfund Activity: Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Net Position: Net position is displayed in three components:

1. *Net Investment in Capital Assets* – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent bond proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

(Continued)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position:

2. *Restricted Net Position* - Restrictions of the ending net position indicate the portions of net position not appropriable for expenditure or amounts legally segregated for a specific future use. The restriction for legally restricted programs represents the portion of net position restricted to specific program expenditures. The restriction for capital projects represents the portion of net position restricted for capital projects. The restriction for debt service represents the portion of net position available for the retirement of debt. The restriction for scholarships represents the portion of net position to be used to provide financial assistance to students of the District. The restriction for retiree benefits represents the portion of net position available for the former employees of the district. It is the District's policy to use restricted net position first when allowable expenditures are incurred.
3. *Unrestricted Net Position* – All other net position that do not meet the definitions of "restricted" or "net investment in capital assets".

Fund Balance Classifications: Governmental Accounting Standards Board Codification Sections 1300 and 1800, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB Cod. Sec. 1300 and 1800) implements a five-tier fund balance classification hierarchy that depicts the extent to which a government is bound by spending constraints imposed on the use of its resources. The five classifications, discussed in more detail below, are nonspendable, restricted, committed, assigned and unassigned.

A - Nonspendable Fund Balance: The nonspendable fund balance classification reflects amounts that are not in spendable form, such as revolving fund cash, prepaid expenditures and stores inventory.

B - Restricted Fund Balance: The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation. These are the same restrictions used to determine restricted net position as reported in the government-wide and fiduciary trust fund statements.

C - Committed Fund Balance: The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Board of Trustees. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. Formal action by the Board of Trustees is required to remove any commitment from any fund balance. At June 30, 2023, the District had no committed fund balances.

D - Assigned Fund Balance: The assigned fund balance classification reflects amounts that the District's Board of Trustees has approved to be used for specific purposes, based on the District's intent related to those specific purposes. The Board of Trustees can designate personnel with the authority to assign fund balances; however, as of June 30, 2023, no such designation has occurred.

E - Unassigned Fund Balance: In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes.

WESTERN PLACER UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In any fund other than the General Fund, a positive unassigned fund balance is never reported because amounts in any other fund are assumed to have been assigned, at least, to the purpose of that fund. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

Fund Balance Policy: The District has an expenditure policy relating to fund balances. For purposes of fund balance classifications, expenditures are to be spent from restricted fund balances first, followed in order by committed fund balances (if any), assigned fund balances and lastly unassigned fund balances.

While GASB Cod. Sec. 1300 and 1800 do not require districts to establish a minimum fund balance policy or a stabilization arrangement, GASB Cod. Sec. 1300 and 1800 do require the disclosure of a minimum fund balance policy and stabilization arrangements, if they have been adopted by the Board of Trustees. At June 30, 2018, the District has established a minimum General Fund fund balance policy of 5% of General Fund total outgo. As of June 30, 2023, the District has an unassigned balance of \$11,456,796.

Property Taxes: Secured property taxes are attached as an enforceable lien on property as of March 1. Taxes are due in two installments on or before December 10 and April 10. Unsecured property taxes are due in one installment on or before August 31. The County of Placer bills and collects taxes for the District. Tax revenues are recognized by the District when received.

Encumbrances: Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. All encumbrances are liquidated as of June 30.

Eliminations and Reclassifications: In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

Estimates: The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results may differ from those estimates.

New Accounting Pronouncements: In May 2020, the GASB issued GASB Statement No. 96, Subscription-Based Information Technology Arrangements. GASB Statement No. 96 defines a subscription-based information technology arrangement and requires the recognition of a right to use subscription asset and corresponding subscription liability. This statement was effective for fiscal years beginning after June 15, 2022. There was no impact to the District's July 1, 2022 net position as a result of the implementation of GASB Statement No. 96.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments at June 30, 2023 are reported at fair value and consisted of the following:

	<u>Governmental Activities</u>	<u>Fiduciary Activities</u>
Pooled Fund:		
Cash in County Treasury	\$ 103,528,376	\$ 171,348
Deposits:		
Cash on hand and in banks	693,975	-
Cash in revolving fund	5,000	-
Cash awaiting deposit	2,241	-
Investments:		
Cash with Fiscal Agent	<u>60,810</u>	<u>-</u>
Total cash and investments	<u>\$ 104,290,402</u>	<u>\$ 171,348</u>

