San Bernardino County Superintendent of Schools

Integrated Learning for All: Math, English and Science Strategies for Diverse Learners (K-6)

This professional learning series equips elementary educators with practical strategies to seamlessly integrate math, English, and science into their daily instruction while addressing the unique needs of multilingual learners and students with learning disabilities. Participants will explore interdisciplinary approaches that foster engagement, critical thinking and collaboration. Through hands-on activities, lesson planning and real-world examples, educators will learn how to create inclusive learning environments that build on students' strengths, promote language development and support diverse learners in mastering key concepts across subjects. Join us to transform your teaching practices and bring meaningful, integrated learning into your classroom.

Audience
K-6 Mathematics Educators, Teachers on assignment, and Administrators

No Fee
Participants will receive training materials, lunch and a light breakfast.
