Questions

- Can PIE develop a calendar of the PIE fundraising events and LPS fundraising goals to stop competing with each other? This time of year we're asking families for a lot- fundraiser tickets, baskets, raffle items, teacher appreciation, swag sale.
 - The spring swag sale is a direct request from families who want affordable swag options. A portion of the sales will benefit LPS, but it is a no-pressure option vs a fundraiser.
 - Hoping to clarify the PIE Executive Committee's role and purpose of fundraising. Hoping to discuss this spring to develop the best path forward.
 - Suggestion- review what has been done over the past few years and the success.
 - PIE funding for speakers have been last-minute opportunities that were not included in the budget for the school year.
 - Could we add funding for an author as an option to the paddle raise? Families want to pay for specific asks vs raising money for general funding. It's important to identify what the students need so parents see their support in real time

- Can parents volunteer for Field Day? All other schools invite parents to volunteer, hand out snacks, waters and cheer on students. Has not been done in the past.

- Teacher Appreciation communications were sent out school-wide and by grade-level parents. Last year PIE asked for funds for the main meal and then accepted donations of supplemental items such as soda, desserts
