

Redistricting Community Meeting

March 18, 2025

Meeting Agenda

- Review Redistricting Journey
- Redistricting Overview
- Review Data and Maps
- Live Community Poll
- Key Meeting Dates

Redistricting Journey

Fall 2023
Boundary Analysis

Winter/Spring 2024
Requirements Gathering

Summer 2024
Vendor Selection

Fall 2024
Data Preparation

December 2024
Board Adopts
Guiding
Principles

Feb-May 2025
Boundary Options &
Policies Developed

June 2025
Board Adopts
Boundaries and
Policies

July 2025
Some Policies Become Effective

July 2025 - August 2026
Families Notified of Adjusted
Boundaries

August 2026
Boundaries Implemented
All Policies Become Effective

Redistricting Overview

- Serve our growing and changing community by addressing school capacity and utilization.
- Balance student enrollment, address overutilization and ensure all students have access to equitable resources and opportunities.

Redistricting Overview

**Redistricting
Advisory
Committee**

**Steering
Committee**

**School
Board**

**The name of the Community Review Committee has been changed to the Redistricting Advisory Committee.*

RAC's Role

- **Inform, Not Influence** – Your role is to share factual information with your community, not advocate for specific boundary changes.
- **Gather, Not Guide** – Your job is to relay community questions and concerns, not to shape or sway decisions.
- **Stay Neutral and Fact-Based** – Discussions should focus on facts and data, not personal preferences or opinions.
- **No Decision-Making Authority** – The School Board and ACPS leadership will make final decisions based on data, policy, and legal requirements.

RAC Charge:

- Understand the supporting data informing the process
- Be advocates and messengers to your community
- Provide feedback and ask questions
- Preview scenarios

Steering Committee's Role

- Provide subject matter expertise and oversight of the process
- Liaison between MGT, the RAC and the School Board
- Preview scenarios for consideration
- Provide guidance and context to policy decision-making
- Provide input to the School Board for consideration

School Board Decision-Making

Decisions Will Be Based On:

- Student enrollment projections
- Capacity and facility utilization
- Geographic and transportation considerations
- Legal and policy guidelines
- Equity and community impact

Not Based On:

- Individual committee member opinions
- Personal preferences for schools or neighborhoods
- Pressure from any specific group or school community

Key Terms and Definitions

Enrollment: Number of active students enrolled at ACPS on September 30 of each school year as detailed in the Fall Membership Report to the School Board.

Class Cap: Number of seats available to students in a homeroom class with a full-time teacher, based on the IHB-R policy.

Capacity: Measured student space based on the Educational Specifications; the total building capacity for a school is a sum of each classroom's measured capacity; this is not related to building occupancy as established by building code or the number of students that can be served at the school per the class cap.

Utilization: Student enrollment divided by the building capacity; we aim to be between 90-110%.

Key Terms and Definitions

Mobility: The ratio of the number of students living in an attendance area by grade to the number enrolled the prior year in the earlier grade. This ratio is averaged over four years of student data representing three years of change.

Student Generation Rates: The City of Alexandria produces this factor. Represent the ratio of enrolled ACPS students who live in Alexandria to the number of residential housing units in Alexandria.

Birth Rate Data: The number of babies born in an area each year. For school division redistricting, this data is used to estimate kindergarten enrollment each school year and helps predict how many students will attend schools in the future.

Key Terms and Definitions

Resident Student Population: Total number of students living in a certain area, such as a attendance area or study area.

Residence vs. Enrollment: Where a student lives vs. the school a student attends.

Redistricting: Adjusting school boundary lines to balance student enrollment between schools.

Methodology: The process or steps used to collect and understand data.

Study Area: Small geographic areas – such as neighborhoods or portions of neighborhoods – that are considered the building blocks of school district attendance areas. Study areas are geographically defined following logical boundaries within a school district, such as freeways, streets, railroad tracks, or green space.

The Data Supports the Process

- GIS Data Modeling
 - School Points
 - School Boundaries
 - Student Data
 - Residential Development
- Resident Student Population Projections
 - Projections by study area are used to help understand how future boundaries will hold up to population shifts

The Data Supports the Process

- **GIS Data Modeling**
 - School Points
 - School Boundaries
 - Student Data
 - Residential Development
- **Resident Student Population Projections**
 - Projections by study area are used to help understand how future boundaries will hold up to population shifts

The Data Supports the Process

- GIS Data Modeling
 - School Points
 - School Boundaries
 - Student Data
 - Residential Development
- Resident Student Population Projections
 - Projections by study area are used to help understand how future boundaries will hold up to population shifts

The Data Supports the Process

- GIS Data Modeling
 - School Points
 - School Boundaries
 - Student Data
 - Residential Development
- Resident Student Population Projections
 - Projections by study area are used to help understand how future boundaries will hold up to population shifts

