

A.I. at Deerfield-Windsor School

A DWS student may **ONLY** use artificial intelligence (A.I.) on an assignment or activity with teacher permission. Citation is required in allowed cases. Unauthorized use of A.I. in the form of translators, math computation websites, essay generators, etc. on an assignment or activity is a violation of the DWS honor code.

Always Allowed

*The student utilizes A.I. to study class material independent of a class assignment or activity without citation.

- Asking an A.I to generate a worksheet of homework problems or prompts to prepare for a written assignment.

Allowed at Teacher's Discretion

*The student uses AI to interact with real-world scenarios
*The student analyzes or debates with A.I. to grow understanding
*The student uses AI to build background, check answers, or research.

- Using wordreference.com or spanishdict.com for grammar lessons/practice
- Using A.I. generate presentations as a template.

Never Allowed

*The student uses AI to complete the entire assignment or activity with no original thought.
*The student passes off work from AI sources as their own original product.

- *Asking an A.I website to write an essay for the assigned essay prompt.
- * Google Translate, spanishdict.com for translation purposes, copying and pasting more than one word in sequence into any type of online translator
- *Creating entire presentations with A.I. generators.