Pooled Funds: In accordance with Education Code Section 41001, the Office of Education maintains substantially all of its cash in the interest bearing Placer County Treasurer's Pooled Investment Fund. The Office of Education is considered to be an involuntary participant in an external investment pool. The fair value of the Office of Education's investment in the pool is reported in the financial statements at amounts based upon the Office of Education's prorata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Deposits - Custodial Credit Risk: The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC) and are collateralized by the respective financial institution. At June 30, 2023, the carrying amount of the District's accounts was \$698,975 and the bank balance was \$723,291, \$389,300 of which was insured by the FDIC .

Cash with Fiscal Agent: The Cash with Fiscal Agent of \$60,810 in the Mello-Roos Fund represents debt proceeds that have been set aside for capital projects and the repayment of long-term liabilities. These amounts are held by a third party custodian in the District's name.

Interest Rate Risk: The District does not have a formal investment policy that limits cash and investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2023, the District had no significant interest rate risk related to cash and investments held.

Credit Risk: The District does not have a formal investment policy that limits its investment choices other than the limitations of state law.

Concentration of Credit Risk: The District does not place limits on the amount it may invest in any one issuer. At June 30, 2023, the District had no concentration of credit risk.

Special Tax Bonds: On March 10, 2015, the District issued Community Facilities District No. 1 Special Tax Bonds in the amount of \$12,376,387, to provide funds for refunding all of the Series 2005 Bonds. The Mello-Roos Bonds are authorized pursuant to the Mello-Roos Community Facilities Act of 1982 and are payable from the proceeds of an annual Special Tax to be levied and collected on property within the District. The Special tax is to be levied according to the rate and method of apportionment determined by a formula approved by the Board, as the legislative body of the District, and by the registered voters within the District.

The bonds bear interest rates ranging from 2.44% to 3.5% and are scheduled to mature in September 2034.

Scheduled payments on Series 2015 Special Tax Bonds are as follows:

Certificates of Participation (COP): In September 2016, the District issued \$69,520,000 Refinancing Project COP, with interest rates ranging from 3.75% to 5.0%, maturing in 2048. Bond proceeds from the issuance were used to refund both the 2008 COP and 2008B COP.

In September 2017, the District issued \$51,795,000 Refinancing Project COP, with interest rates ranging from 2.0% to 5.0%, maturing in 2050. Bond proceeds from the issuance were used to refund the 2009 refinancing COP.

On October 29, 2019, the District issued Certificates of Participation 2019 Refinancing Project in the amount of \$8,285,000 to advance refund the Certificates of Participation 2011 Refinancing Project. The 2019 Refinancing Certificates of Participation mature in varying amounts during the succeeding year through November 2037 with interest rates ranging from 2.0% to 3.7%.

In December 2019, the District issued \$18,887,598 in Certificates of Participation, with interest rates ranging from 2.42% to 4.25%, maturing in 2035. Proceeds from the issuance were used to finance a portion of the costs to construct Twelve Bridges High School and to fund modernization projects at Lincoln High School and Glenn Edwards Middle School.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN

General Information about the State Teachers' Retirement Plan

Plan Description: Teaching-certified employees of the District are provided with pensions through the State Teachers' Retirement Plan (STRP) – a cost-sharing multiple-employer defined benefit pension plan administered by the California State Teachers' Retirement System (CalSTRS). The Teachers' Retirement Law (California Education Code Section 22000 et seq.), as enacted and amended by the California Legislature, established this plan and CalSTRS as the administrator. The benefit terms of the plans may be amended through legislation. CalSTRS issues a publicly available financial report that can be obtained at <http://www.calstrs.com/comprehensive-annual-financial-report>.

Benefits Provided: The STRP Defined Benefit Program has two benefit formulas:

- CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS.
- CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS.

The Defined Benefit (DB) Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. There are several differences between the two benefit formulas which are noted below.

CalSTRS 2% at 60 - CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, up to the 2.4 percent maximum.