The Data Supports the Process

- GIS Data Modeling
 - School Points
 - School Boundaries
 - Student Data
 - Residential Development
- Resident Student Population Projections
 - Projections by study area are used to help understand how future boundaries will hold up to population shifts

The Data Supports the Process

- GIS Data Modeling
 - School Points
 - School Boundaries
 - Student Data
 - Residential Development
- Resident Student Population Projections
 - Projections by study area are used to help understand how future boundaries will hold up to population shifts

Next steps in the process:

- An in depth analysis to the student population forecast that includes projections by attendance area for each Elementary and Middle School
- Presentation of scenarios built on student population forecasts
- Policy will play an important role in this process and provide the division with additional tools to solve problems

Reading the Matrix

Beginning in the upper left corner of the table, of the 560 students living in the attendance area for Charles Barrett 454 attend their zoned school, 1 attends Cora Kelly, 4 attend George Mason, 1 attends Jefferson Houston, 97 attend Mount Vernon Community School, 2 attend Naomi Brooks and 1 attends William Ramsay. Reading down the columns, Charles Barrett captures students that are zoned to attend Douglas Macarthur, George Mason, James Polk, and so on. The bottom of the chart designates the inter-district transfer students, the few students with unmatched addresses and special education students.

Notes																		
The Jefferson Houston and Patrick Henry schools are PK-8 boundaries																		

2020-2025 STRATEGIC PLAN: EQUITY FOR ALL

The Matrix allows for us to account for open enrollment and understand transfer patterns.

All totals and capacities in the PK-5 Matrix are base on PK-5 student totals and capacity.

Out of Division

Transfers: Students attending an ACPS school is an address from outside of the division.

Invalid Addresses:

Unmatched students due to unavailable address information

Special Education:

Students enrolled a special education program location a campus to meet the child's specific need

Notes																		
The Jefferson Houston and Patrick Henry schools are PK-8 boundaries																		

This analysis also allows us to understand the impact that these patterns are having on the capacity utilization of each campus

Resident Utilization-

Number of students living in an attendance area compared to the school capacity

Enrollment Utilization-

Number of students enrolled at a school compared to the school capacity

Enrollment totals are based on PK-5 enrollment

Updated to show PK-5 capacities of the PK-8 Schools

Redistricting Guiding Principles *(As voted on at the December 19, 2024 ACPS School Board Meeting.)*

Equitable School Utilization

- Ensure optimal utilization of school spaces to support efficient use of facilities and maintain effective learning environments.

Neighborhood Schools

- Prioritize maintaining neighborhood schools to foster community engagement and ensure students have access to educational opportunities based on proximity, school utilization, and walkability/bikeability to further strengthen connections between schools and their surrounding neighborhoods.

Demographic Alignment

- Align school demographics with division-wide goals to promote diversity, equity, and inclusion, ensuring all students have access to a supportive and representative learning environment.

Capacity and Utilization Focus

- Redistricting decisions will prioritize school utilization ratios, which consider class capacity, the number and size of classrooms, and class caps. These ratios will guide the distribution of students to ensure schools operate efficiently, avoiding both excessive enrollment and underutilization.

Minimize Bus Dependency

- Strive to reduce transportation needs by minimizing bus rides and encouraging alternative methods of transportation where possible.

Redistricting Guiding Principles

Current Boundaries

Current Boundaries			
Attendance Area	Capacity	PK-5 Resident Totals	Capacity Utilization %

NAOMI L BROOKS	350	340	97%
PATRICK HENRY K8	629	956	152%
SAMUEL W TUCKER	620	755	122%
WILLIAM RAMSAY	748	565	76%

- Capacity issues exist with the current boundaries
- Policy has influenced enrollment heavily and will play a critical role in reducing the redistricting scope

Redistricting by Closest School

Boundaries by Closest School			
Attendance Area	Capacity	PK-5 Resident Totals	Capacity Utilization %
CHARLES BARRETT	512	628	123%
CORA KELLY	429	526	123%
DOUGLAS MACARTHUR	840	385	46%
FERDINAND T DAY	640	975	152%
GEORGE MASON	368	313	85%
JAMES K POLK	756	650	86%
JEFFERSON HOUSTON PREK8	516	464	90%
JOHN ADAMS	858	277	32%
LYLES CROUCH TRADITIONAL ACADEMY	375	245	65%
MOUNT VERNON COMMUNITY SCHOOL	755	525	70%
NAOMI L BROOKS	350	290	83%
PATRICK HENRY K8	629	569	90%
SAMUEL W TUCKER	620	1429	230%
WILLIAM RAMSAY	748	668	89%

- Redistricting considering only proximity to schools does not balance utilization
- Policy has influenced enrollment heavily and will play a critical role in reducing the redistricting scope

