# Junior Detective Forensics

Step into the thrilling world of crime-solving! Uncover the origins of forensic science while crafting your very own magnifying glass. Learn the art of lifting and identifying fingerprints, and use Silly Putty to reveal hidden images! Investigate footprints, conduct a grid search for crucial clues, and work together to crack CSI puzzles. Sharpen your analytical and critical thinking as you decode messages with a UV light and uncover invisible ink secrets. Get hands-on with processing a crime scene and analyzing evidence to understand why every detail is vital in cracking the case. Explore the math behind forensics and life skills while gaining a deeper understanding of the science used to solve crimes. This engaging curriculum, designed for grades 3 and 4, is led by active duty or retired detectives, offering a real-life perspective in this 8 hour adventure into the world of forensic investigation! Students must be signed-out and picked-up by an adult 18 years or older—no late buses.