CalSTRS calculates retirement benefits based on a one-year final compensation for members who retired on or after January 1, 2001, with 25 or more years of credited service, or for classroom teachers with less than 25 years of credited service if the employer elected to pay the additional benefit cost prior to January 1, 2014. One-year final compensation means a member's highest average annual compensation earnable for 12 consecutive months calculated by taking the creditable compensation that a member could earn in a school year while employed on a fulltime basis, for a position in which the person worked. For members with less than 25 years of credited service, final compensation is the highest average annual compensation earnable for any 36 consecutive months of credited service.

CalSTRS 2% at 62 - CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

All CalSTRS 2% at 62 members have their final compensation based on their highest average annual compensation earnable for any 36 consecutive months of credited service.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

Contributions: Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Current contribution rates were established by California Assembly Bill 1469 (CalSTRS Funding Plan), which was passed into law in June 2014, and various subsequent legislation.

The CalSTRS Funding Plan established a schedule of contribution rate increases shared among members, employers, and the State of California to bring CalSTRS toward full funding by fiscal year 2046. California Senate Bill 90 and California Assembly Bill 84 (collectively the "Special Legislation"), were signed into law in June 2019 and June 2020, respectively, and provided supplemental contributions to the DB Program along with supplemental contribution rate relief to employers through fiscal year 2021–22.

A summary of statutory contribution rates and other sources of contributions to the DB Program pursuant to the CalSTRS Funding Plan and the Special Legislation, are as follows:

A summary of statutory contribution rates and other sources of contributions to the DB Program pursuant to the CalSTRS Funding Plan, SB 90 and SB84, are as follows:

Members - Under CalSTRS 2% at 60, the member contribution rate was 10.250 percent of applicable member earnings for fiscal year 2022-23. Under CalSTRS 2% at 62, members contribute 50 percent of the normal cost of their retirement plan, which resulted in a contribution rate of 10.250 percent of applicable member earnings for fiscal year 2022-23.

Under CalSTRS 2% at 62, members pay 9% toward the normal cost and an additional 1.205 percent as per the CalSTRS Funding Plan for a total member contribution rate of 10.205 percent. The contribution rate for CalSTRS 2% at 62 members is adjusted if the normal cost increases or decreases by more than 1% since the last time the member contribution rate was set. Based on the June 30, 2021, valuation adopted by the CalSTRS board in May 2022, the increase in normal cost was less than 1 percent. Therefore, the contribution rate for CalSTRS 2% at 62 members did not change effective July 1, 2022.

Employers – Employers are required to contribute a base contribution rate set in statute at 8.25%. Pursuant to the CalSTRS Funding Plan, employers also have a supplemental contribution rate to eliminate their share of the CalSTRS unfunded actuarial obligation by 2046.

Beginning in fiscal year 2021–22, the CalSTRS Funding Plan authorized the CalSTRS board to adjust the employer supplemental contribution rate up or down by a maximum of 1% for a total rate of no higher than 20.25% and no lower than 8.25%. In May 2022, the CalSTRS board voted to keep the employer supplemental contribution rate at 10.85% for fiscal year 2022–23 for a total employer contribution rate of 19.10%.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

The CalSTRS employer contribution rates effective for fiscal year 2022-23 through fiscal year 2046-47 are summarized in the table below:

<u>Effective Date</u>	<u>Base Rate</u>	<u>Supplemental Rate Per CalSTRS Funding Plan</u>	<u>Total</u>
July 1, 2022	8.250%	10.850%	19.100%
July 1, 2023 to June 30, 2046	8.250%	(1)	(1)
July 1, 2046	8.250%	Increase from AB 1469 rate ends in 2046-47	

(1) The CalSTRS Funding Plan authorizes the board to adjust the employer contribution rate up or down by up to 1% each year, but no higher than 20.250% total and no lower than 8.250%.

The District contributed \$7,894,168 to the plan for the fiscal year ended June 30, 2023.

State – 10.828 percent of the members' calculated based on creditable compensation from two fiscal years prior.