Redistricting by Capacity Utilization

Boundaries by Capacity Utilization			
Attendance Area	Capacity	PK-5 Resident Totals	Capacity Utilization %
CHARLES BARRETT	512	511	100%
CORA KELLY	429	469	109%
DOUGLAS MACARTHUR	840	758	90%
FERDINAND T DAY	640	604	94%
GEORGE MASON	368	276	75%
JAMES K POLK	756	701	93%
JEFFERSON HOUSTON PREK8	734	464	63%
JOHN ADAMS	858	648	76%
LYLES CROUCH TRADITIONAL ACADEMY	375	245	65%
MOUNT VERNON COMMUNITY SCHOOL	755	699	93%
NAOMI L BROOKS	350	290	83%
PATRICK HENRY K8	854	898	105%
SAMUEL W TUCKER	620	620	100%
WILLIAM RAMSAY	748	761	102%

- Redistricting considering utilization does not allow for neighborhood schools and will likely add additional reliance on transportation
- Acceptable scenarios will require compromise of all the guiding principles

The Green Plan

Pros:

- Moves study areas closer to schools when possible
- Provides utilization relief from Samuel Tucker to Patrick Henry attendance areas

Cons:

- William Ramsay attendance area splits neighborhoods near Stevenson Park with Samuel Tucker attendance area
- Western portion of Patrick Henry attendance area sent further away to Douglas MacArthur to balance utilization
- Utilization imbalances on the East End remain
- Non-contiguous boundary of George Mason remains

DRAFT

The Green Plan offers a solution to alleviate the impacted West End attendance areas

The Blue Plan

Pros:

- Samuel Tucker neighborhoods are assigned to closer schools
- Relief is provided to the impacted West End attendance areas of Patrick Henry and Samuel Tucker

Cons:

- Ferdinand attendance area extends further west and is bisected by I-395
- Seminary Towers community is moved further away to Douglas MacArthur
- Utilization imbalances on the East End remain
- Non-contiguous boundary of George Mason remains

- Utilization greater than 110%
- Utilization 90%-100%
- Utilization 80%-90%
- Utilization 70%-80%
- Utilization 60%-70%

DRAFT

The Blue Plan offers an alternative approach to balancing utilization on the West End compared to the Green Plan

The Purple Plan

DRAFT

Pros:

- Samuel Tucker neighborhoods are assigned to closer schools
- Relief is provided to the impacted West End attendance areas of Pat
- rick Henry and Samuel Tucker
- Provides utilization relief to Naomi L. Brooks

Cons:

- Ferdinand attendance area extends further west and is bisected by I-395
- Seminary Towers community is moved further away to Douglas MacArthur
- Utilization imbalances on the East End remain
- Non-contiguous boundary of George Mason remains
- Creates a non-contiguous boundary for Lyle Crouch
- Likely increases demand on transportation

DRAFT

The Purple Plan is an extension of the Blue Plan that addresses the utilization issue at Naomi L. Brooks

Small Group Locations

- Group 1 - Lecture Hall 1 - Dr. Clint Page/Amy Creed (Spanish)
- Group 2 - Lecture Hall 2 - Julia Burgos/Dr. Anthony Sims (Amharic)
- Group 3 - Quiet Dining - Kennetra Wood/Fredy Martinez (Arabic)
- Group 4 - Black Box Theater - Dr. Alicia Hart/James Parker (Dari)
- Group 5 - Right Front Corner of Cafeteria - John Porter/Kamika Valmond (English)
- Group 6 - Left Front Corner of Cafeteria - Dr. Grace Taylor/Ursula Rocha (English)
- Group 7 - Right Back Corner of Cafeteria - Dr. Marcia Jackson/Dr. Elizabeth Hoover (English)
- Group 8 - Left Back Corner of Cafeteria - Dr. Melanie Kay-Wyatt/Michael Routhouska (English)

Discussion Norms

- Respect each person
- Share responsibility
- Challenge ideas, not people
- Keep an open mind
- Question and participate
- Be present in the meeting
- Listen-listen-listen
- Be brief and to the point

Discussion Questions

- What, if anything, do you like about the maps?
- Are there areas of improvements for the maps?

Key Meeting Dates

RAC Meetings:

- March 19, 2025, from 6:00 - 8:00 p.m. - School Board Meeting Room
- April 8, 2025, from 6:00 - 8:00 p.m. - School Board Meeting Room

Community Engagement Meeting:

- April 22, 2025, from 6:00 - 8:00 p.m. - ACHS King Street

School Board Meetings:

- March 20 at 6pm - School Board Meeting Update and Policy Work Session
- April 3, 2025 - Strategy and Accountability Committee Meeting
- April 3, 2025 - School Board Meeting Update

Communicate and Stay Informed
