### ***Kindergarten Camp: Course Description***

**Location:** Eagle Bluff, Irving Pertzsch, and Northern Hills

**Time:** 8:20-11:35 a.m.

This course combines the 4K curriculum with an introduction to our Kindergarten curriculum. Your child will spend the morning at the neighborhood school they will be attending in the fall. They will have experiences in Music & Movement, Art, Literacy, and Math, all while meeting new friends. A morning snack will be provided through the Onalaska School Nutrition Department as Sponsor for the USDA Summer Meals Program. This course is designed for incoming Kindergartners.

### ***Grades 7 & 8 Project-Based Academics: Course Description***

**Location:** Onalaska Middle School

**Time:** 8:20-11:35 a.m.

We are excited to once again offer this academic course for our students entering grades 7 and 8. This academic course will provide hands-on learning experiences that are focused on real-world applications. For this summer's opportunity, students will be focused on planning a trip! They will engage in a variety of activities involving researching a new location, designing a trip itinerary, cost analysis, travel, and much more! We will end the course with an exciting trip around the La Crosse area to view the "tourist" sites!

# July Enrichment Courses For Students Entering Grades 1

*Classes held at Northern Hills Elementary*

**Dates: July 7 - 24 - No Fridays**

**Enrichment Section 1: 12:20 – 1:20 p.m. and Enrichment Section 2: 1:25 - 2:25 p.m.**

## **GRADE 1 ONLY - COURSE ROTATIONS**

Create it with Legos
Creative Recycled Crafts
Fun in the Sun
Games with Friends
Storybook STEAM (Science Experiments)
Summer Adventures

### **Enrichment Course Descriptions For Students Entering Grade 1**

- All students entering grade 1 will receive one week of each of the classes listed below.
- Rotation schedule will be created by the Summer School Coordinator and emailed to families before the July Summer School Session.

#### ***Create-It with LEGOs***

Come explore the world of LEGO! Look at the history of LEGOs and build many different things. We will read LEGO books, color LEGO sheets, write about LEGO creations, daily LEGO challenges, and of course make your own wonderful and imaginative creations

#### ***Creative Recycled Crafts***

Reduce, reuse, recycle! This course will teach children about the importance of the 3 R's in a creative and hands-on way. Students will learn how to reuse household items such as cereal boxes, bottle or milk caps, an old shoe box, and an empty milk carton to create new and exciting crafts.

#### ***Fun in the Sun***

This class will keep students outside and active this summer. Participants will learn some camping games, outdoor sports, and how to fly a kite! Activities will be modified for indoor play if the weather doesn't cooperate.

#### ***Games with Friends***

Students will learn strategic and social skills as we play games such as Monopoly Junior, Sequence, and more! Experience an afternoon of fun with friends and master some games you'll be able to play at home with your family!

#### ***Storybook STEAM***

Boom Chicka Boom, can you build a tree that holds the whole alphabet? There's nothing better than a good science experiment...except when you add it to your favorite book! Come explore the world of STEAM (science, technology, engineering, art and math) by building and creating straight out of your very favorite picture book! Will the big bad wolf be able to blow your house down? Or will you find the perfect design to hold up to his horrible bad breath! Come fall in love with the world of science as told by your favorite book characters.

#### ***Summer Adventures***

Experience an adventure every day! Students will explore a different informational theme each day through Art, PE, Music and Literature.

# July Enrichment Courses For Students Entering Grades 2

*Classes held at Northern Hills Elementary*

#### ***Exploring Science***

Students will be able to try out various fun and exciting science experiments using common household materials. Students will learn to apply the scientific method to these experiments, while setting up and planning experiments together.

#### ***Kid Friendly Snacks***

Kid-friendly, healthy, and easy cooking options! We will explore measurement, food safety, and creative menu ideas. We will create a variety of recipes, including snack options, main dishes, and sweet treats. Students will create, cook, and sample their creations. *If your child has a food allergy, please email [mcmke2@onalaskaschools.com](mailto:mcmke2@onalaskaschools.com) to let us know so we can plan accordingly.*

#### ***Lego Creations***

Come explore the world of LEGO! Look at the history of LEGOs and build many different things. We will read LEGO books, color LEGO sheets, write about LEGO creations, daily LEGO challenges, and of course make your own wonderful and imaginative creations!

#### ***Miniature Gardening***

In this course, each student will plan and create their own miniature garden. Students will be involved in planting and making accessories to go with the theme of their garden.

#### ***Yard Games (Ladder Golf & Bean Bags)***

During Yard Games, students will practice their tossing skills, along with learning the rules of the games. Students will participate in real game experiences with a focus on sportsmanship and team play. This is a great way to learn some fun outdoor games and have a positive experience with fellow classmates.