The state is required to contribute a base contribution rate set in statute at 2.017%. Pursuant to the CalSTRS Funding Plan, the state also has a supplemental contribution rate, which the board can increase by up to 0.5% each fiscal year to help eliminate the state's share of the CalSTRS unfunded actuarial obligation by 2046. In May 2022, the CalSTRS board voted to keep the state supplemental contribution rate at 6.311% for fiscal year 2022–23 for a total contribution rate of 10.828%.

Special legislation appropriated supplemental state contributions to reduce the state's portion of the unfunded actuarial obligation of the DB Program in fiscal years 2019-20 through 2021-22. These contributions are funded from future excess General Fund revenues, pursuant to the requirements of California Proposition 2, the "Rainy-Day Budget Stabilization Fund Act", which passed in 2014. Accordingly, the contribution amounts are subject to change each year based on the availability of funding. For fiscal year 2021–22, CalSTRS received \$410.0 million in supplemental state contributions from Proposition 2 funds. Additionally, CalSTRS received a one-time supplemental payment of \$173.7 million from the General Fund in fiscal year 2021–22 to offset forgone contributions due to the suspension of the 0.5% increase to the state supplemental contribution rate in fiscal year 2020–21.

The CalSTRS state contribution rates effective for fiscal year 2022-23 and beyond are summarized in the table below.

<u>Effective Date</u>	<u>Base Rate</u>	<u>Supplemental Rate Per CalSTRS Funding Plan</u>	<u>SBMA Funding⁽¹⁾</u>	<u>Total</u>
July 01, 2022	2.017%	6.311%	2.50%	10.828%
July 01, 2023 to June 30, 2046	2.017%	(2)	2.50%	(2)
July 01, 2046	2.017%	(3)	2.50%	(3)

- (1) The SBMA contribution rate excludes the \$72 million that is reduced from the required contribution in accordance with Education Code section 22954.
- (2) The CalSTRS board has limited authority to adjust the state contribution rate annually through June 2046 in order to eliminate the remaining unfunded actuarial obligation. The board cannot increase the supplemental rate by more than 0.5% in a fiscal year, and if there is no unfunded actuarial obligation, the supplemental contribution rate imposed would be reduced to 0%.
- (3) From July 1, 2046, and thereafter, the rates in effect prior to July 1, 2014, are reinstated, if necessary, to address any remaining unfunded actuarial obligation.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2023, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 38,984,000
State's proportionate share of the net pension liability associated with the District	<u>22,035,000</u>
Total	<u>\$ 61,019,000</u>

The net pension liability was measured as of June 30, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school districts and the State. At June 30, 2022, the District's proportion was 0.056 percent, which was an increase of 0.003 percent from its proportion measured as of June 30, 2021.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

For the year ended June 30, 2023, the District recognized pension expense of \$5,869,979 and revenue of \$3,535,336 for support provided by the State. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 32,000	\$ 2,923,000
Changes of assumptions	1,933,000	-
Net differences between projected and actual earnings on investments	-	1,906,000
Changes in proportion and differences between District's contributions and proportionate share of contributions	2,351,000	2,882,000
Contributions made subsequent to measurement date	7,894,168	-
Total	<u>\$ 12,210,168</u>	<u>\$ 7,711,000</u>

\$7,894,168 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending <u>June 30,</u>	
2024	\$ (399,300)
2025	\$ (2,198,300)
2026	\$ (3,150,300)
2027	\$ 2,614,367
2028	\$ (445,133)
2029	\$ 183,666

Differences between expected and actual experience and changes in assumptions are amortized over a closed period equal to the average remaining service life of plan members, which is 7 years as of the June 30, 2022 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

Actuarial Methods and Assumptions: The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2021, and rolling forward the total pension liability to June 30, 2022. The financial reporting actuarial valuation as of June 30, 2021, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2021
Experience Study	July 1, 2015 through June 30, 2018
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.10%
Consumer Price Inflation	2.75%
Wage Growth	3.50%
Post-retirement Benefit Increases	2.00% simple for DB, maintain 85% Purchasing power level for DB, not applicable for DBS/CBB

Discount Rate: The discount rate used to measure the total pension liability was 7.10 percent, which was unchanged from the prior fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Mortality: CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS investment staff and investment consultants as inputs to the process.

