

BUSINESS & MANAGEMENT

Business Entrepreneurship & Management Finance - Supply Chain Management

The **Business Entrepreneurship & Management (BE&M) Program** prepares students for employment, entrepreneurial endeavors, and advanced studies in business management at two and four-year colleges and universities.

Students obtain business fundamentals: economics, ethics, sustainability, business formation, entrepreneurship, production, operations, human resources, leadership, marketing, accounting, and finance.

Finance Program
Students will learn standard business practices and financial planning that will prepare them for the modern workforce.

This program will provide the students with basic accounting principles.

In the **Supply Chain Management Program** students will learn to coordinate enterprise-level logistics and supply chain management from a product's point of origin to its point of consumption.

Software will be utilized to plan supply chain and distribution chain networks.
