## YOUTUBE CONSENT FORM

**Dear Parent/Guardian,**

At New Jerusalem Elementary School District, we are always striving to enhance our students' learning opportunities. As part of our ongoing efforts, we would like to provide students with access to YouTube for educational purposes. However, Google requires us to obtain parental consent before allowing access to this platform on district-provided devices.

### **Why YouTube?**

YouTube offers a vast array of educational content, making it a powerful tool for both in-class instruction and Distance Learning. As a free platform, it allows users to upload and share videos globally, but this also means that some videos may not be appropriate for all audiences. To mitigate this, the District will implement a robust content filtering system to ensure that students only access videos that have been approved by their teachers. While the filtering system uses advanced algorithms to block inappropriate content, there may be instances where some content bypasses these filters.

### **Additional Information:**

For more details on G Suite for Education and its available services, please visit [Google's G Suite Privacy Information](#).

### **How to Provide Consent:**

To grant permission for your child to access YouTube on district-provided devices for educational purposes, please review the privacy information provided, then sign and return the consent form below.