The actuarial investment rate of return assumption was adopted by the CalSTRS board in January 2020 in conjunction with the most recent experience study. For each current and future valuation, CalSTRS consulting actuary reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Long-Term* Expected Real Rate of Return</u>
Public Equity	42%	4.8%
Real Estate	15	3.6
Private Equity	13	6.3
Fixed Income	12	1.3
Risk Mitigating Strategies	10	1.8
Inflation Sensitive	6	3.3
Cash / Liquidity	2	(0.4)

* 20-year geometric average

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	<u>1% Decrease (6.10%)</u>	<u>Current Discount Rate (7.10%)</u>	<u>1% Increase (8.10%)</u>
District's proportionate share of the net pension liability	<u>\$ 66,210,000</u>	<u>\$ 38,984,000</u>	<u>\$ 16,379,000</u>

NOTE 8 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B

General Information about the Public Employer’s Retirement Fund B

Plan Description: The schools cost-sharing multiple-employer defined benefit pension plan Public Employer’s Retirement Fund B (PERF B) is administered by the California Public Employees’ Retirement System (CalPERS). Plan membership consists of non-teaching and non-certified employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California.

The Plan was established to provide retirement, death and disability benefits to non-teaching and non-certified employees in schools. The benefit provisions for Plan employees are established by statute. CalPERS issues a publicly available financial report that can be obtained at: <https://www.calpers.ca.gov/docs/forms-publications/acfr-2022.pdf>.

Benefits Provided: The benefits for the defined benefit plans are based on members’ years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years (10 years for State Second Tier members) of credited service.

Contributions: The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer’s benefit formulas. Employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Employer contributions, including lump sum contributions made when districts first join PERF B, are credited with a market value adjustment in determining contribution rates.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly.

Required contribution rates for active plan members and employers as a percentage of payroll for the year ended June 30, 2023, were as follows:

Members - The member contribution rate was 7.0 percent of applicable member earnings for fiscal year 2023.

Employers - The employer contribution rate was 25.37 percent of applicable member earnings.

The District contributed \$3,663,358 to the plan for the fiscal year ended June 30, 2023.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2023, the District reported a liability of \$25,894,000 or its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021. The District’s proportion of the net pension liability was based on the District’s share of contributions to the pension plan relative to the contributions of all participating school districts. At June 30, 2022 the District’s proportion was 0.075 percent, which was an increase of 0.004 percent from its proportion measured as of June 30, 2021.

NOTE 8 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B (Continued)

For the year ended June 30, 2023, the District recognized pension expense of \$3,700,917. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Outflows of Resources</u>	<u>Inflows of Resources</u>
Difference between expected and actual experience	\$ 117,000	\$ 644,000
Changes of assumptions	1,916,000	-
Net differences between projected and actual earnings on investments	3,057,000	-
Changes in proportion and differences between District contributions and proportionate share of contributions	1,360,000	24,000
Contributions made subsequent to measurement date	<u>3,663,358</u>	<u>-</u>
Total	<u>\$ 10,113,358</u>	<u>\$ 668,000</u>

\$3,663,358 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending <u>June 30,</u>	
2024	\$ 1,567,500
2025	\$ 1,418,500
2026	\$ 931,500
2027	\$ 1,864,500

Differences between expected and actual experience, changes in assumptions and changes in proportion and differences between District contributions and proportionate share of contributions are amortized over a closed period equal to the average remaining service life of plan members, which is 3.9 years as of the June 30, 2022 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

Actuarial Methods and Assumptions: The total pension liability for the Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2021, and rolling forward the total pension liability to June 30, 2022. The financial reporting actuarial valuation as of June 30, 2021, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2021
Experience Study	June 30, 2000 through June 30, 2019
Actuarial Cost Method	Entry age normal
Investment Rate of Return	6.90%
Consumer Price Inflation	2.30%
Wage Growth	Varies by entry age and service
Post-retirement Benefit Increases	2.00% until Purchasing Power Protection Allowance Floor on Purchasing Power Applies, 2.30% thereafter

The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using Society of Actuaries 80% of scale MP2020. For more details on this table, please refer to the 2021 experience study report.

All other actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period from 2000 to 2019, including updates to salary increase, mortality and retirement rates. Further details of the Experience Study can be found at CalPERS’ website.

