

STUDENT PROGRESS REPORTS TO CAREGIVERS

The North Middlesex Regional School District School Committee recognizes the school's obligation to give periodic reports of a student's progress and grades. The School Committee further recognizes that these reports are vital communication between the schools and caregivers. The School Committee also believes that all progress reports must be based upon complete information, accurately and honestly reported with the proper maintenance of confidentiality.

A report depicting the student's progress will be issued periodically following an evaluation by the appropriate teacher, teachers, or other professional personnel.

In addition to the periodic reports, caregivers will be notified when a student's performance warrants attention.

Grading and promotion will be based on improvement, achievement, the capability of the student, and the professional judgment of the teacher and Principal.

Significant changes in the reporting system shall be preceded by a cooperative study and evaluation by teachers, principals, caregivers, and the Assistant Superintendent or designee, who will submit the proposal to the School Committee for consideration and approval.
