

HUMAN SERVICES

Cosmetology - Culinary Arts - Health Occupations - Law & Public Safety

The **Cosmetology Program** is designed to prepare students for the New Jersey State Cosmetology Examination.

The 4 year program focuses on hairstyling, haircutting, chemical hair services, natural and artificial nail services, skin care and makeup, barbering and salon management.

During the advanced years of Cosmetology students participate in performing various services in our school's salon, giving them hands-on experience.

Culinary Arts students practice their skills as they prepare daily meals for the faculty and staff, as well as for special banquets and catered affairs held at the school. Highlights of this program are baking, food preparation, purchasing, serving, and Dining Room Management.

Health Occupations students gain first-hand knowledge observing as well as providing hands-on care at healthcare facilities. Students learn practical health assisting skills such as vital signs, use of medical equipment, first aid and CPR.

Students can earn six college credits through the Rutgers-Health Science Career Program and also a Nursing Assistant License.

The **Law & Public Safety Program** has been developed in partnership with the Somerset County Sheriff's Office. Students learn emergency first aid care, understand the criminal justice system, enhance their teamwork skills, build their physical fitness, and learn basic police procedures. The program also meets a student's physical education (gym) requirements for high school education.