During the 2021-22 measurement period, the financial reporting discount rate for PERF B was lowered from 7.15 percent to 6.90 percent. In addition, the inflation assumption was reduced from 2.50 percent to 2.30 percent. Lastly, demographic assumptions for mortality rates were updated.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Expected Real Rates of Return Years 1-10 (1, 2)</u>
Global Equity – cap-weighted	30.00%	4.45%

NOTE 8 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B (Continued)

Discount Rate: The discount rate used to measure the total pension liability was 6.90 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan. The results of the crossover testing for the Plan are presented in a detailed report that can be obtained at CalPERS’ website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return.

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 6.90 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.90 percent) or 1-percentage-point higher (7.90 percent) than the current rate:

	1% Decrease (5.90%)	Current Discount Rate (6.90%)	1% Increase (7.90%)
District’s proportionate share of the net pension liability	\$ 37,406,000	\$ 25,894,000	\$ 16,381,000

Pension Plan Fiduciary Net Position: Detailed information about the pension plan’s fiduciary net position is available in the separately issued CalPERS financial report.

NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS

Plan Description: In addition to the pension benefits described in Notes 7 and 8, the District established an Other Postemployment Benefits Plan which is a single-employer defined benefit healthcare plan. The District participates in the California Employer’s Retiree Benefit Trust Program (CERBT) to pre-fund OPEB liabilities. The CERBT is an agent multiple employer plan consisting of an aggregation of single-employer plans, with pooled administrative and investment functions that are administered by PERS. A copy of the aggregated CERBT annual financial report may be obtained at www.calpers.ca.gov. CERBT serves as an irrevocable trust, to ensure that funds contributed into the Trust are dedicated to service the needs of member districts, and their employees and retirees.

NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (Continued)

The CERBT fund, which is an Internal Revenue Code (IRC) Section 115 Trust, is set up for the purpose of (i) receiving employer contributions to prefund health and other post-employment benefits for retirees and their beneficiaries, (ii) invest contributed amounts and income therein, and (iii) disburse contributed amounts and income therein, if any, to pay for costs of administration of the fund and to pay for health care costs or other post-employment benefits in accordance with the terms of the District's OPEB plan.

Employees Covered by Benefit Terms: The following is a table of plan participants at June 30, 2023:

	<u>Number of Participants</u>
Inactive employees receiving benefits	17
Participating active employees	<u>545</u>
	<u><u>562</u></u>

Benefits Provided: The District pays the full cost of health care benefits to age 65 for employees who retired prior to June 30, 1990 and had reached age 60. The full cost of benefits is limited to the amount the District was paying as of June 30, 1990. After age 65, the District continues to pay 50% of the current certificate cap and the retiree pays the remainder. As of June 30, 2023, there were 5 retirees receiving benefits under this agreement.

The District's certificated retirees who had at least fifteen years of service and had reached a minimum age of 55 and retire after July 1, 2001 receive up to \$6,455 per year in health care benefits for a maximum of 10 years or until age 65, whichever comes first. As of June 30, 2023, there were 9 retired employees receiving benefits under this agreement.

The District pays up to \$2,775 per year in healthcare benefits for classified employees who had at least fifteen years of service and had reached age 55 and retired after July 1, 2003. These benefits cease after a maximum of five years or at age 65, whichever comes first. As of June 30, 2023, there were 3 retired employees receiving benefits under this agreement.

Contributions: California Government Code specifies that the District's contribution requirements for covered employees are established and may be amended by the Governing Board. Retirees participating in the group insurance plans offered by the District are required to contribute 100% of the active premiums. In future years, contributions are assumed to increase at the same rate as premiums. The District's premium rates being charged to these retirees are lower than the expected cost for a retiree population under age 65. Thus, an implicit subsidy exists as a result of this difference between the actual cost and the true retiree cost.

Contributions to the Plan from the District were \$205,101 for the year ended June 30, 2023. Employees are not required to contribute to the OPEB plan.

NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (Continued)

OPEB Plan Investments: The plan discount rate of 6.75% was determined using the following asset allocation and assumed rate of return:

<u>Asset Class</u>	<u>Percentage of Portfolio</u>	<u>Rate of Return*</u>
Equities	59%	7.545%
Fixed income	25%	4.250%
Real Estate Investment Trusts	8%	7.250%
Commodities	3%	7.545%
Treasury Inflation Protected Securities (TIPS)	5%	3.000%

* Geometric average

Rolling periods of time for all asset classes were used to appropriately reflect correlation between asset classes. This means that the average returns for any asset class do not necessarily reflect the averages over time individually, but reflect the return for the asset class for the portfolio average. Additionally, the historic 20 year real rates of return for each asset class along with the assumed long-term inflation assumption was used to set the discount rate. The investment return was offset by assumed investment expenses of 25 basis points. It was further assumed that contributions to the plan would be sufficient to fully fund the obligation over a period not to exceed 20 years.

Actuarial Assumptions: The net OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

<u>Valuation Date</u>	June 30, 2021
<u>Measurement Date</u>	June 30, 2022

NOTE 10 – JOINT POWERS AGREEMENT

Schools Insurance Group: The District is a member with other school districts of a Joint Powers Authority, Schools Insurance Group (SIG), for the operation of a common risk management and insurance program for property and liability coverage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage in the prior year.

Schools Excess Liability Fund: The District is also a member with other school districts of a Joint Powers Authority, Schools Excess Liability Fund (SELF), for the operation of a common risk management and insurance program for excess property and liability coverage. SELF is governed by a Governing Board consisting of representatives from member districts. The Board controls the operations of SELF, including selections of management and approval of operating budgets. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage from coverage in the prior year.

The relationship between the District and the Joint Powers Authority is such that the Joint Powers Authority is not component unit of the District for financial reporting purposes.

NOTE 11 – CONTINGENCIES

The District is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the District.

The District has received federal and state funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could result in expenditure disallowances under terms of the grants, it is management's opinion that any required reimbursements of future revenue offsets subsequently determined will not have a material effect on the District's financial position or results of operations.

WESTERN PLACER UNIFIED SCHOOL DISTRICT
NOTE TO REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2023

NOTE 1 – PURPOSE OF SCHEDULES

Budgetary Comparison Schedule: The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Education to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

Schedule of Changes in Net OPEB Liability: The Schedule of Changes in Net OPEB liability is presented to illustrate the elements of the District's Net OPEB liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

Schedule of the District's Proportionate Share of the Net Pension Liability: The Schedule of the District's Proportionate Share of the Net Pension Liability is presented to illustrate the elements of the District's Net Pension Liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

Schedule of the District's Contributions: The Schedule of the District's Contributions is presented to illustrate the District's required contributions relating to the pensions. There is a requirement to show information for 10 years. However, until a full 10- year trend is compiled, governments should present information for those years for which information is available.

Changes of Benefit Terms: There are no changes in benefit terms reported in the Required Supplementary Information.

Changes of Assumptions: The discount rate for OPEB was 7.0%, 4.2%, 3.8%, 2.6%, 6.75% and 6.75% in the June 30, 2017, 2018, 2019, 2020, 2021, and 2022, actuarial reports, respectively.

The discount rate used for the Public Employer's Retirement Fund B (PERF B) plan was 7.50, 7.65, 7.65, 7.15, 7.15, 7.15, 7.15, 7.15 and 6.90 percent in the June 30, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, and 2021 actuarial reports, respectively.

The inflation rate used for the PERF B plan was 2.50, 2.50, 2.50, 2.50, 2.50, 2.50, 2.50, 2.50, and 2.30 percent in the June 30, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, and 2021 actuarial reports, respectively.

The following are the assumptions for State Teachers' Retirement Plan:

The General Fund balance has increased by \$15,173,692 over the past three years. The fiscal year 2023-2024 budget projects a decrease of \$4,582,381. For a district this size, the state recommends available reserves of at least 3% of total General Fund expenditures, transfers out, and other uses. For the year ended June 30, 2023, the District met this requirement.

The District has incurred operating surpluses in each of the past three years and anticipates an operating deficit in fiscal year 2023-2024.

Total long-term liabilities have decreased by \$27,416,915 over the past two years.

