

Child Development & Early Education

Should You Join the CDEE Program?

Do You Want To . . .

- Work with young children?
- Positively influence the next generation?
- Work in a career where each day is different?
- Be a lifelong learner?
- Be a role model?

**If you answered YES, then a career in
teaching might be right for you!**

Check out these opportunities!

- Learn whether teaching is right for you without spending a penny!
- Get hands on experiences! Work with preschoolers either in your high school, an elementary school, or an early learning center.
- Earn college credit at Carroll Community College.
- Earn a nationally recognized industry certification.
- Prepare for a career in Early Education.

The CDEE program is available at
select high schools or regionally at
Westminster High School.

Sign up for these courses:

Honors Child and Adolescent Development

Learn about the ages and stages of children from birth to adolescence.

Learning Environment for Preschoolers

Discover how young children learn and develop an inviting and effective classroom setting.

CDA Portfolio & Internship

Become directly involved with preschoolers in the teaching/learning process, while developing your CDA portfolio.

CDA Internship -or- Dual Enrollment at CCC

Either intern as a teacher in a pre-school setting, or continue your studies in the Early Childhood Education program at Carroll Community College.