Average daily attendance has increased by 128 over the past two years. An increase of 103 of ADA is projected for the 2023-2024 fiscal year.

WESTERN PLACER UNIFIED SCHOOL DISTRICT
NOTES TO SUPPLEMENTARY INFORMATION
For the Year Ended June 30, 2023

NOTE 1 – PURPOSE OF SCHEDULES

Schedule of Average Daily Attendance: Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time: The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District, and whether the District complied with the provisions of Education Code Sections 46201 through 46206.

Schedule of Expenditures of Federal Awards: The Schedule of Expenditure of Federal Awards includes the federal award activity of Western Placer Unified School District, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Expenditures are recognized following the cost principles in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

Reconciliation of Unaudited Actual Financial Report with Audited Financial Statements: This schedule provides the information necessary to reconcile the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis – Unaudited: This schedule provides information on the District's financial condition over the past three years and its anticipated condition for the 2023-2024 fiscal year, as required by the State Controller's Office.

Schedule of Charter Schools: This schedule provides information for the California Department of Education to monitor financial reporting by Charter Schools.

NOTE 2 – EARLY RETIREMENT INCENTIVE PROGRAM

Education Code Section 14502 requires certain disclosure in the financial statements of districts which adopt Early Retirement Incentive Programs pursuant to Education Code Sections 22714 and 44929. For the fiscal year ended June 30, 2023, the District did not adopt this program.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Board of Trustees
Western Placer Unified School District
Lincoln, California

Report on Compliance***Opinion on State Compliance***

We have audited Western Placer Unified School District's (the District) compliance with the requirements specified in the State of California *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* applicable to the District's state program requirements identified below for the year ended June 30, 2023.

In our opinion, the District complied, in all material respects, with the compliance requirements that are applicable to the laws and regulations of the state programs noted in the table below for the year ended June 30, 2023.

Basis for Opinions

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), and the *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Our responsibilities under those standards and the *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's state programs.

(Continued)

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* will always detect a material noncompliance when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the state programs as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we consider necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, but not for the purpose of expressing an opinion on the effectiveness of the District's internal controls over compliance. Accordingly, we express no such opinion; and
- Select and test transactions and records to determine the District's compliance with the state laws and regulations applicable to the following items:

We did not perform any procedures related to the Early Retirement Incentive because the District did not offer this in the current year.

We did not perform any procedures related to the Juvenile Court Schools because the District does not offer Juvenile Court Schools.

We did not perform procedures related to Middle or Early College High Schools because the District does not offer Middle or Early College High Schools program.

We did not perform any procedures related to the Apprenticeship - Related and Supplemental Instruction because the District does not operate an Apprenticeship Program.

We did not perform any procedures related to the District of Choice because the District is not reported as a District of Choice per the California Department of Education.

We did not perform procedures related to California Clean Energy Jobs Act because the District did not receive or expend any California Clean Energy Jobs Act funds in the current fiscal year.

We did not perform procedures related to Independent Study-Course Based because the District did not report any ADA related to Independent Study-Course Based in the current fiscal year.

We did not perform any procedures related to the Expanded Learning Opportunities Grant (ELO-G) because the District did receive or expend any Expanded Learning Opportunities Grant (ELO-G) funds in the current fiscal year.

We did not perform procedures for the Charter School section because the charter schools sponsored by the District have separate reports.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with compliance requirement will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit, we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Board of Trustees
Western Placer Unified School District
Lincoln, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Western Placer Unified School District as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Western Placer Unified School District's basic financial statements, and have issued our report thereon dated December 8, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Western Placer Unified School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Western Placer Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Western Placer Unified School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

(Continued)

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Western Placer Unified School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH
MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE;
REQUIRED BY THE UNIFORM GUIDANCE

Board of Trustees
Western Placer Unified School District
Lincoln, California

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Western Placer Unified School District's compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of Western Placer Unified School District's major federal programs for the year ended June 30, 2023. Western Placer Unified School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Western Placer Unified School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Western Placer Unified School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Western Placer Unified School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Western Placer Unified School District's federal programs.

(Continued)

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Western Placer Unified School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Western Placer Unified School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Western Placer Unified School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of Western Placer Unified School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Western Placer Unified School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
